## DEAN'S ANNOUNCEMENTS

### Interdisciplinary Studies

An ad hoc committee for Interdisciplinary Studies met last week and recommended the formation of a standing committee which would be available as needed to formulate policies relevant to this program and possibly in the future approve all student proposals leading to the degree of Bachelor of Arts or Bachelor of Science in Interdisciplinary Studies. Faculty members who would be interested in serving on this committee are asked to leave their names with Mrs. Casey in the Dean's office. Until we have a better understanding of what kind of study projects students will propose and the number of students who plan to enroll in this program, the Interdisciplinary Studies Program will be administered according to the guidelines published below.

### The CNC Bachelors Degree in Interdisciplinary Studies

WHAT IS AN INTERDISCIPLINARY MAJOR? The Interdisciplinary Major is a new degree program at Christopher Newport College which permits a student, under the guidance of a faculty committee, to design and carry out an individual plan of study involving two or more academic disciplines. Before applying to the program, the student must make certain that his educational goals cannot be achieved by a regular departmental major supported by a minor and/or careful selection of electives.

WHAT ARE THE REQUIREMENTS OF THE PROGRAM? Each student in the interdisciplinary major must formulate his own learning objectives and a plan for implementing these objectives in consultation with an appointed committee of three or four faculty members who represent the primary disciplines of the student's plan of study. The specific courses in the student's program must be approved by his faculty committee prior to the completion of seventy-five semester hours of course work. The program must meet college distribution requirements, must give evidence of the student's ability in the methods of disciplined academic inquiry, and must include a minimum of thirty credits in 300- and 400-level courses in the traditional academic disciplines.

HOW DOES A STUDENT APPLY FOR ADMISSION TO THE PROGRAM? The student must first complete an application form which calls for a brief description of his proposed plan of study, a rationale for the plan, and an identification of those disciplines which will be involved in the student's plan of study. Application forms are available in the Office of the Dean of Academic Affairs. Applications must be submitted to the Dean by November 1 during the Fall semester or March 15 during the Spring semester. It is advisable for a student to discuss his plan of study with the Dean before submitting his application.

WHAT HAPPENS THEN? The Dean or his designate will review the student's application and if he judges the student's proposal as viable, he will appoint a faculty committee which represents the primary disciplines involved in the student's plan of study (i.e., the department chairperson or his designate). The Dean will also identify one of the members of this committee as the student's major adviser. If the Dean is unable to approve the student's proposed plan of study, a faculty committee will not be appointed and the student will be notified of the reason for the Dean's decision.

WHAT IS THE PURPOSE OF THE FACULTY COMMITTEE? The faculty committee will initially meet with the student to discuss his proposed plan of study and then continue to assist the student, either collectively or on an individual basis, in formulating the details of the student's plan of study. This will include the individual courses that the student must take to meet all requirements for

the Bachelor of Arts or Bachelor of Science Degree. All members of the committee must approve the student's program or any subsequent changes in an already approved program. Members of the committee as individuals will advise the student throughout his program of study with regard to those academic disciplines in which the committee member has expertise. The student's major adviser will oversee the total work of the student and confirm, prior to graduation, that the student has completed all necessary requirements.

WHY MUST A STUDENT APPLY TO THE PROGRAM PRIOR TO THE COMPLETION OF SEVENTY-FIVE SEMESTER HOURS? An important purpose of the interdisciplinary major is to involve the student in formulating a rationale for and the design of a coherent individual program of study. This is a difficult task and requires a certain amount of knowledge and direction. The student will have to give considerable thought to his long-range learning objectives and how those objectives are best met. Although a student may enter the program early in his college career, it is advisable to first complete thirty or more semester hours of study. If the student enters the program too early, he may not have the knowledge or understanding that is required to design an acceptable program of study. If a student were to enter the program without at least forty-eight semester hours of course work remaining, he would not be in a position to design a sufficiently complete program of study to meet his pre-determined learning objectives, and the interdisciplinary major requires that pre-determined learning objectives be met.

\* \* \* \* \*

#### The First Commencement of the Eastern Virginia Medical School

The first commencement exercises of the Eastern Virginia Medical School will take place on Friday, September 24, at 2:30 P.M., in Chrysler Hall, Norfolk, Virginia. To mark this occasion Dr. George Wald, novel laureate and distinguished Professor of Biology, Howard University, will deliver the commencement address. To celebrate this historic occasion, the Medical School is sponsoring a day long seminar on Thursday, September 23, on "Medicine and Society." The topic of the Seminar will be the intertwining of medical education, health care, and community development. The guest speakers for the seminar will include Dr. William Cochrane, President, University of Calgary; Dr. Lloyd Elam, President, Meharry Medical College; Dr. Robert Evans, President and Chief Executive Officer, Cooper Medical Center; Dr. Regina R. Hertzlinger, Associate Professor, Harvard School of Business; Dr. John Sherman, Associate Director, Association of American Medical Colleges; and Dr. Vernon Wilson, Vice President of Health Fares, Vanderbilt University.

On behalf of the Eastern Virginia Medical School I would like to extend an invitation to Christopher Newport College faculty members to attend these two important events. Faculty members who plan to attend either event should leave their name with Mrs. Casey in the Dean's Office.

\* \* \* \* \*

#### Happy Hour

We really ought to reinstitute our Happy Hour activities. Faculty members who may wish to serve on the Happy Hour Committee should leave their name with Mrs. Casey in the Dean's Office.

\* \* \* \* \*

## September Faculty Meeting

The September Faculty meeting will be held on Friday, September 10, in N125 at 3:00 P.M. The Agenda for the meeting is as follows:

- I. Approval of the Minutes of the May Faculty Meeting and the Special Faculty Meeting of May 14.
- II. Institutional Criteria for Tenure and Promotion--President Windsor and Dean Edwards.
- III. Election of Faculty Members to the Curriculum Committee, the Faculty Evaluation Committee, and the Nominations Committee (to be done currently with the following business).
- IV. Committee Reports:
  - A. Academic Status Committee--Dr. Booker
  - B. Admissions Committee--Mr. Guthrie
  - C. Curriculum Committee--
  - D. Degrees Committee--Dr. Jones
  - E. Faculty Advisory Committee--Dr. Daly
  - F. Faculty Evaluation Committee--Dr. Sacks
  - G. Nominations Committee--Dr. Knorr
  - H. Ad Hoc Committee on Promotion Criteria--Dr. Wildblood
  - I. Other Committee Reports, if any.
- V. Old Business, if any.
- VI. New Business:
  - A. Resolutions concerning Graduation
  - B. Other new business, if any.
- VII. Adjourn.

---

## FACULTY NEWS

There are a number of reasons for celebrations in the Basic Studies Department. RULLA KOSTAKI became a United States Citizen on Wednesday, September 1, and ALICE RANDALL, believe it or not, became a grandmother for the second time when Misha Erin was born on August 29. JOHN HARWOOD just published another article in the Journal of General Education, "Tentmakers, Professors, and Alternative Futures." Congratulations to Rulla, Alice, and John!

\* \* \* \* \*

Congratulations are also in order to DAVE DOOLEY who completed his doctorate in Counseling from the College of William and Mary this summer.

\* \* \* \* \*

AL MILLAR presented several book reviews on local television stations over the summer particularly on WVEC (Channel 13) and WAVY (Channel 10). Also, he discussed the writings of Alexander Solzhenitsyn on WRVA's "Open for Opinion" program in Richmond on July 16.

\* \* \* \* \*

MARVIN BROWN was one of six educators invited to participate in a distributive education workshop this summer at the University of Northern Iowa in Cedar Falls, Iowa. Once again, Marvin's contributions brought national notoriety to CNC.

\* \* \* \* \*

It may not be generally known that DENTON BEAL is a member of the Board of Governors for the Chronicle of Higher Education, a truly distinguished national weekly newspaper serving our profession. Denton's work in this capacity has recently put the name of Christopher Newport College on the masthead of the Chronicle.

\* \* \* \* \*

TEDDY BOSTICK spent the summer in Europe, at first Eurailing around the Continent, happily absorbing medieval and Renaissance art and culture. Then she settled down in London to do research on a monograph dealing with English foreign policy during the reign of Henry VIII. Doing research at the British Library, the Public Record Office, and the Institute of Historical Research alternated with worrying about the drought and venturing into delightful English villages to do some brass rubbing.

\* \* \* \* \*

Rulla Kostaki was not the only member of the College Community to become a United States citizen on September 1. Dr. and Mrs. Chung-Wu Chang and Mrs. Walter Knorr were also aboard the Guam for the citizenship ceremonies. We all share the happiness of these members of the CNC family on this important occasion.

---

## LIBRARY NEWS . . .

### Evening Media Center Hours

For your convenience the Smith Library's media center will now be open Monday and Wednesday evenings until 10 p. m. for study and the use of the center's educational materials. Faculty requests for loan of the center's audio-visual equipment, however, cannot be taken during the evening; please make arrangements with Linda Becker during the day, either in the center or at 599-7136.

## GRANTS & FELLOWSHIPS

Some deadlines for applications and/or proposals for financial assistance for research, fellowships, instructional aids, etc. Further information available in Development Office, Room 160, Administration Building:

September	10	NSF: Undergraduate research participation
	30	American Council of Learned Societies fellowship competition (for younger scholars)
October	1	Rockefeller Foundation humanities fellowships (Preliminary proposals)
	15	National Endowment for the Arts: Visiting artists fellowships
		NSF: Local Course Improvement Projects (formerly restructuring undergraduate learning environment)
	18	National Endowment for Humanities: summer fellowships in residence for teachers
	29	NSF: Comprehensive assistance to undergraduate science education
	31	NACUBO/Exxon administrative leave program
November	1	Fulbright-Hayes training grants: faculty research abroad; doctoral dissertation research abroad; group projects abroad; foreign curriculum consultants
		Office of Education, Teacher Exchange: teach abroad 1977-78; seminar abroad summer 1977 (both the above for instructors and assistant professors)
	5	NSF: Student-originated science studies programs
	12	NEA: Work experience internships
	22	NSF: NATO postdoctoral fellowships
	29	NSF: graduate fellowships
December 1/March 1		Virginia Foundation for the Humanities & Public programs on public policy issues for adult community audiences
December	1	NSF: senior fellowships
		NSF: 3-year graduate fellowships
	3	NSF: RANN postdoctoral fellowships
	15	NSF: Scientists and engineers in economic development (foreign aid) (five years postdoc experience pre-requisite)
February	1	NSF: Science faculty fellowships
	4	NSF: Undergraduate instructional scientific equipment grants (postponed deadline)
	15	NEA: fellowships for creative writers (last day for application)

FIPSE guidelines have not yet been published.

## NOTICES

In the interest of doing several things at once, the Public Information Office will soon be distributing new biographical information forms for you to fill out.

The completed forms will, first of all, give this office the necessary information to feed the papers when you're involved in newsworthy activities. (By the way, no story about a faculty member will be submitted for publication from this office until he or she has approved the content.)

Second, these forms will serve as the basis for up-dating and improving our speakers bureau. There will be appropriate spaces for you to list the topics about which you would like to speak to various groups in the area. The listing of a subject in no way obligates you to speak at any particular place or time, of course, but we need to provide interested organizations with a list of speakers and topics for their use.

Third, newspapers and news departments of TV and radio stations often find very useful a list of contacts on various subjects to which they can refer for in-depth information in a news story. In a story on the impact of an oil refinery in this area, for example, a reporter might find it useful to call an economics professor, or, in a kepone story, a biology or chemistry teacher might provide helpful background information.

In some cases, these contacts result in on-air interviews or direct quotes in a newspaper article. Often, however, contacts simply serve as sources, much like a library of experts, for newsmen to consult.

The benefits to the CNC faculty and to the College can be significant when newspeople become aware that there is a bank of knowledgeable sources here for their use. That kind of dependability for reliable material helps build a solid reputation for the faculty here at CNC which should eventually be translated into more and more frequent calls (from them, on their own initiative) for interviews and news material.

We would, therefore, like to provide area news and talk-show people with a complete, up-dated list of subjects that you would feel qualified and comfortable talking about. These can be items directly related to your academic discipline, but they don't have to be. If you would be willing to comment to newsmen about subjects for which you have a special expertise or interest, or to appear on a radio or TV talk show, this will be the place to indicate it. Some of your areas of interest may apply to both the news-source and talk-show categories. The difference is basically that, as a news source, you would most likely not appear on the air (or be quoted), but would provide your knowledge as background to "educate" the newsmen on a given subject. Subjects listed as news-source items should be related, as nearly as possible, to timely subjects likely to come up in the news. Talk-show items can be much more general.

We would also like to update our file of faculty pictures, so that we can provide them to the newspapers with appropriate stories. In the future, we will be asking you for appointments (probably right in your offices) to coincide with your office hours or another time convenient to you. A student photographer will take the pictures, and the whole thing shouldn't take longer than 10 minutes per person.

Kathy Mazzarella

Members of the Faculty may be interested in the following information concerning a Learning Disabilities Seminar.

**CO-SPONSORS:**

Riverside Hospital  
Community Mental Health Center

Peninsula Chapter  
Virginia Association for Children with Learning  
Disabilities

#### Faculty and Staff

The 1975-76 CNC Financial Report has been completed and copies are available in the Business Manager's office for those persons who may wish to have a copy.

Business Manager

\* \* \* \* \*

The tutoring services previously supported by the Counseling Center have been suspended due to the uncertainty of fundings. When the financial situation is clarified, an announcement will be made concerning the resumption of tutoring. The Counseling Center will continue to act as a clearinghouse for providing students in need of tutoring with the names of other students who are considered qualified. Students desiring tutoring will be responsible for working out the financial arrangements.

Department chairpersons are requested to send the Counseling Center a list of qualified tutors as early in the semester as possible.

Dr. Babcock

(June 30, 1979)

## COMMITTEE REPORTS

### Resolutions Concerning Graduation

I would like to propose a number of motions concerning graduations at the September meeting of the Faculty. It is not clear to me whether the Faculty has any power to act on graduations, so that the motions are expressed as the will of the Faculty. These motions are:

(1) It is the will of the Faculty that no graduation may occur within three days of the last day of examinations.

(2) It is the will of the Faculty that the graduation of December 19, 1976, be delayed until at least December 22, 1976.

(3) It is the will of the Faculty that the only graduation ceremony shall occur at the main graduation in the spring of each academic year, starting with the spring of 1977.

(4) It is the will of the Faculty that degrees be conferred (though not in a formal graduation ceremony) at the end of every fall semester and the end of every summer session starting with the summer session of 1977.

In accordance with the guidelines for Faculty decision-making (Chronicle, February 28, 1975), the following is provided.

1. One week's notice is given.

2. Arguments for the changes: In favor of (1) and (2). The calendar has fall graduation occurring the day after the last day of examinations and only six days after the start of examinations. This does not allow sufficient time for instructors to grade exams and the Registrar to process grades. It also penalizes both the instructors and the students where take-home examinations are part of the final examination, since insufficient time is given for the student to complete the exam and the instructor to grade it when such exams are made due at the end of the examination period. There are two essential parts to our job. We indicate to students what it is we expect them to learn (and facilitate such learning to the best of our abilities) and then we formally and professionally certify our opinion of how well the students mastered the material they were to learn. To have graduation so close to the examination period makes it difficult for us to do a professional job in our evaluations of our students and is another example of administrative lack of respect for our professional obligations. Moreover, it is not fair to expect such Herculean service from the staff of the Registrar's Office as a matter of course.

In favor of (3) and (4). Extra graduation ceremonies cost money - and we have no travel money right now. Participation in extra graduation ceremonies is one of our duties, yet this summer only seven faculty members not needed attended the ceremony; and none of them were employed (hence paid) by the College at that time. I have never heard of any other college which has as many ceremonies as us. Neither of the two universities I was associated with before CNC had extra graduation ceremonies, and their combined enrollments were over 40,000. Spreading out our graduates makes our main graduation less important in the College and Peninsula community. Etc.

Arguments against the changes: Against (2). It is an accident of the calendar that the ceremony was selected at that time. Other Sundays come too close to Christmas or New Year's Day. Against (3). Many (how many is not clear) of

our students leave the area after finishing course work and do not have the opportunity to receive their hard-earned degrees in a ceremony. Parents and families should have the chance to see earned degrees presented to graduates. Against (1). I could find no serious argument against this motion. Against (4). I could find no argument against (4) that was not also an argument against (3).

3. As far as I know, no official documents of the College are affected.

4. Consequences of these motions. Some travel plans may have to be changed if (1) and (2) are passed and approved by the President. I refer to the graduates and their extended families. A new graduation date may have to be found, but there should be no problem in securing the gymnasium for the ceremony. We may finally get sufficient media attention for graduation if (3) is adopted. If the changes are not made, I foresee insufficient time for our work in grading occurring over and over again in the future.

5. These changes are in accord with some of the goals of the College (serving our students professionally) but not others (granting student wishes in events important to the students).

Bob Collins

\* \* \* \*

#### Faculty Advisory Committee

Subsequent to Commencement in May, 1976, the FAC has been involved in the following activities:

##### May 20

Dr. E. Jones and Dr. S. Wise representing the Degrees Committee presented student petitions with recommendations to the FAC. After consideration of the petitions and recommendations, the FAC unanimously voted to accept the recommendations of the Degrees Committee. These petitions are in the FAC files and may be reviewed by any faculty member.

Applications for Faculty Development Grants were considered in light of the current guidelines and written recommendations were submitted to Dean Musial on May 21.

##### June 11

A meeting of the Committee for Health Professions, Dean Musial, Dean Edwards, Dr. Markusen, and the FAC was held on this date. Dr. Markusen, Coordinator for Health Professions briefed the FAC concerning the involvement of CNC in the Tidewater Health Education Study Committee. These data have since been disseminated to the Faculty.

At Dean Musial's request, the FAC made recommendations concerning the administrative organization for future efforts in the health professions area. The FAC made the following recommendations:

At this time no other committee or organizational framework should be established to coordinate or administer the efforts of CNC in the

overall health professions area.

The presently constituted Committee for Health Professions should continue to function and Dr. Markusen should continue as Coordinator of Health Professions.

The Committee and Dr. Markusen should coordinate efforts through the established organizational units of the divisions, academic departments, and faculty committees.

#### August 6

Dr. Bankes represented the FAC at the meeting to consider the August list of graduates and several student petitions which needed to be considered immediately prior to Commencement.

#### August 26

Reports submitted to the Dean of Academic Affairs and the FAC from faculty members who received faculty development grants in 1975-76 were reviewed.

Nominations were made to fill the vacancy on the Nominations Committee left by Dr. S. Lopater who accepted a one-year teaching exchange post in England. Dr. Bob Durel and Dr. JoAnne Squires accepted the nomination.

#### September 7

The major item on the agenda is the identification and analysis of significant issues affecting state policy decisions and allocation of state resources. A summary of this discussion will be forwarded to President Windsor as requested in the memorandum dated 8/24/76.

Elizabeth A. Daly, Chairman, FAC

\* \* \* \* \*

#### Nominations Committee

Because of resignations and periods of leave, there are vacancies on four elected committees which must be filled by faculty election at the September 10 meeting. The Nominations Committee presents each committee's present composition and nominations for the vacancies:

<u>Faculty Evaluation:</u>		<u>Present Membership:</u>			
<u>Name</u>	<u>Year elected</u>	<u>Term ends</u>	<u>Department</u>	<u>Division</u>	<u>Rank</u>
Boyd	1975	1978	MM&R	B&E	Assoc.
Cones	1976	1979	Biol.	N&O	Asst.
Herwood	1975	1978	Basic St.	E&C	Asst.
Miller	1974	1977	Eng.	A&L	Prof.
Sacks	1974	1977	Chem.	N&O	Prof.

To fulfill By-Laws requirements, the new member must be an Associate Professor from S&B. Nominations:

P. Killam  
J. Moore.

<u>Admissions:</u>		<u>Present Membership:</u>				
<u>Name</u>	<u>Year elected</u>	<u>Term ends</u>	<u>Department</u>	<u>Division</u>	<u>Rank</u>	
Brown	1974	1978	MM&R	B&E	Asst.	
Collins	1976	1978	Math	N&O	Asst.	
Colonna	1976	1978	Econ.	B&E	Asst.	
Guthrie	1974	1978	Mod.Lang.	A&L	Asst.	
Kostaki	1976	1978	Basic St.	E&C	Asst.	
McLoughland (ex officio)						

To fulfill By-Laws requirements, the new member must be from  
S&B. Nominations:

H. Williams  
L. Doerries  
L. Pellett.

<u>Curriculum:</u>		<u>Present Membership:</u>				
<u>Name</u>	<u>Year elected</u>	<u>Term ends</u>	<u>Department</u>	<u>Division</u>	<u>Rank</u>	
Healey	1975	1977	Soc.	S&B	Asst.	
Hoaglund	1976	1978	Phil.	A&L	Asst.	
Hubbard, J.	1975	1977	P.E.	F&C	Asst.	
Musial (ex offic.)						
Pugh	1975	1977	Biol.	N&O	Prof.	
Reppen	1976	1978	Mod.Lang.	A&L	Assoc.	
Saunders	1976	1978	Hist..	A&L	Assoc.	

To fulfill By-Laws requirements, the new member must be from  
B&E. Nominations:

G. Vazzana  
J. Ferry

<u>Nominations:</u>		<u>Present Membership</u>				
<u>Name</u>	<u>Year elected</u>	<u>Term ends</u>	<u>Department</u>	<u>Division</u>	<u>Rank</u>	
Chambers	1976	1978	Eng.	A&L	Assoc.	
Knorr	1976	1978	Mod.Lang.	A&L	Asst.	
Musial (ex officio)						
Olson	1976	1978	Biol.	N&O	Assoc.	
Rendall	1975	1977	Basic St.	E&C	Asst.	
Riley	1975	1977	Acc.& Fin.	B&E	Assoc.	

To fulfill By-Laws requirements, the new member must be from S&B.  
The Faculty Advisory Committee nominates:

R. Durel  
J. Squires.
