- 3) Education for a Changing Economy - FIPSE invites proposals that seek to make postsecondary education responsive to changes in the nation's economy.

- 6) Improving Undergraduate Education - FIPSE welcomes proposals that aim to improve the quality of undergraduate education by (i) raising academic standards for the bachelor's and associate's degrees; (ii) strengthening the liberal arts component of undergraduate professional programs; (iii) developing means of assessing programs and institutions, or (iv) recognizing and rewarding outstanding undergraduate teaching through appointment, tenure, and promotion policies.

Graduate
Study
Abroad

The 1990-91 competition for grants for graduate study abroad offered under the Fulbright Program and by foreign governments, universities, and private donors will close on October 31, 1989. Only a few more weeks remain in which qualified graduate students may apply for one of the approximately 700 awards to over 100 countries.

Most of the grants offered provide round-trip transportation, tuition and maintenance for one academic year; a few provide international travel only, or a stipend intended as a partial grant-in-aid.

Applicants must be U.S. citizens at the time of application, and must generally hold a bachelor's degree or its equivalent before the beginning date of the grant, and in most cases, should be proficient in the language of the host country. Except for certain specific awards, candidates may not hold a Ph.D. at the time of application.

Creative and performing artists are not required to have a bachelor's degree, but must have four years of professional study or equivalent experience. Candidates in medicine must have an M.D. or equivalent (e.g., O.D., D.D.S.) at time of application.

Application forms and further information for students currently enrolled in CNC may be obtained from the Fulbright Program Adviser Sanford Lopater, who is located in 118A Wingfield Hall. The deadline for filing an application on this campus is October 15, 1989.

Honors
Council

"Christopher Newport Scholars are mature full- or

part-time students of exceptional ability who are engaged in an interdisciplinary study beyond the scope of existing degree programs."

What does that mean?

If you have plans--for a career, for future study, etc.--that transcend existing curricula, you may be able to devise your own program.

If you have a GPA of at least 3.50 and have completed about 75 credits, you may be able to put your plan into practice in place of required courses.

The Honors Program at CNC allows capable, motivated individuals the chance to propose and put into practice innovative study programs. For details about the application procedure, please consult the Catalog (page 147 of 1989-1990 edition).

It is recommended that you contact the Honors Director, Dr. Jay Paul, before writing an application. His office is McMurran 206, his phone 594-7072. Messages may also be left with Ms. Mary Roy at 594-7024.

As in previous years, the Committee will honor our speaker with a luncheon in the Banquet Room at 1:00 following his talk. Members of the faculty and administration who wish to join us in honoring Dr. Little at this event should forward \$5 to me by Wednesday, September 27, at the latest.
