Hussey Horticulture Books Presented to CNC

Two hundred books dealing with horticultural subjects have been given by Wendell H. Hussey in memory of his wife, Woodroof Hiden Hussey, to the Captain John Smith Library of Christopher Newport College. The books were owned by Mrs. Hussey who died three years ago.

Mrs. Hussey was past President of the Huntington Garden Club. She was an amateur horticulturist, one of the founders of the Hampton Roads Horticultural Society, and a member of the American Horticultural Society. Mr. and Mrs. Hussey enjoyed experimenting in their greenhouse, and their garden was on display for the Peninsula and State of Virginia Garden and Home tours. The Hussey garden is one of the outstanding sights of the Peninsula.

She was also a member of the Newport News Library Board prior to consolidation of the cities of Newport News and

Warwick and after consolidation, the Daughters of the American Revolution, Order of First Families of Virginia, Colonial Dames of America in the Commonwealth of Virginia, Colonial Daughters of the Seventeenth Century, and Daughters of the American Colonists. Mrs. Hussey was secretary of the Board of Trustees of the Hampton Roads Academy

until her death.

Dr. Windsor, President of the College, is accepting the books on behalf of the College, stated "We are most appreciative of this most generous gift that Mr. Hussey has seen fit to give the College in memory of his wife. It is most timely since we have begun to expand our horticulture course offerings."

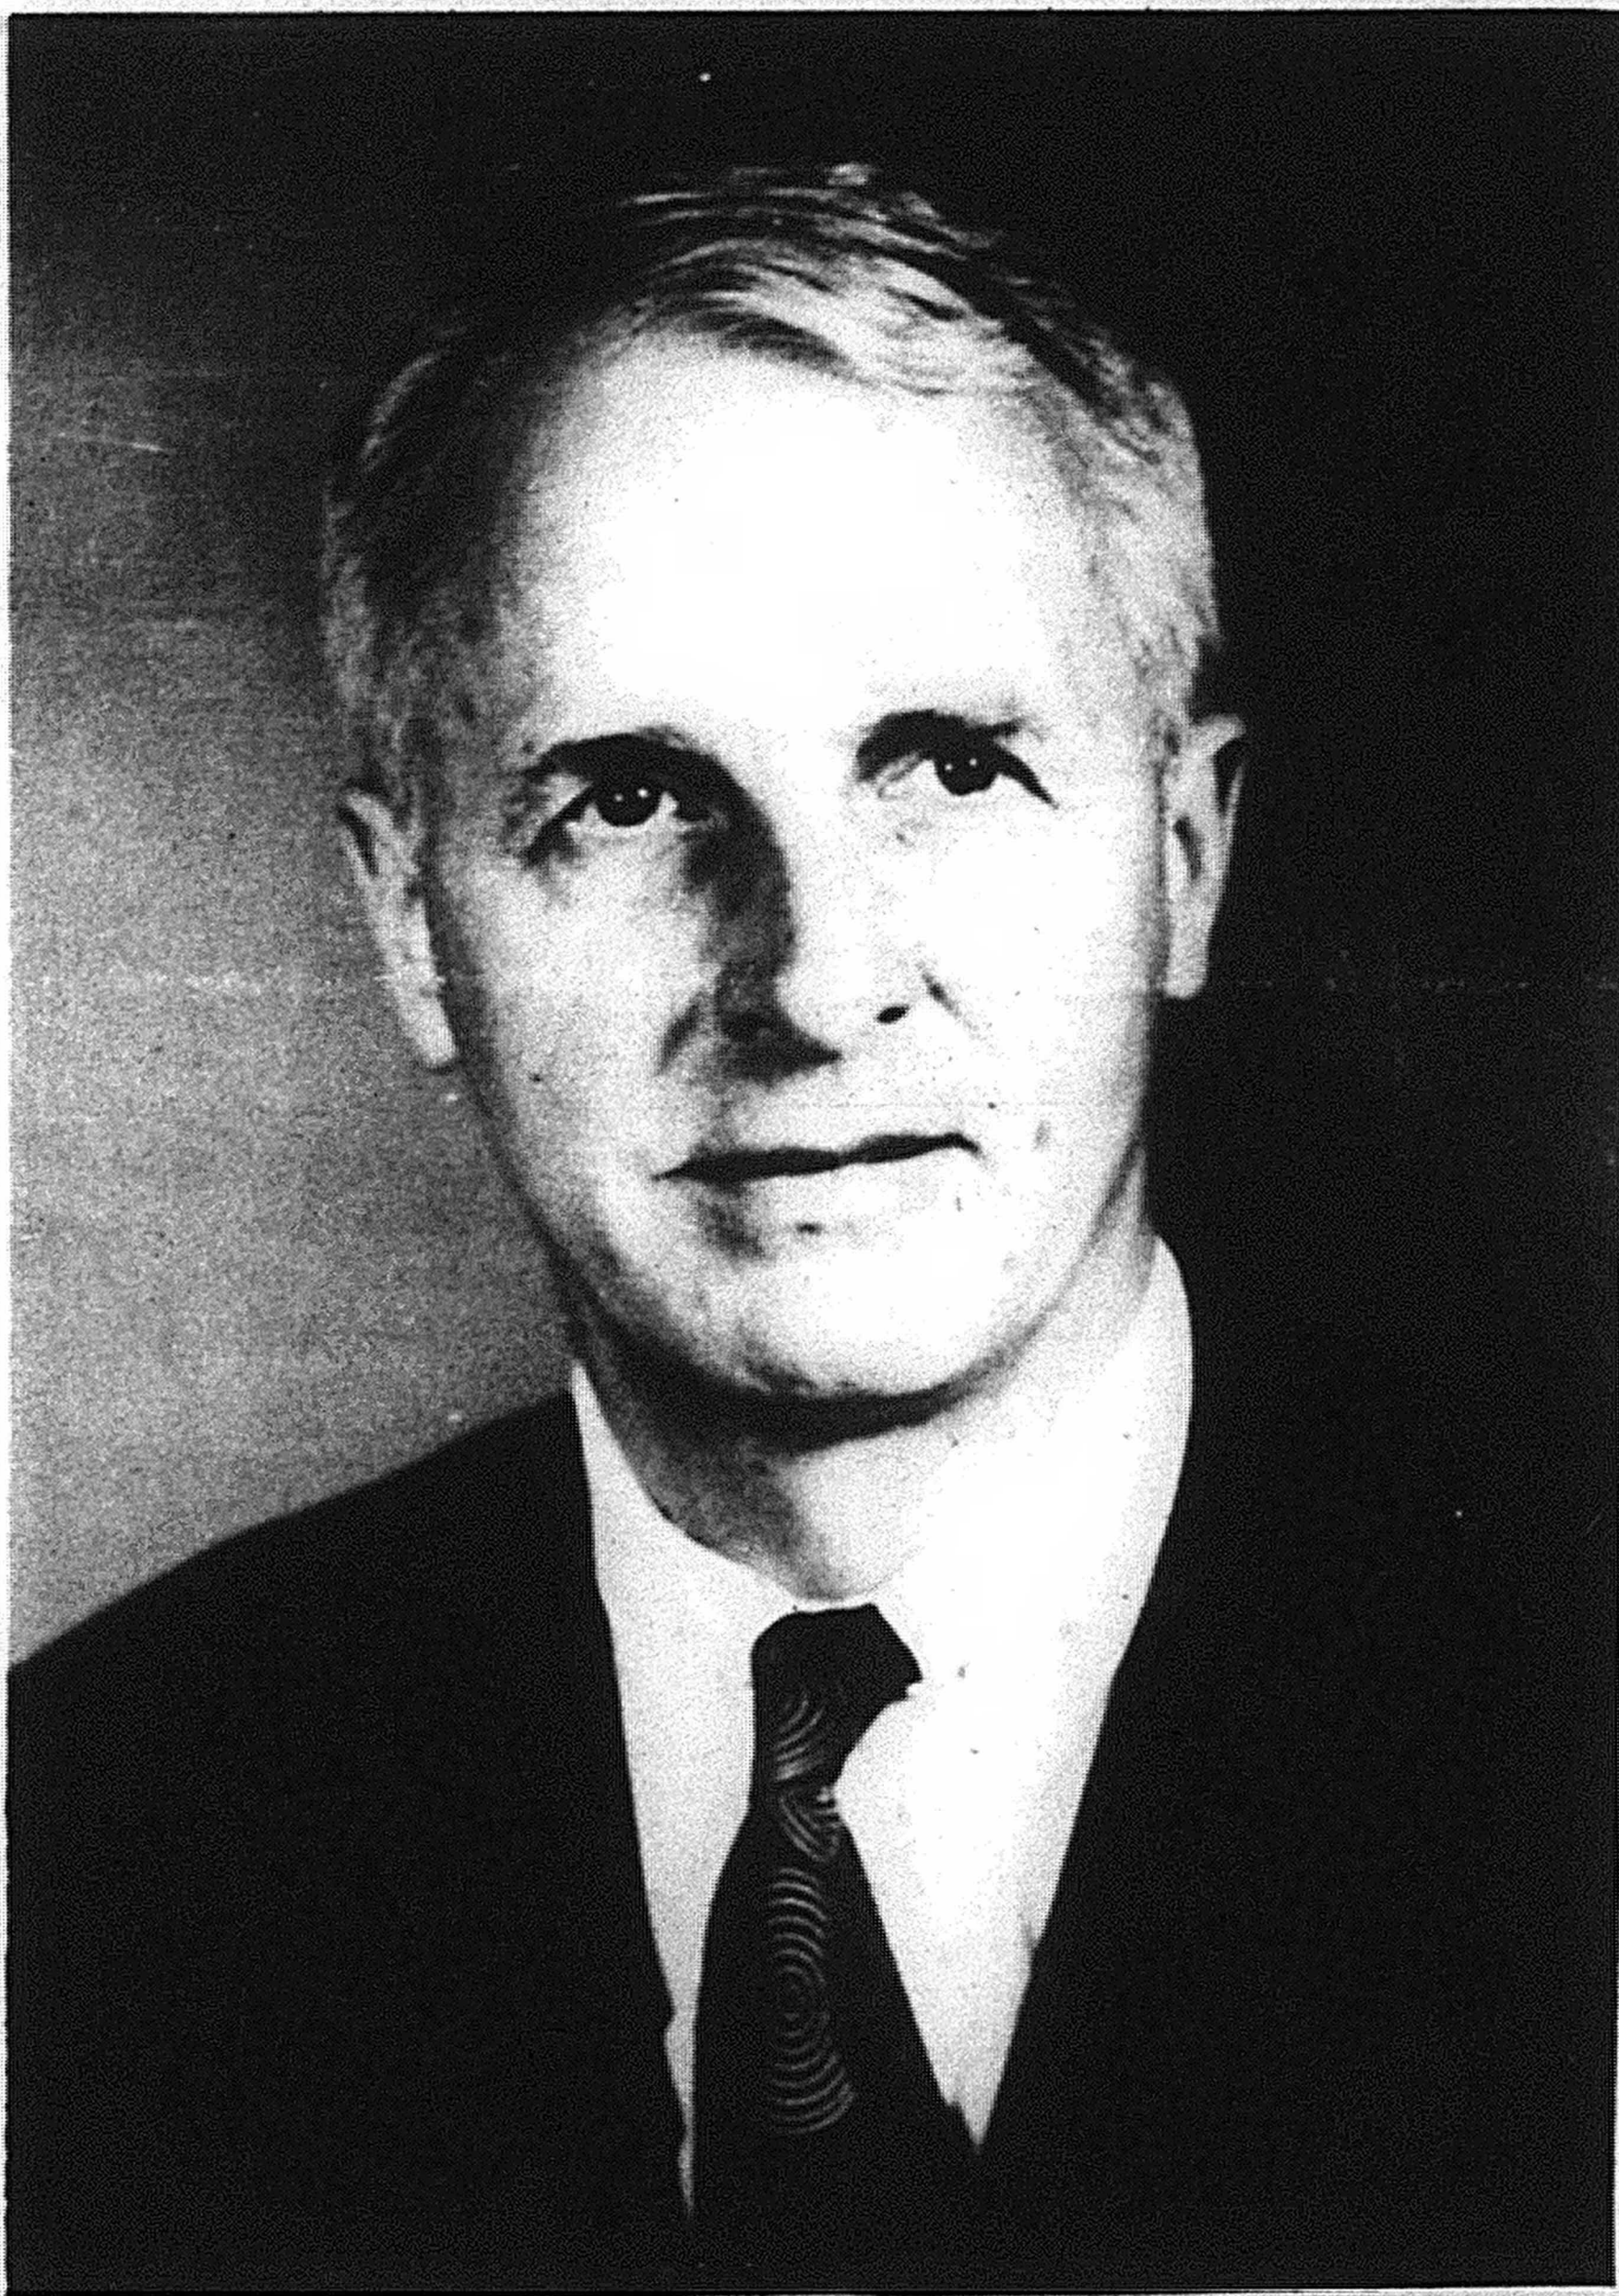

Dr. David Banks, Chairman of the Biology and Environmental Science Department and Associate Professor of Biology, said "These volumes on horticulture will greatly aid the students especially since we have added an horticulture tract in biology beginning in the Fall term of 1975. The books will be extensively used by the students and the faculty."

Garrett Birkhoff to Speak, March 31

Garrett Birkhoff, Putnam Professor of Pure and Applied Mathematics at Harvard University, will speak in the Campus Center Theatre on March 31 at 12 Noon under the auspices of the University Center in Virginia. Dr. Birkhoff is noted for his investigation in modern algebra, fluid mechanics, numerical analysis and nuclear reactor theory.

A consultant for various industrial and governmental laboratories, he was a Walker-Ames Lecturer at the University of Washington and Taft Lecturer at the University of Cincinnati. He also served as Visiting Lecturer at the National University of Mexico. Dr. Birkhoff has received honorary degrees from the Universidad Nacional de Mexico, the University of Lille, France, and the Case Institute of Technology.

He is the author of "Hydrodynamics," and "Lattice Theory," and co-author of "Survey of Modern Algebra," "Jet Wakes and Cavities," "Ordinary Differential Equations," "Algebra," and "Modern Applied Algebra."

Professor Garrett Birkhoff

Bruce Guernsey to Read Poetry

Bruce Guernsey will deliver a reading of his poetry at 7 P.M. in the Campus Center, CC-233, on March 31.

Mr. Guernsey is well known in the community for his work, and his recently published collection of poems, "Lost Wells," has not gone without critical notice. He is currently teaching courses in Creative Writing at Virginia Wesleyan.

He will appear at CNC under the auspices of the "Undertow" and of Paula Rankin. The event is free to members of the college and the public.

Students to Run Campus Center

We've all heard the cliché: "Everybody talks about the weather, but nobody does anything about it." The newly-formed Campus Center Committee will not do anything about it, either, but it will control what happens within the walls of the Campus Center building. The Committee will also be filled entirely by CNC students; ergo, students will run their own facility (which they should always have done).

One small hitch remains. The bare fact is students are needed to fill all committee

positions right away. Areas of committee authority include: (1) Programming events of all types in the Campus Center, (2) Publicity for all scheduled programs, (3) Budget, controlling the purse strings (about \$25,000 involved), and (4) Building and Grounds, controlling care and use of facilities within the Campus Center.

If you want a real share in the authority (not just a titular position), come to the Campus Center Information Desk for more coherent information.

Classes to Reorganize on Divisional Lines

By Mary Dvorak

The SGA has been discussing and considering a reorganization of the student body along the same divisional lines the faculty uses. During the first part of April, a referendum will be held to determine the opinion of the students.

With reorganization along divisional lines, students will have something to identify more closely with than a class. The divisions should also bring about greater homogeneity of interest among the students within their respective divisions.

It is also felt that with this reorganization there will be a better line of communication between students and their representatives in the Student Government.

Some people fear that the new system will cause a tendency toward representation by upper level students with first year students and transferees being left out along with those who have not declared a major or are unclassified.

According to members of the SGA, safeguards will be written to reduce the likelihood of representation being primarily from the upper level students. In the process, other problems which exist will probably be eliminated.

Any student who has anything to contribute on this subject is encouraged to contact someone in the SGA or to write a letter to the Editor of the *Captain's Log*. Watch the 'Log' for the date of the referendum.

BSA Sponsors Honor Banquet March 29

The Black Student Association is sponsoring a banquet to honor the Administration, Faculty, and Staff of Christopher Newport College on March 29, 1975.

This is your chance to honor your favorite administrator, instructor, or staff member in each of the following categories; Best All Around, Secretary of the Year, Teacher of the Year, Administrator of the Year, Staff Member of the Year, Pilaf. Tax deductible donations state at \$5.00 per person for an evening of entertainment, food, and honors.

Special guest and Mistress of Ceremony will be WTAR's Talk Show Hostess,

Becky Livas.

Reservations may be addressed to BSA President, David Holley, 1/2 Dean of Student Affairs, and should be in not later than March 25, 1975.

Most Effective Counselor, Most Congenial, Most Loyal to CNC, Most Inspirational, and Most Competent. Balloting will be held in the Campus Center Lobby March 24 and 25 by the Student Government Association.

Awards will be presented at the March 29 banquet to be held in the Campus Center Cafeteria at 7 P.M. The banquet will feature Beef Bourguignon and Rice

Editorial

Are We Headed Back to Southeast Asia?

August 9, 1974 was a happy day for most of America and a sad one for the rest. In case you have forgotten, that was the day Richard M. Nixon resigned the Presidency of the United States and the day that Gerald R. Ford became the first President to assume office without running on a national ballot.

The months and years preceding this eventful day had been filled with political unrest, wrong doings, and international distrust. The Watergate Scandal culminated in the premature departure of Richard M. Nixon. Prior to this, it was the Vietnam war which was the cause of much discontent in America, and many American men establishing new homes in foreign countries to avoid service in an army which they felt was involved in a war of injustice.

Even today, long after the great majority of the American forces and equipment have departed that war torn country, there are still some men who have refused to return to this country because of the conditions under which they were offered that privilege.

Under the Nixon administration, the United States tried something that the French had tried earlier in this century, that was to unite this war torn Southeast Asian country. The United States, like the French, failed in the attempt.

Today, looking at the development of the political picture in that area, I can't help but feel that the United States may be headed back to those distant lands to fight another losing battle, this time in Cambodia.

The United States is again involved in the politics of another country, one that is so different from our own that they can not understand the concepts of democracy as we know it. Only recently, Secretary of State Henry A. Kissinger, acting on behalf of the American people, tried to persuade China to help get peace negoti-

"THIS WAY, MEN!"

ations going in Cambodia; students in Cambodia held rallies to urge the U.S. to discontinue aid to their country so that they can find a peaceful settlement to their problems and form a new government for themselves; and the Saigon government continues to give up land in the face of a Viet Cong offensive that they are unable to withstand.

We are confronted with rising unemployment and inflationary costs here at home. Taxes have reached epidemic proportions, while the government, the House and Senate, debates how much of our tax money to give away in foreign aid, \$3.9 billion or \$1.9 billion.

My greatest fear is not the economic picture here in America, nor the fact that a distant war may be lost by the 'wrong' side. No, my greatest fear is that we will, once again, find ourselves with the draft, find the young men of this country going off to fight another war they can not honorably win, see hundreds more fleeing to foreign countries to avoid participation in such a war, or to see our nation's blood shed for an ideal so distant that it is meaningless to the American people.

Are we headed back to Southeast Asia? What are our interests there? At what price can we realize our goals? If that price is the life blood of our economy and

country, then I say "The price is too high." The price of freedom is high, and it is a price that must be paid by those struggling for that freedom, for freedom easily won is of such insignificance as to be meaningless.

Will Gerald Ford become a surrogate Richard Nixon by leading this country back to Southeast Asia, or will the Ford government and those elected officials placed in Washington by the people of this country stand firm? Only time can tell, I hope that the outcome is such that my fears will be buried in shame for doubting the integrity of our leaders.

Letters to the Editor:

Students, Professor Embarrassed by Faculty Member's Conduct

To the Editor

On Thursday, March 6, we had the opportunity to hear a lecture on the "Viking Project" presented by Mr. A. G. Price of NASA.

Upon arriving at the room which Mr. Price was to present his program, he had to await the finishing of a test which the students already in the classroom were taking. This was understandable and Mr. Price said that this was of "no problem." However, it seems as though a certain lady professor at CNC could not have the

same courtesy as Mr. Price had when he had to wait a few minutes for the room.

Mr. Price was just about to sum up his lecture when this professor, Mrs. H--- walked into the classroom, spoke with another lady, and departed only to return seconds later with her entire class mumbling and completely distracting Mr. Price from his summary.

Mr. Price was astounded at this occurrence and quickly said, "Well, I guess that's it." He finished his summary at once and hurried to get out of the

classroom.

However, before he could obtain his equipment, Mrs. H--- commented rudely that she had a lot of activity to get done, she already had to start late, and commenced calling roll. It seems as though Mrs. H--- had no courtesy for an outside visitor. She embarrassed the professor in charge of the lecture and she also embarrassed the students of CNC.

We believe that Mrs. H--- should stop and think how she would feel if she had given of her time to come and speak and then someone would not allow her a few more minutes to finish her final statement. She was rude, discourteous, and she should make an effort to apologize to Mr. Price.

Jackie and Vicky

Biology Department, in Low Esteem?

To the Editor,

As a senior Biology student, it has become obvious to me in the last few years that the Biology Department, due probably to its size, is not viewed with much esteem by other faculty or students. This became especially clear when Mr. A. G. Price, a speaker from NASA, was conducting a Biology Seminar on the Viking Project to Mars.

Before Mr. Price could conclude his talk, and before any of the audience could ask questions, the talk was interrupted. Mrs. Hubbard, a professor of speech, opened the door to the lecture hall and brought her students in. The students walked around and in front of Mr. Price and almost before he could remove himself from the front of the classroom, Mrs.

Hubbard began calling roll.

I know that an interruption of this sort does not happen and would not be tolerated in any other department except Biology.

Not many speakers come to CNC to discuss Biology or related subjects, but, when they do come, it would be appreciated if we could hear the complete seminar without interruptions of this sort.

Parry Bragg

Letters from our readers on matters of general interest are welcome. However, they are subject to editing and must be signed. Please include full address and, for verification only, telephone numbers. Anonymous letters will not be published.

Freshman, Sophomore AROTC Program Expands on Campus

By Doug Ferris

Beginning with the fall semester of the 1975-76 school year CNC will have its own classes in Military Science on the Freshman and Sophomore levels. In this semester, spring '75, Freshman classes were begun on the campus under the guidance of the Army ROTC Department at William and Mary.

Since 1962 cross enrollment for CNC students interested in the Army program has meant that the students travel to William and Mary to partake in the program. Now, with the first two years being offered on campus, Freshmen and

Sophomores will no longer need to travel to William and Mary except for initial processing. Juniors and Seniors will continue to go to William and Mary for their classes and will probably continue to do so unless the program grows to a desired level for the Army to recognize a need for a separate program on this campus.

Instruction for the CNC classes will be provided by the same professors who teach at W&M. Cpt. Gerard and Maj. Schmidt will teach the Freshmen and Sophomore classes respectively. Both classes involve academic studies, military history, and strictly military topics, protocol, drill, and traditions. Both courses receive credit which applies towards

graduation, an advantage that is not offered at some of the other colleges which have AROTC.

To those students who are interested only in a two year (Junior/Senior) program the option is still open to enroll, through W&M, until April 15 for non-veterans.

Before entering the advanced portion of

the program one must either have completed the first two years in regular courses, or have successfully completed the Basic Summer Camp at Ft. Campbell, Ky., or pass the entrance exam for veterans of any branch, which qualifies one for the senior program. Once accepted, the advanced cadet will receive \$100/month for each month in school.

Freshmen, Sophomores Sponsor Dance

The 'Whompascat' group will provide music for the Freshman-Sophomore Dance. Pictured are, standing left to right: Ricard Eanes, Eddie Brooks, Greg Henry, and Waller Gayle. on the front row are; Eddie Williams and Barry McGlawhorn.

The Freshman and Sophomore classes are sponsoring a Dance on March 28, 1975. Music will be provided by the "Whompascat". The dress for this dance is casual, beer will be sold for \$0.15 a cup.

Admission will be \$1.50 stag and \$2.50 a couple.

William and Mary Course Offers

Spring course offers at the College of William and Mary in Williamsburg which are new or unusual includes the following.

Basic Ikebana. Class sessions include: background explanation of Ikebana; basic upright arrangement; slanting style; free style flat form; centerpiece styles and Morimono-styles; exhibit of instructor and student arrangements for analysis. Meetings will be on Tuesday, 7:30 to 9:30 p.m., starting April 1, and running six weeks. The instructor, Mrs. Lee Early Quinn, holds a Master of Floral Arts Degree from Ichiyo School, Tokyo, and has 16 years of college and public school teaching and professional lecturing experience.

Open Education. Five informal seminar-workshops for parents and teachers interested in open education. Meetings on Wednesdays, 7 to 9 p.m., starting April 2, and running for five weeks. The instructor is Bob Bloom, Assistant Professor of Special Education at William and Mary, and long time activist for open education programs in public schools.

Birds of Virginia. A six week course meeting on Thursdays, 7:30 to 9:30 p.m. beginning April 3. The course is designed to assist individuals interested in identifying birds and learning to recognize them by appearance and sound. The instructor, Mrs. Ruth A. Beck, Instructor of Biology, College of William and Mary will conduct the course, which will consist of six two-hour class meetings and include formal lectures and field laboratory work.

Local Spring Flora. The five week course starting on April 5 will meet on Saturdays. It is designed to provide individuals interested in our local flora with an opportunity to become acquainted with a broad spectrum of native flowering plants and to learn basic techniques of plant identification. Donna M. E. Ware, Curator of the Herbarium, at the College of William and Mary will conduct the course.

Couples Weekend Workshop. The purpose of this weekend workshop is to provide a skills learning experience for couples. The focus will include communication skills, conflict resolution, and intimacy. The workshop is not designed

to provide individual or marital therapy. There will be a minimum of 6 couples and a maximum of 12 couples. Sue Randers-Pehrson, a Counseling Psychologist and Frank Johnson, a Group Counselor for the University of Maryland, will conduct this Saturday and Sunday workshop on April 5 and 6 at the Virginia Associated Research Campus, Jefferson Avenue, Newport News.

Finance and Accounting. Meets on Mondays, 8 to 10 p.m., starting March 31. The course, which will run 9 weeks, is designed for executives and non-financial managers and is a practical seminar intended to acquaint them with the principles, practices and techniques of finance and accounting that affect general business financial operations. The instructor, Wagih Defashy, is an Associate Professor, School of Business Administration, College of William and Mary.

Hors-D'Oeuvres. Begins April 3 and will meet on Thursdays, 7 to 9 p.m. The seven week course is designed for working wives and others who must entertain on short notice with limited time to spend in the kitchen. The instructor, Mrs. Lee Vliet, has spent several years collecting and trying recipes and preparing "party food."

For further information on these and other courses being offered on the William and Mary campus or registration, telephone the College's Office of Special Programs (804) 877-9231, ext. 200.

Low-Cost Student Accommodations Available in New York City

Now it's possible for young people to find low-cost accommodations right in the heart of Manhattan at the newly opened New York Student Center. The Student Center is operated by the Council on International Educational Exchange, a non-profit organization that has been providing services for the student traveler for over 25 years.

The Student Center is open year-round and is available to students and young people who are traveling on their own or with a group. Overnight rates for the Center's accommodations vary from \$6 per person for a three- or four-bedded room up to \$12 for a single. No advance reservations are necessary for individual travelers and special group rates and

services are available on request.

The Center is located in the McAlpin Hotel - next door to the Empire State Building and across the street from Macy's - at the busy intersection of 34th Street, Broadway and Sixth Avenue. The Center is easily reached by bus from Pennsylvania Railroad Station, Grand Central Station, Port Authority Bus Terminal and the East Side Airlines Terminal.

The staff of the Student Center knows

New York inside and out: they'll answer visitors' questions on where to go and what to see in New York and provide them with the best New York guidebooks and maps as well as tickets to many of New York's attractions.

The office of the New York Student Center is located in Suite 2200 of the McAlpin Hotel, 34th Street and Broadway, New York 1000. The office is open seven days a week from 9 a.m. to 8 p.m.; the telephone number is (212) 695-0291.

Even Women with Ph.D's Earn Less

It may come as no surprise, but a new study comparing women and men who hold doctoral degrees has found that even the best-educated women in our society still earn less money than their male counterparts.

The study, sponsored by the Graduate Records Examination Board, found that male Ph.D's receive an average salary of \$18,700 five years after earning their degrees, while women earn an average of

only \$16,400. In addition, a greater percentage of male doctorates are hired by business (where salaries are generally higher) while most women are hired by educational institutions (where salaries are generally lower.)

The study concludes that, despite recent moves toward affirmative action, women today are still "less likely to receive the rewards which their male colleagues enjoy."

Spring, Time for Safety

With the arrival of spring, it is a good time to remind the student body, faculty and staff to exercise care when traveling on the highways.

John T. Hanna, Director of the Highway Safety Division for the Commonwealth of Virginia reminds us that "We're all out here together."

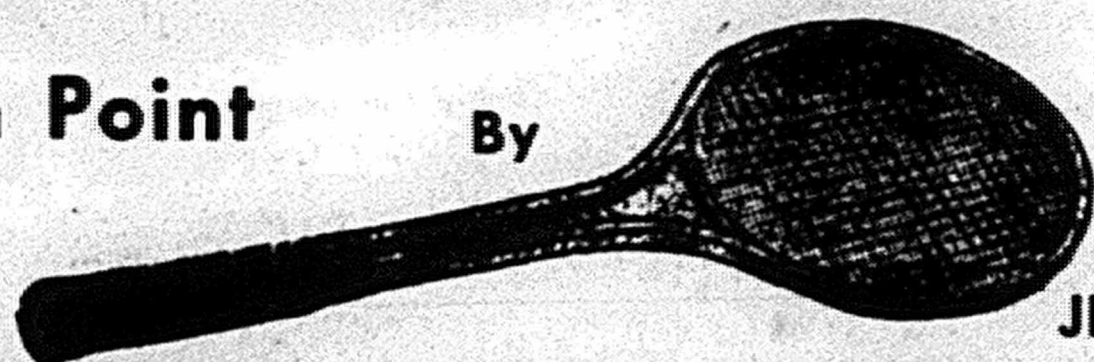

The Highway Safety Division of Virgin-

ia warns, "For dusk driving, only low beams should be used. Parking lights make a vehicle appear farther away than it really is."

Spring is a time for safety as well as a time for fun. By exercising reasonable caution, we will protect our own lives as well as the lives of those around us.

Match Point

By

JIM EYRE

Coach Armistead says he has the best tennis team ever fielded at CNC, but it seems the weatherman won't give the team a chance to prove itself.

In the first week of the season (March 13-April 27), the tennis team has had all three scheduled matches rained out. The next two matches are scheduled for March

21 and 23. Results of these matches was not available at press time. The tennis team has only four more home matches, school support is appreciated. Home matches are played on the Ferguson High School tennis courts. This year's tennis team is the best ever, so let's get out and support it.

1975 Tennis Schedule

Hirashi Hamada to Show Karate Techniques

Hirashi Hamada, the youngest and highest ranked black belt in the United States and the CNC Karate Club will give

Hirashi Hamada, holder of seventh-dan Black Belt in Karate.

a free Karate Demonstration on March 27. The demonstration is co-sponsored by the Recreation and Parks Department of Newport News and will be presented at the Jackson Recreation Center on 47th Street at 7:00 P.M.

Hamada, after placing second in the Japanese Karate Association's meet in 1972, was elevated to the position kyoshi, "The Instructor," and awarded the seventh-dan black belt. Mr. Hamada's emphasis in his instruction in the martial art is on the discipline of hard and intense practice as well as mental control.

In Hamada's own words, "Karate, like other martial arts, must convey the truth of itself to the public. For many Orientals it is their religion and way of life. Above all, it must become the means to the discovery of oneself."

Hiroshi has been sponsoring the CNC Karate Club since last year and has been giving its members the guidance he believes necessary to avoid the commercialized concept that most Americans have

To those interested in the club, you can contact Glenn Gilley or any other club member for information.

Conners Win \$10,000 in Coliseum Mall Tournament

In what some may feel was an unexciting match, Jimmy Conners defeated Jan Kodes in the 1975 Coliseum Mall International Tennis Tournament, 3-6, 6-3, 6-0 in the finals to take the \$10,000 first prize purse.

Both players had trouble getting their first serve in during the first set. In addition, Conners appeared to have had some trouble with his might two-handed back stroke. Kodes looked so good in winning this set that some felt that he really had a chance of winning the tournament.

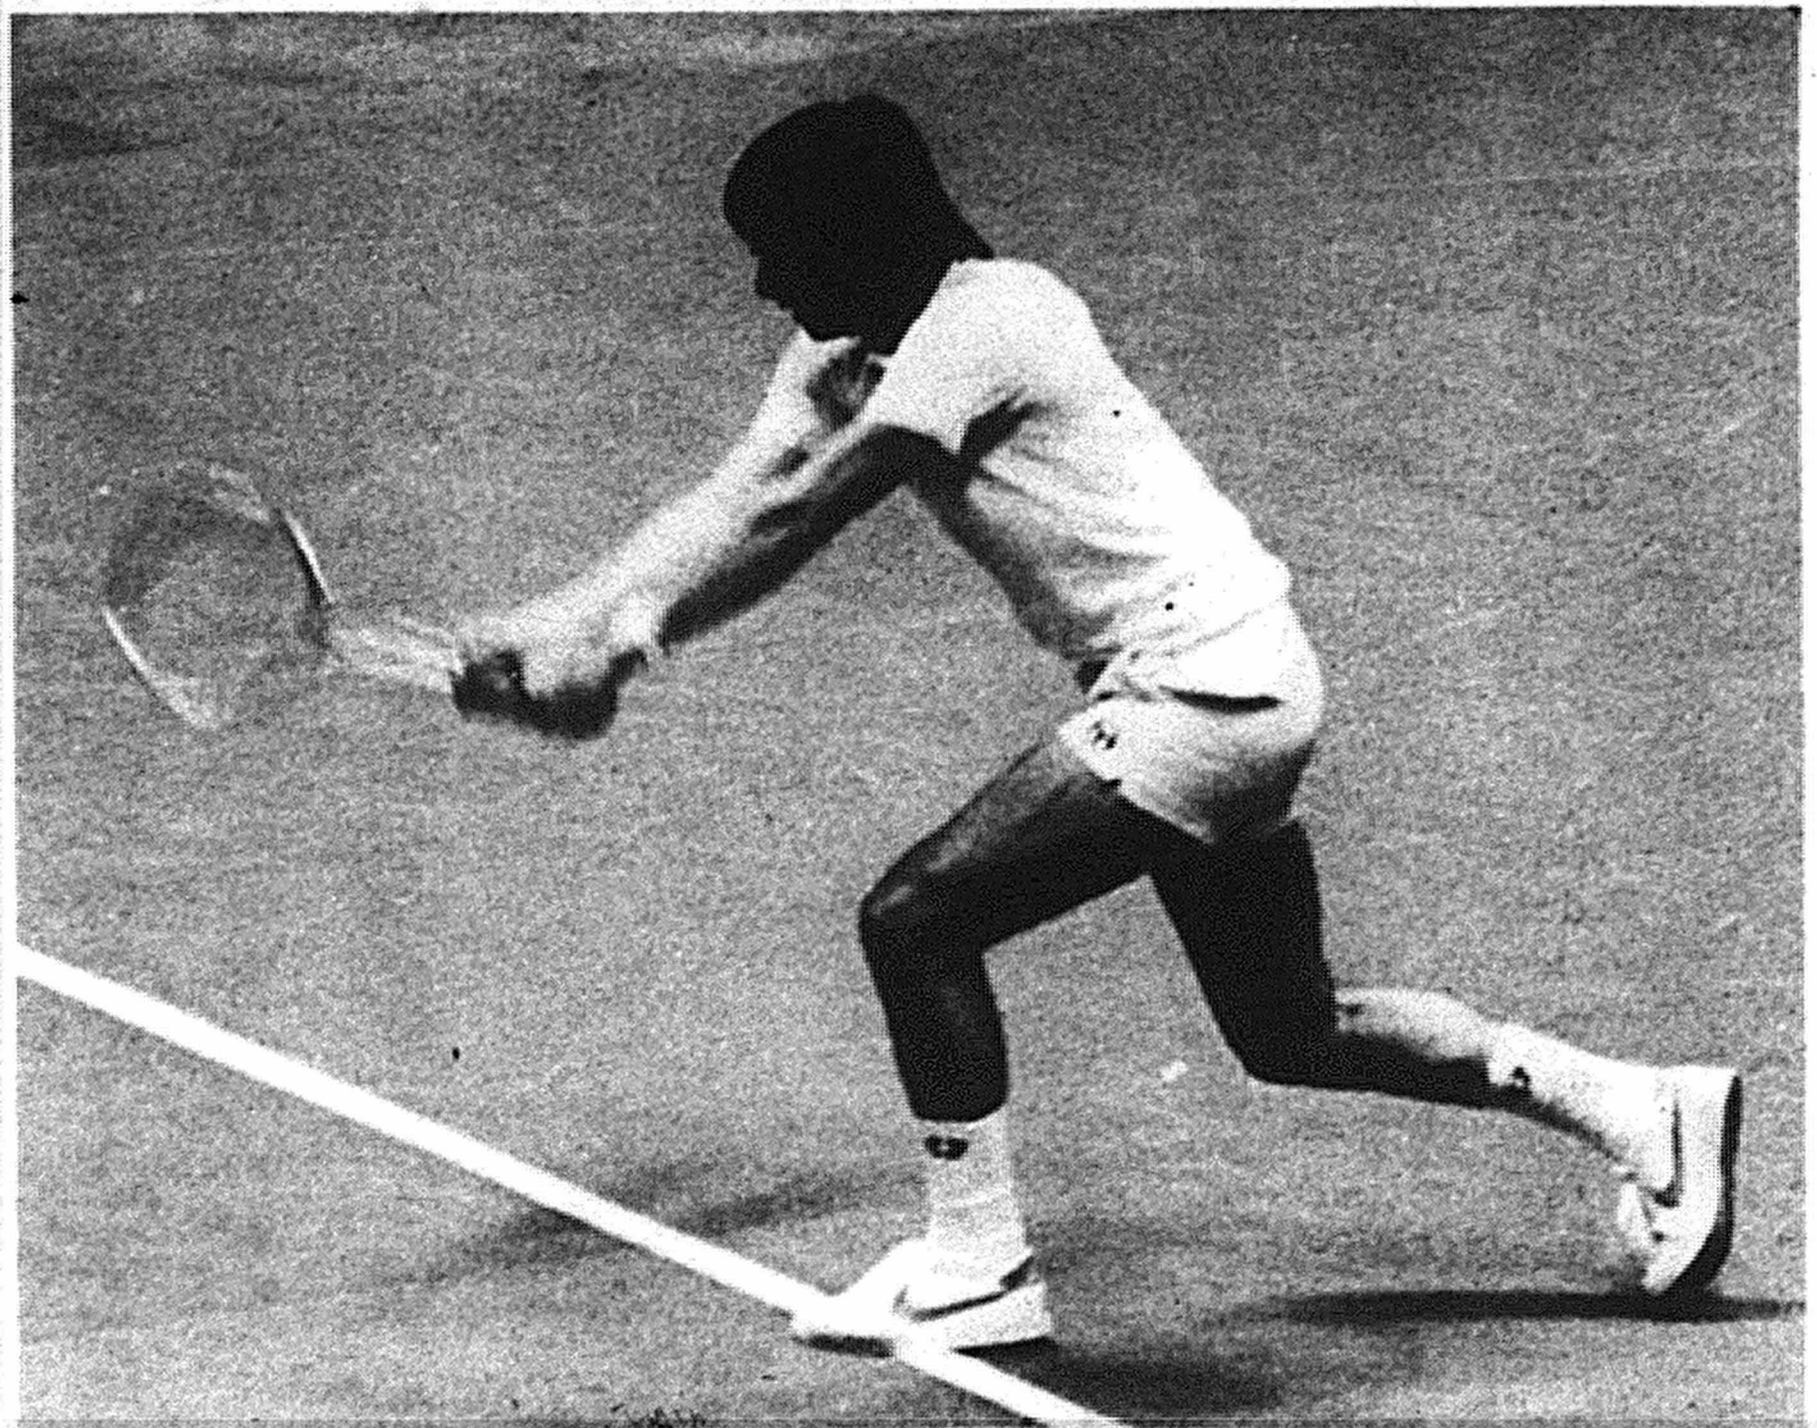

Conners came on strong in the second set, winning the first five games. Then Kodes staged an ill-fated comeback try by winning the next three, these were his

last, Conners won the next seven to take the set, match, and tournament.

The best rally of the match was the baseline battle of the second game in the third set. Both players made some spectacular returns, volleys, and overhead shots.

While this year's tournament was not on par with that of '74, it was still an exciting evening. Hopefully, next years matches will include an even larger and better group of players.

One side light of the finals was the television cameras. The match was videotaped for replay later this summer as part of the tennis pro-tour. It will be aired in this area some time in June.

Jimmy Conners, winner of the 1975 Coliseum Tennis Tournament. (Photo by Green)

VETERANS' HOT LINE: Questions and Answers on Education Benefits and Problems

Q: How will my VA Benefits be computed for the summer session?

A: For accelerated semesters the benefits are computed based on the number of hours and the number of weeks in the term. This summer there are four sessions: A (June 4 to July 3); B (July 9 to August 7); C (June 4 to August 7); and D (June 23 to July 22). If you take three hours in the A session and three hours in the B session, this will qualify for the full time rate. For the C session, six hours is full time and three hours is half time. There is a wide variety of combinations. Contact Mr. Aspell in the Counseling Center, Ext 203, for information on how benefits will be applied.

Q: I received a letter from the Roanoke Regional Office which stated I would not receive educational benefits during the summer months. I intend to go to school during the summer. How do I get this changed?

A: Contact Mrs. Harrison in the Admissions Office, Ext 247, or Mr. Aspell in the Counseling Center, Ext 203, so that a new enrollment certification may be pre-

pared. It is suggested that this be done as soon as possible so that there will be no delay in receiving your benefit checks.

How to make your last two years of college mean even more.

Take advantage of the Army ROTC Two-Year Program.

If you've just about completed your second year of college, and you're planning on two more, it's not too late to take Army ROTC.

You start the program with six-weeks of Basic Camp (you'll be paid for it) between your sophomore and junior years.

Then it's back to school in the fall. Learning how to become an Army officer

while you're working on your college degree. Earning an extra \$100 a month, up to ten months a year.

And two years later, you'll graduate with your degree, your commission as an Army officer, and some real experience at leading and managing people.

The last two years of college can mean a lot to you. If you take the Army ROTC Two-Year Program you can make them mean a lot more.

.....in your ear

By Chuck Edwards

It has been suggested that everyone on campus should wear GIN buttons. GIN, not to be confused with the beverage, stands for Get Involved Now. After all, if President Ford can solve the economic ills of this country by wearing a WIN button, certainly the apathetic ills of this campus could be solved with GIN buttons.

It would appear that a mere handful of students are involved in what is happening on this campus. This is easily seen through the poor turnout for elections and the small attendance at concerts, plays, and sports events.

The administration and student government spend many dollars and time in preparation for events aimed at the student only to have a handful of people show up. This might reflect poor judgement from the planners side, but just the opposite is true. It seems that the only functions that are well attended are those which offer free beer.

It is a sad day for the American student, his lowest hour. After such great concern and sacrifice shown in the 60's, it is truly pathetic to witness the student of the 70's. It makes me ashamed to admit that I am a student.

There is alot to do and alot to be done on this campus. Get Involved...Now.

S.G.A. Presents 'Hickory Wind'

**"Hickory Wind"**

The S.G.A. will present "Hickory Wind" in the CNC Pub from 8 to 11 p.m. on Wednesday, March 26.

"Hickory Wind" encompasses the use of guitar, banjo, dobro, fiddle, mandolin, Celtic harp, German krummhorn, Persian hammered dulcimer clavichord, and bass to perform a unique collection of original and traditional string band music. The

group traces traditional mountain and Appalachian music forms back to their roots in England, Ireland, and Scotland.

The band is located in Washington, D.C. and performs regularly at the Cellar Door. They have recently completed a nationwide tour with John Hartford.

There will be a \$1.00 cover.

CNC Host to Public Administration Chapters Meeting

The Virginia and the Tidewater Chapters of the American Society for Public Administration will hold a joint meeting, Thursday (March 27) at 7:30 P.M., in the Campus Center Theatre of Christopher Newport College.

The two Chapters of the American Society for Public Administration are meeting jointly for the first time at CNC.

The topic for the meeting will be "Technological Solutions to Governmental Problems."

A panel of speakers will discuss the topic, and will include Jim Mercer, Project Director of the Urban Technology System of Public Technology of Washing-

ton, D.C., Joseph Antinucci, Federal Lab Program Manager of the National Science Foundation of Washington, D.C., and William Besuden, Assistant Executive Director of the International City Management Association of Washington, D.C.

The moderator of the joint meeting will be Wendell White, Acting City Manager of Hampton.

The panel presentation will be open to the general public.

For further information call Dr. James I. Moore, Chairman of the Political Science Department, 596-7611, extension 285.

Focus, Jim Rollings, Assistant Campus Center Director

By Mary Dvorak

Last week we took a look at the duties of the Director of the Campus Center, this week we will follow that up with a look at the Assistant Director, Jim Rollings, and his duties. Actually, Assistant Director is a title given to the Building Manager, who is just a glorified janitor.

According to the job description, the Assistant Director is to establish and coordinate special events, tournaments, concerts, motion picture, and other non-academic entertainment such as the cook-out and craft shows that we have had this year. Mr. Rollings said that as of this time the Campus Center has yet to sponsor any concerts or special events.

Other duties of the Assistant Director include maintenance and repair of the theatre lighting and sound systems, and electronic and audio-visual equipment in the Campus Center. He is also to be available to other departments in the college for maintaining and repairing their electronic and audio-visual equipment.

He is to make recommendations on plans, programs, contracts and budget allocations, and to evaluate effectiveness of special activities programs which he may work with groups in presenting. And the Assistant Director will remain informed about equipment and furniture which is available in the Center and will arrange for its use by groups convening in the Campus Center.

Training and supervising projectionists and operators of theatre lighting and sound equipment is another duty of the Assistant Director, along with supervising employees in the absence of the Director. He is directly responsible to the Director and is to assist the Director in the general operation of the center.

Like the Director, the Assistant Director is to keep up with programs at other Campus Centers and Student Unions by visits, memberships and participation in relevant meetings. Also the Assistant Director is to evaluate his own effectiveness.

When talking with Mr. Rollings he said that the Director is mostly a policy maker and the Assistant Director is an idea person and makes things work. He added

that his position is as much one of a programmer as it is one of a building manager.

Mr. Rollings said that the building has been open for almost a year and a half and now it is time for the operation of the Campus Center to be put in the hands of the students, since it is their building. One way this is being done is in the form of the Campus Center Committee of Christopher Newport College.

This committee will serve as an advisory body to the Director and will give the students a chance to help manage the Campus Center. There will be four subcommittees: programming, publicity, budget and building (including food service). Each subcommittee will have an adviser or coordinator who will serve on the Executive Committee along with the SGA President, two faculty members and one member of the Campus Center Staff.

Mr. Rollings said that Mr. Sullivan is very supportive of student activities and has the attitude of "Try it, you might like it." (my quotation marks).

"Fly with the First Federal Eagle"

Wilderness Club Forming

Students and residents of the Peninsula are forming a club to promote and be an organizing body for wilderness sports. Included now are hiking, climbing, caving, and canoeing. Anyone interested is invited to the first on campus meeting at 7 P.M. Wednesday in the Campus Center, room 233.

The idea behind the clubs' formation is that it will give individuals interested in wilderness activities a chance to meet one another, plan trips together, and exchange ideas.

It is hoped that those with specific talents in climbing, kayaking, or other activities will be able to take out people with less experience for instruction.

It seems the most difficult obstacle for the person interested in outdoor sports for the first time, is just meeting with someone of similar interests to get some practical advice, and a little first hand experience. It's hoped this group can solve these problems if you are such a person.

Senior Job Interviews Planned

The following organizations' representatives will be on campus during the month to interview you for job possibilities after graduation. You may make appointments for interviews in the Placement Office, G-206.

March 24 - ACACIA MUTUAL LIFE INSURANCE COMPANY*, 1 to 4 pm, All Degrees.

March 25 - ST. REGIS PAPER COMPANY**, & AM TO Noon and 1 to 4 pm, Business, Sociology Psychology, and Mathematics.

VA Representative Receives Award

Robert Aspell, Veterans Administration representative to Christopher Newport College, was presented a plaque for services he has rendered to CNC student veterans of the United States Armed Forces during his stay at the College. The award states "For Service to the Public, Robert J. Aspell, VARO, Roanoke, Virginia, Field Director, Area 2, 1974."

Making the presentation was William

Highfill, Director of the Veterans Administration Regional Office of Roanoke, Virginia. Witnessing the presentation were Dr. James C. Windsor, President of CNC, John Bright, Director of Veterans Affairs at the College of William and Mary, R. Armstrong, Adjudication Officer, and T. B. Boyer, Veterans Administration Service Officer.

National "Pitch In!" Week Scheduled For April 7-11

Colleges and universities throughout the country are being invited to participate in the second annual National College Pitch In! Week, April 7-11.

Instituted last year, the event will again be co-sponsored by Budweiser Beer and the ABC Contemporary Radio Network. It is based on the nationwide Pitch In! anti-litter program. Participation may be from the entire student body or approved individual campus organizations.

The basic idea is for college students to team up in ridding their campus and/or surrounding community of a litter problem. This year, participants are also encouraged to consider projects such as tree-planting and park beautification.

Grand prizes consisting of \$100 educational scholarships will be awarded in each of five regions for the most creative and effective Pitch In! efforts.

Over 300 colleges and organizations participated in the 1974 effort. The Grand Prize Winners were University of Hawaii, University of Houston, Pennsylvania State University, Kent State University, and Florida A&M University.

To enter this year's competition, colleges or organizations should send a letter indicating their desire to participate to:

1975 College Pitch In! Week, ABC Contemporary Radio Network, 1330 Avenue of the Americas, New York, New York, 10019.

To be eligible for this year's awards, colleges or organizations must submit evidence of their participation. Documentation of their efforts may be in the form of written summary, along with photos, newspaper clippings, audio tapes, motion picture film, official letters of appreciation from civic officials, etc. Reports on individual Pitch In! projects must be reported no later than May 16, 1975.

Five Regional winners of \$1000 educational awards, along with five runner-up winners of \$500 awards, will be selected by a panel of judges in New York. All entries become the property of ABC Contemporary Radio Network.

The sponsors point out that College Pitch In! Week gives concerned students an opportunity to work together on a worthwhile project with both immediate

and lasting benefits to their campuses and communities. Research shows that littered areas attract more litter, but clean areas influence people to behave more considerably.
