CHRISTOPHER NEWPORT COLLEGE

NEWS & GENERAL INFORMATION

IBM Copier - Duplicating Office

We are getting numerous complaints about the takeover of the IBM copier for extended copying use by some members of our College community.

The IBM is a high volume copier but it was not intended for nor will it sustain its reliability as a press substitute. Please limit your copies to 25 per original. Any quantity exceeding the 25 copy limit should be printed on the offset press. The press is giving a two-day completion time which should be adequate for normal planning.

Your cooperation will be greatly appreciated by all and especially by those who wait patiently to make one copy while someone is copying a book.

Medieval-Renaissance Week

Plans are under way to hold another Medieval-Renaissance Week extravaganza such as the ones that have been so successful in past years. A few of you have already been asked to help in the planning and coordination. Would you, and any other people interested in helping, please attend a brief meeting in my office, N-217, at 11 a.m. on Thursday, Feb. 19. And if anyone has any ideas or can make a contribution of some artifact or talent, please contact me.

Subject: Search Committee Appointment

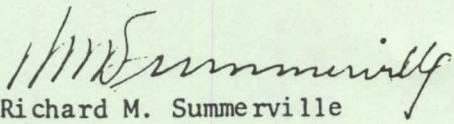

I appreciate very much the willingness that each of you has expressed to serve on the Search Committee for the position of Dean of the School of Business and Economics. Please consider this memorandum to be your official notice of appointment to membership on this committee.

The Committee's charge, simply put, is to recommend for the consideration of this office the names of no fewer than three candidates for the position in question, and to conduct, in coordination with this office, the nation-wide searching and screening processes appropriate to this end.

Professor Hunter will serve as the committee chairman. Inasmuch as our target is to have the new dean on board by July 1, 1985, it is important that our work begin as soon as possible. I have therefore asked Professor Hunter to convene the committee at an early date so that I might give it its charge in somewhat more detail and so that it might quickly get on with the important job that lies ahead.

It is not an overstatement to say that the work of this committee has the potential for broader impact on our College and the community it serves than any other academic activity this year, and the diversity of the Committee's membership therefore reflects this potential. I am confident that your labors will produce results of a quality commensurate

with the importance of the task at hand, and I look forward to working with you in common cause in this effort in the weeks ahead.
