Dean's Search Committee goes into final phase:

candidates narrowed to five

By Ann Catherine Braxton
news editor

A committee of faculty members, administrators, and a student in search of a new dean for the CNC School of Business and Economics has narrowed its search down to five candidates.

According to Susan Casey, an assistant professor of Marketing and Management who chairs the committee, the committee began its work in the Fall of 1985, advertising nationally for a dean to replace Dr. Algin King, who left his post to return to full-time classroom teaching.

The advertisements stated that the college needed candidates with "terminal degrees in business and/or economics or experience in business administration, human relations, public service, and fund-raising." The candidates also had to qualify for senior ranking in the faculty.

The 79 candidates who applied were narrowed down to 21 by two essay questions: 1. What is the role of the Dean of a school of Business and Economics? 2. What would you do to generate support from the community?

There are now five candidates up for the position. Three final candidates will be submitted to the Vice President of Academic Affairs on Wed., Feb. 19 and he will select the new dean with the President's approval.

Richard Hunter, who has served as the acting Dean since King stepped down, is one of the five candidates. Hunter has acquired business experience with Allied Chemical Company and Maida Development Company. He received his MBA in Investments and Banking from New York University.

The second candidate is Rowland G. Baughman, the Asso-

ciate Dean at Central Connecticut State University. Baughman has been teaching since 1971 and holds a D.B.A. from George Washington University.

Donald C. Darnton chairs the Department of Business Administration at West Virginia State College, has served as President of Missouri State Southern College, and holds a Ph.D. in Economics from the University of Michigan.

L. Aubrey Drewry, Jr. has taught since 1955 and holds a Ph.D. from the University of Virginia. He is currently the R. Hugh Daniel Professor of Business and Free Enterprise at Birmingham Southern College.

Lastly, Terry L. Maris has been teaching since 1976 and holds a Ph.D. in Organizational Behavior from the University of Nebraska. He is the Assistant Dean of the College of Business at Eastern Illinois University.

Photo by Bob Turnita, staff photographer

Walter Moody scored three points in overtime Sunday, and pushed The Captains to a win; they stand second in the conference. Ask in the athletic department whether or not they won Wed. night's game, putting them closer to the finals!

Report: Schools now overly dependent on Star Wars money

Courtesy of College Press Service

(CPS) — Universities, enjoying a new infusion of research money for Star Wars research, now rely on the Pentagon at a level not seen since the height of the Vietnam War, a private study reports.

Some of the schools, moreover, worry they've become overly dependent on the Pentagon.

The Department of Defense, once again the sugar daddy of university graduate programs, increased funding for academic research to \$930 million in 1985, compared to \$495 million in 1980, an 89 percent increase, the Council on Economic Priorities reports.

The council traces much of the money to the Strategic Defense Initiative (SDI), the so-called Star Wars program.

"We're concerned about SDI research, that it's accelerating a growing dependency on the Pentagon," says Leslie Gottlieb, spokeswoman for the council.

"Half of the federal dollars for math and computer sciences now comes from the Department of Defense," she says, "as well as 82 percent of astronomical funds and 56 percent of electrical engineering's."

The Council on Economic Priorities monitors national security, the environment and corporate social behavior. Its report was the latest in a series the group has issued criticizing SDI.

Receiving the bulk of the Pentagon's favors in 1985 were

Massachusetts Institute of Technology (including its off-campus facility, Lincoln Labs) with \$59,686,000. The University of Texas-Austin received \$5,672,000; Georgia Tech Research Co. (Georgia Institute of Technology's off-campus lab), \$5,586,000; Johns Hopkins University, \$2,894,000; and Stanford Research Labs, \$2,655,000.

MIT-Lincoln Lab's share, comprising 71 percent of all SDI education awards, left it dependent on the Department of Defense for 59 percent of the school's and lab's combined budget—a total of \$303.5 million, the study says.

"Here at MIT, plans are already underway toward transferring more research people to SDI programs," says MIT physicist Vera Kistiakowsky. "And at the same time, non-military sources are decreasing."

If MIT puts all its eggs in the Pentagon basket, Kistiakowsky fears subsequent cutbacks in SDI funding would leave the school overstocked with Star Wars specialists who have no conventional programs to research.

"It will be like the early seventies, when we had record unemployment among scientists," she says. "I'm not, nor is anyone, saying 'stop all research.' But this massive funding is too much in too-narrow areas. It's distorting the national research balance."

On the other hand, "SDI funds

may be our safest bet," Georgia Tech researcher Bob Cassanova says. "It's my understanding that SDI will be exempt this year (from budget cuts)."

Star Wars funding is protected from the first round of the automatic federal budget-balancing cuts mandated by the Gramm-Rudman law. But programs may be vulnerable to the across-the-board cuts in 1987.

Most SDI research at Georgia Tech has been "incrementally funded," Cassanova notes, meaning the Department of Defense can increase, decrease or shift research funds according to its changing needs, thus avoiding long-term commitments to the school.

Despite such uncertainty, Dr. William Rhodes, an electrical engineer at Georgia Tech, says his department already has increased recruiting for SDI-related research. Rhodes conducts research in optical computing for SDI.

"I'm sure (federal budget) cuts could affect us," he says. "We could be overextended fairly easily."

Rhodes estimates SDI funding now accounts for five percent of Georgia Tech's electrical engineering budget. At present, cutbacks could eliminate one professorship.

But the recent recruiting push may change that, as the school banks on increased optics research during the next few years.

Saunders to lecture on Woodrow Wilson

Dean's Colloquia Continues

Dr. Robert Saunders, professor of history at Christopher Newport College, will present a lecture entitled "Women in the Life of Woodrow Wilson" at noon on Fri., Feb. 28, in the Administration Building auditorium. Saunders' talk, the third in the Dean's Colloquia Series for this year, is open to students, faculty, and the general public with no admission charge.

The talk, based on evidence found in the first 50 volumes of Arthur Link's monumental *Papers of Woodrow Wilson*, will discuss the relationship between Wilson and the most significant women in his life — his mother, his two

wives, his three daughters, and an acquaintance who may have been his mistress. It will illuminate Wilson's private life and reveal much about men-women relationships in the late 19th and early 20th Centuries.

Saunders, who holds B.A. and M.A. degrees from the University of Richmond and a Ph.D. from the University of Virginia, has taught at CNC since 1970. He was a Fulbright Scholar in Singapore in 1980-81 and has published numerous articles on Southern history. He is completing a monograph on Wilson's political and social values.

SA constitution needs work

By Diana Dely
opinions editor

As the Student Association elections are drawing nearer, I thought I'd read the SA constitution to find out exactly what the duties of the SA are. Several people, including myself, have been wondering whether the current SA has been fulfilling its responsibilities.

Many students do not know what the SA is and what its responsibilities are. Well, I have read the constitution over and over again, and I know even less than I did before. The constitution, which was revised in the summer of 1985, consists of nine pages of ambiguity.

The constitution says that the SA must appoint members to various committees, as far as I can tell, these committees are supposed to hold meetings. What these meetings are about, I have no idea.

The document does become

more specific for the procedure to follow to charter a club, organization or interest group. If you are trying to charter such a group, the constitution will be informative. If you are not starting a club, oh well.

I also found out that the SA Vice President for Student Affairs and the Vice President for Academic Affairs are responsible for the publicity of the SA elections. I guess we'll soon find out how well they perform in that capacity. They also determine what qualifications a person must meet to be a candidate for office. I can't wait to see what these are.

That is basically all I can gather from the constitution. It is littered with such words as *can*, *may* and *if*. It does list the SA's duties (I think), but in such a way that I can't quite fathom what the duties are.

So back to the question: has

the current SA fulfilled its responsibilities? We're back where we started from: what are their responsibilities? I'm still looking for the answer to that one.

There is one other thing about the constitution that bothers me: the section on impeachment of SA members. There are two ways to do it. The first is to have an SA member present a motion to impeach another member. After two weeks the SA votes on the motion and two-thirds must approve it. The second way is for one-fourth of the student body to sign a petition to impeach a member. The SA votes on the petition, and a two-thirds majority is needed for the impeachment. Either way, we, the student body, have no decision in the matter. Remember that when you vote in the elections. You will not be able to retract your decision later.

Letters

Dear Editor:

Here are the facts about the renaming of Newport Hall. Perhaps knowing them will help readers on both sides of the issue to understand better why many at the College avoid looking at the new sign on campus.

The decision to rename Newport Hall was made by the Board of Visitors. For reasons known only to the Board, none in the College community were consulted or informed regarding this decision: neither students, alumni, staff, nor faculty. The faculty was told only that "a building" would be renamed and rededicated early in the spring semester.

During the last week of the fall semester, some faculty members discovered what was about to occur. We drew up a resolution requesting that the Board honor Mr. McMullan by naming one of the three unnamed buildings after him, not by renaming Newport, our most historical building. Half of the members of the faculty signed this resolution, including virtually all senior faculty (full and associate professors).

As Vice Chairman of the Faculty, Dr. Jean Pugh delivered

this resolution to the Rector of the Board. There has yet to be a response from the Board, or if there has been, it has not been made known to the faculty.

Some student reporters attempted to get the story of the renaming to the students, through the last 1985 issue of *The Captain's Log*. For reasons known only to her, the *Log's* editor would not print the story.

The combination of secrecy and censorship effectively blocked these eleventh-hour attempts at protest made by concerned faculty and students.

I fear that many have confused the issue (the renaming of Newport Hall) with the person (the Honorable Lewis A. McMullan). As Ms. Dely reiterated in the Feb. 13 edition of the *Log*, no one in the College community objects to our honoring Mr. McMullan. It is indeed appropriate that we honor him for his dedicated work on behalf of the College. Many in the College community remain unhappy, however, about the manner in which he was honored.

These are the facts about this issue. I hope they have been of some help.

A Senior Faculty Member

Dear Editor:

I'm afraid that I must agree with Cynthia Engelkin in her assessment of the Newport/McMullan issue. You gave some pretty weak arguments against the name change.

First, to the idea that we shouldn't change the name because people don't know who Mr. McMullan is - I say 'what better way to let them know?' And for that matter, I'll bet 50% of the incoming Freshmen couldn't list Christopher Newport's major accomplishments.

Second, I question your assertion, Ms. Dely, that "the majority of students and faculty" disagree with the name change. In fact I have found that many faculty members and older students are pleased with the name change. They are old enough to remember the leadership of Mr. McMullan in the birth and growth of CNC.

If our current local legislators were as brave we wouldn't be facing the impending "death spiral."

Since Lewis McMullan was the "captain" of sorts of this institution, it is appropriate that our flagship building bear his name.

Charles Patrick Rocky

Dear Editor,

For the first time in the years I have been associated with CNC, I am truly disappointed. On Fri., Feb. 7, I attended CNC's annual Homecoming Dance at the Chamberlin Hotel, and to my dismay, do you know how many CNC Alumni I saw? A total of five, including myself. The only reason we five happened to be there was because we each still had close personal contacts on campus. Had it not been for those contacts, we too would not have known about Homecoming. In a time when support for the college is crucial because of the impending budget cuts, how can the alumni be neglected? How can we be expected to support our alma mater when we are not being informed?

Christopher Newport is a very important part of me, but if she wishes to forget me, then I too can forget. In closing, I would like to raise this challenge: I have written to my delegate, how many of you can say the same?

Ignacio Novo
Class of '83

Dear Editor:

Once again a few manage to make many look bad. On Fri., Feb. 7, we had our annual Home-

coming Dance at the Chamberlin Hotel. All who attended seemed to enjoy the band. It was a festive evening, and a first for the College in crowning two Homecoming Queens.

However, in the course of the evening, there were several incidents of vandalism which can be directly attributed to individuals at the dance. One hundred small international flags, belonging to the Hampton Lions Club, were stolen and distributed to those attending. The sign to the Great Gatsby room was stolen, two exit signs were dismantled and stolen, one guest room door was destroyed, and one fire exit door torn from the hinges. This is not the idle damage that occurs when a large group of people gather. It is malicious and totally uncalled for.

I do not expect that those responsible will come forward and settle up, although I have had assurance from the manager of the Chamberlin Hotel that no charges will be pressed. It is a shame for me to have to write this letter. Look inside yourselves and determine if you are guilty or knowledgeable of those who are. Maybe there should be no Homecoming Dance in the future.

Doug Clark band: 30 and still going

By Kathy L. Hall
staff writer

"Doug Clark and the Hot Nuts" performed Wed., Feb. 12, as a part of the week long Rush festivities. The concert was sponsored by Sigma Pi fraternity.

Doug Clark and the Hot Nuts, from Chapel Hill, NC, sport six members in an interesting variety of ages.

Their lead singer, Beverly Hight, kept the crowd dancing with her powerful, yet soft vocals.

Sidney Bradie on lead guitar, also contributed his singing talents for the lead vocals on such favorites as Eddie Murphy's "Party all the Time" and also a Culture Club "Top 40" hit.

Rounding out the rest of the band were Al Russell on saxophone, Tommy Gladston on keyboards, Willie Hill on bass guitar, and Wayne Gateman on

soundboard.

The show started at about 9:30, but really did not start picking up on the crowd until about 10:30. Not only the "Top 40" was popular with the dance crowd, but also their beach music had a lot of people on the floor moving to the music.

The highlight of the evening had to be when the band had a sing-along to "My Ding-a-Ling" and pulled people on stage out of the audience.

It just went to prove that they still can have a good stage show as well as good dance music to keep the audience on its toes.

Another interesting fact about the band is that, according to Al Russell, the band was actually formed about 30 years ago.

They still can keep their audience alive and dancing after all of these years!

Cellist to perform at CNC

Mary Fraley, cellist, a long-time favorite on the CNC Monthly Concert Series, will be presented in a recital on Sat. evening, Feb. 22, at 8:15 p.m. in the Campus Center Theatre.

A native of Maryland, Ms. Fraley received her music training at the Oberlin Conservatory of Music, the Juilliard School of Music, and at the Longy School of Music, in Cambridge.

Ms. Fraley has performed throughout the United States and Europe both as a recitalist and as a soloist with orchestra. Among her recent notable recitals in the United States have been those at the Phillips Collection in Washington, D.C., at the Walters Gallery in Baltimore, and at the Piccolo Spoleto Festival in Charleston.

Of special interest is the fine instrument she plays. It was built by Nicolaus Amati in Cremona, Italy, in 1675.

In her CNC recital, Ms. Fraley will perform works by Boccherini, Schumann, Cassado, Beethoven, and Paganini. She will be accompanied by Pamela Robertson.

photo courtesy of the music department

Cellist Mary Fraley will perform in the Campus Center Theatre, Feb. 22. Students are admitted free.

Tickets for the recital will be available at the door. Regular admission is \$4. For faculty, staff,

senior citizens, and students admission is \$3. CNC students are admitted free.

Data processing chapter starts

The Data Processing Management Association (DPMA) held its first meeting Feb. 17. The chapter's first guest speaker, Gaddis Key, Assistant Director, City of Newport News, Data Processing Department, discussed Integrating PC's into the Real World.

The DPMA is an international professional organization with members over 33,000 strong, which includes managers, supervisors, system analysts, programmers, educators, and vendors who are actively involved in information processing as a career.

This new DPMA chapter, which will be known as the Student Chapter Data Processing Manage-

ment Association, hopes to provide students with opportunities to exchange information with members of the information processing community and explore various career opportunities.

The Christopher Newport Student Chapter will be sponsored by the Hampton Roads Chapter of CPMA, which will provide liaison personnel, general direction and support.

One of DPMA's goals is to develop a better understanding of the values and functions of data processing in the business environment by promoting sound general principles.

Kathryn McCubbin will be the acting faculty advisor for the CNC

Chapter of DPMA and is a member of the Hampton Roads DPMA Chapter.

To be considered for DPMA, the student would have to be actively seeking a degree (major or minor), consistent with the desire to enter the field of data processing.

The Chapter's next guest speaker will be Sandra Kay, Director of Data Processing for Hampton City Schools. The CNC Chapter will hold the next meeting in March (date to be announced) which will be open to all interested students. For further information, contact Suzanne Blanks at 723-0135 or Bob Marks at 851-9024.

ROTC molds steel-like cadets who can handle a strong future

By Beth Emerson
staff writer

While ROTC offers leadership training and scholarships, the ROTC cadets are offering something in return. Cadets are preparing themselves for future responsibilities and emergency situations since that's what ROTC is all about.

The first two years of ROTC consist of classes concerning leadership and responsibilities. The next two years are a continuation in education as well as a variety of hands-on leadership experiences.

Among the experiences is the physical training program. This consists of rigorous physical activities that ROTC cadets will be tested on at a later date. The cadets meet in Ratcliffe Gym every Mon., Wed., and Fri. at 6:30 a.m. to take part in training. First and second year students are not required to attend, but it is to their advantage if they do attend. Robert Lehman MS-4 says, "We try to create a team atmosphere, encouraging all cadets to participate and give 100% effort."

Part of the philosophy behind the physical and leadership training in ROTC is to "Temper the cadets like steel. We want to warm them up for the realistic situations that lie ahead," says Lehman. Preparing cadets in all aspects of responsibility and discipline makes them "stronger people" in the long run.

The evaluations made on cadets during physical training

and throughout the year aid in creating a cadet that strives to be the best. Setting goals and reaching them is what cadets would like to give back in return to the ROTC.

ROTC Scholarships

CNC ROTC is now accepting scholarship applications. Scholarships pay for all tuition, books, and an allowance of \$100 monthly. Two- and three-year scholarships require a GPA minimum of 2.4, SAT score of 1,100 minimum, and an ACT equivalent of 24 to be competitive.

Three-year scholarships in degrees other than physical science or engineering require a GPA minimum of 2.9. No SAT or ACT is required. Applicants must be rising sophomores and should complete 27 credit hours by the end of their sophomore year. Two-year scholarships in physical science and engineering carry the same hour requirements as three-year. Two-year scholarships in degrees other than physical science and engineering require a GPA minimum of 2.7.

Basic camp must be attended. Physical fitness tests, a physical aptitude test, and a physical that is paid for by the Army, are required. Applicants must be full-time students and cannot be conscientious objectors. As of June 30 of the calendar year an applicant is to be commissioned, the age limit is set at 25. For applicants who have served in the military previously, a waiver is accepted for four years. For further information contact Maj. Garcia or CPT Thomson at the Military Science Department, 599-7169/7284.

Veterans' Scholarships

Adolph Coors Company announced that applications will be available beginning March 3 for the 1986 Coors Veterans' Memorial Scholarship Fund which provides more than \$500,000 to the sons and daughters of American veterans.

For the second year, Coors and Coors distributors will award a minimum of 100 scholarships, with a maximum value of \$5,000 each, to eligible students who successfully have completed their freshman year of college.

To be eligible for consideration, applicants must have completed at least one year of college, have a cumulative grade point average of at least 2.75 on a 4.0 scale, and be under 22 years of age as of July 1, 1986.

Applicants must be dependents of honorably discharged American service personnel or dependents of American service personnel killed in action, missing in action, or died in the line of duty.

Applications can be obtained from local Coors distributors or participating veterans organizations, by writing Coors Veterans' Memorial Scholarship Fund, P.O. Box 7529, Wheeling, IL 60090, or by calling toll-free to 1-800-49COORS. Deadline for completed applications and materials is July 1, 1986.

Travel Abroad

The Council on International Educational Exchange, the largest student travel organization in the United States, announces the publication of the 1986 *Student Travel Catalog*. The 80-page catalog is one of the most comprehensive, free budget travel guides available. It is a source of information about the basics of traveling, studying and working abroad.

The catalog may be obtained by writing to CIEE, Dept. STC '86, 205 East 42nd Street, New York, NY 10017. Please enclose \$1 for postage and handling.

Cave Ecology

Descend into the fascinating world of twilight zones and troglobites as the Peninsula Nature and Science Center travels to western Virginia to explore the heart of two wild caves.

We'll learn how caves form and grow by examining soda straws, popcorn, and other dripstone formations. Search for bats, salamanders, and other cave animals and discover their unusual adaptations for survival.

The trip will be held March 8, from 7 a.m. to 9 p.m. The fee is \$25 per person. Advance registration is required. For more information, call 595-1900, Mon.-Fri., 1-5 p.m.

Writing Workshop

The Cultural Alliance of Greater Hampton Roads will sponsor two writing workshops for individuals in the arts — both volunteers and professionals — to better their communication skills.

The identical workshops will be held Feb. 20 and 25 from 9 a.m. to noon; the former being at Kroger Executive Center, Building 16 in Norfolk and the latter in the Community Room at Coliseum Mall in Hampton. Cost for the workshop is \$5.

Topics will range from the simple memo to written communication with a board of directors to all stages of grant proposals and fund-raising campaigns. General topics of arts communication such as style, content, attitude, and sense of audience will be addressed.

For further information, please contact Katie Lincoln-Lively at 461-7819 or 826-6066.

Talent Showcase

The American Collegiate Talent Showcase (ACTS), a nonprofit organization operated from New Mexico State University in Las Cruces, is beginning its fifth year as the only nationwide talent competition that encourages, develops, and helps prepare talented college students for a career in the entertainment industry.

ACTS not only awards cash and scholarship prizes, but also provides auditions, tours, career direction, showcase opportunities, workshops, and cash awards for songwriting and video production.

Interested college students may enter ACTS by submitting an audio or video tape of their performing talent by April 15. The finalists go on to perform at the live National Finals in Nashville's Tennessee Performing Arts Center on Sept. 5, where they will compete for additional prizes and the title of "Top Collegiate Entertainer."

For more information call toll-free 1-800-448-ACTS, or write ACTS, Box 3 ACT, New Mexico State University, Las Cruces, NM 88003.

Summer Jobs

Cape Cod, Massachusetts, and the off-shore islands of Nantucket and Martha's Vineyard have more good paying jobs open to students and teachers this summer than ever before.

For immediate information on the many kinds of jobs available and details on how to apply, send a long, self-addressed, stamped envelope to Cape Cod Summer Job Bureau, Box 594, Room 10, Barnstable, MA 02630.

On campus

Sociology/Social Work Club

The Sociology/Social Work Club will meet Feb. 26, at noon in McMullan 119. There will be a speaker and the service project will be discussed. Watch for details on the bulletin board across from room 119.

Philosophy Club

The Philosophy Club meets jointly with Phi Sigma Tau, the National Honor Society for Philosophy, on Mon., Feb. 24, in W-220 at noon. The speaker is Professor Richard Butchko from the department of Sociology and Social Work. His topic is "Artificial Intelligence." All are welcome. Bring lunch. Bring a friend. Coffee and doughnuts provided.

I.V.C.F.

As students, we tend to spend more time on personal pursuits. "Who shall separate us from the love of God? ... Romans 8:35. We allow ourselves to be separated from God, and Society in general, condones this.

However, God tells us, "I am convinced that neither death nor life, neither angels nor demons, neither the present nor the future, nor any power, neither height nor depth nor anything else in all creation, will be able to separate us from the love of God that is in Christ Jesus our Lord." Romans 8:38-39. I.V.C.F. allows you to be with other Christians and help our spiritual growth. We meet every Wed. at noon in CC-233.

American Marketing Association

The American Marketing Association would like to invite all students (all majors welcome) to join the association. Develop a network with other students who are learning to apply their knowledge to the world outside of academia.

Throughout the semester, AMA will invite prominent professionals from the community to enhance the college experience and to provide insight of the "real world" to all members of the CNC community.

AMA meets every Tuesday from 12:15 p.m. to 1 p.m. in CC-233. Students who are unable to attend meetings but are interested in joining the association can contact Lisa Hassenger, 599-5077 or Glen Emano, 898-3094.

Please come and share in our learning experience.

Student Teaching

Students who plan to enroll in supervised teaching, Fall 1986, should preregister with Mr. Jenkins, Director of Student Teaching, prior to March 1. Registration blanks and information can be obtained from the Department of Education, S-134, each day from 8 to 5.

Briefs

Bloodmobile

Alpha Kappa Psi is sponsoring a bloodmobile Fri., Feb. 28. All students are encouraged to donate blood due to a national shortage.

Alpha Kappa Psi will have a table set up from 11 a.m. to 1 p.m. on Feb. 13, 14, 17, 18, and 19 in the Campus Center for sign-ups and to answer any questions you may have.

Please give life, give blood. For further information contact any member of Alpha Kappa Psi, or call Glen Emano, 898-3094.

Support Group

A support group for abused women meets at 9 a.m. Wednesdays in the Denbigh area. Call 874-0426 for further information.

On Thurs. evenings, groups of abused women and children from violent homes meet in Hampton. Call 722-2261 for further information.

Off campus

Chrysler Museum

Discover Liechtenstein, the land of castles and royal treasures, when Keith Christiansen, Associate Curator of European Paintings at The Metropolitan Museum of Art, delivers a visual presentation of "Liechtenstein: The Princely Collections" at the Chrysler Museum on Thurs., Feb. 20, at 5:30 p.m.

The cost of \$15 per person includes the slide lecture and a cocktail reception to meet the speaker. Reservations can be made by sending checks payable to The Chrysler Museum to Mr. Garland W. Nichols, Jr., CPA, Suite 202, 735 Newtown Rd., Norfolk, VA 23502.

Scholarship

The Mrs. Guy Roop Scholarship Fund, which is sponsored by the Virginia Extension Homemakers Council, is awarded to a mature adult who is in a Virginia residence and returning to school to complete or improve her/his education or training in any field of study. The applicant should not be currently enrolled in high school.

The application deadline is May 1 and application forms are available in the Financial Aid Office located in the Administration Building, room 239.

Scholarship

The Virginia Society for Hospital Public Relations and Marketing is once again offering student aid to qualified students through the VSHPRM Scholarship Program.

Offered annually, the scholarship is open to full-time rising seniors and juniors attending a Virginia college or university.

The Society awards one scholarship for \$1,000 and one for \$500 to financially aid students in their studies.

"Although the requirements for the scholarship program do not include a specific interest in hospital public relations, an expressed interest in the public relations field is desired," said Debra Dodson, Scholarship Chairman.

Majors must be in English, journalism, marketing, communications, or a related field, she said.

Hospital public relations varies widely from one hospital to another, but the work often involves writing, editing and design for hospital publications and advertising, photography, market research, media relations, preparing audio-visuals, and participating in fund drives.

VSHPRM sponsors a state-wide internship program in hospital public relations designed to introduce students to this profession.

For more information on the VSHPRM Scholarship and Internship Programs, contact your financial aid office, the chairman of your department, or Debra L. Dodson, The Memorial Hospital of Danville, 142 S. Main St., Danville, Va. 24541, (804) 799-2399.

The deadline for applications is March 28, 1986.

Scholarship

First Colony Chapter of American Business Women's Association is searching for qualified female candidates for the school year 1986-87. We will be awarding a scholarship.

The basic qualifications are: (1) Candidates must be business women or women seeking a business or professional career; (2) Candidates must have financial need; (3) Candidates should be in good scholastic standing; and (4) The candidates must be attending or planning to attend one of the following: a) Local College or University, b) School of Nursing, c) Vocational School, d) Technical School.

Applications are available in the Financial Aid Office, Administration Building, room 239. Please return applications by March 28, 1986 to: Mrs. Virginia H. Cosby, Education Chairwoman, 1235 Big Bethel Road, Hampton, Virginia 23666.

For any further information call 826-0314 after 5 p.m.

Blues Brother

The Natchel Blues Network (NBN) presents Matt "Guitar" Murphy on Sat., March 1, at the French Quarter of the Holiday Inn, Waterside Area, 700 Monticello Ave., Norfolk, at 9 p.m.

Teaming up with John Belushi and Dan Ackroyd, Murphy was featured on both Blues Brothers albums. He also had a featured role in the film, "The Blues Brothers," playing opposite Aretha Franklin in Murphy's Diner scene.

All proceeds from the concert will be used to fund NBN's Second Annual Elizabeth River Blues Festival scheduled for Sept. 27 and 28, at Town Point Park.

Tickets may be purchased at Tracks Record and Video, Norfolk, and Birdland Records, Virginia Beach. They may also be purchased through the mail: P.O. Box 1773, Norfolk, VA 23501. Ticket price is \$8 general admission.

CNC's Buck worth a million

By AL PEARCE
Sports Writer (DP)

It was during the dog days of 1976, a typically hot, sticky Tidewater summer. In one of the dark, ill-kept, low-income housing projects of downtown Portsmouth, young men gathered around concrete courts for their all-consuming passion, pick-up basketball games.

Felix Moore was 14 at the time, a small, slight whisp of a lad. He lived with his grandmother, who was stern, matronly and determined that her grandson would eventually make something of himself. Felix, though, had other priorities.

"The big kids wouldn't let me play ball and that bothered me," Moore recalled the other day. "They said I was too small, that I had to wait my turn. I'd sneak out at 3 o'clock and shoot around, but I had to leave when they showed up at 5:30."

Young Felix would grow up to become Buck Moore, unquestionably the best player in the 19-year history of Christopher Newport basketball. But before that, there was rejection.

Moore impatiently watched the bigger kids in his project keep him out of their precious games. But everything changed in 1976 when he spent the summer with his parents in New Jersey. There, he met rough-and-tumble summer basketball for the first time.

He quickly found that at 14, he could more than hold his own.

OVERNIGHT, Moore went from fidgety spectator to accomplished player. "I always thought I could play, but nobody in Portsmouth would give me a chance," he said. "My older brother kept saying, 'You'll get your shot, you'll get your shot,' but I wondered when."

"He spent three or four weeks working with me one summer, the first time anybody had ever helped me. But it wasn't until I went to New Jersey that I started getting good."

My, did he ever get good. Moore had no trouble finding a game when he returned to the projects after his trip to New Jersey. "The dudes in my neighborhood couldn't believe it," he said. "They wondered if I'd been to basketball camp. I was the baddest thing around, a hero to the kids hanging around."

"Really, there was no comparison between what I was when I went up there and when I got back. It's like, my game was always there, trying to come out, but it didn't have a chance down here."

"When I got back, I was so much better than anybody else. People came from all around just to see me play. I dunked everything. I didn't even shoot jump shots, I just dunked."

"That's when they started calling me Buck. You know, Buck and dunk sound a little alike. I was Buck after New Jersey."

Moore played in several church leagues (27 points per game), a year of jayvee ball at Woodrow Wilson High School (24 ppg), then half of his junior year at Wilson (17 ppg). After a year at Southeastern Community College in Whiteville, N.C., he came to CNC and promptly rewrote the school's record book.

Moore has set 10 season and career records in his three seasons on Shoe Lane. He's expected to set at least four more in the next few days as CNC winds down its season against Ferrum today, in the first round of the Dixie Conference tournament Wednesday night.

Oddly, he holds only season and career records, none for single-game excellence. "He could score a lot more than he does," said HU coach Hank Ford, "but he's too unselfish for that. He gives up the ball more than you'd expect."

CNC COACH C. J. Woollum simply calls his 6-1, 180-pound senior forward, "One of the most talented offensive players I've ever been associated with, and that includes nine years at (Division I) Marshall. He's as good around the basket as anybody in Division III. As far as I'm concerned, he's the best Division III player in the state and an All-American."

On the court, maybe. In the classroom, never.

Academic shortcomings limited Moore's high school career. It was only when he went to Southeastern that he realized the importance of studying.

"I didn't have many options when I graduated from high school," he said. "Coach (Doug) Riley of St. Andrews saw me in the No-Name Classic in Portsmouth (Moore scored 86 points in three games), but he backed off when he saw my grades. Norfolk State and Pitt quit calling when they got my grades, too."

"Coach Riley suggested Southeastern, and said I could play there a year, get my grades up, then come on to St. Andrews. It sounded good at the time, so I went down there."

But Moore missed his friends in Tidewater. After hefting his grade point average to an acceptable 2.5, he transferred to CNC and played for then-coach Glenn Russell. He averaged 19.1 as a sophomore, but the Captains finished 11-16.

Captains clinch second place

By Chris Goddin
staff writer

The CNC Captains ended their regular season last Saturday with an overtime victory against Virginia Wesleyan, 79-74. The win left the Captains in second place in the Dixie Conference with a 10-4 record. In first place, with a 11-3 record, is North Carolina Wesleyan.

With the score tied at 58 and no time left on the clock, Ken Hershberger, of VA Wesleyan, had a chance to hit the back end of a one-and-one, but couldn't do it. This gave CNC the chance it needed to pull off a win. In the overtime, Walter Moody

hit two free throws and a

medium-range jump shot. Point guard Jerome Nicholson hit four free throws on two one-and-one opportunities in the last 22 seconds to hold off the Marlins and win it for CNC.

High scorer for the game was Buck Moore with 28 points. Moore also pulled down a team-high nine rebounds.

In a non-conference game Sunday afternoon, the Captains were victorious over Ferrum, 81-80, in overtime. This brings CNC's overall record to 15-10.

Moore, Moody, and Carl Haynes

all scored in double figures with 23, 15, and 21 points respectively. Haynes also led in rebounds, grabbing ten.

The Captains are now guaranteed to have a winning season, ending a four-year losing streak.

The Captains hosted sixth-place Methodist College Wednesday night in the Dixie Conference first round. The semi-finals will be Friday night and finals Saturday night. Both games will be played at St. Andrews. Coverage of these games will appear in next week's issue of *The Captain's Log*.

Lady Captains end regular season, 8-6

By Chris Goddin
staff writer

The CNC Lady Captains ended their regular season Saturday night with a loss to Virginia Wesleyan, 73-61. The loss left the Lady Captains in fourth place in the Dixie Conference.

Alisa Fox and Becky Littreal scored in double figures. They

had 14 and 13 points respectively.

The Lady Captains hosted Methodist College Tuesday night in the Dixie Conference first round. Semi-finals will be Friday night and finals Saturday night. Both games will be played at St. Andrews. Coverage of these games will appear in next week's issue of *The Captain's Log*.

Moore matures

cont'd

He averaged 18.2 last year when CNC was 13-14 with Woollum in charge. He'll likely average better than 22 ppg this year and help CNC to its first winning season since 1980-81.

Despite his on-court heroics, Moore sincerely regrets his unimpressive academic record. "My Grandma told me to study, but it went in one ear and out the other," he said. "I just didn't think it was that important. I should have known better. I wasn't thinking much about the future back then."

"If my grades had been better I'm sure I could have played for a bigger school, maybe even gotten my college paid for. I thought about that during those years in high school when I wasn't allowed to play."

Moore fully intends to graduate — eventually. "It might be after I go in the service," he said, "but I'm going to get my degree. I wouldn't work this much, then quit after basketball season. I told my Grandma I would, and I am."

Moore's records

- Most points, career: 1,542
- Season average: 22.4 PPG ('85-86)
- Career average: 19.8 PPG
- Field goals, career: 624
