DEAN'S ANNOUNCEMENTS

The following individuals have agreed to serve on the Faculty Library Committee during the 1974-75 academic session:

Mr. John Jenkins, Chairman	Communications and Education
Dr. Theodora P. Bostick	Arts and Letters
Mr. Carl M. Colonna	Business and Economics
Miss Nan C. Eddins	Library
Mr. John T. Harwood	Communications and Education
Dr. John Hoaglund	Arts and Letters
Mr. Kenneth E. Kirby	Social and Behavioral Sciences
Dr. Robert E. Kraft	Communications and Education
Mr. A. Burnam MacLeod	Arts and Letters
Mr. William Parks	Arts and Letters
Dr. Susan S. St. Onge	Arts and Letters
Dr. Gail Sellstrom	Social and Behavioral Sciences
Mrs. Frances G. Slocumb	Social and Behavioral Sciences
Mr. Gary S. Vazzana	Business and Economics
Mrs. Joan M. Ward	Arts and Letters
Dr. George R. Webb	Natural and Quantitative Sciences
Dr. E. Spencer Wise	Natural and Quantitative Sciences
Mr. Rodney Hespenshide	Student
Mr. Bill Hart	Student

NOTICES

The Campus Center will be closed Thursday, November 28th and Friday, November 29th for Thanksgiving Holiday.

GRANTS AND FELLOWSHIPS

National Science Foundation

NSF's Office of Science Information Service (OSIS) is currently accepting applications for FY 1976 assignments as Scholar-in-Residence under provision of the Intergovernmental Personnel Mobilization Act. Assignments are for 4-month periods, between July 1, 1975, and June 30, 1976, and include completion of an approved research project and professional interaction with members of the OSIS staff. To qualify for this assignment, an individual must currently hold a position with a college or university or State or local government agency.

The purpose is to augment OSIS' staff analytical capability by providing the assignee an opportunity for independent research of an interdisciplinary nature within a Federal Government science support agency. Inquiries should be forwarded to Robert S. Cutler, OSIS, NSF, Washington, D.C. 20550. Applicants should include a vita and description of research interest.

National Institutes of Health

The Swedish Medical Research Council will make available in 1975 three research fellowships to qualified biomedical scientists who are citizens of the U.S.A. They will provide research experience and training in Sweden at the postdoctoral level in basic or clinical sciences related to health.

Candidates must have a doctoral degree and must have been engaged in independent responsible research. They must present evidence of aptitude and promise in basic

science or clinical research with an active interest in pursuing a research career.

It is the applicant's responsibility to arrange for his research training with the preceptor in Sweden under whom he will train. Fellowships will normally extend for 12 months after the starting date. The fellowship award will cover payment of a stipend and transportation expenses.

The deadline for receipt of completed applications is January 31, 1975. An NIH committee will review applications and forward nominations to the Swedish Medical Research Council. Final selection will be made at the May 1975 meeting of the Swedish and nominees will be notified of the results shortly thereafter.

Further information may be obtained from Dr. Eugene L. Walter, Jr., Swedish Medical Research Fellowship Program, Fogary International Center, NIH, Bethesda, Maryland 20014.

NIH provides National Research Service Awards to postdoctoral individuals for training experiences in specified areas of biomedical and behavioral research. Awards are made to individual applicants, for specified training proposals, selected as a result of a national competition. Provisions of this announcement are tentative in nature and their final applicability will depend upon their being consistent with final regulations, which are now being developed and will be published in the Federal Register.

Applicants must be citizens or non-citizen nationals of the United States, or have been lawfully admitted to the United States for permanent residence. As of the beginning date of the proposed fellowship, an applicant must have received a Ph.D., M.D., D.D.S., D.O., D.V.M., O.D., Sc.D., D.Eng., D.N.S., or equivalent domestic or foreign degree. Proposed study must encompass biomedical research training with an opportunity to carry out supervised research in specified areas, and offer opportunity to research health scientists, research clinicians, etc., to broaden their scientific background, or to extend their potential for research in health-related areas. Applicants must apply in one of the research discipline areas specified by NIH:

The research areas, arranged by institute, in which fellowship applications will be accepted are:

National Institute of General Medical Sciences

- | | |
|---|--------------------------------|
| 1. Anesthesiology | 6. Pharmacological Sciences |
| 2. Cellular and Molecular Biology | 7. Behavioral Sciences |
| 3. Genetics | 8. Clinical Laboratory Science |
| 4. Basic Pathobiology | 9. Trauma Research |
| 5. Systems and Integrative Biology
(Bioengineering and Physiology) | 10. Epidemiology |

(Support is also provided in the Medical Scientist and MARC programs.)

National Heart and Lung Institute

1. Blood Diseases and Resources 2. Heart and Vascular Diseases 3. Lung Diseases

National Institute of Child Health and Human Development

- | | |
|-----------------------------------|--------------------------------|
| 1. Adolescence | 5. Mental Retardation |
| 2. Adult Development and Aging | 6. Perinatal Biology |
| 3. Growth and Development | 7. Population and Reproduction |
| 4. Infant Morbidity and Mortality | |

National Institute of Arthritis, Metabolism, and Digestive Diseases

- | | |
|--------------------------------------|---|
| 1. Dermatology | 5. Kidney Disease and Urology |
| 2. Diabetes-Endocrinology-Metabolism | 6. Musculoskeletal (Arthritis and Orthopaedics) |
| 3. Digestive Diseases-Nutrition | |
| 4. Hematology | |

National Eye Institute

- | | |
|--------------------------------|------------------------|
| 1. Investigative Ophthalmology | 3. Optometric Research |
| 2. Laboratory Visual Sciences | |

The above three as related to the following Institute program areas:

- | | |
|----------------------------------|---|
| a. Retinal and Choroidal Disease | d. Glaucoma |
| b. Corneal Diseases | e. Sensory Motor Disorders and Rehabilitation |
| c. Cataract | |

National Institute of Environmental Health Sciences

- | | |
|--|--|
| 1. Environmental Biology-(Mutagenesis) | 3. Environmental Pathology-Pathophysiology |
| 2. Environmental Epidemiology and Statistics | 4. Environmental Toxicology |

National Institute of Allergy and Infectious Diseases

- | | |
|--------------------------------------|-----------------------|
| 1. Allergic and Immunologic Diseases | 3. Parasitic Diseases |
| 2. Bacterial and Fungal Diseases | 4. Viral Diseases |

National Cancer Institute

- | | |
|---------------------|-------------------|
| 1. Carcinogenesis | 5. Immunology |
| 2. Chemotherapy | 6. Radiation |
| 3. Drug Development | 7. Tumor Biology |
| 4. Epidemiology | 8. Viral Oncology |

For further information regarding period of support, stipends and allowances, deadlines, and application: contact Mrs. Neiman at Extension 518.

Atomic Energy Commission University

Laboratory Programs

Faculty Research Participation--Summer appointments and short-term visits during the year for participation in ongoing research activities at Atomic Energy Commission laboratories in Oak Ridge, Puerto Rico, and Savannah River.

Laboratory Graduate Participation--Opportunities for master's and doctoral degree candidates to conduct year-round research for thesis and dissertation in established programs at AEC and other approved laboratories. Short research visits to a laboratory, to perform thesis parts, under a special ORAU contract.

Undergraduate Research Training--Ten-week appointments for college juniors, primarily during the summer, for independent study and research on problems in the biological, environmental and physical sciences, in engineering, and in mathematics.

For further information and application material, please write:

Oak Ridge Associated Universities
P. O. Box 117
Oak Ridge Tennessee 37830

ACADEMIC INTEREST

OUTDOOR RECREATION SYMPOSIUM

Christopher Newport College is host to a Symposium on Outdoor Recreation in Virginia to be held in Gosnold Hall 145, Thursday (November 14) beginning at 9:15 A.M.

The Symposium is being sponsored by Christopher Newport College and Virginia Commission of Outdoor Recreation.

The speakers for the morning and afternoon sessions will be Richard G. Gibbons, Landscape Architect of the Virginia Division of State Parks, James F. McInteer, Assistant Executive Director of the Commission of Game and Inland Fisheries, Charles E. Sheed Jr., Assistant to the Mid-Atlantic Regional Director and the National Park Service's Bicentennial Coordinator for Virginia, Carl P. Schreiber, Chief of Planning of the Virginia Commission of Outdoor Recreation, Parker Nelson, Executive Vice President of the Virginia Travel Council, and L. Gregory Low, Middle Atlantic Representative for the Nature Conservancy.

Dr. James C. Windsor, President of CNC, will give welcoming remarks to the Symposium delegates.

Dr. E. Spencer Wise, Associate Professor of Biology at CNC, will preside at the morning session, and Rob R. Blackmore, Director of Virginia Commission of Outdoor Recreation, will preside at the afternoon session.

EARLY CHILDHOOD DEVELOPMENT CONFERENCE

The Tidewater Conference on Early Childhood Development sponsored by the Prepared Parents Society and conducted by the Psychology Department of Christopher Newport College will be held at the CNC Campus Center, Saturday, October 26th from 9:00 A.M. to 4:00 P.M.

The conference will have as its theme "Enriching Your Child's Environment," and will hold 16 90-minute workshops.

Some of the topics to be discussed at the conference will be "Turning Your Child on to Life: Enriching the Environment of the Newborn Child: Everything You Wanted to Know About Childhood Sexuality but Were Afraid to Ask: Growing Up In The Technological Society; and the Effects of T.V. and Movies on Children's Behavior."

Dr. Lee Doerries, CNC Assistant Professor of Psychology, and Mrs. Kenneth Allen of the Prepared Parent's Society of the Peninsula are the directors of the conference.

Leading the topics discussions will be Dr. Doerries and Dr. Ruth Mulliken, Professors of Psychology; Dr. Robert Wildblood, Assistant Professor of Psychology and Director of the Counseling Center; Dr. Bruce Hoiberg, Assistant Professor of Psychology, all faculty members of CNC. Ms. Lois Fears, Assistant Professor of Early Childhood Education and Ms. Jane Goldman, Instructor of Early Childhood Education, both of Hampton Institute; and Drs. John and Sandra Gadell, Assistant Professors of Education of Old Dominion University.

The purpose of the Prepared Parents Society is to provide the community with a resource of information and education on the various aspects of parenthood and family life.

This conference is designed for parents. All workshops will be structured to

maximize the application of information to use in the home environment.

Conference participants who attend three workshop sessions will be eligible to receive one half Continuing Education Unit credit.

A \$2.00 registration fee will entitle you to attend all sessions and workshops.

For preregistration, please mail the registration form with your check by October 21st to: Tidewater Conference on Early Child Development, Psychology Department, Christopher Newport College, P. O. Box 6070, Newport News, Virginia 23606.

TRIP TO FRANCE

The Department of Modern Languages is organizing a trip which offers to all students the opportunity to earn three credits by studying French at the Alliance Francaise while enjoying life in Paris from May 15 to June 15.

The Alliance can accommodate students at all levels of language ability. No previous knowledge of French is necessary, and all placement is on the basis of examination. Classes run on a two-hour per day schedule, leaving free time for individual interests and excursions. Room and partial board are available with French families.

The approximate comprehensive cost of the four-week program will be \$600 - \$700, depending upon the size of the group. The fee includes round-trip air fare (N.Y. - Luxembourg), train to Paris, tuition and fees, and room and partial board. Anyone interested in further details is invited to attend an informational meeting which will be held at noon on Monday, November 25th, in W-203.

PHILOSOPHY LECTURE

Dr. John N. Findlay, university professor of philosophy at Boston University, will speak at Christopher Newport College in Newport Hall 125, Friday (November 15) at 12 noon.

Dr. Findlay's topic will be "Essence, Existence, and Personality." He will give the same lecture at Old Dominion University, Thursday (November 14) at 8:00 P.M. in the Arts and Letters Auditorium.

The lecture is the second in a series of Hampton Roads Franklin J. Matchette Lectures in Philosophy. The series are being sponsored jointly by the philosophy departments of Christopher Newport College, Old Dominion University, Hampton Institute, Virginia Wesleyan College, and Norfolk State College in cooperation with Tidewater Community College and Thomas Nelson Community College.

The lecture series are funded by the Franklin J. Matchette Foundation in New York, the only private foundation dedicated to public propagation. The foundation grants \$50 000 annually for lectures throughout the country.

The theme for the Hampton Roads lecture series is "The Concept of the Individual."

Dr. Findlay was born in South Africa, attended Oxford University, England as a Rhodes Scholar where he received his B.A. and M.A. degrees, and his Ph.D. degree from the University of Graz in Austria.

Prior to joining the Boston University in 1972, he held the following previous positions at the University of Otago in New Zealand, Rhodes University and Natal

University in South Africa, Newcastle-upon-Tyne, England, University of London, England, University of Texas and Yale University.

Among his major books are Meinong's Theory of Object and Values, Hegel: A Re-Examination, Values and Intentions, and Plato: The Written and Unwritten Doctrines.

Dr. Findlay was elected Fellow of the British Academy in 1956, and he gave the Gifford Lectures at St. Andrews University, St. Andrews, Scotland.

FACULTY NEWS

Bette Mosteller and Nan Eddins will be attending the Virginia Library Association Convention in Hot Springs, Virginia from November 14 to November 16.

* * * *

Drs. Ross Brackney and Steve Sanderlin attended the annual convention of the South Atlantic Modern Language Association in Washington, D.C., from October 31 to November 2. Seminars in American, Renaissance English, and world literature were attended, as well as meetings of the American Dialect Society and the Committee on Freshmen English. It was found that colleges and universities all over the South are facing the problem of freshmen who come with high grades but cannot write correct or effective English. Since neither transformational grammar nor structural linguistics can describe Standard American English, many English Departments are returning to traditional (classical) grammar and to a demanding review of the fundamentals of Standard American English. (Minority groups were represented in Washington by an Indian summer during that period of time.)

* * * *

Jim Hubbard recently served as meet Director of the Peninsula District Cross Country Championships held at City Park. Physical Education majors and members of the CNC Track team assisted in conducting the meet.

On November 6, Dr. Robert Kraft and Jim Hubbard attended an Elementary School conference at William and Mary on movement education, perceptual motor development, educational gymnastics, and motor learning. Mr. Siegfried Gerstunt, formerly of Munich, Germany, conducted the clinic.

On November 5, Mary Lu Royall attended a volleyball demonstrations seminar held by the U.S. volleyball association team at York High School.

Miss Royall and Miss Seats recently attended a two day National Women's Basketball coaching clinic held in Williamsburg.

* * * *

Professor John E. Jenkins attended the Regional Conference on Interpretation and Use of Criterion - referenced Test Results which was sponsored by the Testing Division of the State Department of Education and held at the Richmond Technical Center on November 7, 1974. The main speaker was Dr. Jerry D. McNamee of Westinghouse Learning Corporation which developed the Criterion - referenced tests for the Virginia Supplemental Skill Development Program.
