### Reserve Materials in the Library

To enhance student access to materials during final exam week, the Reserves Department of the Captain John Smith Library is willing to limit three- and seven-day reserve items to "strict" or two-hour reserve during that period. Any faculty member who would like to have materials so limited should call Laurie Strunk, Reserves Assistant, at Ext. 7249.

All materials now on reserve will be removed at the end of the present semester. If you want materials retained on reserve, notify the Reserves Assistant by May 11, 1984.

### Prompt Pay Legislation

The Commonwealth of Virginia has passed "prompt pay" legislation which requires state agencies to pay all bills within 30 days. To assess the effectiveness of this legislation, certain changes will be made in the way invoices are processed by the Business Office. As of May 1, 1984 please leave the Date of Invoice blank on the state invoice form. This item will be filled in by my office. As further changes are initiated, the College Community will be notified. Thank you for your cooperation.

### Mileage Rate

### Financial Aid Brochure

The brochure, Financial Aid at CNC, provides information primarily about the need-based financial aid programs that are administered through the Financial Aid Office. Students are left to search for information about non-need-based programs available at CNC and how to apply. There is no one office that has information about all of CNC's programs. The Financial Aid Brochure will be updated in the near future and the Financial Aid Office

would like to expand it to include all of the financial assistance programs that are available to our students, including those that are not administered through the Financial Aid Office. Added would be programs such as need-based and non-need-based private scholarships, merit-based and ROTC scholarships. The revised brochure will inform the students of the application and selection criteria. In some cases, such as ROTC Scholarships or Styron Scholars, the brochure would contain a brief description of the program and direct interested students to the appropriate contact person or office.

Listed below are the programs and awards that this office is aware of and will include in the revised brochure. If you are aware of any continuing scholarship, grant, loan or employment programs available to CNC students that are not on the list, please let us know by calling Sid Dugas, Director of Financial Aid, at 7227 or Susan Glaude, Assistant Director of Financial Aid, at 7151. Your assistance will be greatly appreciated. I am sure that the students will also appreciate having all of the financial assistance opportunities listed in one publication.
