

The Captain's Log

Volume XI, Number 12

Christopher Newport College

Newport News, Virginia

November 29, 1979

Long lines marred pre-registration this week. (photo by Bruce Laubach)

Large turnout causes chaos as students try to pre-register

For years Christopher Newport College has witnessed lines of students weaving throughout its halls as early registration begins. Monday, November 26, was no exception as the same pattern was repeated, although to a much greater extent. Eight hundred ninety-three students presented themselves for the first day of pre-registration as compared to the 737 that were encountered last year at the same time.

Although the Registration News and materials were distributed at the same time last year, the Registrar's Office was not prepared for the onslaught of students. Last year approximately 20 people were in line at 7:15 a.m. as compared to the 150 people encountered Monday morning at 7:05 a.m. This surge warranted the opening of the registration process 35 minutes earlier than scheduled.

Registrar John McCaughey stated that three reasons might be considered as responsible for the turnout. "The faculty made themselves available for advising earlier this year (last year advising was held during registration week) and as a result, more students had completed forms. Another reason could be the awareness by freshman of the importance of pre-registration. Possibly summer orientation was responsible for this because it was stressed that in order to get the freshman courses required, students had to be first in signing up since these courses filled quickly. A third reason could be attributed to the fiscal constraints encountered this year that have

made it so there are less sections available this year than in previous years."

McCaughey suggested some possible remedies for the situation that could be implemented next fall during pre-registration. These consist of registering by class (ie. seniors have first priority, juniors next, and so on), alphabetical rotation (all A's register, then Z's, all B's, then W's etc. with the starting letter rotated every year), classified students having priority in registering over unclassified students, or to keep the current system of first-come, first-served.

McCaughey encourages students to submit ideas or recommendations to his office so that a more efficient method for registering students can be devised.

Many of the problems encountered in Monday morning's line were not the fault of the Registrar's Office but a case of the students abusing each other. Many students cut in line, joined friends who were already in line, or gave their forms to friends to process for them. The latter was quickly eliminated as the policy was established that a student could only submit one form.

The problem was certainly unfortunate, and, with students and the Registrar's Office working together, hopefully it will be resolved so that the problem won't occur again. A committee is in the process of developing with the Student Association, the Registrar, and faculty representatives to come to an agreement on how to effectively solve the dilemma.

Va. Natl. Democratic Caucus proposes students on Boards

The Virginia National Democratic Caucus has endorsed a plan which would place a voting student member on the boards of visitors of Virginia's state-supported colleges and universities. By their endorsement, the VNDC committed themselves to lobbying in favor of the proposal in the upcoming session of the General Assembly.

"Students not only deserve a voice on the boards, they can also make a positive contribution to the overseeing of the institution," said Daniel S. Alcorn, a third year law student at the University of Virginia and Vice-Chairman of the VNDC. He explained that board members often feel out of touch with student concerns and would appreciate having within their ranks a source for information on student needs and opinions.

"The plan would add one member to

each board and allow the student governments at each school to determine the method for selecting the representative," he added. The UVa Student Council has endorsed the student board member idea, and plans to hold a direct election of the member should the plan be approved by the General Assembly.

"A number of other states have gone to this system," said Alcorn. He pointed out that Virginia governors have appointed recent graduates to governing boards in the past, but criticized these appointments as "political pay-offs which may or may not result in the concerns of the students being represented." Alcorn continued, saying, "The student voice on the board of visitors must be more than a political favorite of the sitting governor—he or she should be an enrolled student who can fairly represent the attitudes of the current student body."

Alpha Chi inductees await Sunday's ceremony. (photo by Bruce Laubach)

Alpha Chi holds induction

On Sunday, November 18, 12 candidates were inducted into CNC's honor society, Alpha Chi. Dr. Garry Hammer and Dr. Robert C. Coker, club sponsors, and Lee Peters, chapter president, officiated at the candlelight service.

The following students were found to meet all the scholastic criteria set forth by the society and were duly inducted:

Brenda D. Budlong, Susan M. Blaylock, Joseph Contarino III, Susan Gail Gardner, Suzanne N. Howell, John Kevin Hutcherson, Mary Ann Kennington, Michael D. Kirby, Joan Rosenbaum, Pamela K. Scull,

Velma Schwartzenturber Stauffer, and Elena M. Watson. Ellie Michlos was inducted in absentia.

Dr. Robert Edwards, CNC's Vice President for Academic Affairs, was the guest speaker. In his remarks, he challenged the candidates not only to continue their efforts at academic accomplishment, but also to strive to cultivate the wisdom to apply this knowledge for the benefit of mankind.

Membership in Alpha Chi is open to students in all fields of endeavor. To be considered for membership, one must maintain an overall 3.5 grade point average, including transfer credits; have attained junior standing; and have completed 30 hours at CNC. Inductions are held each semester.

Security additions strengthen force

by Cheryl Seymore

Due to the efforts of the Student Association, the CNC security force has been strengthened. Effective November 1, security has taken on a new schedule, supplementing the force with a patrolman in addition to Chief Capehart during the daytime hours; two officers from 4:00 p.m. until midnight; and a fire watchman Monday through Thursday from midnight until 6 a.m.

According to Mary Turner, former

chairman of the Security Committee, "The resolution adopted by the Senate was sent in on September 25 and within the following weeks it was resolved by the administration. We are very pleased that the administration has listened to and considered a student proposal."

Aside from patrolling, Chief of Police Johnnie Capehart has many other time-consuming duties, including attending meetings, supervising his force, and completing paperwork. Capehart remarked,

"This new schedule has helped out very much."

According to Turner, "There may still be times during the day when a patrolman will not be on patrol, but this will be on a minimum basis. The security force's duties are numerous and still another officer could be used. We [the Student Senate] encourage students to write our state senators in hopes that money can be allotted in the CNC budget to strengthen our security force even more."

Aid checks ready for first semester

First semester financial aid award checks for BEOG, SEOG, NDSL, and VSSL are now ready for pickup in the Business Office.

Campus Close-Up

Hower will address class

Mr. Jack Hower of the Steelworkers will speak to Dr. Durel's Industrial Sociology class on Friday, November 30, in N-122, 10:00-11:00 a.m.

All students are invited. A question-and-answer period will follow his presentation.

Sickle Cell screening set

The Biology Club and Black Student Association are sponsoring a Sickle Cell Anemia screening and education program conducted by the Peninsula Sickle Cell Anemia Association of the Tidewater United Way Chapter and the Virginia Sickle Cell Anemia Awareness Program of the Medical College of Virginia (VAS-CAP).

The screening will be held Dec. 6 in CNC's Campus Center, Rooms 207 and 209, 9:00 a.m.-5:00 p.m., and at the Phyllis Wheatley YWCA in Newport News from 7:00 to 9:00 p.m.

Library announces Dec. hours

For the convenience of students, the library announces special December hours. On the weekend preceding final examinations, the Captain John Smith Library will be open extended hours, as follows:

Saturday, Dec. 8: 9:00 a.m.-10:30 p.m.

Sunday, Dec. 9: 1:00 p.m.-10:30 p.m.

Copies of the holiday and exam week

schedule through January are available at the circulation desk.

All library books and materials are due December 7, the last day of classes; but the loan period will be extended through December 15 if all fines are paid. Following exam week, library materials will again be checked out for the full three-week period. This procedure will ensure that no one will be faced with library materials due during the Christmas break without, at the same time, preventing anyone from checking out necessary study materials during examinations.

Future teachers must apply

Attention Elementary and Secondary Education Students:

If you have completed at least 30 semester hours, it is time to file an *Application for Admission to the Teacher Education Program* with the Education Department. Application forms may be obtained in W-226. If you have questions, see an advisor in the Education Department.

Trip to Spain still open

Twenty students and members of the community will be spending New Year's Eve in Madrid, Spain. After the New Year, the group will travel to Sevilla, Cordoba, Granada and Torremolinos. The trip begins on December 27 and ends on January 11. The arrangements include round-trip air fare from Norfolk, first class hotels with daily Continental breakfasts, and many other features. Professors D. Doris Reepen and C.D. Scheiderer will accompany the group during their tour of Spain.

It is still possible for additional students or members of the community to join this group for the trip. Until December 10, as many as eight more travelers could be accommodated on a first come, first served basis. For complete information and reservations, call Prof. Reepen at 599-7107 or Prof. Scheiderer at 599-7109.

Log sets hours for semester break

The *Captain's Log* offices will be closed during exams and through semester break.

Typesetting services will be available through Dec. 21 and again after January 7.

'Faculty Forum' topics announced

Christopher Newport College announces the topics for December for its radio program *Faculty Forum*, which is aired on WGH-FM each Wednesday evening at 10:00 p.m. Moderator for the series is Dr. James Morris, professor of history at CNC.

Dec. 5--Dr. Nancy Bazin, ODU, "The Women's Movement and Literary Criticism"; Dec. 12--Dr. Betty J. Diener, ODU, "Women in the Work Force"; Dec. 19--Dr. Peter A. Poole, ODU, "Kissinger and Indochina"; Dec. 26--Dr. Wallace Wilkins, ODU, "Mental Illness: Metaphor and Myth."

James S. Powell

Skiing course omitted from Registration News; other errata noted

Due to an oversight, the course P.E. 140-98, *Beginning Skiing*, was omitted from the Spring 1980 Registration News. Registration will be on a first come, first serve basis, and the class will be limited to 25 students.

The class will be held at Wintergreen Ski Resort and at Christopher Newport College. The CNC classes will meet January 2, 3, and 4, and the course will continue at Wintergreen January 7-11.

The package includes a nine-hour pre-slope conditioning and classroom instruction and a small group lesson daily at Wintergreen.

The total cost of the course is \$197.00, which includes four nights' lodging in two- or three bedroom condominiums (double occupancy); ski rentals for learning the Graduated Length Method (starting on 100 cm. skis); transportation to and from Wintergreen in a modern, lavatory-equipped bus, and all-day lift tickets for five days of skiing.

Dr. Robert Cummings, a certified GLM instructor, will teach the course and accompany the class to Wintergreen.

Registration will be held December 10-14 only, 9:00 a.m.-4:30 p.m., in Ratcliff 131. For more information, call Dr. Cummings at 599-7027.

Speech 203, *Oral Interpretation of Literature*, was left out of the Registration News. This course will meet MWF, 11:00-12:00, in Wingfield 202. Speech 201-02 (MWF, 11:00-12:00, Wingfield 202) has been deleted from the Spring Semester schedule.

Philosophy 308, section 01, should not be entitled *Contemporary Philosophy* in the list of courses for the spring. The correct title is *Philosophy of Religion*. The course will consider traditional problems in the philosophy of religion such as proofs/disproofs for the existence of God, miracles, etc. At the same time, the course will call into question the domination of the discipline by the concerns of Western theism. Consideration will be given to the nature of a cross-cultural philosophy of religion.

Because of the conflict of Classical Civilization 201 "CLST 201" it was decided to change CLST 202-02 to CLST 201-02. This will allow the students to take Mythology I this spring to meet the Humanities distribution requirement as corrected by the Curriculum Committee in the November 8, 1979, memorandum. The date, time, room and instructor will remain the same.

Career Planning & Placement

Operations Research Systems Analyst Intern Program. The Department of the Army offers an entry level program in Operations research/Systems Analysis (ORSA). Locally, the program is offered at Fort Monroe.

The entry level ORSA intern program runs for two years for the purpose of qualifying participants in ORSA at high levels of responsibility. Participants serve as advanced trainees in ORSA. Some typical duties are: gathering and correlating data for analysis, analyzing computer generated data, synthesizing data into a form usable in writing report, and editing analytical portions of studies and reports.

Professional development is pursued on the job and is supplemented by periodic classroom instruction. Attendance at one of the excellent courses given in operations research at the Army Logistics Management Center (ALMC) located at Ft. Lee is routine for new analysts. The courses run up to 12 weeks in length and provide an outstanding working knowledge of ORSA. The entrance salary is paid at GS 7 grade level (\$13,925 per year). Promotions are essentially non-competitive, but require satisfactory performance appraisals from the supervisor and completion of all regulatory requirements. At the end of the first calendar year, promotion to the GS 9 level occurs (\$17,035 per year).

To learn more about whether you qualify for the program, contact the Placement Office, CC-208.

The U.S. Office of Personnel Management has issued its State Salary Survey. The survey is designed to assist state gov-

ernments with their employee compensation determinations.

The survey covers 31 occupational categories, with 104 titles generally described as administrative, professional, or technical. They include positions which (1) are commonly used by state governments, (2) employ relatively large numbers, (3) represent a new program or one of special significance in state administration, or (4) have key importance as a basis for adjusting state pay plans.

For most occupations, three benchmark levels are described: beginning, experienced or supervisory, and administrative or executive. The descriptions follow a standard format, i.e., summary definition, degree of supervision and responsibility, examples of duties, and usual qualification requirements.

Recruiting Schedule: 12/4--Virginia Commonwealth University Dept. of Urban Planning interviewing all majors for graduate students.

The Office of Career Planning and Placement has received the bulletin from the U.S. Office of Personnel Management for summer jobs with the Federal Government. For those persons required to take a written test, applications received by December 14, 1979, will be tested during January, 1980, and applications received after December 14 and postmarked no later than January 11, 1980, will be tested in February, 1980. No applications will be accepted after January 11, 1980. Interested students may pick up a bulletin from the Placement Office.

entertainment

Sound Solution

by Rick Dunn

Bob Welch's new album is entitled *The Other One*. Apparently this is the other Bob Welch because this record is totally unlike either of his first two efforts.

A couple of months ago, Welch hosted NBC's *Midnight Special*. On the show he jammed with some of rock's best--John Mayall, Paul Butterfield, Elvin Bishop, etc. Maybe something rubbed off because his new LP is just basic rock and roll.

After listening to *Three Hearts*, I figured Welch was an incurable garagehead. The songs were corny and permeated with that string section which was sort of a Welch trademark. Surprisingly, *The Other One* seems to have been recorded with a complete disregard for commercial viability. Slick pop hooks are abandoned for the sake of straight rock and roll.

This back-to-the-basics feel is due in part to the fact that Welch assembled a band and stuck with it throughout the album. He sings and plays lead guitar. Donny Francisco is the drummer, David Adelstein handles keyboards, Todd Sharp plays rhythm guitar, and Brad Palmer is the bassist. And no studio string section!

"Rebel Rouser" is the lead-off cut. It's a thumping rocker that sounds more like Tom Petty than Bob Welch. Welch tops it off with an impressive guitar solo.

The fashionable thing to do this year is to put a reggae sounding song on your album. Welch obliges with "Love Came 2x." It's amusing, but nothing fantastic.

"Straight up" features some strange synthesizer work by Adelstein. Welch displays a flair for the modernistic on this number, which would be at home on any Brian Eno album.

The second side contains the album's best track. It's an instrumental called "Oneonone." Palmer and Francisco push the song along with a pounding disco rhythm. Over the churning music, guest artist Roger Voudouris lays down an impressive acoustic guitar solo. This is primo stuff for FM airplay.

The Other One is a bold step for Mr. Welch. Maybe it only sounds good because *Three Hearts* was so bad. Who cares? It's great to see a major performer abandon a safe formula and go for something totally new.

Wizzard entertains apathetic crowd

by Ana Kimball

Rock 'n' roll set the mood Wednesday, November 14, as the band Wizzard played to a less than enthusiastic crowd.

From Northern Virginia, Wizzard's members are: Kris Pettit, keyboard and vocals; Mike Fath, guitar and vocals; Ned Liebman, drums; Steve Hatfield, bass, keys, and vocals; and Mark Mancini, guitar, bass, and vocals. Along with a few originals, Wizzard played tunes by Van Halen, Heart, Led Zeppelin, and The Cars.

According to Mark Mancini, "This is the best and furthest [in distance] we've gone." Unfortunately, because of "personal changes," the members will be going their separate ways as of the end of this month.

Wizzard's performance on Wednesday night warranted more of a response than was received. It's unfortunate that CNC won't be able to bring them back.

(Photo by Carl Ricks)

Steve Hatfield belts it out.

Va. Wesleyan plans benefit concert

The Virginia Wesleyan College Student Government Association, in cooperation with Whisper Concerts, FM 99, and Peabody's, is sponsoring a benefit concert for the Tidewater Heart Association at 8:00 p.m. on Tuesday, December 4, at Peabody's in Virginia Beach.

The concert will feature the band Black Oak Arkansas in their last concert appearance and will be hosted by Mike Arlow of FM 99. There will be a special guest ap-

pearance by the East Coast Band, which is donating its services to the Heart Fund.

Tickets for the Dec. 4 benefit concert are now on sale at Peaches, Tracks, and Variety Records, or from members of the VWC Student Government Association. Advance tickets are \$4.99 each. If tickets are still available the night of the concert, they may be purchased at the door for \$5.99.

CNC Choir performs with Philharmonic

The Virginia Philharmonic has announced a new alliance with the Christopher Newport College Concert Choir to be showcased in its concerts at Chrysler Hall in Norfolk on Saturday and Monday, December 1 and 3, at 8:30 p.m.

Cuban-American pianist Jorge Bolet will be guest artist on the program, which will spotlight both choral and pianistic masterworks.

The collegiate choir of 75 voices will perform two compositions with the orchestra under Russell Stanger's baton--Rachmaninoff's "Three Russian Songs" for chorus and Beethoven's "Fantasia" for

chorus, orchestra, and pianist. Mr. Bolet will be the pianist. Dr. James R. Hines is choir director.

Soloists from the choir for the Beethoven work will be Vesta Lord and Della Melton, sopranos; Elizabeth Atkinson, alto; Wayne MacDonald and Terrence Lawler, tenors; and Carlton Cheek, bass.

Mr. Bolet will also be soloist in a performance of Franz Liszt's *Second Piano Concerto in A major*.

Tickets for the concerts may be reserved by calling 623-2310, or from the Peninsula, 380-0040.

cinema scope

by Elena Watson

The Runner Stumbles is an absorbing tale set in the 1920's about a priest on trial for the murder of a young nun in a small, rural town.

Father Rivard (Dick Van Dyke) is a good priest who sees his assignment to such a remote area as a punishment for his radical ideas. He has become depressed with his ministry. But then Sister Rita (Kathleen Quinlan) arrives, bringing youthful optimism to the small parish and school. Not only does she plant flowers at the church; she also teaches the children to sing "My Rumbleseat Gal."

She is quite a contrast to the other two nuns at the school, both much older than she. When it is learned that these two have consumption, there is much concern for Sister Rita's health, which leads to her moving into the rectory.

The housekeeper, Mrs. Shandig (Maureen Stapleton), is quite upset at the idea of the young nun living in the rectory, and even more so when she learns that Father Rivard has lied to them, saying that the Monsignor approved Sister Rita's move.

Soon the whole town seems to be talking about the priest and nun who take walks together and share the rectory. Because of this, they stop speaking to each

other until one night after a fire, when they break down and confess their love for one another.

The story is told in flashbacks which occur during Rivard's imprisonment and trial. He keeps telling his young lawyer (Beau Bridges) that he is innocent, but the town is anti-Catholic and seems already to have convicted him.

One of the really strong points of this film is the performance of Dick Van Dyke as the priest; his pain and agony are subtly portrayed and allow Father Rivard to maintain an air of dignity. Kathleen Quinlan's Sister Rita is also well portrayed, as she brings warmth and beauty to the town as well as to Father Rivard. Maureen Stapleton's Mrs. Shandig is a vivid impersonation of a loyal housekeeper.

Aside from the acting, the film is also well-constructed and written. The photography is slightly nostalgic in tone to suggest the period, and includes the use of the iris fadeouts.

The Runner Stumbles is a well done film about a forbidden love that manages to go beyond mere soap opera or emotionalism, through the use of sensitive portrayals and direction.

It is rated PG and is playing at the Newmarket Mall IV Theater.

Theatre presents three one-act plays

by Patricia Earls

CNC's Theatre Department is once again active, presenting three one-act plays.

The Stronger, by August Strindberg; *Moppett and Straightly*, by Dave Ballard; and a short collection of mime performances by Bill Curby will be presented Friday, November 30, and Saturday, December 1, at 8:00 p.m. in the Campus Center Theatre.

The Stronger, directed by Terri Price-Irwin, will star Doris Verna and Cathy Stubbs as two women meeting in a cafe. The scenario depicts a "war of wills" between the two women, each of the two attempting to prove herself the stronger.

"Moppett and Straightly" deals with intuition. In this scenario, two men take part in the passing along of knowledge from one of the characters to another. The play is directed by Pickett Bugg, who also performs in it as "Straightly."

Bill Curby, who plays Moppett, will also present a short collection of mimes which he has created.

Live, from Newport News--

It's 'Saturday Morning!'

December 1 marks the opening of two new shows at the Peninsula Nature and Science Center's Planetarium.

At 11:00 a.m., "Saturday Morning Live" debuts, a live program aimed at giving the audience a guided tour of goings-on in the heavens, from the drama of ancient constellations to modern mysteries of the universe. This program will be offered on a continuing basis every Saturday morning at 11:00 a.m., and is open to all ages. Children under six are free.

At 2:15 p.m., "Star of Wonder," the Planetarium's traditional Christmas show, returns. This presentation investigates

Self-Help sponsors community project

Operation Self-Help, an organization designed to aid the college community, is sponsoring a program to aid the "outside" community. For the next two weeks, Operation Self-Help will be collecting canned and dried food goods for local charity organizations for their use over the holidays and during the coming year.

According to Chris Lovell, the organization's director, this project is being conducted in an effort to further establish the college and the students as an aid to the community and to local organizations. "Apart from aiding the community as a whole," Lovell said, "I feel this type of project helps us, as individuals, to realize the needs of those people less fortunate than ourselves. I hope that all CNC students will help us in this effort."

Any student who wishes to contribute to the food drive should place his food goods in specially marked collection boxes located throughout the college or bring them to Room 230 of the Campus Center or to the Office of Student Affairs.

the nature of the star that led the Magi to Bethlehem nearly 2,000 years ago, and, aided by the Planetarium projector, recreates the sky as it might have appeared at the time of Jesus' birth. From there, events are traced forward to the present and our observance of Christmas each December 25.

"Star of Wonder" runs through December 30, with showings on Thursdays at 7:30 p.m., Saturdays at 2:15 and 3:45, and Sundays at 1:30, 2:30, and 3:30. Special showings will be held on December 17-21, 27, and 28 at 2:30.

COUNSELINE offers tapes for private counseling

Do you ever have questions you are too embarrassed to ask? Or questions you feel ill at ease asking? Let COUNSELINE help. This phone-in self-help tape service is offered by the CNC Counseling Center to all students and the community at large. The tapes run approximately five to eight minutes. The service is anonymous. Why not take a break when you are

studying for exams? COUNSELINE hours of operation are Monday through Thursday, 8:30 a.m.-7:00 p.m.; and Friday, 8:30 a.m.-4:00 p.m. Simply call the COUNSELINE number-599-7010--and a staff member will play a tape for your private listening (see topics below). Total anonymity is assured.

James Jarvis reaches for victory.

Dennis Casey rises to the occasion.

CNC Captains crush Hampden-Sydney

by Mickey Boyer

CNC's version of "The Pit" witnessed a basketball game Saturday, November 24, that included everything. Excellent defense, a well-run offense, and good crowd spirit led the Captains to their first win of the 1979-80 season with a 71-60 shellacking of the Hampden-Sydney Tigers.

The relatively "warm" atmosphere of "The Pit" did not dampen the crowd's spirit as the Captains see-sawed between pulling away and keeping the score relatively close, suppressing two major

Hampden-Sydney rallies, one in each half.

Dennis Casey and James Jarvis each responded to their own personal fans, alias "Casey's Corner" and "Jarvis Slam Dunk Club." Casey scored ten points and grabbed ten rebounds while Jarvis did a one-handed gorilla jam with 7:18 left in the second half.

Capturing team honors in scoring was Larry Eure with 15 points. Casey followed with ten points. Otis White led CNC rebounders with ten. Also making

Lady Captains win opener 75-61

by David Bean

The Lady Captains opened their 1979-80 basketball season at home against Delaware State on Wednesday evening, November 15. For their first game, they showed good poise and determination when things got tight. The Captains took the lead early and never trailed in the ball game. Even though the passes were a little slow at times, the shooting a little off, and the team's size small, the Lady Captains always pressed, looking for that errant pass that could be stolen and put to good use.

By the end of the first half, CNC led Delaware State 41-33, but the score was not quite indicative of the style of play. Delaware State had fallen behind too far at the start of the game and never quite caught up. The Captains lead ranged from a high of 15 points to the lowest at nine. Linda Richardson, the outstanding transfer from Hampton Institute, led all scorers with 37 points. Gwynn Drewry, a junior who had 15 points for the night, also had 21 rebounds to pace the CNC attack. Sophomore Patty Kelliher had 12 points for the Captains.

The Captains won 75-61, but both teams played good ball. To the victors went the spoils, and to the Captains, their first win of the year. The girls were 21/37 in the free throw department, giving them 57 percent from the foul line.

The Lady Captains then traveled to

take on Longwood College on Saturday, November 17, and there they experienced defeat for the first time. They lost to Longwood 76-59. The Lady Captains made up for that, though, and Richmond was the target of their vengeance on November 20. The Lady Captains crushed (in every sense of the word) the Spider-

(Continued on p. 8)

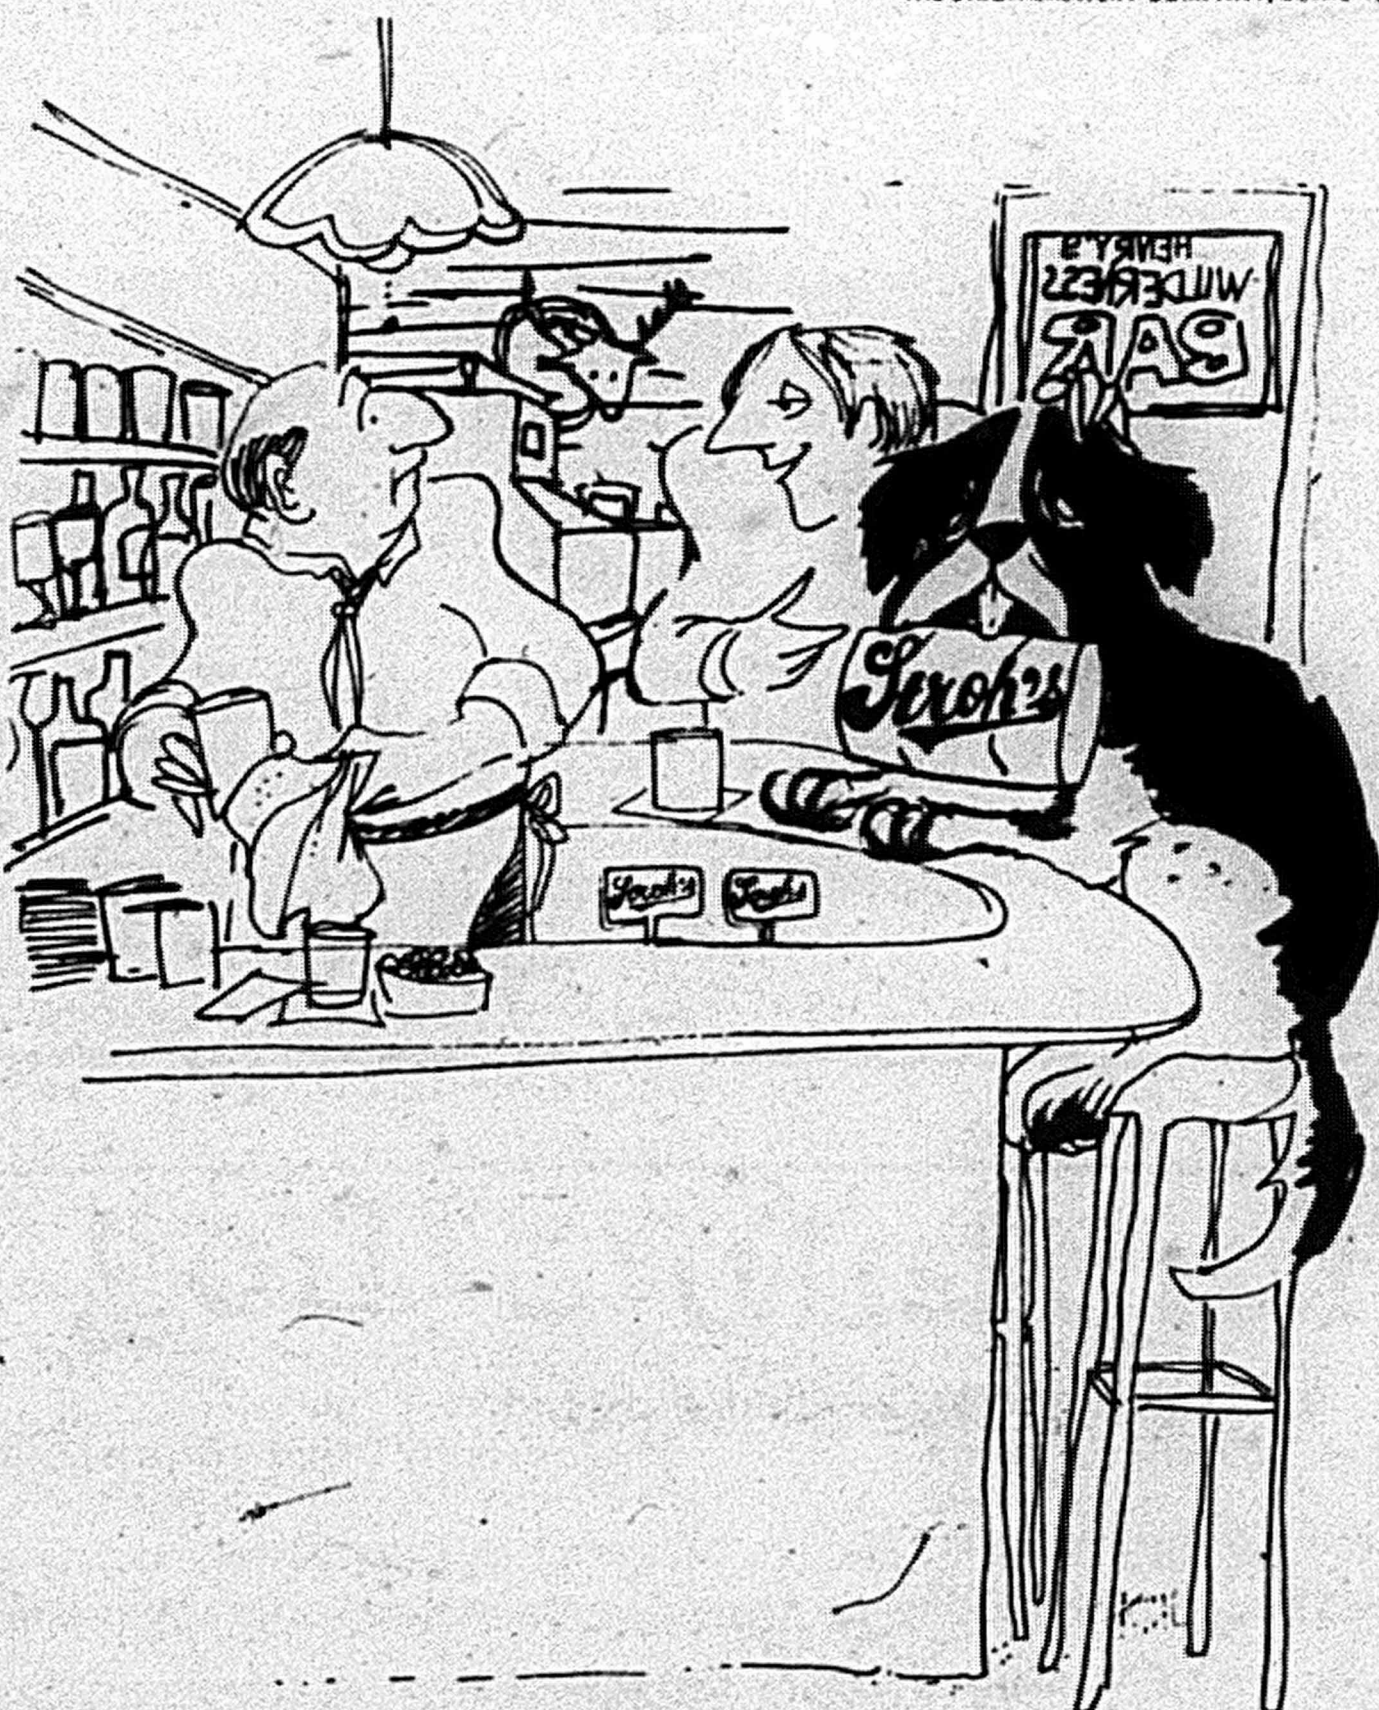

Intramurals end Sunday

by Hobert Corbett

Due to inclement weather, Intramural Director Dennis Casey and his assistant, Jeff Thomas, have been trying to figure out some way to squeeze in two rained out football games. This task has not been an easy one, but the decision has been made to have one final week of football in which each team will play their rivals.

This Sunday, December 2, will be the last week of Intramural Football. The 11:00 game will pit OTHG #1 and OTHG #2. Kappa Nu and TAS will be playing for third place when they square off in the 12:30 game. The game of the year that will decide the championship of CNC will be between the EHO's and the Headhunters. Both teams have identical records at 7-1. An important factor to note is that when each team won its games, the other team had one or two key players absent. If everyone is healthy, the game should be quite a battle.

Classified ads are free to all CNC students, Faculty and Staff. Ads run for four (4) consecutive weeks, unless we are advised otherwise.

TYPING--Term papers, etc.; \$1.50 per page; 380-6046 anytime.

LOST--Calculator on the second floor of Gosnold; Litronix brand; if found, please call 838-2797 anytime; **Reward!**

CNC artists, photographers, etc., who are looking for a place to display their work should contact the Counseling Center (W-116); selected works will be displayed in the Counseling Center for one semester to be followed by a new selection for second semester; any medium and any subject will be considered; if interested contact Mrs. Bryant, Judy St. Pierre, Carol Siemon, Katie Lewis, or Glen Vought at 599-7046.

Ski Equipment--Nordica Boots, 10 1/2; Rossignol Skis, 175 cm.; Solomon 502 bindings; Scott poles; will sell as a set or separately; best offer; call 877-4498, ask for Rick.

Ski Killington, Vt.--for only \$179.50; Dec. 16-22 or Dec. 31-Jan. 7; 5 mountains, 65 trails, includes transportation, lodging, lift tickets and entertainment; For more info., call Drew (804) 489-0393.

For Sale--MG Midget Parts; radiator, \$25; bumper, \$5; and other parts at reasonable prices; call 599-0970.

For Rent--4-room apt.; available Dec. 1; ideal for music, biology or planning major; \$100.00 +; hourly bus to CNC; downtown--try it! Call 596-0364.

Typing--will type term papers in my home; corrections and footnotes extra; price negotiable; call 877-6909.

For Rent--3 furnished bedrooms for CNC students; available Jan. 1980; full house privileges; hourly bus to CNC; double, \$80.00 per person; single, \$120.00; downtown--try it; call 596-0364 for free two-color brochure.

Services--Let us type your term paper, reports, etc., also market your manuscripts; Ex Libris Literary Agency & Typing Service, 827-8491.

Wanted--responsible, reliable and conscientious individual needed to transport 2nd grader from Riverside Elem. to Yates Elem. daily. Call 599-7022 or 595-1433 after 5 p.m.

Will Buy unwanted class rings and other gold items, by weight at top cash. Call 838-1813 anytime.

Typing--fast, reliable service: term papers, reports, letters, resumes; please call Sue at 851-0985 (Hampton).

For Sale--1973 Chevrolet Vega station wagon, 2500 miles on rebuilt engine; uses no oil; has Mallory ignition, leaders, Thurst muffler, new B.F. Goodrich radial TA tires, traction bars, 4-speed transmission, AM/FM radio; looks nice; economical; \$1200 or best offer; call 380-0668.

For Sale--Javelin, AMX Parts: '69 door, \$20; '69 rear end, \$20; other '70 parts available; call 599-0970.

ATTENTION STUDENTS

Students seeking part-time and full-time jobs should make an appointment in the Office of Career Planning and Placement.

PART TIME JOBS

Sales Representative, Accountant, Security, Yardwork, Receptionist, Tax Preparer, Receptionist/Secretary, Telephone Solicitors, Youth Director, Bus Driver, Santa Claus, Canvasers, Babysitter, Cafeteria Monitor, Tax Associate, Construction Helper, Protection Officer, Sales/Stock Clerk, Cashier, Teller, Math/English Tutor (4th Grade).

FULL TIME JOBS

Instructor/Assistant Professor of Business--minimum of Master's degree in business; must be able to instruct introductory economics; previous teaching experience preferred. **Programmer Analyst**--graduation from a standard high school or equivalent, supplemented by a training in a recognized standard course of computer systems programming; at least two years' experience in programming complex applications using BAL or COBOL, one year of which must be as a Programmer Analyst or equivalent; graduation from an accredited 4-year college with a computer related degree may be substituted for part of the experience requirement. **Alcohol Counselor II**--B.A. from an accredited institution in Psychology, Sociology, or related area; two (2) years of professional experience with alcohol clients and their families for rehabilitation purposes; additional qualifying experience may be substituted for degree in a related alcohol abuse program; preference may be given for experience above the minimum in a drug abuse program. **Electronic Technician**--thorough knowledge of basic electronics and radio communications. **Programmer**--RPG-II language, FORTRAN & COBOL helpful. **Computer Systems Analyst**--two years' experience on Honeywell 6000 equipment, including TDS, IDS, GMAP, or GCOS internals; proficiency in JCL. **Computer Programmer Analyst**--B.S. Computer Science or Math; experience in FORTRAN and Interactive Aomputer Graphics preferred.

editorial

Give us a break!!!

With final exams arriving soon the pressure has begun to mount. Not only do we have to concentrate on keeping up with the reading and homework assignments scheduled for the last week of school, but we are also burdened with trying to fit our jobs and studying for exams around it.

Most suggestions to provide a week for studying between the last week of classes and final exams have been met with great resistance. Naturally we don't want to extend the semester any more than we have to, so we have a suggestion.

The last scheduled week of classes could be cancelled to provide students with the time they need to study.

Our justification for this is that most of the time classes in the last week are a lot of busy work, goofing off, or catching up. Nothing is more frustrating than to sit in class and watch a professor furiously try to finish the six or seven chapters he did not cover during the semester in one or two class periods because the material happens to be included on the final exam. Even more frustrating is trying to absorb these chapters for the final exam in one weekend when two or three of our professors have pulled the same stunt.

What we would like to see is for the professors to consider us as human beings and not computers and possibly plan their semester scheduling a little more wisely in the future.

Captain's Commentary

by Judy Hrul

One of the departments at CNC which students sadly neglect is the Modern Language Department. It is not only neglected, it is avoided like the plague. This is particularly interesting in view of all the recent publicity regarding the sorry lack of training in foreign languages at all levels of education across the country.

It does little good to point out that learning a foreign language is supposed to be an integral part of a liberal arts education. The "agony" of learning a foreign language is something the majority of students prefer to skip. They also feel it has no relevance to the professional aspect of their education. But this is where they are dead wrong.

The world of commerce and trade becomes more international, more tightly linked and interwoven every year. Numerous concerns in Virginia and Tidewater as in other parts of the country have dealings with foreign countries. It doesn't matter if you're a major in business, economics, accounting, natural sciences, management information science, whatever—it's an asset if you can add the ability to speak and read a foreign language to your resume. There are large sums of money to be made by those who are willing and able to travel to foreign countries and the opportunities to do so are expanding constantly in every professional area.

It's true, of course, that most foreign professionals speak English. Or they have an interpreter available to translate conversations and negotiations. But there is not a more pathetic sight than an otherwise capable and competent American professional floundering and totally dependent on someone else to interpret the sounds and conversations around him or her; dependent and trusting that every-

thing is being translated as competently and precisely as stated; missing all the important side remarks and nuances in the foreign language. It's no coincidence that most foreign professionals speak English and other languages besides their native tongue.

Many foreigners are amused about Americans' pretensions to history and culture but they absolutely ridicule our inability to cope with foreign languages and cultures. The foreign professional who entertained you so suavely during your business trip is busy telling dinner party anecdotes about your ineptness and inability. You may have gotten a good deal. You probably could have done better.

Learning a foreign language in college won't prepare you for total fluency in any country. But it will give you a solid foundation and pave the way. It's the first one that's the hardest to learn.

Ed. Note: The writer speaks from ten years' experience as an interpreter-translator in Europe.

Seniors-- Take note

There will be a preliminary caucus of all seniors who plan to graduate in May 1980. It will be held in the Admiralty Lounge (the room next to the Pub) on Tuesday, December 4, at 12:15 p.m.

The purpose of the caucus is to discuss the graduation speaker and other pertinent details of the graduation as well as to give out important information pertaining to filing dates. The caucus is being sponsored by the Student Association.

Letters to the Editor

Dear Editor:

Working in an office with the thermostat set on 65° in order to save energy is very uncomfortable. I realize the necessity for this; we will dress warmly even though it is difficult to type with gloves on.

The most amazing thing to me is, however, how much energy we are saving when it is necessary to turn on the air conditioner in order to keep the temperature at 65°. When our office is a bit crowded and the manpower makes the temperature warmer than 65°, the air conditioner comes on in order to take it back to 65°. It seems a paradox that the air conditioner must be turned on to maintain a 65° temperature—that is completely defeating the purpose of energy conservation.

Ella Walker Mitchell

Dear Editor,

How can anyone in their right mind say that the so called sculpture for the new administration building represents three ships? Let alone being three ships, is this even art? Not by my judgement.

Who's responsible for this eyesore? I for one do not want my campus being cluttered up by such things. Did the faculty, staff, and students have a say so in what type of sculpture is to be erected? I sure didn't.

How much is this "work of art" going to cost us? It's not worth a plug nickel. (If it's being donated you can see why!) I wouldn't waste my money on such a monstrosity.

Shouldn't people be able to relate to a work of art? How can anyone relate to these things? They are an insult to the entire art world. May these "ships" sink back to where they belong. *The scrap pile.*

Michael R. Wiese

Dear Editor:

I'm submitting this reply to the recently published Captain's Commentary concerning a new curriculum proposal: the requirement for all full-time day students to take an occasional night class.

After attending CNC for the last three years at night or on a part-time basis while working full time, and attending full-time in the day for one semester, I have had the "privilege" of observing both college worlds, night and day.

To recommend an occasional required night course for CNC students is absurd. The basis for this recommendation, as printed in your Captain's Commentary, was that we day-students could "add greatly to our educational experience" and "meet people with professional pursuits" who could bring valuable and interesting insight and perspective into the classroom. The Commentary said this would help us to understand the real world. What about we students who are just the

opposite from the night people? Those of us who go to school full-time during the day and work three or four nights during the week. How would this proposed "requirement" affect us?

A large number of full-time day students whom I know at CNC hold some sort of part-time job that *does* take up additional time and *does* lend to the understanding of "the real world."

The November 8th Captain's Commentary gave justifiable admiration for those people who have to attend classes at night. But let's not get carried away by proposing a night class requirement for *all* day students. How about observing and understanding the problems and "odds" against we full-time day students, before recommending a mandatory night class requirement that may adversely affect a great majority of the student population?

Alan J. Lamoreaux

Dear Editor & those whom it may concern:

We students wish to submit the suggestion that one (or more) statues in a classical manner be placed in the Greek Garden, the secluded and beautiful spot near the entrance to the theatre, in the Campus Center. We think that such statues would truly enhance the Garden, and, by extension, the entire campus. It is our suggestion that, with the assistance of some students and members of the art department, the statues may perhaps be made on campus by members of our college. Some of the pieces of sculpture which have been done by students in the Sculpting Class here on campus are of a quality that would lend enchantment to our Greek Garden, and to commission such a work for our campus would, we think, be a fine recognition of their work, as well as an honor to our school.

We hope that this suggestion will receive the attention, and action, that is due it. While working to improve our school, let us appreciate its Beauty [sic], and give appropriate recognition to the talents of its students.

Heartily,
Jean Keckler, Shelley Anderson,
Karen L. Baker

Dear Editor,

The members of "Currents" would like to take this opportunity to express our appreciation and gratitude to the Student Association Attorney General, Gary Bromley, and Vice President of Student Affairs Dr. Charles Behymer for their fine efforts in securing the first office "Currents" magazine has had in its history at Christopher Newport College. "Currents," the literary magazine of Christopher Newport College, which publishes the literary efforts and art works of the students, has been troubled by vandalism and lack of space in which to work. This

(Continued on p. 8)

CNC wins opener Lady Capts. at 2-2 Library adds new photocopier

(Continued from p. 5)

an unexpected appearance and delighting the crowd with his passes was Rod Terry. Terry, not expected to play until December, scored seven points, grabbed one rebound, and displayed his wizardry in handling the ball.

Coach Bev Vaughan, who stated that his team would be more of a run-and-shoot team than in recent years, proved just that to the thundering applause of the spectators.

The junior varsity team did not fare as well against Richard Bland of Petersburg. CNC led at half-time, 39-32, but Richard Bland sent the game into overtime at 71-all. The Statesmen emerged victorious with a 78-75 win.

Mark Adams led the Baby Captains in scoring with 16 points. Adams also grabbed 12 rebounds and blocked three shots. Mark Paquette also scored 16 points for the Captains, but this was not enough to overcome Richard Bland's efforts.

Blue-White game set Captains' pace

by Mickey Boyer

The annual Christopher Newport Blue-White Game on Wednesday evening, November 14, resembled a cross-town rivalry instead of an intra-squad game. The teams, consisting of both varsity and junior varsity squad members, played the game with intense hustle and desire, something that Coach Bev Vaughan hopes will carry on into the season. The final score was 74-66, with the Blue Team on top. However, the score was of little importance, as the purpose of the game was to find out the capabilities of each player.

Highlighting the action for the Blue Team was freshman Otis White. Six-foot-eight White, heralded as the largest player ever to wear a CNC uniform, grabbed 15 rebounds--five in the first 90 seconds--and scored 16 points.

Leading the way for the White Team was Mike Wacławski, scoring 19 points.

Using the Blue-White game as an indication of the season, this should be an exciting and successful year.

Letters

(Continued from p.7)

situation has now been corrected by Mr. Bromley and Dr. Behymer and we are confident that we can now serve the student body of Christopher Newport College better. The staff of "Currents," now located in room 204 of the Campus Center, will begin keeping office hours starting with the spring semester. And we now welcome student output and opinion of what the students would like to see in "Currents." Again many thanks to Mr. Bromley and Dr. Behymer for their efforts.

Last but not least, out thanks go to Dr. [Jim] Moore and Mrs. Elizabeth Cooler for their aid in furnishing our office.

"Currents" staff

(Continued from p. 5)

ettes by the score of 87-50. Again, the team of Linda Richardson and Gwynn Drewry paced the Captains. Richardson had 20 from the floor and eight from the foul line, with 20 rebounds. Drewry had only 12 points, but she took down 22 rebounds, which helped the team.

Teammates Patty Kelliher had 13 and Nessie (Might Mite) Freeman put in 14 points for the Captains. These four were the only ones who scored in double figures.

The rollercoaster ride continued when CNC journeyed to Norfolk November 24 to play Virginia Wesleyan in their home opener. The shark eating Captain Quint in *Jaws* is an adequate comparison of how the Lady Blue Marlins took apart the Captains. The 96-61 Va. Wesleyan victory was a nightmare. Coming into the game with only seven players, Coach Phil Lee knew that their backs were against the

Another service has been added to the library. A photocopying machine with reduction capabilities is on loan by a company at their own expense. In addition to reducing copies at a 50% reduction, the Minolta photocopier has other special features which include the ability to copy light originals such as blue or purple colors. It will also accept document-size

wall. The Lady Captains ran into foul problems early in the game. Linda Richardson was caught with three fouls in the first half and then left the game with 12 minutes to go in the second half when she picked up her fifth personal foul. She had 13 points in the game. Drewry put in 18 and Patty Kelliher added 16. The Blue Marlins were paced by sophomore Sharon Walden and Sandy Klingmeyer, whose total points were half of the team's score (Walden's 25+Klingmeyer's 23=46).

The Lady Captain's record is now 2-2.

items (17" x 11") as long as one doesn't object to having the copy reduced.

Because of the special features, the cost of copying is \$.10 per copy. However, with the possibility of copying two pages at once through reduction, one may still copy two pages for \$.05 per page.

The trial machine is located on the first floor in the periodicals room. The old photocopying machine has been moved to the second floor near the reserve room. Change for both machines will be kept at the circulation desk on the first floor.

If enough copies are made during the trial period, the company will allow the library to retain the machine.

PLEASE READ CAREFULLY:

1. No final exams will be given during the last week of classes.
2. Students are required to take all of their examinations at the time scheduled, except:
 - a. Where conflicts occur
 - b. for illness
3. Applications for individual changes in

the schedule should be made through the Office of the Registrar by December 7, 1979. All applications must be approved by the instructor.

4. Any student who is absent from an examination because of illness or other emergency situation should notify the Office of the Registrar. That office will in

turn notify each instructor of the communication.

5. No excuse on the grounds of illness will be accepted unless it is certified in writing by a physician. This excuse should be processed through the Office of the Registrar.
