Lady Captains, faculty men to square off for Fund Drive

On Friday, April 4, at 7:00 p.m., the most successful CNC women's team ever to take the floor will go up against the men's faculty team. Will the men dominate the "weaker" sex? Or will the women use their national ranking to wipe up the floor with the older males?

by Patti Leach

Dr. Bill Winter, co-captain of the men's faculty team, in an exclusive interview with the *Captain's Log*, estimated the Lady Captain's chances of beating his team "none," then elaborated on his statement, adding "less than none."

After training for five months, with a torrid practice schedule, the faculty team is undefeated. The win they hope to gain over the Lady Captains will put their overall record at 1-0.

The Ladies have been training since September and "... chose the faculty because we knew it would be an easy win." However, Dr. Winter feels, "It will be a humiliating defeat for the Lady Captains--crushing."

While the average height on the men's faculty team is six feet (and the average age 35), Jill Willig, co-captain of the Lady Captains, feels that height is no factor and the "old men" will have zero endurance, making it easier to "... run them into the ground."

A clean game is expected by both sides, and the Ladies promised to keep it that way because there is "... no need to cheat --we're too good." However, there is doubt about the impartiality of the referees by the faculty team because they are students selected by the Lady Captains. An unidentified source said that Dennis Casey and Jeff Thomas are "two very competent referees."

With their four-corner defense, the faculty feels the Ladies will have no chance against them. The Ladies are not concerned because they feel that with the talent and skills they have, they don't need strategy.

The strongest player on the men's faculty team is Rich Greenough, who is recovering from a sprained ankle inflicted by Jill Willig when she undercut him at a practice on March 23. "It seems he has no control of his legs," Willig was quoting as saying.

In two separate interviews, Winter stated that endurance was an important question. "We feel the Lady Captains will be able to keep up with us --for the first half." He then told another source that they would probably need at least 15 players to substitute to prevent any of their players from collapsing from exhaustion. The women's team will only use eight players, and the Intramurals Department stated that they will not provide oxygen tanks for the men's team.

Winter ended the interview on a good note, saying, "We wish them luck--they'll need it," while Coach Charlie Whitley of the Lady Captains commented that in order for the faculty to win, they first have to get the ball.

The challenge doesn't end here though, as the CNC Student Fund Drive members have challenged the clubs, organizations, and groups of students to a "yell out" during the game. The winners will receive a keg of "liquid gold," with tap provided, and can claim their prize that evening after the game to celebrate the victory.

Mrs. Vivian Johnson, Director of Alumni Affairs, will be the judge of the "yell out" and will look for those groups who scream the loudest, carry signs, bring noisemakers, and yell at the players and referees. Profanity should be kept at a minimum, but overall "hell-raisin'" will prove who is the best group.

The \$1.00 admission fee will be donated to the Student Fund Drive to help them reach their goal of \$5,200.

Grad schools will sponsor conference

The graduate schools of Brown, Columbia, Cornell, Harvard, Princeton, Yale, Massachusetts Institute of Technology, and the University of Pennsylvania are sponsoring an area conference on "Opportunities for Minority Students in Graduate Education: Arts, Sciences, and Engineering," on Saturday, April 12, at the University of the District of Columbia.

Workshops and discussions will acquaint minority undergraduates with the nature and goals of study for the Ph.D. degree.

The conference serves as a forum through which students can learn about doctoral study from recipients of the Ph.D., graduate students, and graduate deans of admissions, academic affairs, financial aid, and placement services.

The conference agenda will include a keynote talk by an eminent minority scholar; a detailed presentation on admissions and financial aid; a workshop on the Graduate Record Exam; a workshop on graduate student life; and a series of two-hour workshops on various graduate disciplines.

The conference is free of charge and is open to students in all years of study. Interested students should contact Ms. Katie Lewis, Christopher Newport College, Counseling Center, W-116, 599-7046. The CNC Affirmative Action Office is providing transportation for interested students to attend this informative conference.

Dr. H. Marshall Booker

(photo by Carl Ricks)

Dr. Booker elected President of Virginia Economists

Dr. H. Marshall Booker, Professor of Economics at CNC, has been elected president of the Virginia Association of Economists. The objectives of the VAE are to enhance economic education and to provide a forum for analysis and discussion of economic issues that are of general concern and of particular interest to the Commonwealth of Virginia.

A native of the Peninsula, Dr. Booker was graduated from Hampton High

School. He received his B.A. degree in business and finance from Lynchburg College and his Ph.D. in Economics from the University of Virginia. He has many presentations and publications to his credit and currently serves on several boards including the Peninsula Chapter-Arthritis Foundation and the Newport News Educators' Credit Union. He is a member of Lions International and president of the Poquoson High School Parent-Teacher Organization.

Student Association election set for April 14 and 15

Elections for Student Association officers will be held on Monday and Tuesday, April 14 and 15. Positions to be filled include Student Association President, Vice President, and Attorney General and six divisional presidents (social and Behavioral Sciences, Arts and Letters, Natural

and Quantitative Sciences, Business, Education and Communications, and Unclassified).

To qualify for the ballot, a potential candidate must have a 2.0 average or better and submit a petition with 100 signatures. Although candidates in previous years needed only 15 signatures, the Executive Council voted to increase the number to 100 this year. They hope that this requirement will help familiarize students with the candidates and the elective offices and broaden student participation in the election process.

The petition forms, as well as rules and regulations pertaining to the candidates' campaigns, will be available in the Student Association offices and the office of the Vice President for Student Affairs on Thursday, April 3, at 3:00 p.m.

Staff positions open on 'Log'

The *Captain's Log* will be accepting applications for the stipend position of Business Manager during the week of April 10-18. Applicants must have taken two semesters of accounting and be dependable.

The *Log* is also looking for news and feature writers. Applicants must have (Continued on p. 8)

Library receives rare book donation

Christopher Newport College recently received an Afro-American Rare Book Collection of selections compiled by the Los Angeles-based Western States Black Research Center, a major repository of Afro-American material often not otherwise available in the country. Frank Edgcombe, assistant director for media and technical services, donated the microfiche collection to the College's Captain John Smith Library.

The 152 items contained in the collection are mostly books which were written primarily in the 19th and early 20th centuries. Selections include fiction and non-fiction, poetry, history, philosophy, music, religious tracts, and a great deal of material on slavery.

For additional details, call 599-7132.

Campus Close-Up

Log Deadline

Information for Campus Close-up must be submitted by 10 a.m. on the Monday preceding the next scheduled issue of the *Captain's Log*. Any notices received after that will be printed only if space and time permit.

Gymnastics Club to meet

The Gymnastics Club will meet on Wednesdays from 3:00-5:00 p.m. in the large gym. All are invited to participate and learn something about the sport.

Library has job directory

The library has acquired a book of timely interest to students: the *1980 Summer Employment Directory of the United States*. This directory lists 50,000 summer jobs and gives advice on job-hunting, work/learn programs, and instructions for those who are not U.S. citizens. The book is currently on display at the reference desk in the library. The call number is Ref HF5382.5 U5S955 1980.

Sailing course still open

Applications are still being accepted for *Sailing for Intermediates*, a hands-on course which will begin with a review of knowledge and skills necessary for basic sailing, and will move to more advanced techniques, emphasizing anchoring, tides and currents, weather, racing rules and starting principles, and windward and downwind techniques. Although the aim of the course is not necessarily to produce racing sailors, racing will be stressed as a way to practice and improve many of the techniques taught.

Classes will meet Saturdays, April 5-May 24, 11:00 a.m.-12:30 p.m., at the Warwick Yacht Club. Instructor is Pete Wallio, an International 505 Skipper and head of the Warwick Yacht Club Sailing Program.

Cost for the course is \$55.00. Call 599-7198 for additional information.

Alpha Chi to plan induction

Alpha Chi Honor Society will hold its monthly meeting in CC-209 at 12:00 noon on April 7. On the agenda will be the planning of our spring induction ceremony and election of new officers for the coming year.

Library has CPA review books

For those who intend to take the CPA examination in May, the library has processed two new review manuals to go with the two-volume study guide already in the reference room (Ref HF5661.G557). The new review manuals, which are on display at the reference desk, are circulating books and may be checked out for home study.

English Club meets Monday

There will be an English Club meeting on Monday, April 7, at noon in Room 117 on Newport Hall. The topic for the meeting will be a lecture by Dr. Jane Webb entitled "Myth, McIlwaine and Quentin; or Two Nice Southern Boys Go to Harvard."

Dr. Webb will discuss the parallels between the main character of Garret Epp's *Shad Treatment* and the main character of *Sound and Fury*. All interested persons are invited to attend.

Library extends Sat. hours

The Captain John Smith Library is extending its Saturday hours. Beginning April 5, and continuing through the end of spring semester, the library will be open Saturdays, 11 a.m.-5 p.m.

Volleyball tourney, party set

The first annual CNC Volleyball Tournament and Party are scheduled for Saturday, April 5, from 1 p.m. to 12 midnight.

The Volleyball Tournament, double-elimination, is open to all teams (75 percent of a team's roster must be CNC-affiliated). An entrance fee of \$15.00 must be paid prior to the tournament. All tournament teams gain free admission to the Tournament Party.

The Tournament Party will follow the V-ball Tournament in the Pub, from 6 p.m. to midnight. Golden refreshments will be provided. Cover is \$2.00 for

Executive Council

by James S. Powell

At the Executive Council meeting on March 27, the Election Committee for the upcoming Student Association election gave a progress report. The election will be held on April 14 and 15, with petitions being issued on April 3. A change from previous years has been implemented: 100 signatures will now be required for a student to get his/her name on the ballot. As a control mechanism, the Election Committee will use a computer printout with each student's social security number to insure that no student votes more than once.

Both the administration and the faculty have approved attendance of a student representative at faculty meetings. This student will assume his/her position this semester and continue through the 1980-81 academic year.

The Senior Caucus has decided to raise money to be presented to the library for the purchase of books. The Executive Council voted to pay \$35.00 for postage, envelopes, and paper so that all money which is raised will be cleared for the library.

The SA survey of Feb. 20-Mar. 2 has been tabulated. Some of the results are:

- 1) Students familiar with the SA? Yes, 84%; no, 16%.
- 2) In favor of an addition to the Campus Center paid by student funds: Yes, 68%; no, 23%.
- 3) Pricing system of bookstore is reasonable: Yes, 71%; no, 29%.
- 4) Instructors should list required books: Yes, 87%; no, 13%.
- 5) Captain John Smith Library is adequate: Yes, 47%; no, 53%.
- 6) PE should be eliminated as a distribution: Yes, 37%; no, 53%.
- 7) Other distribution courses should be dropped: Yes, 28%; no, 72%.

women, \$3.00 for men. The party is open to all CNC students and guests. All profits will be donated to the CNC Student Fund Drive.

Remember, the Tournament Party needs your active participation. Show your CNC spirit in supporting the CNC Student Fund Drive. The tournament and party are sponsored by the OTHG, the Government Club, and the ROTC.

Leisure Studies meeting set

There will be an important orientation and long range scheduling meeting for all students interested in the new degree program in Leisure Studies on Tuesday, April 8, at 12:30 p.m. in Ratcliffe 109B. It is imperative that all interested students attend this meeting.

Career Planning & Placement

The Virginia Association of Assessing Officers is sponsoring the VAAO Scholarship Program. This program is designed to assist persons, particularly those of college age, entering the assessment profession through their attendance at the Virginia Department of Taxation 1980 Advanced Assessor's School. The School will be held on June 2-6 at the University of Virginia in Charlottesville.

Applicants must meet three basic requirements: 1) be a resident of the Commonwealth of Virginia; 2) be a college student, college graduate, accepted candidate for college, or the equivalent; and 3) be interested in the assessment profession. An adequate background in mathematics and economics is helpful and desirable.

The deadline for applying is April 15. Students may pick up applications in the Placement Office, CC-208.

RECRUITING SCHEDULE:

- 4/8, Xerox Corporation - all majors for sales.
- 4/9, Internal Revenue Service - Accounting majors for auditor positions;
- 4/11, Makemie Woods - Counselor and water safety instructors (summer employment);
- Camp Shon Ta'i - Psychology, sociology and education majors for counselors.
- 4/16, VCU Dept. of Planning - all majors for graduate studies;
- 4/18, Montgomery Ward - Business Administration, accounting, management majors for staff trainees and commissioned sales.

The following article, "The Job as Property Right," by Peter F. Drucker, appeared in the March 4, 1980, *Wall Street Journal*. Continued from last week's issue of *The Captain's Log*.

"For the great majority of people in most developed countries, land was the true 'means of production' until well in this century, often until World War II. It was property in land which gave access to economic effectiveness and with it to

Art show planned

The Student Association at Christopher Newport College will sponsor an art show on Wednesday, April 9, 9:00 a.m.-4:00 p.m. outside the Campus Center. The show will feature work by members of the community as well as CNC students. It is free and open to the public.

There is no entry fee, and anyone may enter. Entry blanks may be picked up Monday through Friday, 9:00 a.m.-5:00 p.m., at the Campus Information Desk or the Art Department, and should be returned to the Student Association office in The deadline for submitting applications is April 7 at noon.

A \$50 prize will be awarded for the best student exhibit, with two additional prizes of \$25.00 being awarded. Work will be judged by Jerry Lang and Tom Waters, art instructors at Hampton Institute and Thomas Nelson College, respectively, and Alan Jones, a well-known Peninsula freelance artist.

social standing and political power. It was therefore rightly called by the law 'real' property.

"In modern developed societies, by contrast, the overwhelming majority of the people in the labor force are employees of 'organizations'—in the U.S. the figure is 93%—and the 'means of production' is therefore the job. The job is not 'wealth.' It is not 'personal property' in the legal sense. But it is a 'right' in the means of production, an 'usu in rem,' which is the old definition of real property. Today the job is the employee's means of access to social status, to personal opportunity, to achievement and to power.

"For the great majority in the developed countries today, the job is also the one avenue of access to personal property. Pension claims are by far the most valuable assets of employees over 50, more valuable, indeed, than all his other assets taken together—his share in his house, his savings, his automobile and so on. And the pension claim is, of course, a direct outgrowth of the job, indeed part of the job.

"The evolution of the job into a species of property can be seen as a genuine opportunity. It might be the right, if not the only, answer to the problem of 'alienation' which Marx identified a century and a quarter ago as resulting from the divorce of the 'worker' from the 'means of production.'

"But as the long history of land tenure abundantly proves, such a development also carries a real danger of rigidity and immobility. In Belgium, for instance, the system of redundancy payments may prevent employers from laying off people. But it also keeps them from hiring workers they need, and thus creates more unemployment than it prevents or assuages. Similarly, lifetime employment may be the greatest barrier to the needed shift in Japan from labor intensive to knowledge intensive industries.

How can modern economies cope with

Vietnam veterans speak up about common experiences

by Patricia Earls

College campuses are rapidly becoming the "melting pots" that the United States as a whole once was. CNC is a good example of this mixing of social classes, experiences, and abilities. This campus harbors military and ex-military, recent high school graduates and middle-aged adults, retirees, and people from all positions and walks of life.

Because the experiences and knowledge vary with each group, their problems become exclusive to that group. That is the case with a burgeoning number: the Vietnam veterans.

These veterans are different from veterans of other wars, and their problems reflect this.

Vietnam was an unpopular war. People don't want to hear about it. They don't

want to think about it. Society would like to forget that war; it was an embarrassment. The veterans are confused. Because no one likes to talk about the Vietnam "skirmish," the veterans can't talk to anyone but other Vietnam vets. And even they are reluctant to share their experiences.

That problem shows itself here in those classes that vets attend. Gary Adams has encountered this attitude in many of his classes. He does not blame the students for their attitudes, but rather feels that they do not understand his attitudes and experiences, and how these experiences have affected him.

But Adams is not willing merely to accept this reaction from society; he wants people to be aware of the plight of the

(Continued on p. 8)

Philosophy Club sponsored controversial debate

by Kim Fizer

Louise Brown of England was the first child to be conceived outside of a mother's womb on July 5, 1978, by a process called in-vitro fertilization. At Norfolk General Hospital, a test-tube baby clinic, as it is commonly called, opened in March. This is the first of its kind in the nation. Controversy has surrounded in-vitro (in-glass) fertilization because of the lack of experimentation on sub-human primates and of the possibility of genetic engineering.

This controversy was the subject of a forum March 28 sponsored by the Philosophy Club. Mr. Charles Dean, the President of the Tidewater Chapter of the Virginia Society for Human Life, was the guest speaker. The panel included J.W. Johnson, a CNC philosophy graduate, as moderator; Dr. George Teschner, Chairman of the Philosophy Department; and John Shurte, President of the Philosophy Club.

Mr. Dean gave a 15-minute speech outlining the in-vitro process and explaining why his group is opposed to the clinic in Norfolk. The Virginia Society for Human Life is a volunteer organization created to protect human life from the moment of conception to death. Dean states the society "is opposed to in-vitro because it does not give full protection to the most innocent human life: the embryo. If the embryo does not measure up to the artificial standards of the scientist, it has no fu-

ture except the waste disposal in the laboratory." Once the embryo is transplanted to the womb, if any signs of abnormality appear, the pregnancy is aborted as stated in a pre-signed contract with the parents. Mr. Dean reveals "abnormality in the in-vitro embryos are three times above normal." The panel later agreed that life begins at conception, and that it is wrong to destroy human life. There was, however, difficulty in establishing when life becomes human.

Dean also stated, "In-vitro fertilization is not the last resort as promoted."

The majority of women who cannot conceive have damaged fallopian tubes. With micro-surgery, the success rates vary from 33 percent on the most damaged to 64 percent on the least damaged. Laser beams increase the success rate. Eighty percent of the women who had laser surgery were able to bear children.

The right-to-life organization is not against the in-vitro fertilization process as a whole. The objection is directed toward the lack of experimentation before application to humans. There is no evidence as to the long-range effects on the child. This stance was clarified after a question from the audience regarding the right of one group of people to dictate what is right for another group.

Dixie Roadducks entertain CNC students

(photo by Bruce Laubach)

Roadducks play to small crowd

by Ana Kimball

On Wednesday, March 26, the Dixie Roadducks returned to CNC for a second performance. Unlike the first show, the music was better but the crowd was smaller.

The Roadducks performed the usual rock-n-roll program, including their tribute to Lynyrd Skynyrd. They also catered to Kappa Nu Fraternity and played "Louie, Louie" for them.

According to various students, the Roadducks gave a better show than their first. "They seemed more interested in playing for CNC students this time," remarked Roger Rice, a student in the audience. However, there were just as many students in attendance who had hoped for a better show. The small crowd should make one think that maybe rock-n-roll is wearing out its welcome at CNC.

Virginia Stage Co. announces cast

Patrick Tovatt, Virginia Stage Company Producing Director, has announced the cast for the Premiere Season 1980 production of Fugard, Kani and Ntshona's *Sizwe Banzi Is Dead*.

A play about human dignity and survival, *Sizwe Banzi Is Dead* tells of black identity in the apartheid system in South Africa. Arthur French plays Sizwe Banzi, the man who struggles with his own identity when he is offered the choice of a new passbook or of returning to the desolation of his remote home district. In South Africa, every black man and woman over the

age of sixteen is forced to carry a passbook at all times. This passbook contains a photo and description, lists of addresses and jobs and special permissions, such as to relocate, to work in a "white" area, and to travel.

Sizwe Banzi Is Dead plays April 10 through 27 at the historic Wells Theatre, Tazewell and Monticello in downtown Norfolk. Single tickets are on sale now at the VSC ticket office. Student and group discounts are available. For details, phone 627-1234.

Sound Solution

by Rick Dunn

Rush, the uncontested masters of comic book rock, have just released their seventh album, *Permanent Waves*. Since I've always considered this trio to be one of the dumbest bands in existence, I was genuinely amazed to find their latest offering to be quite likeable.

Not that it's a good album. It just stands up well against their excesses of past years. I've always looked at Rush as mere imitation. The new LP shows signs that they've finally found a place of their own, maybe.

"The Spirit of Radio" is the opening cut and probably the best song on the album. The lyrics are enjoyably less "cosmic" than standard Rush fare, but the song still suffers from the infinite chord changes that plague all of their work. While it seems that they've cut down from a million to maybe a half-million changes per song, I still don't see how they keep this stuff straight in concert. I'm convinced they make it up as they go along.

Geddy Lee, the human dogwhistle, still sings everything in an excruciating key. Alex Lifeson is still hung up on the hot-

shot guitar-jock ego trip. If something runs on electricity, you can bet he's tried to hook it up to his guitar.

On the other hand, Neil Peart has tempered his flashiness. On *Permanent Waves* his drumming shows a new maturity, a simplicity that has been missing in his previous efforts.

Peart's songwriting is picking up, too. "Entre Nous" is a real love song, something these guys have never attempted. They might alienate the cartoon superhero contingent of their audience, but everybody has to grow up sometime.

The album closes on a nice semi-acoustic number, "Natural Science." The playing on this song underscores the fact that no matter how bad I think Rush has been as a band, individually these guys are first-rate musicians. It's a simple case of grossly misdirected talent.

It's still hard to pinpoint why *Permanent Waves* hit me so favorably. I noticed that Peart shaved off his moustache. Maybe that's it. Anyway, as Rush albums go, this isn't a bad LP. I wouldn't pay money for this record, but I might trade my bubblegum cards for it.

MEN—WOMEN

So you want to see Europe.

If you've always wanted to see what's on the other side of the Atlantic, the Army can help you see it.

That's if you qualify and are willing to trade hard work and long duty hours for the opportunity.

You'll be a soldier first, foremost and always, serving your country in a vital role.

But you'll have free time and up to 30 days' vacation a year, to roam the countryside, meet new people and learn as much as you can about another language and culture.

You'll come home with new knowledge, deeper appreciation of your own country, and well-earned pride in the uniform you wear.

Trackmen take second place in second meet of season

by David Bean

Last Saturday found the magnificent dozen (otherwise known as the CNC track team) on the road at a quadrangular track meet. Bridgewater College played host to CNC, Radford College, and Mary Washington College.

It was evident from the beginning that this would not be much of a meet, as Bridgewater quickly ran away with the lead. CNC did win three first-place finishes, while Radford managed to grab one, leaving the rest for Bridgewater. Mary Washington failed to score at all.

CNC's Willie Smith and Rob Orfield took first and second place in the 200-meter dash. Smith also won the 100-meter dash. Ronald Ross won the 400-meter run, and the 400-meter relay team came in a very close second as Smith,

Vernon Green, Orfield, and Ross made Bridgewater fight for the win. Green also placed third in the 110 high hurdles and the 400 intermediate hurdles.

Final scores showed Bridgewater's large sweep with a total of 120.5. CNC was second with 44, followed by Radford College with 16.5.

Coach Jerry Clark was more than pleased with the way the team performed. "It was a vast improvement over the first meet, and I feel that we are going to win the Conference this year. Despite our small size, we are going to be a definite threat." Although both Clark and Coach Vince Brown have little to work with in numbers, perhaps they can learn a lesson from the Lady Captains Basketball Team -- big surprises can come in small packages.

Women's tennis team drops spring opener to Lynchburg

by Imonda Court

The CNC's women's tennis team opened their spring season on an unfortunate note. In their first match against Lynchburg College, which has already played four matches, it was apparent that CNC was at a disadvantage. CNC came out on the losing end, 1-8.

The only win came from "big" Janet Waddy. Waddy, who stands 4'11", crushed Lynchburg's Karen Bonsack, 6-1, 6-1. In singles, Helen Smith (L) defeated Vicki Nebinger (CNC) 5-7, 6-3, 6-1; Pam Pope (L) beat Linda Phil (CNC) 1-6, 6-1,

6-2; Angela Schivo (L) defeated Anne Rainville (CNC), 6-4, 6-3; Kim Cannon (L) crushed Marie Reagan (CNC) 1-6, 6-2, 6-2; and Paula Fronke (L) won over Pam Fanning (CNC) 6-3, 6-1.

In doubles, Hope-Smith (L) defeated Nebinger-Waddy, 6-4, 6-3; Mateer-Shivo (L) beat out Fanning-Reagan, 4-6, 6-0, 6-3; and Bonsack-Franke (L) trounced Phil-Rainville, 6-1, 6-2.

The next home match is against James Madison University, Saturday, April 10, 2:30 p.m., behind Ratcliffe Gym.

Sailing team takes fifth place in regatta

Sailing Club members (l. to r.) Bruce Ogelsby, Julie Homsted, Kevin Richmond, Julie Glover, Andy Gillis, Commodore. Seated in front, Sherry Cole.

The CNC Sailing Team traveled to the University of Virginia on Saturday for its first spring regatta. Six teams competed in the shifting winds at Lake Monticello, with ODU reading the shifts best and winning the regatta. CNC came in fifth, ahead of Duke. Davidson, U.Va., and UNC placed second, third and fourth.

The CNC team of Andy Gillis, Julie Homsted, Bruce Ogelsby, and Kevin Richmond was joined at U.Va. by other member of the Sailing Club. The host school provided lunch for the participants.

The team travels to Duke for the second regatta this weekend.

Golf team goes 3-1

The CNC golf team upped its season's record to three wins, one loss, with a decisive victory over Mary Washington College, 411 to 483.

The top five men from each school were included in the scoring. CNC players were Mike Hott (78), Mike Ruggeri (79), Dennis Casey (84), Rich Burns (84), and Mark Paquette (86). The sixth man was Dave Falin, who soared to a 91.

In a recent practice match against the Apprentice School at Sleepy Hole, Mike Ruggeri shot a 78 and Mark Paquette an 82.

Coach Hubbard feels that the team is showing excellent improvement, and if several players develop more consistency between their nine-hole scores, CNC will become a contender for the D.I.A.C. Championship.

Last Call for a 19 year old Christopher Newport College Sophomore to become a 21 year old Army Officer.

The Army offers college sophomores the opportunity to earn an officer's commission in two years. The deadline for this year's class is soon. Apply now and once you are accepted for the special two year program, you attend a six weeks' summer camp, for which you'll be paid approximately \$500. And that's not all. You may find yourself in the best physical condition you've ever been in.

Then back to college and the Army ROTC Advanced Course in the fall. If you've done exceptionally well at camp, you may be heading back to college with a full two-year scholarship.

For the next two years, you learn what it takes to be an Army officer. You get the kind of management and leadership experience that will be an asset to you in any career, military or civilian. You will earn an extra \$100 a month up to 20 months. And when you graduate, you will have earned your college degree along with the gold bars of an Army officer.

The Army ROTC Two-Year Program

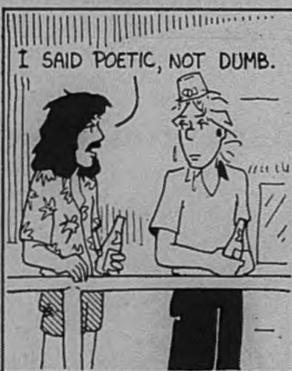

If this is the kind of challenge you are looking for, you are the kind of student we are looking for.

Letters to the Editor

All letters submitted to the *Captain's Log* must be signed. Names will be withheld at the discretion of the Editor. Address and phone number is required for file purposes only.

Letters are not edited in any way, but are printed as we receive them. We reserve the right to refrain from printing due to lack of space or failure to meet the deadline.

Letters printed in the *Captain's Log* should not be construed as representing the views of the staff. We welcome comments, suggestions, and criticism of a constructive nature.

Dear Editor,

When I came to CNC, I came to broaden my education and expand my intellectual capabilities. In this regard the decision as to what constitutes the framework of a liberal arts education was by necessity entrusted to those with knowledge of the goals of this institution.

However, I did not come to CNC to entrust my body and decisions regarding my physical well-being to others. At this stage of my life I am responsible for better or for worse for the shape (or lack of it) that I am in. Physical education courses may be "crip (sic) courses" for some but for others of us they are hard work combined with extreme physical discomfort which carries over into other academic and outside activities.

To add insult to injury, the same physical skill requirements are expected to be met by all students in a class, no matter if they are 18 or 48, participate in varsity athletics or not. I'll match my mind at any age with any student but my body was out of the running with 18 year-olds years ago.

As for lifetime activities, I already bowl, swim, play tennis and ski, and I hope to resume these activities whenever this increased leisure time everyone talks about appears on my horizon. Along with many other students, I don't take specific P.E. courses because they appeal to me but because they happen to fit into my schedule.

The fact that I could have waived P.E. is not relevant. The issue is whether or

not it is the role of a liberal arts institution to be concerned with the physical activity of their students and it is particularly relevant in a commuter college where the average age of day students is 27 and night students 35. There is hardly a college or university in the state of Virginia aside from CNC which imposes this re-

quirement on its student body. Physical education courses should be there for those who want them and feel they can gain from the many advantages they do offer. But we should be free to decide whether we wish to participate or not.

It is time the faculty re-examined the premises upon which the decision to in-

clude physical education as a distribution requirement rests. If this premise is the necessity to equip students with a sound mind and body, then the next logical step is to become concerned with our spiritual well-being and institute a distribution requirement in religion.

Judith Hrul

Captain's Commentary

The opinions expressed in the following column are not necessarily those of the Log staff. The "Captain's Commentary" is provided for members of the staff to express their own personal opinions on matters, since it is not within the policy of this paper to print a letter to the editor from a current staff member.

by Darlene R. Willett

Although Professor St. Elmo Nauman may have gotten the only available seat on the raft in the recent Raft Debate, it appears that he is sinking rapidly in the CNC survival game. The game referred to is the entire process of being hired, tenured, and fired by refusal of contract renewal. Within the next month, contracts will be considered for renewal. At this time, there is a considerable amount of opposition to renewing Dr. Nauman's contract.

It is believed that Dr. Robert J. Edwards, Vice President for Academic Affairs, and Dr. James I. Moore, Acting Dean of the School of Liberal Arts, Sciences and Education, both have recommended that Dr. Nauman's contract be refused renewal. Both Dr. Edwards and Dr. Moore have responded with "No comment." Both feel that it is an inappropriate time to discuss the matter because no definite course of action has been decided.

Dr. Moore added, "The idea of trying the case in the *Captain's Log* is not appropriate at all." We then explained that we were not planning to "try" the case; rather, we felt that students should be aware of a possible dismissal of a faculty member (especially, one as well liked as Dr. Nauman). In response to this, Dr. Moore added that personnel matters should not be

aired publicly and that the administration should be deemed capable of handling the situation justly.

The faculty and the administration are reluctant to talk for several reasons. One is that in the past, dismissal of a tenured teacher invariably resulted in a law suit, and anyone who passes on inaccurate information may be sued for slander or libel. Dr. Nauman, however, has given no indication of such action.

This situation has led to a most unfortunate loophole. It seems that persons who wish to make adverse recommendation in favor of Dr. Nauman's dismissal are free to comment, whereas students who would like to support Dr. Nauman in this situation are not even notified that there is consideration of dismissal.

Dr. Nauman is an Associate Professor of Philosophy who was granted tenure in 1975. The Faculty Handbook states, "The tenure system is provided to protect academic freedom, to enable the College to attract and retain a faculty of distinction, and to provide a reasonable measure of employment security for faculty members who have given years of dedicated service to the College."

Granting of tenure is based on teaching effectiveness, professional competence and developments, and service to the department. Dr. Nauman has published four books in nine editions: 1) *The New Dictionary of Existentialism*, 2) *The Dictionary of American Philosophy*, 3) *Exorcism Through the Ages*, and 4) *The Dictionary of Asian Philosophies*. He has taught at Delaware Community College, Moore College of Art, and Rutgers University. He is well educated in his discipline and maintains excellent relations with his students. Yet, the possibility exists that Dr. Nauman may soon be dismissed.

From the information available at present, there appear to be two causes for consideration of dismissal:

1. Dr. Nauman had been "moonlighting" at ODU, which is in direct violation of his contract. However, further investigation revealed that Dr. Nauman had only been substituting for a friend who was unable to continue teaching at ODU. He did not, in the true sense of the phrase, "take a job"; he did not sign a contract with ODU and had never considered remaining at ODU for any extended period of time. We must point out that Psychology professors often take heavy case loads of pa-

tients and that several faculty members run entire businesses outside of their teaching profession. Although most have been granted permission from the College, we are sure that there are others who have not. In light of this, shouldn't some action be taken against other teachers who are in violation of their contracts?

2. It has been stated that Dr. Nauman maintains "poor faculty relations." Further investigation reveals that "poor faculty relations" resulted from disagreements of faculty courses of action to be taken. The implication is that Dr. Nauman "went against the grain" and is now suffering for voting on faculty issues as he felt was right. If this is true, are we not setting the precedent that if a faculty member does not choose to "play up to" his peers, that he/she will be met with extreme opposition? One administrator addressed this issue by stating that Dr. Nauman's teaching ability was not in question, and that he could be replaced easily with someone who could teach just as effectively and also be more compatible with the faculty and administration.

Thus far, other complaints are similar; but nothing appears to be so drastic as to initiate dismissal. It could be that there is something "big" that the administration is unable to divulge at this time. Although we do not believe this to be true, we must wonder what Dr. Nauman has done to create such hostility from his peers. One faculty member estimated that well over half of the faculty would support Dr. Nauman's dismissal, and as one administrator hinted, "Have you ever heard the old cliché, 'Where there is smoke, there is usually fire'?"

Dr. Nauman maintains extremely favorable relations with the students at CNC. In his office, there hangs a sign which reads, "Anyone in trouble is my friend." He has lived up to this statement in the past and has become well known and liked by students on campus. He is best described by a famous smile, a willingness to listen to others, and an introductory statement of "Ah, yes."

We request that students show their support of Dr. Nauman and/or share their feedback from this article by writing to: News Editor, c/o *Captain's Log*, CNC, 50 Shoe Lane, Newport News, VA. 23606; or by dropping a memo by the *Captain's Log* office (CC-228). If we can do nothing else, let's at least show Dr. Nauman that we care.

Sailing Association sets spring hours

The Board of the CNC Sailing Association has announced the hours for the spring portion of the sailing year. The waterfront at the Warwick Yacht Club will be open from April 2 to May 16 during the following hours: Tuesdays and Thursdays, 2-5; Wednesdays, 1-5; Fridays, 1-5:30.

Students who are members of the Sailing Club and faculty who are members of the Sailing Association are eligible to check out sailboats. A student assistant who is well-acquainted with the boats will be on duty during sailing hours. He will help members rig the boats and will have available a motor boat in the event someone turns over and needs a little help.

Faculty and students may join the sailing groups for the remainder of the academic year. Dues for the spring only are \$6 for students and \$15 for faculty. People who joined last fall for the entire year do not, of course, have to pay any additional dues.

Anyone who wants to join either the Sailing Club or the Sailing Association should contact Jane or George Webb, 599-7082 or 595-6420; officers of the Sailing Association; or Andy Gillis, Commodore of the Sailing Club or stop by Vice President Behymer's office in the Campus Center.

Log positions

(Continued from page 1)
the ability to write concisely and clearly. Students interested in applying for writing positions are invited to contact Patti Leach or Patricia Earls in the Captain's Log office (CC-228) or call 599-7196. Writing positions are stipend also.

Career Planning and Placement

(Continued from p. 2)

the emergence of job property rights and still maintain the flexibility and social mobility necessary for adapting quickly to changes? At the very least, employing organizations will have to recognize that jobs have some of the characteristics of property rights and cannot therefore be diminished or taken away without due process. Hiring, firing, promotion and demotion must be subject to pre-established, objective, public criteria. And there has to be a review, a pre-established right to appeal to a higher judge in all actions affecting rights in and to the job.

"Standards and review will, paradoxically, be forced on employers in the United States by the abandonment of fixed-age retirement. For companies to be able to dismiss even the most senile and decrepit oldster, they will have to develop impersonal standards of performance and systematic personnel procedures for employees of all ages.

"The evolution of jobs into a kind of property also demands that there be no 'expropriation without compensation,' and that employers take responsibility to anticipate redundancies, retraining employees about to be laid off and finding and placing them in new jobs. It requires redundancy planning rather than unemployment compensation."

DU, Bleaps set for basketball finals

by Robert Corbett

On Saturday, March 30, DU met the Tarheels in the last semi-final basketball match and came away with a 71-54 victory. The DU team built a quick 8-0 lead at the onset of the game and never looked back.

DU built leads of as much as 20 points throughout the game, and although the Tarheels managed to cut their lead down to within eight points with seven minutes left in the game, DU's defense stiffened.

DU was led by Chris Ford, with 21 points to his credit. Joe Conway added another 15, and Robbie Duncan and Bill Hassinger contributed ten points each. Chuck Follman led the Tarheels as well as all scorers with 26 points. Tim Henretti followed Follman with 14 points.

This victory sets the stage for the intramural basketball championship finals between the Bleaps and DU on Sunday, April 6, at 7:00 p.m. in Ratcliffe Gym.

Nature and Science Center plans safaris, workshop for April

The Peninsula Nature and Science Center has scheduled a safari on Wednesday, April 9, to New Kent Forestry Center, which produces over 40 million seedlings annually and maintains over 250 acres of seed orchards. Learn about cone and seed handling, grafting and pollination, and ge- of the safari is \$6 for members, \$9 for non-members. Departure from the Center is by chartered bus at 9 a.m., returning by 3 p.m. Minimum age without an adult is 12 years.

A trip to Dismal Swamp by chartered bus is scheduled for Saturday, April 12. Many different areas, including Lake Drummond and Washington Ditch Lane, will be visited. An expert guide will take you into the Swamp and discuss the flora and fauna found there. Cost of the trip will be \$9 for members and \$12 for non-members. Departure from the Center is set for 8:30 a.m., with return by 3:30. Bring your lunch. Children under 12 must be accompanied by an adult.

On Saturday, April 12, the Center will present a workshop which will introduce some of the simpler methods of observation available to the elegant study of astronomy. From direct solar viewing and drawings to watching the stars and their locations, this workshop will delight you. The workshop, for ages 10 to adult, For more information call 595-1900.

Vietnam vets

(Continued from p. 4)

Vietnam vet. His one-man campaign to gain rights for these veterans has led him to talk on local television and radio shows. He has been featured further in local newspapers and is currently working on a standard "information sheet" to be submitted to several large magazines. For those interested in listening to Gary Adams, he will speak on 2WD and ZAM11 radio stations Friday morning and during the weekend.

PLEASE READ CAREFULLY

1. No final exams will be given during the last week of classes.
2. Students are required to take all of their examinations at the time scheduled, except (a) where conflicts occur or b) for illness.
- 3) Applications for individual changes in

the schedule should be made through the Office of the Registrar by May 5, 1980. All applications must be approved by the instructor.

4. Any student who is absent from an examination because of illness or other emergency situation should notify the Office of the Registrar. That office will in

turn notify each instructor of the communication.

5. No excuse on the grounds of illness will be accepted unless it is certified in writing by a physician. This excuse should be processed through the Office of the Registrar.
