God bless each of you, and I wish you much success in your future endeavors.

Thank you so much,

The Woodrow Wilson International Center for Scholars has published its guidelines for **Fellowships in the Humanities and Social Sciences**. These fellowships provide full stipends, travel, and relocation to Washington, D.C. for a full academic year of research work. Deadline for application for the 1996-97 academic year is Oct. 1, 1995. Interested faculty members should first obtain a copy of the brochure from our office, but may contact the Fellowships office directly at (202) 357-2841 or fax (202) 357-4439.

The Department of Defense has published **Program Solicitation 95.3 for Small Business Innovation Research**. This bulletin contains a very large number of research programs designed for small businesses, which are encouraged to apply with university partners. Faculty members having an awareness of small businesses in the region which have a developmental capability for science and technology should review this document to determine whether or not there may be significant opportunities for joint efforts with such businesses. This document is too large for economical reproduction, so a visit to the office of sponsored programs is highly recommended. Closing date for this cycle is July 7, 1995.

# Virginia Special Olympics Law Enforcement Torch Run Fundraiser for 1995

The University Police Department is selling Virginia Special Olympics Law Enforcement tee shirts and baseball caps to support children, teenagers and adults who are special Olympians. They will be competing in Richmond on June 9, 1995 in the Special Olympics, games that provide them with numerous opportunities to develop good self-esteem, discipline, and teamwork ethics. I hope you will find this a worthy cause to be involved in and join the department and the university community in our efforts. If you have any questions, or would like to place an order over the phone, please call me at 594-7053.

Thanks,

Sgt. Evonne Dowdell

Special Olympics Coordinator
