## SA candidates running hard for elections next week

by Darlene Willett

Candidates for the Spring 1980 Student Association Elections on April 14 and 15 are busy this week campaigning.

Candidates for the office of SA President are Lisa Cipriano and Richard (Rick) Reams. Cipriano has been a Divisional President for the Division of Natural and Quantitative Sciences and Co-Chairman of the CNC Student Fund Drive. She is the current SA Vice President and serves on the Student Liaison Committee to the Board of Visitors, the Dean's Search Committee (School of Arts, Sciences, and Education), the Faculty Senate as student representative, the Academic Hearing Board, and the Uniform Faculty Evaluation Committee. Cipriano has had three years of active involvement with the SA. She has vowed to continue to serve the students as she has in the past. Cipriano is a junior majoring in political science.

Presidential candidate Rick Reams is a business administration major concentrating in management. Former president of the Over-the-Hill Gang, he is presently the club's business manager. He was co-chairman of last year's OTHG Gong Show which raised money for the CNC Student Fund Drive. An active participant in the Student Senate last year, he has proven his organizational skills through his work on such projects as last year's Interclub Council Pep Rally/Bonfire, Alpha Kappa Psi's 1980 Homecoming Dance, and Graduation Receptions for both 1978 and 1979. Reams has attended CNC as both a day and an evening student, which he feels offers him a broad view of student perspectives and concerns. Although most of Reams' student involvement has been on socially oriented committee projects, this work has familiarized him with both the faculty and the administration.

## Vets may get raise in monthly benefits

The Carter Administration earlier this year asked for a ten percent cost-of-living increase in G.I. Bill benefits for Vietnam-era veterans pursuing education or training programs. The Senate, at about the same time, approved a 15 percent increase in the G.I. Bill. This would raise the monthly education allowance for a single veteran (full time) from \$311 to \$358, and from \$422 to \$486 for a married veteran with one child. Should the Senate's proposal be signed into law, some 634,000 veterans would receive increases totaling \$376 million in Fiscal Year 1981.

The same legislation provides for an extension of veterans' delimiting date, through December 1982. This extension would apply only for high school, vocational, and on-the-job training, and is limited to veterans who have not completed high school.

Candidates for the office of Attorney General are Jamie Powell and Ignacio (Iggy) Novo. Jamie Powell is a member and secretary of the Student Activities Committee and was appointed Divisional President of Natural and Quantitative Sciences. Powell has worked in the student and "professional" segments of the CNC Fund Drive this year. He is the student representative to the Political Science Department faculty meetings and writes the "Executive Council" column for the *Captain's Log*. Powell has been the chairman of several major SA committees, including those dealing with registration procedures and the Captain John Smith Library Development Project.

Ignacio (Iggy) Novo has been active in the reorganization of the Over-the-Hill Gang and has been working on such OTHG projects as new member recruitment. He was co-chairman of the OTHG Hot Dog Fiesta and is a feature writer for the *Captain's Log*. Novo works in the CNC Business Office. Although he has had little involvement with the Student Association, he says he is a very hard worker and feels that he could meet the demands of the job if given the chance. A freshman accounting major, Novo has a 3.3 overall GPA.

Candidates for Vice President are Louis Liakos and James (Jim) White. White is Attorney General of the Over-the-Hill Gang, Vice President of the 1980 Alpha Kappa Psi pledge class, and the project coordinator for the Alpha Kappa Psi Save the Bay Foundation Project. In the past, he has worked with both the History and the Spanish Clubs. Although he has held no SA office, he has closely followed the development of current issues affecting the student body. A junior, he maintains a 3.85 GPA despite his many extracurricular activities.

Louis Liakos is the Divisional President of Business and Economics and the 1980 Pledge Class President of Kappa Nu. He was the Alpha Kappa Psi Assistant Treasurer and has been actively involved in a campus improvement projects involving the planting of trees, plants, etc. Liakos supports Dr. St. Elmo Nauman and was instrumental in initiating the circulation of petitions on his behalf. He stresses the fact that he will work very hard if elected Vice President. He has been involved with the SA and is familiar with current issues and student concerns.

Candidates for the Divisional President offices are Michael Halabuk (Social Behavioral Sciences), Stephanie Mosca (Arts and Letters), Mary Pimblett (Natural and Quantitative Sciences), and Darlene Willett (Business and Economics). All of these candidates are running unopposed, and two of the Divisional President positions—Unclassified and Education and Communications—have no candidates running.

Pi Kappa Sigma out-yelled everyone at the basketball game between the Lady Captains and the men's faculty team. See the full story on p. 5.

## Spring Fest is here again

by Ana Kimball

Now that Spring Break is just a memory and warmer weather has caused spring fever to reach epidemic proportions on campus, CNC students have yet another "break" in the semester to anticipate. From April 14 through 19, CNC will be celebrating Spring Fest, a week of fun and games, picnics, music, and dancing.

## Senate officers attend VASA meet

by Darlene R. Willett

Student Senate President Frank Wilson and Secretary Darlene R. Willett recently attended a meeting of the Virginia Association of Higher Education (VASA) at the University of Virginia in Charlottesville.

VASA is a state-wide group of student associations that is open to each of the 14 four-year state supported colleges and universities in Virginia. VASA President Debbie Cashwell, of U.Va., defined the goals of VASA in terms of the advantages of "banding together to reach a common goal." An excellent example of one such goal is the passing of a bill by the General Assembly which requires that a student be placed on the Board of Visitors at each of the institutions eligible for VASA membership.

A wide variety of topics was discussed at the meeting, including such items as future goals of VASA, student association elections, summer activities, 1981 gubernatorial speaker invitations, legislative support opportunities through VCU, voter registration for the upcoming Presidential race, U.Va. Legislative Committee report on the developments of the "student-on-the-board" bill, and a leadership training workshop. Because of the magnitude of the subjects, it is impossible to elaborate on each of the items separately; however, additional information may be obtained by contacting the Student Association.

On April 14, the S.A. will sponsor an Art Show. On the same day, Pi Kappa Sigma Sorority is sponsoring a "Slave Auction" in the Pub at noon. Arrangements will be made between masters and their respective slaves as to the chores to be done during the week. Bidding will start at \$1.00 for singles, \$2.00 for pairs. That evening, the band Baton Rouge will perform in the cafeteria from 9:00 p.m. until 11:30 p.m.

Kappa Nu Fraternity is sponsoring a picnic lunch Wednesday afternoon. The CAC will present Aquila, with its brand new show, as the evening's entertainment. Kappa Nu also provides the entertainment Thursday evening with Casino Night, where students can try their luck at the tables "gambling" for prizes.

Friday night, April 18, the CAC presents Fat Ammons at a dance in spring ball fashion to be held in the small gym. Semi-formal attire is suggested.

On Saturday, April 19, Pi Kappa Sigma Sorority brings Spring Fest to a close with  
(Continued on p. 8)

## Pledge class holds raffle

by Willette Edwards

The Alpha Kappa Psi pledge class sponsored a raffle March 26 through April 2.

First prize was a ten-speed bicycle won by Peggy Carter. Susan Arnold won the second prize, a dinner for two at the Peddler's Steak House; Stephanie Mosca received the third prize, a dinner for two at Vic Zodda's; and Cindy Warner received a pair of Pro-Keds tennis shoes as fourth prize.

The pledge class earned \$460.00, which will be divided equally between the Fund Drive and the Center for Abused Children.

## Campus Close-Up

### Log Deadline

Information for Campus Close-up must be submitted by 10 a.m. on the Monday preceding the next scheduled issue of the *Captain's Log*. Any notices received after that will be printed only if space and time permit.

### I.D. cards to be made

I.D. cards will be made in the Campus Center at the following times:

Monday, April 14, 6:00-8:00 p.m.; Tuesday, April 15, 6:00-8:00 p.m.; Wednesday, April 16, 12:00-2:00 p.m.; and Friday, April 18, 12:00-2 p.m.

### Games festival planned

Christopher Newport College and the New Games Foundation of San Francisco, California, are holding a New Games Festival on Sunday, April 20, 2:00-4:00 p.m., at CNC's athletic field.

The New Games Festival brings together people in the community for an afternoon of playing both competitive and non-competitive games, as well as variations of both.

Such festivals have been sponsored by hundreds of organizations in the country including the National Recreation and Parks Association, National Park Service, the American Alliance for Health, Physical Education, and Recreation, and the Job Corps/U.S. Department of Labor.

The event at CNC will follow a two-day workshop, for which there is a fee, while the festival itself is free and open to the public.

For additional details, call 599-7257.

### Spring Seminar Series set

The Seventh Annual Spring Seminar Series will be sponsored by the CNC Department of Biology and Environmental Science during the month of April. Topics to be discussed are as follows:

April 11, Enzymatic Breakdown of Cellulose; April 18, Louis Despain Smith, lecture in Microbiology--Use of DNA homology in Bacterial Taxonomy; April 25, topic to be announced.

All lectures will be held at 4 p.m. in Gosnold 145.

### Financial aid checks ready

Attention, Financial Aid recipients: Checks for Spring 1980 are ready to be picked up in the Business Office.

### Teachers' workshop set

The CNC Department of Continuing Studies will present a workshop on "Alternative Careers for Teachers" on Saturday, April 19, 9:00 a.m.-4:00 p.m., in the Campus Center.

The workshop is designed for teachers who wish to make career changes; for those who have been out of the classroom and wish to enter a new career; or for persons with college degrees in general education, liberal arts, or other disciplines. The workshop program will include assessing the job market, relating and applying teachers' experiences and skills to other careers, writing resumes, and studying

practical techniques for being selected for jobs.

The leaders for the session, Dr. Ronald Fairbairn and Mr. Bill Bowman, administrators in the Department of Continuing Education at Columbus College in Georgia, have made career changes themselves and have successfully presented this workshop throughout the United States.

The cost for the workshop is \$35.00. For additional details, call Agnes Braganza, CNC's Director of Special Programs, at 599-7156 or 898-4785.

### Library forgiving

During National Library Week, April 13-19, the Captain John Smith Library will hold an amnesty week. All (almost) will be forgiven. Past offenses will not be cleared and lost book charges cannot be dropped. However, anyone returning overdue library materials during this week will not be fined.

### Actors, actresses needed in Wmburg.

As part of its summer program of the atorial living history, Colonial Williamsburg is in search of persons who are interested in role-playing in its historic area.

Actors and actresses are needed to portray costumed residents of the 18th-century capital in street scenarios and in special evening presentations. Auditions for the summer programs will be held Sunday, April 13, 2-4 p.m. and 7-9 p.m. in the Personnel Training Building adjacent to Colonial Williamsburg's Information Center.

Persons interested in auditioning should prepare two memorized one-minute selections showing a variety of character and mood. Individuals also should be experienced in theatre and acting, with the ability to research and develop period characters.

Characterizations will be basically scripted--drawn from actual residents and occupations that were part of Williamsburg's society 200 years ago--but they also will require capable ad-libbing and extemporaneous dialogue with visitors.

According to artistic director Harvey B. Credle III, cast members will work individually and in groups throughout the museum city for daytime and evening programs. Full-time and part-time roles will be available. The May 12-Sept. 1 season will include research and rehearsals for the first three weeks.

For further information, call (804) 229-1000, ext. 2568.

### Hume to lecture

The Office of Special Programs of the College of William and Mary will present a lecture, "New Discoveries in Old Virginia," by archaeologist, author, and lecturer Ivor Noel Hume on Monday, April 28, at 8 p.m. in Hampton Coliseum.

Free tickets are available by phoning William and Mary's Office of Special Programs in Newport News (877-9231, ext. 200 or 296) by April 21. After April 21, tickets will be available at the Coliseum Box Office.

## Einstein exhibit on display at Nature and Science Center

A major exhibit celebrating the centennial of Albert Einstein will be on display at the Peninsula Nature and Science Center through April 20. The 18 panels of the exhibit will not only explain in layman's terms how Einstein developed his scientific works, but will also show his wide-ranging role in world/culture and his exemplary qualities as a human being. The extent of Einstein's involvement in public affairs, as an advocate of civil liberties, Zionism, disarmament, and many other causes, may come as a surprise to viewers of the exhibit. It also features many quotes, by turns witty and inspiring, serving not only to present Einstein's philosophy, but also to show that in writ-

ing, almost as much as in science, his genius was irrepressible.

Over 70 other copies of the exhibit are circulating around the United States and abroad to commemorate the centennial of the birth of this extraordinary man. The exhibit was prepared by the American Institute of Physics for the Institute for Advanced Study in Princeton, New Jersey, under a grant from the National Endowment for the Humanities.

In addition to the exhibit, a film entitled *Albert Einstein: Education of a Genius* will be shown on April 12, 12:30-1:30; April 13, 2:30-3:30; April 19, 12:30-1:30; and April 20, 2:30-3:30.

For further information-call 595-1900.

## Career Planning & Placement

The Virginia Association of Assessing Officers is sponsoring the VAAO Scholarship Program. This program is designed to assist persons, particularly those of college age, entering the assessment profession through their attendance at the Virginia Department of Taxation 1980 Advanced Assessor's School. The School will be held on June 2-6 at the University of Virginia in Charlottesville.

Applicants must meet three basic requirements: 1) be a resident of the Commonwealth of Virginia; 2) be a college student, college graduate, accepted candidate for college, or the equivalent; and 3) be interested in the assessment profession. An adequate background in mathematics and economics is helpful and desirable.

The deadline for applying is April 15. Students may pick up applications in the Placement Office, CC-208.

4/14, Camp Shon Ta'i - Psychology, Sociology or education majors for counselors.

4/16, VCU Dept. of Planning - all majors for graduate studies; 4/18, Montgomery Ward - Business Administration, accounting, management majors for staff trainees and commissioned sales.

4/21, Computer Sciences Corp. - Information Science and math majors for computer programmers.

"The Free Employment Service for College Students," by Marc Weinstein. Taken from the Summer 1979 issue of the *Occupational Outlook Quarterly*.

"Bill Coombs and Doug Himes were students at a small college in New York. Despite the warnings of their friends, they both majored in liberal arts and surprised everyone by getting good jobs. Bill paid an employment agency \$1,250 for finding him the job. He considered himself lucky. Doug didn't pay anything. Why not? Doug got his job through his college placement office.

"Placement offices generally do everything that employment agencies do, plus a lot more. Like an employment agency, they'll circulate a resume with potential employers and help arrange interviews. But unlike most agencies, most placement centers will also teach people how to write a resume and how to impress an inter-

viewer. Most will refer students to graduates who entered the same career the student wants to pursue, and most will help students find summer jobs or internships--ways of getting the work experience that employers seek.

"Students don't have to know exactly what they're looking for; the placement office will help them find out. They don't have to be seniors; in fact, the office's job is easier if they don't wait that long. They don't have to be seeking full-time work; the office can help them find part-time jobs, too, and good ones. They don't have to be resident students or enrolled full time; the placement office is open to them if they have ever taken a course at a school, even if they graduated ten years ago. And they don't have to be U.S. citizens; many offices have special services for foreign students.

"To show how a placement office can serve students, let's take a look at what it offers students who know where they're going and how it helps those who don't really know what they want to work at after graduating.

"So, You Want to Be an Engineer?"

"When students know exactly what they want to do, the placement office can help them plan their career campaigns so that they locate the jobs they want without wasting a lot of time or effort.

"The campaign begins in the freshman year. Students who have already taken some higher math and engineering courses, for example, don't need to spend their summer cooking hamburgers, or filing life insurance policies, or sweeping hallways. The placement office will probably have a bulletin board or a book full of summer job openings for everything from technical illustrators to engineering technicians and aides. It will have information and applications for summer jobs with the Federal Government. And it will probably have copies of some of the many published directories of summer jobs, which could otherwise cost up to \$15 apiece. After 3 summers of career-related jobs, students will have almost a year of work experience--enough to put them ahead of a lot of other people who'll also be looking for jobs.

"For sophomores and juniors, the placement office will also have information on internships, in which students can com-

(Continued on p.8)

## cinema scope Cirkus entertains students

by Elena Watson

*Being There* is a satirical new film starring Peter Sellers. Based on Jerzy Kosinski's comic novel, it is most notable for its subtle approach to satire.

The story follows Chance, the simple-minded gardener for a wealthy old man. Chance has spent most of his life with the old man and cannot remember anything before that. His days are spent working in the garden and watching TV. Since he cannot read or write and is not allowed outside of the house, the TV is his only connection with the outside world.

When the old man dies, Chance and the maid must move on. He first tries to stay in the house, but lawyers soon arrive to tell him that he must leave.

After walking the streets of Washington for several hours, he is slightly injured by a car backing up into him. Eve (Shirley MacLaine), the owner of the car, insists on taking him home with her so that her doctor can check his leg (Since her husband is an invalid, they have a resident doctor and staff at their fabulous estate). She assumes that Chance is someone of importance, due to his dignified appearance,

and misunderstands when he says that he is "Chance the Gardner." She interprets this as "Chauncy Gardiner," which is how he becomes known.

At the house, everyone continues to assume that he is not important, particularly Eve's wealthy husband, Ben (Melvyn Douglas). His simple-minded comments are taken as jokes and his empty-headed manner as aloof, intellectual reserve. Ben is dying, and he sees in Chance a brilliant directness and an acceptance of life and death. Eve is quite lonely and takes a romantic interest in him. His simplistic comments on gardening are taken as deep insights pertaining to economics.

Soon Chance is consulting with Ben's close friend, the President, who later quotes him in a speech. Everyone, including the FBI and the CIA, begins looking for a clue to Gardiner's elusive background. A guest appearance on a talk show gains him even more admirers, and soon he is accepted as a genuine VIP.

Peter Sellers gives a sensitive portrait in this quietly done film, which is marked by careful and tasteful direction. The

Cirkus played last week to a small crowd.

by Ana Kimball

Cirkus came to town last Wednesday night and entertained CNC students in the cafeteria. The band was the opening act for the CAC's program of April entertainment.

Performing before an unusually small group, Cirkus belted out the usual rock-n-roll tunes, including hits by Van Halen and The Cars. Despite the loud music, the audience seemed rather mellow. Perhaps Cirkus, a fairly new band, provided a break from the large crowds for avid Wednesday night Pub fans.

## Series presents public concert

The Trinity Performing and Visual Arts Series is presenting the Tidewater Composers Guild in a public concert, 7:00 p.m., Sunday, April 27, at Trinity United Methodist Church, 29th Street, downtown Newport News. This inaugural concert features eight new compositions performed with cello, piano, clarinet, voice, violin, flute, organ, and multi-media.

# SPRINGFEST '80 IS HERE!

In celebration of the annual rite of Springfest, the Campus Activities Committee is proud to bring to the students of CNC some of the best entertainment on the East Coast!!!

## Contact Peninsula presents rape talk

Ms. Sue Chance of Contact Peninsula will be on the CNC campus Friday, April 18, to discuss her work with rape victims and strategies for the prevention of rape. The seminar will be held from 12:00 to 1:00 p.m. in Wingfield Hall, Room 103. Those who wish to attend are invited to bring their lunch.

The violent crime of rape has been the focus of much writing, reporting, and research in the last few years. As our society has become more open in discussing this problem, there has been an increasing awareness of the dynamics and the effects of rape. The biases of lawyers, judges, and juries regarding rape victims have been the focus of reporters, movie-makers and writers. Research has demonstrated that rape is not a crime of passion as once believed, but a crime of rage and hostility. As women have become a larger and larger part of the working world and other arenas which were once reserved for males, they are more accessible to being preyed upon. It is imperative that every woman and every man who values women know strategies for rape prevention.

For those who have been victimized or know someone who has been raped, there are helpful procedures to be aware of and to follow for dealing with the after-effects of this trauma. Ms. Chance will address these issues and related questions that may arise. Men and women—students, faculty, and administrative staff of CNC—are urged to take advantage of this seminar to become informed on the subject of rape.

## Sale provides art department with supplies

by Ignacio Novo

Last Thursday, April 3, a facet of CNC of which few students take notice let everyone know that they do exist. This is the Art Club, which sponsored a sale and display of clay, ceramics, and paintings.

David Roach, an artist involved in the library's art display, initiated this brain child. Roach, who is very involved in the Art Club's activities, pointed out that the Art Department needed flood and spotlights and a gram scale, but that there was not enough money available to cover the cost. Together with several other artists, he made a collection of their best sculptures, ceramics, oils and watercolors to put them up for sale. The students were encouraged to keep the prices down to attract volume. The artists received 75 percent of the sale price, while the rest was donated to the Art Department.

## Peer Advising shows flicks

by Patricia Earls

"I'm OK, you're OK," blasts out to a crowd of people watching a cartoon film downstairs in the Campus Center. Janice Doble, from the Peer Advising Center, smiles at the number of people who are gathered around to watch and listen. The Peer Advising Center is gaining a little publicity from this showing, and that's success to Janice.

Says Doble, these films should be "... entertainment with a message to it." These films, dealing with interpersonal relationships, will be showing every Tuesday, Wednesday, and Thursday from 12 to 1 p.m. The Peer Advising Center invites all interested students to drop by and watch them.

Because the artists enjoyed this opportunity, it is possible that this is not the last time that there will be a public sale of students' artwork. The Art Department hopes to have a sale every year, with next year's being better publicized.

Roach stated that many of the students

will enter their work in a Peninsula-wide art show and CNC's upcoming art show.

This is the first of this type of a sale. In spite of the limited publicity, enough money was collected to purchase the needed items. The sale offered each artist a chance to merchandise his/her work.

## Men's tennis team wins despite adverse weather

by Johnny Wadd

The men's Varsity Tennis Team, playing under adverse weather conditions, has extended its conference wins to 4-0 and its overall record to 5-5.

On April 4, the Captains traveled to George Mason University and produced a major upset, edging the NCAA Division II school 5-4. "It was the first time we've beaten George Mason and was an especially good win since we played in very turbulent winds," commented Coach Bill Pollard.

Playing #1 singles for the Captains is

## Golf team wins first home match

In its first home match of the season, the golf team defeated Virginia Wesleyan College, 327-339, and overwhelmed Mary Washington College, 327-390.

The team continues to develop down-the-line balance.

Rich Burns had an 81; Mike Ruggeri, Dennis Casey, and Mark Paquette scored 82's; Mike Hott and David Falin with 85's did not count in the scoring.

Individual averages are Mike Hott, 80.1; Mike Ruggeri, 82.0; Dennis Casey, 84.8; Rich Burns, 84.8; Mark Paquette, 85.4; and David Falin, 86.0.

Sean Baier (5-5). Number 2 is George Koutris (0-3); #3 singles, Russ Nevins (3-7); #4 singles, Allan Lamoreau (3-7); #5 singles, Mike Casey (8-2); #6 singles, Mark Csintyan (4-6); and #7 singles, Larry Shelton (5-2).

The Captains' conference wins include Virginia Wesleyan, Methodist College, St. Andrews, and Greensboro. Upcoming are matches with Lynchburg College, VMI, Bridgewater, UNC-Greensboro, Averette, and N.C. Wesleyan.

On April 22 and 23, the Captains travel to Va. Wesleyan for the annual Dixie Conference tournament, hoping to capture their fifth consecutive title.

Says Coach Pollard, "Every team in the conference appears to be tougher this year. It will be a close battle for the title."

## OTHG Alumni take volleyball tourney

The Over-the-Hill Gang Alumni team won the first CNC Invitational Volleyball Tournament by defeating their fraternal brothers, the Over-the-Hill Gang, two games to none on Saturday.

Six teams competed for the winner's plaque presented by the tournament coordinators, Allen Johnson and Joe Eley.

(Continued on p. 8)

## Lady Captains fall to older, taller men's faculty team

by David Bean

The CNC Fund Drive basketball game between the men's faculty team and the Lady Captains proved to be just that: a game. The odds were against the Lady Captains right from the beginning: the men were taller (6' average), older (30 was the average age), and appallingly arrogant. They also had something that the women were used to facing: a roster of 17 players which was double that of the Lady Captains. As promised, there were no oxygen tanks for the faculty's use; as a result, there was a lot of heavy breathing heard from their bench.

The first half started out fairly well, with no unseen difficulties arising for either side. This didn't last long, as the men started to use their big guns (Coach Bev Vaughan and the Campus Center's Dick Ryther) early in the half. While the Lady Captains had to be the favorite, the faculty surged ahead and stayed there as they fought off several comebacks to take the lead at the half 27-24.

As the second half got underway, the faculty went to work on their lead, jumping all over the Lady Captains. At one point, their lead was as much as 15 points, but the women didn't give up. Unfortunately, they never got any closer than the final point total. Both Ryther and Vaughan were high men for the faculty, putting in 14 each. However, the game high was set by the Ladies' Gwynn Drewry, who pumped in 16 points, while teammate Patty Kelliher put in 12. The faculty proved to be too much as they took the game, 56-49. After the game, the Ladies'

Co-Captain Jill Willig commented, "We didn't want to upset the male ego, so we let them win. We also made \$100 for the CNC Student Fund, so it was worth it."

The other contest that night was the "yell-out," which quickly turned into a two-club race between Pi Kappa Sigma and the Over-the-Hill Gang. The sorority won the "liquid gold," but the OTHG was a very close second.

## DU are intramural basketball champs

by Hobert Corbett

DU concluded the intramural basketball season Sunday with an undefeated record as they beat the Bleaps 42-37 in the championship game played in Ratcliffe Gym. DU played a very aggressive game by fast breaking a great deal. They also hit the offensive and defensive boards (rebounding) quite well.

At half-time DU led 21-17, with Stan Ham hitting a 30-footer as the buzzer sounded. The momentum from that last-second shot continued into the early part of the second half as DU increased their lead by ten points with a little over 16 minutes of play remaining.

Joe Conway and Bill Hassenger led DU's effort with 11 points each, while Chris Ford added eight, Malcolm Scott, 7; Stan Ham, 3; and Robie Duncan, 2 points.

Glenn Corey led the Bleaps with 14 points, while John Paden contributed nine points. Hobert Corbett and Jimmy Stewart added five points each, and Mike King rounded out the scoring with four points.

## Letters to the Editor

All letters submitted to the *Captain's Log* must be signed. Names will be withheld at the discretion of the Editor. Address and phone number is required for file purposes only.

Letters are not edited in any way, but are printed as we receive them. We reserve the right to refrain from printing due to lack of space or failure to meet the deadline.

Letters printed in the *Captain's Log* should not be construed as representing the views of the staff. We welcome comments, suggestions, and criticism of a constructive nature.

Dear Editor,

As an older student who is pursuing the possibility of being excused from the mandatory Physical Education requirement, I find the recent letters concerning this subject very interesting. I would like to stress that I am not in any way opposed to physical exercise. In fact, I exercise at home as well as enjoying bicycling, hiking, etc. whenever possible.

However, I would also like to clarify that I am a student at CNC in order to prepare for my return to the working world after many years as a homemaker and mother—not to find an "interest in life" or to become a "well-rounded person." I find these arguments trite and bordering on the ridiculous since older students are not inexperienced youth. Most older students are married, have children and family responsibilities, and manage homes as well as jobs. Because of these obligations, many older students find their time to be at a premium and their financial situation difficult; thus making the mandatory PE requirement expensive, time-consuming and irrelevant to their reasons for pursuing a college education at this point in their lives.

As to waiving the PE requirement, I have been informed that the only criterion for being excused from the requirement is a doctor's excuse listing physical problems. What other distribution requirement has such a prerequisite for waiver?

As an older student, I feel that the mandatory PE requirement is—at \$32 per credit-hour plus doctor's fee, books, golf

and/or other fees—too expensive financially as well as consuming too much time which could be better spent brushing up on rusty skills or learning new ones.

It is imperative that the administration at CNC consider the needs of this growing segment of the student body and make the PE requirement optional for the older students, especially since many other educational institutions already have such policies.

Sincerely,  
Marlene L. Hemler

Dear Editor:

I'd just like to say that I support keeping Dr. Nauman on the faculty indefinitely. As a philosophy major, having always taken half my load from him, I know that he is an unorthodox and splendid instructor. A student comes away from this straightforward gentleman not just educated but wiser in the ways of the world and of colleges.

Ah, yes!

Name withheld by request

Dear Editor:

After reading last week's commentary on the possible dismissal of Dr. St. Elmo Nauman, I was involved in a discussion of his merits as a teacher. Although his teaching competence is not an apparent issue, I feel compelled to comment, lest the administration believe that Nauman's popularity is his only rallying point among the students.

I am afraid that some students at CNC do not recognize good teaching unless it is offered on the proverbial silver platter. I do not deny that there is a lot of tomfoolery in the classroom; however, Dr. Nauman stimulates discussion and provides the structure into which the student must fit the information in the texts. The student must be active in the learning process; he must attain understanding rather than rote memorization. If this approach allows the lazy student the freedom not to learn, Dr. Nauman is certainly not at fault. At the college level, I believe the responsibility for learning rests with the student.

Dr. Nauman is a master of the multiple choice test that requires more than a mere recognition of the correct answer, but which necessitates analysis and new synthesis of ideas. Therefore, the tests themselves are learning experiences.

Dr. Nauman's teaching methods must be unusual on this campus, but a college should present a diversity of experience to the undergraduate rather than striving for the variety of a therapeutic diet for ulcers. Dr. Nauman may be a large part of the spice of CNC. I do not want to see him leave.

Mary Steinau

Dear Editor:

It looks to me like Dr. Nauman's problem is the *professional jealousy* of certain other faculty members and administrators. The "big" thing that they have against him is their own inferiority.

Sally Young

Dear Editor,

The "Captain's Commentary" by Darlene Willett, in the April 3rd edition of the *Captain's Log*, well deserved the space which it encompassed. Since it is the students who will suffer if the contract of Dr. St. Elmo Nauman is not renewed, it is important that we are informed of the situation at hand.

Dr. Nauman not only has teaching experience, which can easily be seen in the catalogue of colleges and universities at which he has taught, but also literary savoir-faire, which is exemplified through his four published books of philosophical nature. Dr. Nauman is also known for his friendly rapport with the students of this college. The absence of this man would be greatly noticed on campus.

It seems as though the reasons for the contemplative (sic) dismissal of such a professor would be far more crucial than those presented to Miss Willett. Dr. Nauman, a man noted for his amicable disposition, filled in for a fellow professor at ODU. Why should he be penalized for aiding a friend?

It was also presented to Miss Willett that Dr. Nauman maintains "poor faculty relations." I was not under the impression that "brown-nosing" was an essential attribute for employment at this college.

Is a professor not paid to instruct? Although another professor with substantial teaching qualifications can perhaps be found, never will there be a replacement for such a man as Dr. Nauman. I feel that the dismissal of Dr. St. Elmo Nauman would be a great misfortune for Christopher Newport College.

Respectfully,  
Stephanie E. Mosca

Editor:

I read with great interest your column in "The Captain's Log" dated April 3rd. Obviously, the complete problem is not

revealed; however, my intent is to convey to the faculty, students and staff of Christopher Newport College my personal witness regarding one of the most outstanding educators I have ever been associated with in my capacity as a college student. Student in this particular case is defined as a woman in her early forties, with twenty-three (23) years of honorable Government service who attends Christopher Newport College intermittently during evening hours. Since the late 60's, I have enrolled in courses which enhance my performance on the job and aid me in understanding people.

I am shocked and distressed that your school would hesitate to renew Dr. Nauman's contract. Even though I was not a student in Dr. Nauman's class at CNC, I was one of his students in another college where he assisted a professor. Make no mistake about it, he elicited the respect and admiration from (sic) his students. In the execution of his duties, Dr. Nauman displayed diligence, professionalism and dynamic leadership. His expertise, conscientious attitude and dedication contributed to an informative and stimulating course—an opinion shared by fellow students. He approached each task with enthusiasm, great pride and a sincere desire to excellence. He projects genuine concern and willingness to assist each student regardless of their status or intellectual ability. His professional acumen, expertise and dedication were readily acceptable to each member in the class, and I consider it a distinct privilege and honor to have been a student under his superb instruction.

Christopher Newport College has special meaning to me and members of my family. This school is the first college that I ever attended and on every occasion, the learning experiences were enjoyable and meaningful. I must believe the administration is prudent enough to work out the problem pursuing a different course of action. Our institutions of learning are in dire need of professors of the calibre of Dr. Nauman. Even though I am not aware of the entire problem, my faith in Dr. Nauman is similar to my faith in God and Country.

I appeal to each of you at CNC to support Dr. Nauman in this time of trouble. Unfortunately, in today's society, each of us seem to be busy doing our own thing. Take time, expend effort and initiate action to help a fine, intelligent, compassionate human-being. This college professor needs help from each of us in the same manner that he has extended help to each of us in our academic studies. It truly seems as though "the nice guys get hurt." I support Dr. Nauman in this time of need, and I know many of you CNC students will support him as well. God Bless Each of You!

Sincerely yours,  
(Mrs.) Louise C. Adams

## cinemascope

(Continued from p. 3)

scenes are well-constructed and stylishly put together. The other main characters also put in delightful performances, including Shirley MacLaine, Melvyn Douglas, and Jack Warden, who plays the President.

The humor is subtle and carefully developed as people only see what they want to see in the empty Chance. The characters are presented sympathetically, and we feel their need is to see something good in Chance.

The film also addresses many social issues, such as the effect of television on our culture, the ease with which the media can create heroes, and the idea that anyone can be packaged to be President. In spite of these issues, particularly the television one, which is the most stressed, there is no feeling of realism. The tone of the story instead seems more like that of a fable, with the mysterious Chance appearing from out of nowhere.

*Being There* is a delightful, intriguing film which seems to be both thought provoking and subtly entertaining. It is playing at the Coliseum Four Theatres and is rated PG.

## Spring Fest

(Continued from page 1)

an all-night party. Beginning at 9:00 p.m. Saturday and lasting until 6:00 a.m. Sunday, CNC students can party all night. Features include all-night music and dancing, as well as movies, for only \$3.99 per person.

So, prepare yourselves (faculty also) for one week-long party--Spring Fest 1980!

## Career Planning and Placement

(Continued from p. 2)

bine working for a salary with earning a credit toward their major. About a third of all college and universities have internship programs; the schools cooperate with business, government, foundations, interest groups like Ralph Naders PIG, and others. Besides the experience they're gaining, students establish contacts with potential employers and sometimes have a job waiting for them when they finish school as a result. A few internships are sponsored by academic departments; most, however, are run through the placement office, which keeps a listing of the programs available.

"Senior year is when most students begin looking for a full-time, permanent position. This is where the placement office can really help. Students might even get academic credit. More and more colleges are allowing their placement offices to offer courses that teach job finding techniques. Odds are that the placement office will at least offer a workshop on how to prepare a resume. There's more to a resume than most people think. A workshop will show students how to grab an employer's attention without resorting to gimmickry--something that will send a resume straight into the wastebin. It will have other tips, too, like the importance of volunteer work and asking people if they can be listed as references. Most placement offices are willing to give a resume individual attention. A counselor will review it and suggest improvements."

(To be continued next week)

## Tourney

(Continued from p. 5)

during the tournament party in the Pub Saturday evening. Other teams participating included the Government Club, EHO's, Cosmics, and ROTC. The plaque, recognizing the OTHG Alumni as 1980 winners, will hang in the Pub.

Cover charges from the tournament party generated money for the annual CNC Student Fund Drive. The tournament and party were sponsored by the OTHG, Government Club, and ROTC.

## Letters

(Continued from p. 7)

Editor,

In response to "KN TORN APART" there were major accomplishments that seemed to miss the press.

True, the GDI's were better prepared for the game, because every night the Kappa Nu Boys were out on the town entertaining the ladies, while, the GDI's were getting their sleep "all alone" up in their room.

The true test was in school spirit. The volleyball game was an insignificant game in a secluded part of the pool deck which had no bearing or meaning at all.

The "KN" boys competed in the National Championships in front of 300 screaming wild people. The boys were outstanding in representing CNC in the chugging contest and the male dancing contest, won by Mickey Chohany and Mike Steward respectively. These boys were outstanding under pressure. Where was GDI while CNC was being hailed as an NCAA powerhouse? Up in their room as spectators.

GDI, we issue a volleyball challenge, with a keg of golden refreshments on the line.

P.S. GDI SMD Yours truly, KAPPA NU

## Faculty members to accept new posts

Two faculty members have resigned, effective the end of this semester, in order to accept positions at other institutions.

Dr. Jerry Engel, Associate Professor and Chairman of the Department of Computer Science, will be going to the University of New Orleans, where he will take over duties as Chairman of its Department of Computer Science.

John Harwood has resigned his position at CNC and has accepted a position as Associate Professor of English and Director of Freshman English at the Pennsylvania State University. At Penn State he will be responsible for the freshman English program offered not only at the main campus in State College, but also at the 17 branch campuses of the University throughout the Commonwealth of Penn-

sylvania. He will assume his new responsibilities in mid-July.

## Log seeks writers, business manager

The *Captain's Log* will be accepting applications for the stipend position of Business Manager during the week of April 10-18. Applicants must have taken two semesters of accounting and be dependable.

The *Log* is also looking for news and feature writers. Applicants must have the ability to write concisely and clearly. Students interested in applying for writing positions are invited to contact Patti Leach or Patricia Earls in the *Captain's Log* office (CC-228) or call 599-7196. Writing positions are stipend also.

## Business Manager Wanted for The Captain's Log for 1980-81

Accounting 201-202 required  
Experience helpful but not  
necessary

Forms may be picked up in the  
Captain's Log office, CC-228.  
For complete information, contact  
the Editor-in-Chief in the Log office.

Deadline for applications  
is April 18

## Last Call for a 19 year old Christopher Newport College Sophomore to become a 21 year old Army Officer.

The Army offers college sophomores the opportunity to earn an officer's commission in two years. The deadline for this year's class is soon.

Apply now and once you are accepted for the special two year program, you attend a six weeks' summer camp, for which you'll be paid approximately \$500. And that's not all. You may find yourself in the best physical condition you've ever been in.

Then back to college and the Army ROTC Advanced Course in the fall. If you've done exceptionally well at camp, you may be heading back to college with a full two-year scholarship.

For the next two years, you learn what it takes to be an Army officer. You get the kind of management and leadership experience that will be an asset to you in any career, military or civilian. You will earn an extra \$100 a month up to 20 months. And when you graduate, you will have earned your college degree along with the gold bars of an Army officer.

### The Army ROTC Two-Year Program

If this is the kind of challenge you are looking for, you are the kind of student we are looking for.

Call:

Captain Steve Rose  
253-4366/4368
