Volume XII, Number 2

Christopher Newport College

Newport News, Virginia

September 11, 1980

A member of the Fort Monroe Parachute Club lands at CNC during Fabulous First Friday festivities. See story on p. 4.

Campus Program Board will begin operation in October

by Darlene R. Willett

The Campus Program Board, although still in the early planning stages, is scheduled to begin operation in early October. The Board's primary function will be to coordinate social, cultural, and intellectual activities that take place on campus.

The creation of the Campus Program Board has made major changes in the allocation of funds to organizations by the Student Association. In the past, clubs and organizations submitted budget proposals at the end of the year. The proposals were then "set" for the following academic year, with all money allocated for specific purposes.

The Student Association budget for the 1980-81 academic year includes over \$6,000.00 to be utilized by the Campus Program Board. Clubs and organizations may petition the board for funding throughout the year. In addition, interest groups that are not formally organized or chartered clubs may petition the Board to help organize and/or fund an activity that they can prove will be of benefit to the general student population. In addition to providing for additional student input of campus activities, the Board will also be a coordinating center for such activities as Fabulous First Friday, which combined

the efforts of the OTHG, Sigma Pi Fraternity, the Fort Monroe Parachute Club, and CNC's ROTC.

Director of Student Life, John McCaughey, believes that the goal of the Campus Program Board is to improve campus activities by aiding the following:

1. Coordinating efforts of groups on campus to provide "large-scale" entertainment
2. stimulating the growth of cultural, academic, and other activities to ensure that a variety of campus activities are available to CNC students
3. providing a center where individuals and groups of students may go to

The Board will be composed of a student majority with additional faculty and student affairs staff members. The chairman will be the director of the Campus Activity Committee, Greg Jackson. Every attempt is being made to ensure that the student sector of the Board will be representative of the student body of CNC. Students who are interested in becoming a Board member should contact Lisa Cipriano, SA President, in CC-229.

Tribble addresses constituents

Representative Paul Tribble held a town meeting at CNC on September 6 in the Campus Center Theatre. Community members directed questions to him concerning the Selective Service; a new ship, the Forest Hall, due to arrive in 1983; and the American Maritime Activity. Tribble was accompanied by three staff members.

Rep. Paul Tribble

Governor appoints Windsor to State Mental Health Board

by Patricia Nuckols

Governor John Dalton has appointed Dr. James C. Windsor to the State Mental Health and Mental Retardation Board. Dr. Windsor began his four-year term Tuesday, September 9.

The board decides the policies to be used in state treatment programs for mental health, mental retardation, and substance abuse. Recommendations for these policies were made from the Governor's Commission on Mental Health and Mental Retardation, on which Dr. Windsor served.

Dr. Windsor came to CNC in 1962. He served as President of the College from 1970 to January 1980 and is currently a professor of psychology. Dr. Windsor says he is pleased to take the position on

Dr. James C. Windsor

the board. "Now I get to see my work on the Commission finished."

Religion specialist to be first CNC Colloquia speaker

Dr. Samuel S. Hill, Jr., Professor of Religion at the University of Florida, has been engaged as the first speaker in the Dean William Parks Memorial Colloquia Series for the 1980-81 academic year at Christopher Newport College.

Professor Hill, the author of a number of works on religion in America, will give two presentations on Wednesday, September 17, in the Campus Center Theatre. Between noon and 1:00 p.m. he will speak on the topic "American Religion: South and North, Yesterday and Today." In the evening his presentation will be entitled "Southern Religion: How Much More Conservative Has It Gotten?" The evening talk will be followed by a reception in the Campus Center which will give those in attendance the opportunity to speak personally with Dr. Hill on the subject of religion in America.

All faculty, students, and members of the general public of Tidewater are cordially invited by the Dean's Colloquia Committee to hear Professor Hill. Dr. Robert J. Edwards, Vice-President for Academic Affairs, commented on the up-

Dr. Samuel S. Hill, Jr.

coming program, said, "Dr. Hill enjoys an outstanding reputation as a scholar in the field of American Religion. We are indeed honored that he will visit us as our first Colloquia speaker this year. I urge all member of the student body, faculty, and the Tidewater community to join us on September 17 for an outstanding program."

Campus Center reduces copy rates

by Patricia Earls

There's no such thing as a nickel candy bar anymore, but there is a "nickel" copy with the Campus Center copying machine. The price has been reduced from ten cents to five cents.

"The philosophy behind lowering the price was to encourage people to use the Campus Center copying machine," Dick Ryther, the Director of Activities in the Campus Center, points out. It is his hope

that the lower price will induce students to use the Campus Center machine as much as or more often than the library's machine, which has been five cents consistently.

The price on the machine in the Campus Center was lowered because, at ten cents, not enough copies were being made to pay for the rental and maintenance charges. If usage does not increase, the Campus Center will be unable to maintain its upkeep and it will be removed.

Campus Close-Up

College Republicans forming

There is a College Republican organization forming on campus. We need a faculty member to sponsor us. All students interested in joining us and any faculty member wanting to sponsor this group call Gary Batters at 595-1504.

BSA wants models

The Black Student Association will hold modeling Auditions for the Fashion and Talent Show Friday, September 12, 4:00-7:00 p.m. in Room 233. All interested men and women, please attend.

'Currents' seeks staff

Currents, the fine arts magazine, is looking for new staff members. You don't have to be a writer or an artist, just interested in putting together a magazine. Interested persons can get more information from our office located in the Campus Center, Room 203.

Sailing Assoc. to meet

The CNC Sailing Association will be meeting in N-125 on Friday, Sept. 10, at 12 noon. Students interested in sailing are invited. Officers will be elected, and this fall's scheduled will be introduced.

Biology Club to plan trip

The Biology Club will meet from 12 noon to 12:45 in Gosnold 133 on Monday, Sept. 15. The topics of this first meeting will include the club's first party and camping trip.

Pi Kappa Sigma wants pledges

Pi Kappa Sigma Sorority welcomes any interested girls to RUSH. Requirements are: second semester freshman and 2.0 GPA. Sign up Sept. 8-19 in the cafeteria hallway from 9:00 a.m. to 1:00 p.m.

Pep Band members sought

Students interested in forming a CNC Pep Band, please contact the Department of Athletics, Monday-Friday, between the hours of 9:00 a.m. and 5:00 p.m. The Athletic Office is located in Ratcliff Gym, Room 104. The phone number is 599-7025.

Honor Society to organize

Alpha Chi Honor Society will hold its organizational meeting for the fall semester on Monday, September 15, at noon in the Admiralty Room. We will be taking nominations at this time for 1980-81 club officers. If you would like to be considered or wish to nominate someone, please come to this meeting. For further information, contact Dr. Gary Hammer at 7063, G-116.

AKPsi sets rush schedule

The Iota Pi Chapter of Alpha Kappa Psi is holding its membership rush. As a professional business fraternity, AKPsi provides leadership experience and business world exposure to the college student. All business majors are invited to at-

tend the rush functions to meet the members of the fraternity and learn of the chapter's activities. The rush functions are as follows:

Coffee: Fri., Sept. 12, noon-1:00 p.m., CC-233.

Coffee: Tues., Sept. 16, noon-1:00 p.m., upstairs C.C.

Smoker: Fri., Sept. 19, 9:00 a.m.-1:00 p.m., CNC Pub.

Senate meets Tuesday

The Student Senate will hold its first meeting on Tuesday, Sept. 16, in Gosnold 145 at 12:15. Election of all Senate officers will take place at this time.

The Senate invites all students interested in student government or a desire to be a part of the decision-making process at CNC to attend this meeting.

Pre-law students organize

All students planning to pursue a legal career are invited to an organizational meeting of pre-law students. This is a new organization that will be designed to help those students planning to attend law school upon graduation.

The first meeting will be held Tuesday, Sept. 16, at 12:15 in Newport 115. Contact Professor H. Williams or Mike Hogge if you are interested or have any questions.

OTHG elects officers

by Stephanie E. Mosca

The Over-the-Hill Gang, one of CNC's social organizations, is always on the move. This July, at one of their many social gatherings, the O.T.H.G. moved on to a new administration. Mike Croall was elected President. Former president Frank Wilson congratulated Croall, commenting that the Gang will be in "good hands."

By summer's end, Croall had coached on to victory the O.T.H.G. softball team,

OSH seeks assistant

Operation Self-Help is now accepting applications for one student to serve as assistant director. This is a paying position. OSH is also seeking an additional student to serve on its Board of Advisors.

Operation Self-Help is an organization designed to coordinate the skills of CNC students, faculty, and staff with the needs of our growing college campus. OSH also serves as managing office for various projects designed to aid the college.

Interested students are asked to contact Peggy Glasheen, Director of Operation Self-Help, in Room 230 of the Campus Center, on Monday, Wednesday, or Friday, Sept. 15, 17, and 19, 10:00 a.m.-noon and 2:00-3:00 p.m., and on Tuesday or Thursday, Sept. 16 and 18, 1:00-3:00 p.m.

OSH encourages all students, especially freshmen, to become a part of this vital organization.

Executive Council

by Stephanie Mosca

The Executive Council appointed a new officer at its first meeting, Thursday, September 4. Lisa Cipriano, Student Association President, used her power of appointment to name Marie Derby SA secretary. Derby has worked for the SA since 1979.

The Council discussed the loss of Divisional President of Social and Behavioral Science, Mike Halabuk. There will be a vote at an upcoming meeting to fill this vacancy.

Next on the agenda was the filling of two positions on the Library Committee. The council passed a motion that Jamie Powell, SA Attorney General, and Virginia Glasheen, an employee of Captain John Smith Library, should both serve on this committee.

Another committee discussed was the Bookstore Committee, whose purpose it is to supply students with several alternatives for text purchasing. Recommendations included making all incoming students aware at orientation of the Alpha Kappa Psi bookstores. Another recommendation was to have those students interested in selling old texts fill out a file card which includes name, major, saleable books, and phone number. This procedure, which is hoped to become operative by spring, is intended neither to replace AKPsi nor to usurp their hold.

Peggy Glasheen is chairing the committee concerning January graduation. From a poll taken by the committee, the Executive Council learned that students are in favor of two graduations by a 2-1 ratio. Faculty are in favor of one graduation by a 10-1 ratio.

A single graduation would take place in May and be held in the Hampton Coliseum. This would serve both students who graduated in January and May. The main reason for this is that the limited budget doesn't allow for two graduations. Those in favor of one graduation would prefer one big effort to two smaller ceremonies. The committee wishes to seek out other alternatives.

The Coliseum is too large for our ceremonies and also very expensive. One sug-

gestion was to hold graduation outside on campus with a back-up location reserved in case of rain. Another possibility presented was the Greek Hellenic Center. Any students interested in working on this research committee should contact Peggy Glasheen in Room 230 of the Campus Center. If she is not in, there will be a marked envelope on the door where one may leave one's name and phone number.

The next topic to be brought before the Council was the Campus Programming Board. It will be headed by Greg Jackson, CAC Director, and guided by John McCaughey, CNC's new Director of Student Life. The Programming Board will rearrange the CAC and possibly the SAC. The goal is to serve the campus community more efficiently.

Several committees with openings for student representatives were discussed by the Executive Council. These committees include the Development and College Relations Committee, the Curriculum Committee, the Athletic Committee, and the Auxiliary Services Committee. All interested persons should inquire.

Another position open is the Assistant Director of Operation Self-Help. Anyone who wishes to apply for the job should contact Peggy Glasheen in CC-230. All applicants will be screened by the Board of Advisors.

At the meeting's close, President Cipriano made it clear that her goal "is to get students active."

The Executive Council meetings are open to all students. They are held every Thursday at 12:15 p.m. in Room 233 of the Campus Center.

Voter registration

Voter registration will be held in Newport News during September at the following times and locations:

Tuesdays, 1:00-9:00 p.m. at Denbigh Rec. Center on Old Courthouse Way.

Thursdays, 1:00-9:00 p.m. at the Main Street Library in Hilton.

Career Planning and Placement

An agreement has been reached between the staffs of Christopher Newport College the the Newport News Office of Virginia Employment Commission to have the merit exam offered on the campus of Christopher Newport College in November 1980 and April 1981 for graduating seniors, and the microfiche is being sent each day to the College to be viewed by students and graduates.

Ms. Kay Hogan of the Newport News Virginia Employment Commission staff and a CNC graduate is in charge of administering the exam. Ms. Hogan said, "I am delighted that we here at VEC can assist CNC seniors in taking this exam. We are always happy to work with the College in their employment needs."

Mr. Frank Green of the Newport News Virginia Employment Commission staff has been responsible for sending the microfiche to the Office of Career Planning and Placement. The microfiche contains a

list of job openings on the Peninsula. Mr. Green stated, "By forwarding the microfiche to the Office of Career Planning and Placement, it speeds up the process of placing CNC graduates in jobs here on the Peninsula."

As time goes on, other areas of cooperation will be worked out between the Newport News office of the Virginia Employment Commission and Christopher Newport College.

On Wednesday, September 24, Career Day will be held at Hampton Institute. Eighty-two employers will be available to discuss career opportunities within their organizations. In addition to Hampton Institute students, students from local colleges and high school and military personnel are invited to attend. Career Day will be held in the Student Union Building from 9:00 a.m. to 5:00 p.m.

FEATURES

Director of Student Life is truly "student oriented"

by Darlene R. Willett

Although John McCaughey is not new to the CNC campus this year, he is serving the campus in a different capacity. After serving for two years as Registrar, he was selected to fill the newly created position of Director of Student Life.

The creation of this office reflects the growth that CNC has experienced in the last four years. The position of Director of Student Life encompasses a variety of duties including the overseeing of Campus Center operations, Pub operations, and all types of student activities.

McCaughy will be involved in the 26,000 square foot expansion of the Campus Center. Groundbreaking is scheduled for next spring, with completion expected by Fall 1982.

In relation to student activities, McCaughey possesses a wealth of new and innovative ideas. The two major fall projects under formation at this time are the

Campus Program Board and the proposal of an All-Greek Council which will serve to foster the growth of fraternities and sororities at CNC. The Director of Student Life will also serve as an advisor to the Student Association.

McCaughy feels that his position as "advisor of activities" should be viewed as a counselor-type position rather than a "police"-type position. He hopes to help groups in implementing policies of their own rather than to decide what policies should be implemented by groups on campus. Under no circumstances should the position of Director of Student Life be misinterpreted as a threat to a group's identity.

Students who have ideas concerning the Campus Board Program, the proposed All-Greek Council, or any other student activity should contact McCaughey. His office is located upstairs in the Campus Center directly across from the elevator.

ROTC cadets displayed techniques learned at summer camp.

(Photo by Nat Weico)

CNC cadets receive awards

Thirteen Christopher Newport College students were among 3355 from East Coast colleges and universities who successfully completed ROTC Advanced Camp at Fort Bragg, North Carolina, this summer.

The CNC students placed in the upper third of all schools participating. Three cadets finished in the top ten of their 50-man platoon. Cadets Linda Richardson and Herb Charity received the individual Physical Proficiency Award for highest scores on the physical fitness test. Cadets Richard Shrank and Burt Thompson exemplified superiority in military skills, land navigation, and rifle marksmanship by placing in the top five percent of all cadets and earned individual military proficiency awards.

LTC. Larry Beyer, Professor of Mil-

itary Science, commanded a cadet company during Advanced Camp, while CNC instructor/advisor Captain (P) Steve Rose was responsible for managing the automated cadet evaluation system.

Several students also completed special training in several Army schools. Cadets Herb Charity, Fred Corbin, and Mike Edwards successfully completed the Airborne School at Fort Benning, Georgia, and received the coveted airborne wings. Edwards also attended the Air Assault School at Fort Campbell, Kentucky. In addition, Cadets Lance Wilson, Jeff Thompson, Burt Thompson, and Jeff Spengler spent three weeks on active duty with regular Army units in positions of responsibility involving troop leadership, field training, instruction, and staff procedures.

Library preserves magazines with film

by Janie Hart

Will microfiche replace the magazine? Services Librarian Jennilou Fernsler doesn't think so. In reference to the microfiche, a film reduction of materials

similar to microfilm, she says, "We are not replacing magazines with microfiche. We are using fiche as an alternative to finding periodicals."

Fernsler feels that the microfiche will be less costly and occupy less space than magazines stored in bindings. This will eliminate the replacement costs involved with magazines that are torn or stolen.

Furthermore, the fiche catalog can maintain a more up-to-date library than can the magazine shelves. The following issues for 1979 and 1980 are currently on microfiche: *Forbes*, *Fortune*, *Newsweek*, *Psychology Today*, *Science*, *Science News*, *Sports Illustrated* and *U.S. News*.

Fernsler stresses that currently the microfiche is in its experimental stages. Students are urged to pick up the survey questionnaires in the microform room, where the reading and printing equipment is stored. The questionnaire, which consists of three short parts and a space for comments, was designed to allow any persons discontented with the microfiche to voice their feelings.

ENTERTAINMENT

"Somethin' Else" was a huge success at last Friday's festivities.

Dance draws large crowd

by Ana Kimball

Fabulous First Friday ended a total success, as Sigma Pi's first dance drew nearly 400 people.

Despite the heat, the crowd danced to the sounds of "Somethin' Else" until 2:00 a.m. The six-piece band performed songs by various artists, including Donna Summer, Michael Jackson, James Taylor, and Marshall Tucker. Scot McPherson kept the tunes going as he "D.J.'d" during breaks.

Mickey Chohany, Vice-President of Sigma Pi, attributed the success of the dance to publicity that was well received by the students. "We wanted to remove the stigma of CNC being a 'community' college," commented Chohany. "We hope that more students will become more active on campus whether it be Sigma Pi or any other organization on campus."

If Friday night's dance is any indication of student participation this year, CNC has an exciting year ahead!

Seamen to tell stories of Bay Friday

On Friday evening, September 12, at 8:00 p.m. in the Chesapeake Room of the Mariners Museum, singers and storytellers will reflect on the idea that the Bay makes Tidewater's residents who they are.

Billy and Jo Carter from Battery Park, participants in the oystering and shad fishing industries of the James, and John Crockett from Seaford, a waterman on the Bay for most of his life, will tell of their experiences and of the hold that the water has on them.

The Carters follow in the footsteps of Billy's father and still use his boat in their business. John Crockett can remember his grandfather telling of walking from Seaford to Menchville every Sunday in order to be ready on Monday to tong oysters from his Yankee skiff.

The evening will center on the relationships that exist among those who work on

the Bay: husbands and wives, fathers and sons, and competitors. Richard Beauchamp of Thomas Nelson will look at these special relationships, illustrating them with the lives of the David Lowe family, boatbuilders in Battery Park for generations.

The X-Seamen from New York's South Street Seaport will entertain with a strong program of sea chanteys and sea songs. They too will look at the special relationships fostered by the sea and will use songs from seafarers and watermen of the past.

The program is open to the public and is free of charge. The Mariners Museum, the Sailing Association of Christopher Newport College, and the Virginia Foundation for Humanities and Public Policy are the sponsors of the evening's program. Light refreshments will be served in the courtyard of the Museum at the evening's close.

CAC plans to offer top bands

by Ana Kimball

The Campus Activities Committee has a tremendous semester of entertainment in store for CNC students. The bands to be featured are well known; some have been reviewed by *Rolling Stone* magazine and others of that calibre.

The semester opened with one of the best—The Robbin Thompson Band. A review of last evening's performance, too late for the afternoon deadline, may be featured in the next issue of the *Captain's Log*.

September 18 brings the "X-Raves" to CNC. Formerly "The Rave" and home-based in Portsmouth, this band is well known for its new wave sound. According to the *Virginia Pilot*, "The X-Raves run the gamut of modern rock from 'The Clash,' to 'The Police,' to 'The B-52's,' to 'The Sinceros.' Add a dash of 'Devo' and you have the best new wave in Tidewater."

The following week, "The All-Stars" from Charlottesville will be performing.

Having released one album, *Tip Your Waitress*, the All-Stars have been featured in *Rolling Stone* magazine as one of the best white-blues bands in the Southeast.

"States" returns October 1 for an encore performance. According to Greg Jackson, CAC Director, "The best rock-n-roll band from Tidewater will be in for one more show before production of their second album begins."

On October 8, "The Little Big Band" returns with the sounds of the jazz-swing era after the overwhelming response received at the Fabulous First Friday picnic.

"Brice Street" will be featured on October 15. This six-piece band is known for the diversity of its show that features music by Bruce Springsteen, Little Feat, the Beatles, Steely Dan, Jackson Brown, and the Beach Boys. The 22nd features "Bubbit," a band that bills itself as "... the best unknown band in Tidewater whose

SPORTS

Can ball club become team?

by Mickey Boyer

"It's great."

"About time."

"Looking forward to it."

These are just some of the comments of the members of CNC's latest athletic club: the Varsity Baseball Club for 1980-81.

Coached by Howard Wiseman, a local American Legion coach, the team started practice September 2 with a few organizational meetings over the summer. If all goes well, the club may become the Division 3 school team for the Dixie Conference for the 1981-1982 season.

To become the school baseball team, the club must make a respectable showing in the games, playing well and winning several contests. They must show a great deal of enthusiasm and have good attendance at the games.

The team will begin with an, as yet, undetermined fall schedule and possibly play 30 games in the spring. Some opposing teams will come from William and Mary, Old Dominion University, and the Newport News Shipyard Apprentice School.

The club will also play teams from the Dixie Conference. Fall games will be held at Menchville High School. Spring games will be scheduled for Deer Park.

The team's main problems are in the pitching and catching positions; only three players are experienced in these areas: Terence McCormick, Mark Voegelin, and Billy Peterson, who is also the team's only veteran catcher.

Robert Corbett and Tony Metts are Coach Wiseman's assistants.

The three realize that this will be a trying season for the club. Not only will the players be inexperienced, but they will need to have a good season in order for the club to continue into a "school" team.

Anyone interested in joining this kick-off campaign should contact Howard Wiseman at 595-2760 or Mickey Boyer at 595-4677.

Intramurals will be bigger and better

The intramurals program will begin with flag football. The same teams will be playing this fall as did last, with a few changes. The EHO's and the Headhunters have joined forces, after years of friendly rivalry. The combined team will combat the new powerhouses.

The "new powerhouses" are the OTHG, which reportedly has size, talent, and age on its side, and Sigma Pi, with their new saying, "Keep your eye on Sigma Pi."

A new team is forming from the old GDI's. Any students interested in forming another team can contact Tony LaMoy or Jeffrey Thomas in Ratcliffe Gym from 2:00 to 5:00 p.m. The office phone is 599-7054. The director's home phone number is 595-4755.

Jones cautiously optimistic

by David Bean

Cautiously optimistic. That's Bert Jones this season. He has never had a winning volleyball season in four years. This year it seems that that might change.

According to Jones, "The response has been good over the summer, but that means little until those first series of meetings and practices take place." Coach Jones has not said how many players he expects from last season. He hinted that perhaps five from last year's squad will return.

A lack of talent did not cause him difficulty last season. There were good players on the team. But there weren't enough of them. At one point during the season, the Lady Captains were down to six players on the roster. Playing five on a court with one sub while facing an oppo-

sition which has not only five on the court, but also eight on the bench, is not a pleasant prospect.

The team spirit was down. The players tried hard and became frustrated when their efforts failed. When the little mistakes occurred, the mental blocks arrived ... and stayed.

Winning does wonders for confidence, and that is what the team hopes to do this season. Their opponents include some of the same Division III teams they faced last year--Hampton Institute, James Madison, Longwood. With the addition of some new faces, things could be very different this season. However, Coach Jones commented cautiously, "I don't count on anyone until they walk through the front door."

Campus Activity Committee (Band)	Cafeteria	9 p.m.-1 a.m.

BEWARE THE CNC CAMPUS DEALER

BEWARE OF THE CNC CAMPUS DEALER! HE IS ESPECIALLY DANGEROUS DURING EXAM TIME, WHEN HE CAN BE OBSERVED PUSHING INFERIOR GRADES OF COFFEE, TEA, & NO-DOE TO UNSUSPECTING STUDENTS.

EDITORIAL

Deadlines: a sore point on most newspapers and yearbooks and in most classes, etc. . . . People do not seem to do well under pressure, namely a date before which all work is to be completed on fear of death; thus, "deadline."

On the *Captain's Log*, deadlines are more tender ground than they are with most other publications on campus. We publish weekly, on Thursday. Have you ever seen an angry advertiser storm the doors of a 10 x 20 office, or the soccer team kick in a window because the paper didn't get to the stands on time? The thought gives nightmares to some of us here on staff. Some members fear that someday an angry reader will fail to write a letter to the editor, but will instead brand one on "Ms. Ed.'s" forehead.

Readers can be temperamental people. They like things to be on time; they like to get their weekly *Captain's Log* on Thursday at 9:00 a.m. They like to see their "Campus Close-up" announcements in the paper before their activities are scheduled.

And we'd like to give that to them. The newspaper is a student service. But if we don't get copy on time, our paper will not go out on time. Often, to insure that it does, we have to omit potentially important—but late—copy.

The deadlines have been circulated throughout the campus. These list the exact dates on which copy is due. Please look for these or ask for a copy in the *Captain's Log* office, CC-228.

Listed below are the weekdays by which copy must be in:

Campus Close-up--4:00 p.m. the Friday before publication
Features, news, sports, entertainment articles--4:00 p.m. the Monday before publication
Letters to the Editor, editorial matter--10:00 a.m. the Tuesday before publication
Advertisements--4:00 p.m. Thursday preceding publication (exactly one week in advance)

The *Captain's Log* appreciates the support of the college community.

Letters to the Editor

Dear Editor:

This letter is addressed to the readers and critics of *Currents*, CNC's fine arts magazine.

I would like to apologize for any defects in the magazine. The printing company that we hired went through three managers during the time they were working on *Currents*. Unfortunately, not all of them knew their jobs well enough to do an

outstanding job as we have had before and hope to have again.

I hope the readers will overlook the blurred print and other mistakes and concentrate on the fine literary and artistic works instead.

Sincerely yours,
Tim Morgan
Editor-in-Chief

Crow's Nest

by David Byrn

As everyone certainly has become painfully aware, there is a vast difference between high school and college—namely, free and not free, non-confusing and extremely confusing. Whatever became of the 50c lunch or sleep during class that didn't cost anything? A fair assessment, folks, is that those days are gone for good.

There is enough red tape surrounding college enrollment to shock a Federal bureaucrat, coupled with the act of Congress that it takes to get an ID card. I have always felt there was something to the statement, "Simplify, simplify, or lie." But take heart: a student can gain just about anything if he has the courage of his connections. Needless to say, an aunt in administration can expedite the enrollment process two-fold.

Yet, if like the rest of us, you're unknown in the *Captain's* world, prepare for the worst. A typical day can include just about anything.

Take my first day, for example. As luck would have it, I left my house in Hampton a little later than planned, and Mario Andretti was not my driving companion (Is it J. Clyde Morris or Mach speed—floor it?). Regardless, I arrived six minutes late, minus the bumper with the parking sticker on it.

Entering my first class (is there a worse sin than 8:00 a.m.?), I was sneered at by my professor, Dr. I. Flunk Freely, and tersely was told to have a seat (I found out later that I interrupted his famous semesterly boast of having the highest student suicide rates on campus. You should have seen the notches in his yardstick!).

Not surprisingly, the rest of the day went much the same way, everything from lunch in the Dean's lap to my English professor's threat of death for spelling errors past the first week. And let us not forget the excused absences for acts of God only, subject to confirmation, of course.

By 3:00 that afternoon, I was hopelessly confused and found myself asking a kind lady for directions to my next class. What a strange room number: P.U.B. I must confess, though, it has to be my favorite course. What atmosphere! I have the finest professors in the world (none), not to mention the interesting subject matter (I

personally like the "Farmer's Daughter" chapter).

Of course, there are a few who take this class more seriously than I. Take John, a member of the "Down the Other Side Gang," who is doing a fraternally significant study of how much beer it would take to put the Mormon Tabernacle Choir into a coma. From the look of things—mainly his eyes—he's very close to an answer.

When the day was over and I finally headed for my car, I found a wheel-lock notice on my windshield. The gist of the ticket was "No sticker or bumper, please throw yourself at the mercy of the court; no innocent pleas accepted" (time to pay for someone's lunch). And to think that I gave \$600 to go through all that . . .

Reaffirmation of Equal Opportunity

Christopher Newport College is fully committed to the principles of equality and non-discrimination. It conscientiously reaffirms its support of equal opportunity and affirmative action. The College commitment is to insure equal employment opportunity for all employees and potential employees and equal opportunity for access to all programs, activities, and facilities for all students, without regard to race, color, religion, sex, age, ethnic group, national origin, handicap, or political affiliation.

It is the policy of Christopher Newport College that local, state, and federal laws and regulations implementing national equal opportunity objectives shall be fully complied with, not only by meeting the letter of the law and contractual requirements, but also by carrying out the full spirit as well.

The College pledges itself to a program of aggressive affirmative action aimed at assuring true equality of employment and access, and an environment free of discrimination.

Existing and future policies and procedures shall be in compliance with this commitment. Questions, inquiries, or grievances relating to equal opportunity and affirmative action should be addressed to Lora Friedman, EEO/AA Coordinator, Wingfield 22, 599-7070.

Family Educational Rights and Privacy Act of 1974

The College is to inform enrolled students annually of their rights under the terms of the Family Educational Rights and Privacy Act of 1974. The Act does not apply to students admitted to the College who have not officially enrolled.

It is hereby reaffirmed that the College's policies and procedures are in full compliance with the Family Educational Rights and Privacy Act of 1974, whereby each student's right to the privacy of his or her official College records and access to the same is assured.

Enrolled students have the following rights under the law:

1. The right of access to his or her official College records. Under terms of the Act the College is not required to make available to students the following materials:
 - a. Confidential letters of recommendation placed in the student's files before January 1, 1975, and those letters for which a student has signed a waiver of his or her right to access.
 - b. Parents' confidential financial statements.
 - c. Medical, psychiatric, or similar records "which are created, maintained, or used only in connection with the provision of treatment to the student and are not available to anyone other than persons providing such treatment; provided, however, that such records can be personally reviewed by a physician or other appropriate professional of the student's choice."
 - d. Personnel files and records of members of faculty or administrative personnel, "which are in the sole possession of the maker thereof and which are not accessible or revealed to any person except a substitute."
 - e. Records of the Admissions Office concerning students admitted but not yet enrolled at the College. Letters of recommendation are removed from the Admissions files before the files are forwarded to the Registrar's Office.
2. The right to inspect and review his or her official College records.
3. The right to a response from the College to reasonable requests for explanations and interpretations of his or her official records.
4. The right to an opportunity for a hearing to challenge the appropriateness of his or her official records. The hearing procedures are available through the Office of Student Affairs.
5. Christopher Newport College accords all rights under the law to students who are declared independent. No one outside the institution shall have access to nor will the institution disclose any information from students' education records without the consent of students except to personnel within the institution, to officials of other institutions in which the students seek to enroll, to persons or organizations providing students financial aid, to accrediting agencies carrying out their accreditation function,

to persons in compliance with judicial order, and to persons in an emergency in order to protect the health or safety of students or other persons. All these exceptions are permitted under the Act.

Within the Christopher Newport College community, only those members, individually or collectively, acting in the students' educational interest are allowed access to student education records. These members include personnel in the Office of Vice President of Student Affairs, counselors, Offices of the Registrar, Office of Business Affairs, and Financial Aid, the Office of Admissions, and academic personnel with the limitations of their need to know.

The College has designated the following information as "Directory Information" which may be released to the public:

1. Student's name, address, telephone number (permanent and local).
2. Student's birthdate.
3. Dates of attendance at the College, field of concentration, current classification, degrees awarded.
4. Previous schools attended and degrees awarded.
5. Honors or special recognition.
6. Height and weight of members of athletic teams.

A student who does not want the above information made public must file notice in writing of this request to the Vice President for Student Affairs, 50 Shoe Lane, Newport News, Virginia 23606, no later than the fourth week of classes. This request must be made annually.

A student wishing to review his or her College records must consult the directory of official student records in the Vice President for Student Affairs' office. The directory lists the offices where official student records are maintained and the name of the official responsible for the maintenance and release of each type of record, and to whom requests for access should be made.

The Family Education Rights and Privacy Act is a complex law and new guidelines and interpretations are still forthcoming.

If any of the rights guaranteed are violated, a complaint may be submitted in writing to: FERPA Office, 330 Independence Ave. S.W., Washington, D.C. 20201 explaining the alleged violations.

OTHG

(Continued from p. 2)
thus securing for the players the 1980 D League National Championship in the Newport News Softball League. Croall has also given much thought to the internal structure of the Gang. He has selected Rick Reams as Business Manager.

Reams stated, "The Gang plans to be active in intramural and social events, as well as in administrative and student politics. This fall we are supporting two intramural flag football teams and have already scheduled several social events."

The Gang will offer a variety of functions in which the college community may participate. Also included in the fall lineup is the O.T.H.G. membership drive.

Sigma Pi colony attends national convocation

Sigma Pi Fraternity's 35th Convocation took place in St. Louis, Missouri, August 13-17. Attending from the CNC Colony were Jeff Thomas, delegate; Bill Humphreys, alternate; and Dick Elliott, alumni representative.

Among the highlights of the convocation were a number of workshops, including financial affairs, rushing, pledging, and colony development. These workshops were attended by all three CNC members. The CNC Colony attempted to pass legislation to grant colonies a vote, which they do not have presently. Although this legislation was turned down, the effort created much appreciation and respect from the chapters in attendance.

Delegates, alternates, and guests were invited to two banquets. At the Awards Banquet, Dick Elliott of CNC received the Byron R. Lewis Scholarship award, including a plaque and \$300. This award is given to members for academic and fraternity involvement. Speaker at the Closing Banquet was Senator John T. Meyers, Eastern Illinois-Beta Gama.

The convocation concluded with a gathering of some 300 brothers, dates, and guests attending the St. Louis Cardinal-Chicago Cub game at Busch Stadium. On the return trip, the CNC representatives visited Sigma Pi National Headquarters in Vincennes, Indiana.

This past weekend several members took a "road trip" to Wake Forrest to visit the Alpha Nu Chapter of Sigma Pi. On the

return trip they visited N.C. State and Elon College, where they were presented with a beer pitcher.

Sigma Pi has also been busy organizing their meetings and activities with the help of John Broomhead, Chapter Consultant and Expansion Coordinator, visiting from national headquarters in Vincennes, Indiana. Interested men should watch for notices of Rush Week posted throughout the campus.

CAC presents bands

live broadcasts from Kingshead Inn Knocks [sic] people dead!"

The last two scheduled shows will be in November. On the 5th, Skip Castro performs with sounds reminiscent of the "Nighthawks," and on Nov. 12, "The Dixie Roadducks" make a return appearance.

Although a band is not being featured every Wednesday night, the CAC has only sacrificed quantity for quality. "We want to have quality bands and offer a wider variety of music by bringing in those bands we ordinarily would not," commented Jackson. "This semester is only the start—next semester could be even better!"
