## Former U.S. Congressman Downing lectures at CNC

(photo by Sandra Ripley)

Thomas N. Downing

by Gregg Klich

Thomas N. Downing, former Congressman, is currently teaching the political science course "Inside the Political System" evenings at CNC.

Dr. Jame I. Moore, Dean of the School of Liberal Arts, Science and Education, had asked Downing to lecture in political science at CNC when he first left Congress, but he turned down the offer. He wanted to get back to his law practice and

to have some time of his own "instead of doing what a half of a million people want me to." When Dr. Moore renewed the offer last spring, Downing accepted.

This is the first formal class Downing has taught. He says that it is "a challenge" for him. With Downing's experience, few others could do a better job of giving an inside view of the political system and what happens behind the scenes.

Downing is a native of Newport News and attended local schools, graduating from Newport News High. He received a B.S. degree from VMI and a law degree from UVA. He was elected to the 86th Congress in 1958 and re-elected through the 95th Congress before voluntarily retiring. While in Congress, he served on Merchant Marine and Fisheries, Science and Technology Committees, and served as chairman on subcommittees on Merchant Marines, Oceanography, Panama Canal, Space Science and Applications, and former First Chairman of the House Select Committee on Assassinations.

When asked about his political future, he said, "I have no plans of going back. I enjoyed it and had my share." Downing says he wants some spare time for himself to do what he wants.

Downing said that he hopes to lecture again at CNC someday if at all possible. He defined CNC as a credit to our community. "I was always behind the college, but never thought I'd be teaching here."

## Local editors describe journalism careers

by Patricia Nuckols

Bill Chandler, editor of *Metro* magazine, and Joan Johnston, *Daily Press* and *Times Herald* features editor, highlighted careers for English majors at a job seminar in the Campus Center October 6. Sigma Tau Delta English Fraternity sponsored the seminar.

The speakers discussed their jobs and tips on how to clinch a job in the journalism field. Although both stressed possessing good writing ability, they mentioned personality and being "in the right place at the right time" as contributing factors in getting a job.

Polite persistence, but not begging or pestering, is another clue to job hunting. Annoying a potential employer is not advisable. Editors tend to look for the clever, hard-working people with a keen interest in the job.

Editors seem to approve of journalism degrees when hiring people. Surprisingly, however, people with degrees in English, law, math, social science, and other areas also are often hired. This results from a need for people with a variety of backgrounds.

Ms. Johnston says people with hobbies like sky-diving are the type of daring individuals needed for feature writing. She has a math degree from Penn State.

Mr. Candler is a political science major with a law degree. Both editors, before entering the journalism world, had no real journalism training and now are successful in their careers.

**The Department of Defense and the Veterans Administration have announced plans to test a new, non-contributory G.I. Bill. For details, see page 8.**

## Sigma Pi is working to secure national acceptance

by Darlene Willett

The local fraternity of Kappa Nu took steps last semester to become the Epsilon Pi Chapter of the national fraternity of Sigma Pi. They are now operating in "colony status," but expect to be fully chartered by early next semester.

As a result of their national status and high visibility on campus, Sigma Pi Fraternity has had overwhelming response to their fall rushes. Pledgemaster Vernon Green reports that they have had "extremely favorable response and have matched or possibly surpassed the number of pledges taken by other colonies on the East Coast."

As the relatively small local fraternity of Kappa Nu is transformed into a strong national fraternity of Sigma Pi, the brothers are changing both their interests and their activities. The fraternity as a whole

is becoming more concerned about both community and campus life.

Focusing in this direction is Sigma Pi Parents' Night, scheduled for October 12. The program will inform the brothers' parents of their commitment to serve the community, their rushing and pledging practices, and the history of Sigma Pi.

Sigma Pi is now considering 22 pledges. Pledge class officers are Marc Roberts, President; Ronald Stalen, Vice President; KC Laporte, Secretary; Rich Burns, Sergeant-at-Arms; and Charlie Graham, Treasurer.

Other pledges include Steve Foretich, Richard Bowman, Thomas Olenki, Parks Coggins, Mike Hogge, Jim Harrington, Jim Hyatt, and David Crowley.

Also, Fred Corbin, Todd Anderson, Manuel Hammond, Robert Purdie, Chris Gucci, Robbie George, Stuart Pollock, Dennis Parker, and Johnny Wallace.

## Advertisements tempt students to violate Code for Academic Work

by Patricia Earls

"Research Papers," "Prewritten Research Studies," or "Outlines . . . if organization and direction are a problem"—Pacific Research offers all of these, and more, for a fee. The advertisements for *Pacific Research* have appeared all over campus, on the bulletin boards in every major department. These ads tempt the floundering student with offers of a catalog listing pre-written research papers. ". . . 10 pages/28 footnotes/8 sources in bibliography" or whatever fits the bill for a particular course.

It's all too good to be true, or without a hitch. The Academic Hearing Board points out that " . . . the use of such services is a serious violation of the Code for Academic Work at CNC."

The first paragraph of this code clearly defines the manner in which CNC handles these "prewritten research papers":

"Learning takes place through individu-

al effort, and achievement can be evaluated only on the basis of the work a student produces independently. A student who obtains credit for work, words and ideas which are not the products of his own effort is dishonest, and his behavior has an adverse effect on the standards of the College. Because this is so, willful infringement of the Code for Academic Work entails severe penalties ranging from failure in course work to dismissal from the College.

Furthermore, the ads themselves are in violation of the SA's ruling concerning on-campus advertisements. All businesses outside of CNC must advertise in the *Captain's Log* if they wish to have advertising space on campus bulletin boards.

The *Captain's Log* will not advertise these businesses, since its advertising policy states, "Prewritten research papers will not be advertised."

Not only are these services "illegal," insofar as the Academic Code is concerned, but they are also outside the SA codes for on-campus ads.

## We slipped!

The headline "Stolen purse returned" in last week's *Log* should have read "Missing purse returned." We did not intend to imply that the purse was taken from the hallway with the intent to steal. We wanted to show instead that—in light of the recent thefts on campus—there are still many honest people around.

# Campus Close-Up

## Grad school test deadlines set

The Counseling Center, located in Wingfield 116, has available for students' use Bulletins of Information and registration forms for the following:

Graduate Management Admission Test (GMAT)

Graduate Record Examination (GRE)  
Medical College Admission Test (MCAT)

Law School Admission Test (LSAT)

The booklets may be picked up at the Center Monday through Thursday from 8:00 a.m. to 7:00 p.m., and on Fridays from 8:00 a.m. until 4:00 p.m.

For your information, listed below are the test dates and the registration deadlines for these tests:

GRE	Dec. 13, 1979	Nov. 7, 1980
	Feb. 7, 1980	Jan. 2, 1981
	April 25, 1981	March 20, 1981
	June 13, 1981	May 8, 1981
GMAT	Jan. 24, 1981	Dec. 22, 1980
	Mar. 21, 1981	Feb. 16, 1981
	July 15, 1981	June 9, 1981
LSAT	Dec. 6, 1980	Nov. 10, 1980
	Feb. 21, 1981	Jan. 22, 1981
	June 20, 1981	May 21, 1981
MCAT	April 4, 1981	March 6, 1981
	Sept. 12, 1981	Aug. 14, 1981

## Horticulture Club to meet

Go forth and sow your seeds with the Horticulture Club. The next meeting will be Tuesday, October 7, at 12:30 p.m. in Gosnold-133. All meetings afterward will be at the same time and the same place on Tuesdays.

## Peer Advising now open

The Peer Advising Office, located in Room 204 of the Campus Center, is open with Student Counselor Aides available to assist students on Mondays and Wednesdays, 9-2 and 5-7; Tuesdays and Thursdays, 11-2 and 5-7; and on Fridays, 9-3. Appointments for other than scheduled times are available by calling the Peer Advising Office at ext. 7257.

## CLEP deadline is here

The deadline for registration for both subject and the general examinations for credit by CLEP is October 10, 1980, for the tests which will be administered at Christopher Newport on November 12 and 13, 1980. The Counseling Center, Wingfield Hall, Room 116, has the registration forms and any additional information may be obtained at the Center or by calling 599-7047. The College Board of Princeton, N.J., has cancelled the test periods for December 1980 and February 1981.

## Alpha Chi will meet Tuesday

Alpha Chi will hold a general membership meeting Tuesday, October 14, at 12:15 in Room 214 in the Campus Center. Topics of discussion will include fall initiation and the election of club assistant sponsors. Newly initiated members are encouraged to attend. If you have not yet

received your membership card and certificate, you can pick them up in at the meeting or see Dr. Hammer in Gosnold 116.

## Psych. Club meets Tuesday

The Psychology Club is having a business meeting Tuesday, October 14, at 12:15 in Wingfield 103B.

## Wet T-Shirt/Buns contest set

The 1980 Pledge Class of Sigma Pi Fraternity will present a Wet T-Shirt and Wet Buns Contest on Thursday, October 23. For more information, see a pledge!

## Pep Band rehearses Friday

Anyone interested in joining CNC's own band, the Pep Band, please come to CC-149 Friday at 2:00 p.m. This will be the first rehearsal.

## Attention, nursing students

On Sunday, October 26, at 3:00 p.m., members of the Old Dominion University Department of Nursing will be in Gosnold 145 to discuss the CNC/ODU Affiliated BSN Program. If you are interested in getting a degree in nursing, come meet Dr. Singer, the new chairperson; Ms. Marsha Dubbe, the Director of Undergraduate Instruction; Ms. Claire Houseman, senior level coordinator; Ms. Kay Palmer, junior level coordinator; and Ms. Esther Condon, the sophomore level coordinator. The meeting will include a question and answer period. This is an opportunity for you to get all the answers about the nursing profession and the degree.

## Pool tournament planned

The Intramural Department is sponsoring a Pool and Ping Pong Tournament. All students, administration, and alumni are eligible. Please sign up in CC-238 (Student Affairs Office) October 13-17.

## Attention, student teachers!

There will be a meeting of all students who plan to student teach during the 1981 Spring semester on Thursday, October 16, at 12:15 in N-121. If you cannot attend this meeting, please call Mr. Jenkins, Director of Student Teaching (599-7069).

## Please note!!!!!!

Deadline for Campus Close-Up is the Friday preceding publication. Information received after deadline will be printed if space and printing deadlines permit.

CAPTAIN'S LOG

## Executive Council Notes

by Stephanie Mosca

The fourth meeting of the Executive Council convened on Thursday, October 2, with the acceptance of the minutes from the previous meeting.

The Student Association will make a donation to the American Heart Association in memory of Mr. Harry Passage, the late husband of Mrs. Mary Passage, a Board of Visitors member.

A motion was passed to approve the constitution of the Baseball Club through the end of Spring 1981. After being established for one year, the club may become a varsity baseball team.

The proposed amendment to the SA constitution requiring attendance at Senate meetings by a member of each funded club was passed.

Fall Fest will be held on October 19. Many clubs on campus already have stated in which areas they will participate. A motion was passed that the Student Association pay for the ABC license for the event.

Mike Croall, President of the Student Senate, reported on the Senate meeting of September 23. The next Student Senate meeting was October 7, at which time Croall was to have proposed that the body meet every Tuesday instead of the first and third Tuesday of each month.

It was disclosed that each chapter of Grove Phi Grove must have its own constitution as well as the national constitution. A motion was passed that the Executive Council's approval of the organization's national constitution be contingent upon the CNC chapter's constitution.

New business began with a short presentation from Paul Vrooman, President of the Sociology Club. For reasons unknown, the club's president from last year failed to submit a budget for school funding. Vrooman stated that he wished to see club attendance increase. To achieve this, he wished to begin a mass mailing project in order to inform all sociology majors of the organization's existence and to make them aware of upcoming speakers. A motion was passed that the Executive Council allocate up to \$25.00 for mailing costs. After this money is spent, the organization must present a detailed account justifying the money needed.

A suggestion was made by John McCaughey, Director of Student Life, to have Buildings and Grounds construct mailboxes for all clubs and organizations on campus. They would be located upstairs in the Campus Center. McCaughey was given a vote of confidence by the Council.

## Planning & Placement News

The third Career Program for 1980-81 will be held on Wednesday, October 15, from 11:00 a.m. to 1:00 p.m. in the lobby in front of the Campus Center Theatre. The Career Program is co-sponsored by the Office of Career Planning and Placement and the Student Association.

The program will feature representatives from business and government for those students who are interested or majoring in accounting and finance. The purpose of the program is to inform students about employment opportunities in these areas. The representative will not be recruiting at this time.

Those organizations participating include Anheuser-Busch, Bendix Corporation, Coopers and Lybrand, CPAs; Eggleston and Smith, CPAs; General Electric Company, Internal Revenue Service, NASA Langley Research Center, City of Newport News Personnel Department, and the State of Virginia Auditing Office.

On October 29 the Career Program will feature economics, management, marketing and English; and on November 12, information science, mathematics, and physics.

The Department of State, Department of Commerce, and the International communications Agency currently are accepting applications for Foreign Service Officer, Foreign Commercial Service Officer, and Foreign Service Information Officer positions. Applications for the written test will be accepted up to October 24, 1980.

To be eligible for the examination, applicants must be at least 20 years old at the time of the examination; U.S. citizens; and available for worldwide assignment, including Washington, D.C. Successful

candidates and their spouses and dependent children must be able to meet rigorous medical requirements; and successful candidates will be subject to a thorough background examination.

No specific educational background is required, and no special course of study is recommended. Success in the written examination and other assessments requires broad knowledge of foreign and domestic affairs and U.S. history, government, and culture.

Attention Seniors! Please make appointments through the Placement Office, CC-208, to interview with the following company representatives:

10/17-Keebler Company; all majors for sales positions.

10/21-First Va. Bank of Tidewater; business majors for management trainees.

10/22-Computer Sciences Corp.; information science and math majors for computer programming positions.

10/22-Prudential Insurance Co.-all majors for sales positions.

10/24-Peninsula Savings & Loan Assoc.; all majors for management trainees.

The Office of Career Planning and Placement has received information about Camp Windau, a boys' residential camp located in Pittsfield, Massachusetts. They are seeking applicants for Summer 1981 in the following areas:

Water safety instructor, small craft instructors, arts and crafts, music, drama, pioneering, photography, baseball, basketball, tennis, general land sports, waterskiing, archery, general counselors, and more.

Interested students should stop by the Placement Office, CC-208.

# ENTERTAINMENT

## "States" gives dynamite performance for CNC students

by Ana Kimball

Although the crowd was unusually small, the response was overwhelming as CNC welcomed "The States" for a return performance.

After a few "minor" difficulties during the first set, the band settled into a show that was entertaining, personal, and fun. The music was solid rock, featuring a combination of originals, old remakes, and current best sellers. Among the songs performed were "Lies, Lies, Lies," "My Latest Girl," "Just Call Me Angel," "Rich Kid Blues," "Gold-Dust Woman," and "Love Stinks." The band returned for two encores that included numerous old Beatle tunes.

The members of "States" are Jimmy McDonnell, lead vocal and rhythm guitar; Butch Germano, bass; Steve Chandler, vocals, lead and rhythm guitar; Barry Scott, vocals and lead guitar; Robert Schindler, keyboards; and Morgan Hampton, vocals and drums. Songwriters in the band are Jimmy McDonnell, Steve Chandler, Barry Scott, and Morgan Hampton.

Except for keyboard player Robert Schindler, who is from New York, all the band members are from Norfolk. This may, in part, account for the success of their first album in the Tidewater area. "We consider the first album a learning

process. We were lucky to do the album on a national label," commented Butch Germano.

Production of their second album, *Preproductions*, begins in early January for release in May. The album will be on a new label—Boardwalk Records, owned by Neil Bogart. In the making for six months, the band feels this album has been planned better and with more intelligence. *Preproductions* will include eight or nine originals and one remake.

"States" has a long list of credits behind them. They have performed with the likes of LeRoux, Toto, The Carrs, and Robert Palmer. They performed with Donna Summer and Joe Namath at the Roxy in Los Angeles. They toured with Hall and Oates in 1979. They've even partied with the likes of John Belushi, Dan Akroyd, and Penny Marshall!

A performance leaves no doubt in anyone's mind of the talent these guys possess. This critic was lucky enough to top the evening with an interview. As the evening ended, there was no doubt that these guys possess the talent, personality, warmth, energy, and guts it takes to make it to the top. One of them commented that college students were their "favorites." They should know by now that "States" is one of ours!

(photo by Stuart Pollack)

## OTHG, H-E-H continue to win in intramural football

by Iggy Novo

Last Sunday brought the third week of intramural football, proving which are the teams to beat.

The day started with the OTHG against GDI. The game was pretty much all OTHG. GDI just could not get it all together. The OTHG began their scoring with an interception run back for a touchdown. GDI tried to reciprocate the score, but their quarterback was not getting enough time; thus, his passes were sometimes over or underthrown. In the second quarter, the OTHG had a fourth end goal from the 20 and passed into the end zone to make it 14-0. The second half was not much different. The OTHG marched from the 30 to the GDI 10, and then their wide receiver made a beautiful diving catch to make it 20-0. The icing on the cake came in the fourth quarter when the OTHG successfully sacked the GDI quarterback for a safety, bringing the last score of the game, 22-0.

There almost wasn't a second game between the Steel Square and the OTHGers because the Steel Square did not have enough players. With only two minutes remaining before the game would be called a forfeit, several more of their players entered the field.

In this game, the defense dominated, with the OTHGers and the Steel Square intercepting three passes each. One of those interruptions helped the OTHGers set up their first and only score, their first touchdown was called back because of a penalty. It remained 6-0 until the fourth quarter when the Steel Square intercepted a ball and ran it back for a touchdown, putting the game into overtime. In overtime, the OTHGers did not earn a single yard, but were given 36 because of several penalties, including interference, against the Steel Square. The Steel

Square in turn earned every yard by running the ball to their right for a total of 50 yards, giving the OTHGers their second straight overtime loss.

The third game had the Head-EHO-Hunters vs. the Islanders. Although the Islanders showed good speed and organization, they could not find the end zone, while the H-E-H did--and often. In the first half, it seemed as though the Islanders had a chance, holding the H-E-H to six points. It would have been 12 if a touchdown pass had not been called back. In the second half, the H-E-H opened up their artillery. They began by intercepting a pass and bringing it to the Islanders' 40 and then scored on a screen pass to the halfback. The H-E-H wasted no time and intercepted another pass at the 50. Again, the halfback proved to be too much for the defense and scampered 50 yards for yet another score, making it 18-0. The H-E-H ended their scoring surge on a 40-yard pass caught in mid-air on the Islander 10 and then a quarterback keeper to end it at 24-0.

Some players have pointed out that a fourth referee on the far side of the field might make it a little easier on the others and eliminate some of the complaints about the ball carrier going out of bounds on that side.

Next Sunday the Steel Squares play Sigma Pi at 9:30 a.m.; the OTHGers meet OTHG at 11:00; and the Islanders take on GDI, with the Head-EHO-Hunters having a day off.

## Captains see season's first win, but drop two more

by David Bean

Last week saw some changes in the way the Captains' luck had been running. On Monday, September 29, the Captains played host to Methodist College and found out the hard way about bad calls. Methodist began to press early on in the match, but the Captains' defense stood up to the attack. However, Methodist found a slight crack in the CNC defense and took advantage of the opportunity. CNC goalkeeper Philip Milburn stopped an M.C. shot, but the rebound bounced out into a crowd of players where an unidentified Methodist team member picked it up and put the loose ball past Milburn to give them the lead. Throughout the remainder of the first half, and almost all of the second half, the Captains controlled the play. The only problem was that CNC just could not put the ball in the net. The officiating was something that a lot of people would like to forget. Having only one referee to do the match (these matches are supposed to have at least two officials), the match had gotten a bit rough towards the end of the first half, and it declined rapidly in the second. The match ended with Methodist winning 1-0.

Saturday's match (October 4) against Greensboro was something that the players had been waiting for since the start of the season. Taking control of the match from the start, they never let Greensboro get a second chance to do anything. Al-

bert Abraham was the first to score as he put in the first of his two goals to give the Captains a 1-0 lead. Before Greensboro finally woke up, the first half was over, and the Captains were up, 3-0. Shariar Moosaodeh scored; then David Crowley finished the scoring for the first half.

The second half was probably the most fun the guys may have until Christmas as they joyfully ripped the cover off the Greensboro defense. Jack Pang, Richard Burns, Manny Hammond, and Albert Abraham finished putting the icing on the cake as CNC defeated Greensboro 7-0 for their first win of the season.

Just a note: CNC's first victory last year also came against Greensboro College.

Sunday, October 5, the Captains hosted their last home match for three weeks as UNC-Greensboro scored twice. They led 2-0 at the end of the first half and kept that lead until the end of the match. The Captains, according to Coach Cummings, were "outplayed." Their record is now 1-6-1.

CNC plays their next five games on the road.

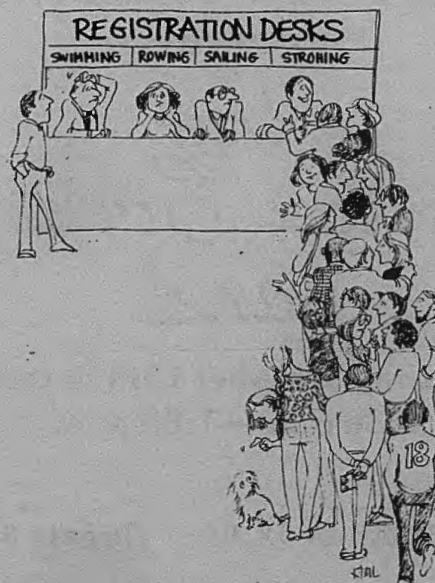

Please note: Players' names are spelled as given by coach.

## Reporter volunteers for psychology experiment

by Kim Fizer

The second semester of Dr. Samuel Bauer's Experimental Psychology class requires students to conduct experiments as part of their grade. Brenda Budlong, Hal Barnes, Terrie Cruz, and Dickie Roberts have worked together to develop an experiment to prove their hypothesis: motor skill performance is enhanced more by observational practice than by physical practice.

Step 1: using the Reflection Apparatus

"An experiment? Do I really have to do it?" I was filled with trepidation as I approached the media center Tuesday afternoon at 12:15 to begin my ordeal. I had no idea what the experiment would entail, due to my very limited knowledge of psychology experiments.

Brenda Budlong was a kindly mentor in

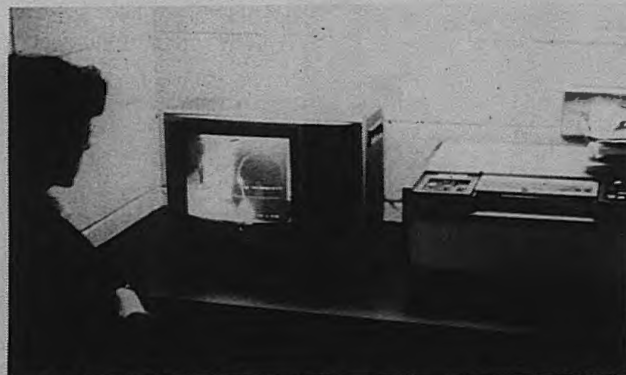

Step 2: the hypnotic Rotary Pursuit

this, uh, exercise, explaining every step to me thoroughly.

The first step in this experiment is to draw a circle starting at a specified point. The only problem to this relatively easy start is that the paper is placed in a mirrored box, and I couldn't look at the paper to draw the circle. I did not draw a perfect circle, but at least I stayed inside the lines according to directions.

After this first part, I was beginning to feel that maybe this experiment was going to be perfectly harmless. The next step was called Rotary Pursuit. The object of this was to follow a white light that was moving in a circle with a light sensitive rod. The number of seconds that the rod was on target with the light was recorded on a score sheet. I was in a little cubicle with this light for five minutes, and I almost felt hypnotized—watching that light go around and around.

Step 3: the video-tape of the Rotary Pursuit being executed (all photos by Stuart Pollock)

At the end of the second step, I was ready to do something different. I was led into another cubicle for the third step, where I was told to watch a video-tape of someone doing the same thing that I had

just finished doing. After this step, I returned to the first cubicle and followed that light with the rod again. The second time my score increased.

Instead of watching the video-tape, other subjects have been told to do other things. One condition is to have a two-minute break before repeating the Rotary Pursuit. The other condition is to have the subject complete a math test within a four-minute time limit. The purpose is not to measure one's mathematical prowess but to get the subject's mind completely off of the Rotary Pursuit before repeating that step.

After repeating the Rotary Pursuit, I was debriefed. Brenda Budlong explained the steps fully and their purpose.

An experiment of this nature is relevant to any activity that can be taught or learned by having the student watch someone else do it for a certain length of time. Hal Barnes plans to apply this technique to table tennis.

On Thursday, October 9, the students will compile their data from the experiment to determine the statistics necessary to complete their project. Individually, they will prepare a report which will have to meet the standards set by the American Psychology Association.

As to whom the 24 other guinea pigs were in this experiment: the library staff and any passerby in the library was asked to play victim—that is, subject. The experiment took place in the Media Center. Brenda Budlong smiles while saying that most of the people asked were willing to cooperate.

The video-tape equipment used belongs to the Media Center. The reflection apparatus and the Rotary Pursuit belong to the Psychology Department, and they have been used in other experiments.

When asked what their next project will be for that class, Budlong replied, "Shaping a rat."

Philosophy Club ..... Noon-1 p.m.

## TURNSTIDE

# EDITORIAL

## For the record . . .

There's a rumor. Have you heard it? The **Captain's Log** has been forbidden by the administration to print any more letters about Dr. St. Elmo Nauman.

Well, that's exactly what it is--a rumor. And, as most intelligent people know, more rumors are based on wishful thinking or the morbid delight of a scandal than on actual truth.

The **Captain's Log**, in the past three semesters--which is the scope of our knowledge of the publication--has not been forbidden to do anything, with the possible exception of exceeding our budget.

The decision to print letters to the editor lies solely with the editor-in-chief. In May 1980, the editor, with the then newly-appointed assistant editor (who has since moved into the booby slot), decided that there were other issues besides the Nauman controversy to be aired. Then, as now, the editor decided that the **Captain's Log** should not serve as a personal vehicle for one particular cause. This is the reason letters concerning Dr. Nauman were printed on only one issue.

Regardless of the present editor's stance on this issue, the policy remains the same.

The **Captain's Log** is not opposed to airing any grievance. We feel that everyone at CNC should have the right to air his/her grievance about anything. When one issue is prevalent, as in the Nauman case, perhaps something should be done. But CNC has more "injustices, indignities, and peevs" than this one.

Yes, everyone, the "bad guy" is the **Captain's Log**, not the faculty or the administration. By the by, no letters to the editor have been printed this semester--except the clarification of the Senate elections by Jamie Powell--because none have been received.

## Also . . .

The **Captain's Log** would like to point out, as an example of our policy concerning peevs, David Byrn's weekly column, "The Crow's Nest."

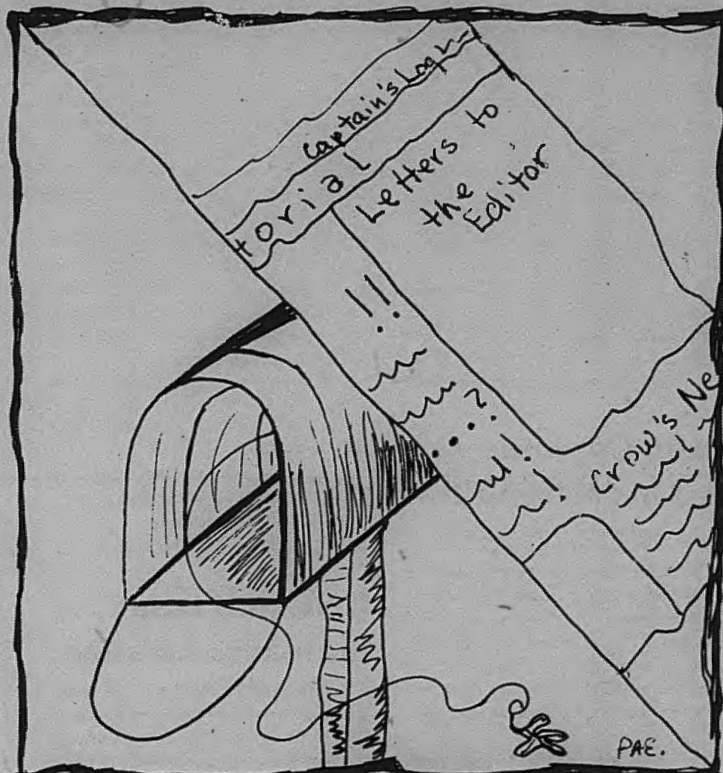

Although we do not always agree with his points, or even feel that they are worthy enough of discussion to be printed, we do run his column.

This is known as freedom of speech.

## Crow's Nest

### Appreciate a good insult

by David Byrn

The practice of insulting people has been with us for many years, and no one knows who let loose that first ego-piercing one-liner that is ancestor to all of the great squelches of today. The subjects of insults are quite diverse--everything from personal appearance to intelligence.

Now insults generally fall into two categories: those insults made in anger and those made for artistic appreciation. Whether I am the victim or the assailant, I take an insult for its creativity, for its content. I relish the perfect comeback like a drunk loves a bottle of wine. Yet I do not condone superfluous insults hurled for the express purpose of mental injury; to these people I wish a massive toothache. There is no greater tragedy than hurting a person mentally, unless they are practitioners of this lowly indiscretion. But then again, how can you fight fire with fire when they do not have a match to begin with?

The subject matter of an insult is all too important for an effective squelch. There are all kinds to choose from; they just have to be suited to the victim. There are insults about ugliness, stupidity, density, stinginess, alcoholic propensity, dishonesty, ancestral roots--even dear old Mom (be careful with this one; using it on the

wrong person may lead to a most untimely death).

Oh, what a glorious feeling it is to leave someone speechless. Lines like: "You are so ugly, that when you were a baby, your mother fed you with a slingshot." "Oh, yeah? Well, you are so ugly that when you look in the dictionary, a picture of your face is beside the word ugly." "Is that so? Well, you are so stupid, it would take you an hour to cook minute rice." "Ahhh, go crawl back under the rock that your mother found you under." "Oh, so now it's my mother, is it? Well, fella, your mother wears industrial strength pantyhose." "Oh, yeah?" "Spare me, sir, with such reply, I lay mortally impaled upon the barbs of your rapier wit." "What's rapier?" "About 20 years in the slammer, idiot!"

At this point, insults usually start to involve lewd suggestions that I am not allowed to print.

Take this simple suggestion: guard your words when angry; insult for its own sake is a sign of a twisted character. To all those that don't agree, I am not worried; in fact, I am rather secure. At least the names for parents on my birth certificate read, "Mr. and Mrs." and not "We the people..."

## Club Baseball registers first win of fall season

by Mickey Boyer

Led by Billy Peterson's four hits and a stout, five-inning pitching performance by Dennis Parker, the Christopher Newport Club Baseball team registered their first-ever win last Sunday against the Newport News Apprentice School. The capper came in the bottom of the ninth when Peterson collected his fourth hit, a three-run homer over the left field fence.

CNC started things off with a two-run outburst in the first inning. The Apprentice School then followed with one run in their half of the third. The Club Captains answered with two one-run innings in the third and fifth. With the score tied at four all in the bottom of the bottom of the ninth, Marty Shavers led off with a single.

He was bunted around by Hank Bonney. Parker, running for Shavers, was thrown out at home in a foiled squeeze play attempt. With men on second and third, the stage was set for Peterson's home run.

Mark Vogelien collected the win, coming in for David Talbert, who relieved Parker in the sixth.

The Club Captains out-hit the Builders, 13-8. Peterson is currently CNC's leading hitter with a .666 pct. average.

On October 2, the ball club traveled to Richmond to play Smithdeal-Massey in a double-header. Hopes were high as the team, playing on a junior league field with student umpires, post two by scores of 13-1 and 8-1, respectively.

CNC (1-3) goes against Virginia Wesleyan tonight, Thursday, Oct. 9, at Menchville High School at 6:00. They need your support.

Batgirls for this year's club team are Debbie Wescott and Michelle Pelky. Scorekeeper is Mickey Crain.

## Lady Captains go 1-3 in volleyball

by David Bean

The Lady Captains continued their roller-coaster ride through this season. To their dismay, the ride has been on a downswing. Last Tuesday, September 30, they played host to Longwood and Hampton Institute. They lost their first match to Longwood in straight sets, 15-4, 15-9.

The women's volleyball team then played H.I. and beat them in three sets, 9-15, 15-6, and 15-11.

CNC's next match was Friday night, October 3, which found them on the road at Louisburg College. The trip was a long one, and the losses to Louisburg (15-9, 15-6) and to Spartanburg Methodist (15-9, 15-6) didn't help much.

Coach Bert Jones seems to be somewhat apprehensive when he talks about the way the team could play. "We are not playing up to our expectations. At times we have to put four experienced players on the court due to rotation because we just don't have the six experienced players that we need."

The Lady Captains' record stands at 1-5.

Lady Captains go up to block opponent's spike.

Manny Hammond forwards the ball in 7-0 rout of Greensboro.

## CNC golf team increases balance

The CNC Fall Golf Team has shown progress toward developing team balance. For the first time in the school's history, the team shot successive rounds of 330 or better.

The first day the team shot 329 and followed the next day with a 330. Individual scores were: Tommy Highsmith, 83-81 (164); Mike Ruggeri, 80-85 (165); Mike Hott, 85-81 (166); and Kevin Hoare, 81-83 (164). Although his scores did not count, Greg Goetz had the best day of any CNC fifth man, 85-90 (175).

Team averages after seven rounds of match and tournament golf are Tommy Highsmith, 80.7; Mike Hott, 82.2; Mike Ruggeri, 84.2; Kevin Hoare, 85.0; and Greg Goetz, 88.0.

The next match is at Newport News City Park on October 10, 12:30 p.m., against the Apprentice School and Virginia Wesleyan College.

## Test program set for new, non-contributory G.I. Bill

by Bob LaVerriere  
Coordinator of Veteran Affairs  
Assoc. Director of Admissions

So as to encourage enlistments and re-enlistments in military service, two federal agencies will soon undertake a one-year test program of a non-contributory "G.I. Bill." This is pertinent to the more than 500 veterans currently attending CNC on the old G.I. Bill.

Through the Department of Defense Authorization Act of 1981, signed into law by President Carter on September 8, 1980, that agency, together with the Veterans Administration, will conduct a one-year test program which would not require that service members contribute to an educational assistance fund.

The basic provisions of the one-year test program, under the jurisdiction of the Department of Defense and administered by the Veterans Administration, are: (1) The program is limited to those enlisted service members who enlist or re-enlist after September 30, 1980, and before October 1, 1981 and is limited to those who are graduates of secondary schools; (2) participants must have 2 years of active military service which begins after September 30, 1980, and before October 1, 1981; (3) entitlement would be one academic year of training for each year of enlistment, with a maximum of four (academic) years of entitlement; (4) entitlement would expire ten years from discharge or retirement.

The payment provisions of the new system would differ from the current one, in that educational assistance payments not to exceed \$1200 per academic year would be made to veterans, as well as a \$300 monthly payment for full-time students. The maximum payment of \$1200 would be made to cover the veteran's tuition and fees, with the monthly check serving as a subsistence allowance.

Another departure from the "old" G.I. Bill would be the lump-sum payment of the educational assistance allowance to servicemen who re-enlist. The opting for this payment would preclude the use of benefits on a monthly basis, however. Lump-sum payment would be 60 percent of entitlement, and would be made at the time of re-enlistment.

Also, if otherwise entitled, the service member may elect to transfer all or part of the entitlement to his/her spouse, or to dependent children, upon re-enlistment.

Most veterans now attending CNC receive a monthly educational assistance allowance, which is determined by the number of credit hours for which they are registered. Also, the veteran's marital status and number of dependents are determining factors in the amount of money that is awarded monthly.

Persons who entered military service after December 1976, in order to be eligible for V.A. educational assistance, must have contributed from \$50 to \$75 per month into an educational assistance fund, which is later doubled by the federal government. The new system, if the test program succeeds, would provide incentives for entering military service, especially since contributions by the service member would not be required.

The Captain's Log will provide further information on the test program as it becomes available. Also, if you care to see a detailed synopsis of the program, visit the Office of Veteran Affairs, located in Trailer #4, Room "E."
