Attention Over-extended Administrators, Faculty, & Staff:

If you're feeling overwhelmed with a lack of staff or resources to accomplish the goals of your department or administrative unit, don't despair! You may be able to get valuable volunteer assistance from a group within the college.

The LifeLong Learning Society, a program for individuals of retirement age, has a record membership this semester of 196 persons. These members have been schoolteachers, NASA scientists, financial experts, and have held a host of other high-profile positions. A number of the members have indicated a willingness to volunteer their services to the College, for example, as guest speakers, tutors, clerical aides, chaperones at student functions, and assistants at athletic events.

The LifeLong Learning Society (LLS) members want assignments that are meaningful and that will allow them to use their considerable skills and abilities to benefit the College. Many of them have lived all over the world, have experienced many different cultures, and have a wealth of information to share.

If your department or office could use these kinds of services, please write a memo to the Coordinator of Volunteer Services, LifeLong Learning Society, Room 147, Campus Center and list the specific job or tasks that you wish to be done by the volunteers.

Questions? Please call the LLS at 594-7568.
