

The Captain's Log

VOLUME XIV, NUMBER 3

CHRISTOPHER NEWPORT COLLEGE

SEPTEMBER 10, 1982

Science Building to be completed by Christmas

In an attempt to catch up with student demands, Christopher Newport College is awaiting the opening of the new science building. The building is proposed to be completed by Christmas and should be ready for classes by the first part of the Spring semester.

The new building is designed with the hallways outside, which allows for greater space utilization. It is the only one of its kind in the State, and should, therefore, be a focal point for many State surveys and studies.

Half of the top story and the entire bottom level will house the Biology Department. The other half of the top story will be used by the Chemistry Department.

The new building will contain 11 labs, including a radiation lab, a microbiology lab, a botany lab, a zoology lab and several freshman labs. The Biology Department will also have several specialized labs, one of which will only be used for soil studies. Each lab or pair of labs will have a prep room. The major stockroom will be located on the top level.

All of the labs, except the microbiology lab, will have open ceilings and will be brightly colored. The colors we selected and coordinated by the Science Department in "an attempt to make a cheerful and fun place for students," says Dr. Harold Cones, professor of environmental science. Dr. Cones has been involved in the planning of the building for over five years.

Office of Veteran Services opens with new hours

The Office of Veteran Services, located inside the Office of Admissions, Room 116 of the Administration Building, will be open according to the following schedule through September 17:

Monday: 9 a.m.-5 p.m.
Tuesday: 8 a.m.-5 p.m.
Wednesday: 8 a.m.-5 p.m.

Many other facilities will be available in the new building. The edifice will have a walk-in cold room, a living animal room, a plant drying room, a darkroom and an electron microscope room. At present the school does not own an electron microscope but hopes to obtain one soon.

The building will also have four controlled environmental change rooms, an ecology lab, and a herbarium. With the herbarium facilities, the biology department will be able to enlarge their plant collection.

In order to save money, all of the rooms, except the microbiology lab, will have open ceilings. The microbiology lab will have a ceiling in order to avoid contamination.

Although the hallways are on the outside, it is possible to flow from room to room while still inside the building. There will also be an elevator and a student lounge. The student lounge, complete with a microwave oven, is being furnished by the Alumni Association.

The majority of the science offices, and the reception office, are on the top floor. Altogether there are 10 offices located in the building.

The Science Department will spend approximately three-quarters of a million dollars to furnish the building. At present \$100,000 has been spent purchasing new equipment and microscopes.

Thursday: 8 a.m.-5 p.m.

Friday: 8 a.m.-5 p.m.

From September 17 to December 18, the office will be open the following hours:

Monday: 9 a.m.-5 p.m.
Tuesday: 8 a.m.-5 p.m.
Wednesday: 8 a.m.-1 p.m.
Thursday: 8 a.m.-5 p.m.
Friday: 8 a.m.-5 p.m.

For maximum space utilization, the new science building will feature outside hallways.

Fund drive equips science and other campus buildings

Six years ago, CNC began the annual fund drive, and last year helped found The Christopher Newport College Educational Foundation, Inc. to continue its pursuit of academic excellence.

The fund is hoped to solve some problems the college is having. At the moment, the college library houses 110,000 volumes, and this figure is inconsistent with the rapid student growth. Therefore, Christopher Newport needs funds to expand its library collection because the State's resources are insufficient to supply the college with the number of volumes it needs.

Also, with a new science facility well into the construction stage, the college needs to invest in new and advanced equipment for laboratory use, as well as for research. Similarly, the State's resources will not be enough to support the needs of the science department.

Other programs that the fund aids are:

- A faculty continuing education and development program.
- An ongoing curriculum evaluation and development program.
- An expanded student-as-person and student-as-citizen development program.
- A cultural and athletic program emphasizing human excellence.
- Sources from which to match gifts and grants.
- An Endowment.

As of August 25, 1982, the college's total fund monies was \$103,475.57. The goal is \$125,000.00. The business and civic communities have more than matched their goals and so has The Friends of the College. However, it is disappointing that the college and professional communities have not achieved half of their goals as of the above date.

An annual fund drive is very beneficial to the college in that it aids the college while giving the community a chance to learn and experience what Christopher Newport College is all about.

Campus Closeups

Backgammon tourney

The Fall Intramural Backgammon Tournament will begin the week of October 18 and continue through October 22. The entries open on September 27 and close on October 13. All those interested, male and female, may register on the sign-up sheets on the Intramurals Information Board or at the Intramurals Office. Anyone who is taking at least one credit hour this semester may participate.

Sigma Tau Delta

The English honorary society, Sigma Tau Delta, welcomes all new students to CNC. Activities for this academic year include publication of the campus literary magazine, *Currents*, a fall book sale, and several speaker programs.

If interested in promoting literary expression on campus, contact Dr. Jay Paul, advisor, for details about membership.

Tennis tournament

The Intramural Tennis Tournament will begin the week of September 25 and continue to October 2. The entry deadline is Tuesday, September 21. The tournament will consist of men and women's singles. The possibility of a mixed doubles tournament will depend on the number of players interested. A sign-up sheet for entries will be located at the Intramural Office (599-7054).

Psych social

The Psychology Club will have its semi-annual social on Thursday, September 23 at 12:15 p.m. in W110. Everyone interested in participating in club activities this semester is welcome. The club is now selling doughnuts and coffee in Wingfield.

We would also like to remind anyone interested in joining the club to stop by W107 from 10-11 a.m. or 12-1 p.m. on Monday, Wednesday or Friday and see Suanne Massey or Christie Richie.

Horseshoe tourney

The Intramural Horseshoe Tournament will begin on October 4 and end on October 8. The tournament is open for men and women. Entries open September 15 and close on September 28. If interested, please sign up at the Intramural Office by September 28. The office is open Monday through Friday from 1-6 p.m. and Saturday from 12-3 p.m. For details contact Vicky Gunn in the Intramural Office (599-7054).

"Buccaneer" meeting

An organizational staff meeting for *The Buccaneer* — CNC's Magazine of College Life is scheduled for Friday, September 17, at 1 p.m. in CC209. Vacancies exist for writers, proofreaders, photographers, ad sales representatives, ad manager, and a business manager. For further information, contact Ken Gillespie at 596-9556 or come by CC209 during business hours on Monday and Tuesday.

Student teaching

Students who plan to enroll in *Supervised Teaching*, Spring, 1983, should pre-register with Mr. John Jenkins, director of student teaching, prior to October 1. Registration blanks and information can be obtained from the Department of Education, W226, each day from 8 to 4.

Spanish Club

The Spanish Club announces new officers for the 1982-83 year: president, Sheri Swaim; secretary, Michael Halabuk; Student Association representative, Michael Halabuk. The next club meeting will be September 23, 1982 in W221 at 12:15 p.m. Topics to be discussed include plans for a trip to the Williamsburg Library to see the movie *The Obscure Object of Desire* (in Spanish).

Tutoring

Anybody interested in tutoring for the next academic year, please stop by the Student Association office and contact Eric Cipriano, S.A. executive vice president for Academic Affairs in CC229. Give your name, the subjects you are willing to teach, your telephone number, and your fees. If no one is in the office, please call 599-7185 or leave a note.

Hugill sings of shellbacks

Stan Hugill, noted at 75 as the last living chanteyman, will present a program of sea chanteys for members of The Mariners' Museum on Friday, September 17, at 8 p.m. Museum memberships will be available at the door.

Stan Hugill is the foremost chanteyman to lead the choruses of shellbacks who manned the capstans and set the halyards of the square-riggers that rounded Cape Horn before steam relegated sail to either history or re-creation. But Hugill is far more than an old salt full of wind-blown memories — he is a living foundation of wisdom whose path has been the sea.

Outdoor People

by Sue Gray Al-Sallaam

If you prefer something a bit more invigorating than playing Pacman or drinking beer in the Pub, you now have plenty of opportunities!

Sailing. The Christopher Newport Sailing Club now has a variety of boats kept at the Warwick Yacht Club. The cost of joining for one semester is less than that of renting a boat for an hour at Nagshead. You don't have to know how to sail; they will teach you! Just watch for news of the first meeting or contact Dr. George Webb at 595-6420.

Hiking and Backpacking. The Tidewater Appalachian Trail Club is a very active group. They meet the third Wednesday of each month at 7:30 p.m. at the Church of the Advent, Norfolk Ave., Ocean View. Get a ride with me. Besides carpooling off to the mountains, where they maintain trails as well as hike them, they have local day hikes to such places as Chipokes plantation, Sunday, September 12, and Newport News City Park the weekend after

that. An overnight canoe trip at Merchant's Mill Pond, North Carolina is planned for October 15. For more information contact The Tidewater Appalachian Trail Club, P.O. Box 8246, Norfolk, 23503.

Biking. There are three clubs: the Peninsula Bicycling Association, the Tidewater Bicycling Association and the Williamsburg Bicycling Association. The dues buy you the newsletter (or you may pick up one at the local bike shop), and there are rides every weekend graded from beginner to pro. They often wind up at some place to eat! You don't need to be a member to join the rides.

Skiing. Ask Dr. Bob Cummings about the Ski Club.

Canoeing. Ask Tom Frink (380-5364) about Coastal Canoeists.

Caving. Call Brian Davis, 722-1449, or write to the Tidewater Grotto, P.O. Box 62642, Virginia Beach, 23462.

Schedules for Biking, Hiking, and some river-running are posted on the bulletin board near G231.

Car inspections revised

Virginia's changeover from a semiannual motor vehicle safety inspection program to an annual one is going to cost a little less and be much more convenient, but it's going to take some getting used to.

The new law, passed by the 1982 General Assembly and signed by Governor Charles S. Robb, goes into effect July 1, 1982.

Instead of paying \$4 per inspection for semiannual inspections, a total of \$8 a year, vehicle owners will pay a \$7 fee for an annual inspection. State Police are determined that the once-a-year inspections not serve as a detriment to highway safety and have promulgated the necessary inspection regulations to help ensure a vehicle's safe-operating condition for the 12-month period between inspections. State Police also plan to increase its supervision of inspection stations and place greater emphasis on "spot" checking safety equipment of vehicles being operated on Virginia's highways.

The part of the new law that's "going to take some getting used to" is vehicle owners determining exactly when their vehicles are due to be inspected.

You should have your vehicle inspected according to the date on your windshield

sticker if:

- Your license plate decals expire during the last six months of 1982, or
- You purchased a new vehicle after July 1, 1981 and have a 12-month safety inspection sticker on your windshield.

Otherwise, wait, and have your safety inspection performed during the same month your plates expire (January - July 1983), regardless of the date shown on your windshield sticker.

For example, if your current inspection sticker expires in November, and your license plates expire in August, then you should have your vehicle inspected in November. If, however, your license plates don't expire until February, disregard your inspection sticker and wait until February to have your vehicle inspected.

In announcing the implementation of the annual safety inspection program, the Department of State Police indicated the importance of keeping vehicle safety inspections spread over a 12-month period and that this appeared to be the best way to do it.

Use the chart to find your new inspection date quickly.

License Plate Expiration Dates	Semi-annual windshield sticker number					
	7	8	9	10	11	12
July 82	July 82	Aug. 82	Sept. 82	Oct. 82	Nov. 82	Dec. 82
Aug. 82	July 82	Aug. 82	Sept. 82	Oct. 82	Nov. 82	Dec. 82
Sept. 82	July 82	Aug. 82	Sept. 82	Oct. 82	Nov. 82	Dec. 82
Oct. 82	July 82	Aug. 82	Sept. 82	Oct. 82	Nov. 82	Dec. 82
Nov. 82	July 82	Aug. 82	Sept. 82	Oct. 82	Nov. 82	Dec. 82
Dec. 82	July 82	Aug. 82	Sept. 82	Oct. 82	Nov. 82	Dec. 82
Jan. 83	Jan. 83	Jan. 83	Jan. 83	Jan. 83	Jan. 83	Jan. 83
Feb. 83	Feb. 83	Feb. 83	Feb. 83	Feb. 83	Feb. 83	Feb. 83
Mar. 83	Mar. 83	Mar. 83	Mar. 83	Mar. 83	Mar. 83	Mar. 83
Apr. 83	Apr. 83	Apr. 83	Apr. 83	Apr. 83	Apr. 83	Apr. 83
May 83	May 83	May 83	May 83	May 83	May 83	May 83
June 83	June 83	June 83	June 83	June 83	June 83	June 83

Locate your license plate expiration date on the left of the chart and your current inspection sticker number at the top of the chart. The date in the block where the two columns meet is your next inspection date. This chart does not apply to new vehicles that already have 12 month inspection stickers. They should be reinspected according to the date on their current inspection stickers.

Entertainment

Peninsula Sinfonietta to perform

The Sinfonietta of the Peninsula Orchestral Society, under the baton of Music Director Joel Suben, will perform the opening concert of its 1982-83 season on Sunday, September 19, 1982, at 8:15 p.m. in the Christopher Newport Campus Center Theatre.

The program will consist of the *Divertimento*, K.138 of Mozart; the "Serenade for String Orchestra" of Edward Elgar; the "Holberg" Suite, Op. 40, of Edward Grieg; and works by two American composers, "Three Pieces for String Orchestra," by Arthur Berger, and "Nocturne," by Walter Ross.

Arthur Berger, who studied under Walter Piston and Nadia Boulanger, is, at the age of 70, one of America's pre-eminent living composers. A member of the National Institute of Arts and Letters and the American Academy of Arts and Sciences, he was, for many years, the Irving Fine Professor of Music at Brandeis University.

Walter Ross studied composition with Alberto Ginastera, Roger Sessions, Karel Husa and Mario Davidovsky. "Nocturne," his only work for string orchestra, was written after the death of the daughter of a friend, and is quiet and contemplative in mood. Mr. Ross is currently on the Music Department Faculty at the University of Virginia.

The program is the first in a series of three concerts being presented by the Peninsula

Orchestral Society, in addition to its series of regular symphony concerts by the Peninsula Symphony of Virginia. These concerts will be devoted to orchestral music in the smaller forms: works that are often performed by full symphonies either in large scale orchestration, thus changing their original concept, or are played during regular concerts by a reduced number of musicians on a huge stage crowded with empty chairs.

The sinfonietta was founded in the Fall of 1981 by Concertmaster Elnore Andersen, and is patterned after such groups as the Virtuosi di Roma and the Solisti Veneti. In the September 19 concert, they will carry on their practice of performing works by contemporary American composers along with familiar works from the standard repertoire.

For ticket information call: 851-0362.

Bill Deal at free show on Sept. 10.

Jason of Jason and the Jags at the free concert, Sept. 8 (erroneously billed as the U.S. Jags).

Nu Fri Ti

The Nu Fri Ti Society announces its first official function of the Fall semester — The Best Looking Legs Contest. Categories are for both male and female.

Those who wish to be a judge for the contest may contact Anne Doop at 599-7196, or submit name, phone number and reason for wanting to be a judge to any Nu Fri Ti member.

The contest will be held on September 22 in the cafeteria.

For more information, contact any member of Nu Fri Ti (they wear ties on Fridays) or attend a meeting. Meetings are held upstairs in the Campus Center on Fridays at 2 p.m.

Learning how to love; a review

by Pat Andrews

Richard Gere (*Yanks*, *American Gigolo*) plays the part of Zack Mayo, a tough, realistic officer candidate whose only concern in life is himself. Going for the most distinguished and difficult job the Navy has to offer, jet pilot, Zack encounters a number of obstacles along the way. His drill instructor prods and torments him, searching for any sign of weakness.

His closest friend is almost trapped into marriage by a woman claiming pregnancy, making Zack doubt his own woman's love. His personal background and his relationship with his father cause doubt about his own self-worth, and, most damaging of all, he seems unable to care about the other members of his company.

This movie is not a serious remake of the *Private Benjamin* plot, despite the military setting. It is the story of one man and his struggle to overcome serious defects in his own character. It is the story of his burning desire to succeed, and to avoid following in the footsteps of his woman-chasin', alcoholic father. But even more, it is the story of a man learning how to love.

This movie is at times serious, funny, tragic, and frustrating. The viewer finds himself truly caring about the characters and situations he is watching. *An Officer and a Gentleman* is currently playing at the Newmarket IV Theater.

Sports

Walthall is promoted

by Lauri VanNewKirk

Coach Susan Walthall has been named Assistant Athletic Director, making her the first full-time person on the staff.

Before coming to Christopher Newport three years ago, she was the coach of the women's basketball team at Virginia Wesleyan, and the year before she took her team to a record of 23-0. She also was the assistant coach at Old Dominion University and taught for a short time at Norview Elementary, in Norfolk.

She received her B.S. degree from ODU, and during her years there, she played intramural field hockey, softball, and was captain of the basketball team for two years.

Coach Walthall said that she "could not have a better teacher than Bev (Vaughan, athletic director); he is so very professional and shows a great deal of patience."

Walthall's duties include total control of the Women's programs and, when Vaughan is not there, taking on all the duties of Athletic Director.

Coach Susan Walthall

Cross Country Team Looking For Third Title

by Vince Kelly

The Captains, looking for their third straight Dixie Conference cross country championship, will host Hampden-Sydney Saturday with an all-freshman team.

Leading the Captains in their quest will be three-time, all-state performers Ronnie Borsheim from Granby; Tom Berry, also three-time, all-state from Hermitage; Jimbo Willard (Blacksburg); Ricky Mitchell (Abingdon); Tim Mowrey (Abingdon); and Tabb Justis (Hermitage).

These six men, considered by Coach Vince Brown to be the team's "nucleus," will be joined by Bruce Hawes (Buena Vista), Ed Ross (Warwick), and Vernon Sessoms (Mechville).

Under most circumstances, an all-freshman team would be considered a disadvantage. Brown, however, thinks differently about this team. "This team has more talent than we've ever had here, and by the conference cham-

ampionship, we'll have the best team we've ever had," says Brown.

The women also open up their season this Saturday as they travel to Norfolk to compete in the ODU Invitational. Brown, who also coaches the women's team, believes the team "should improve over last year."

One of the reasons for the improvement is Cindy Smith, an all-state cross country runner from Glade Springs, Virginia. She will be supported by returning lettermen Veronica Lovko, junior, and Cyndie Cronk, sophomore. Rounding out the squad are freshmen Karen Rutherford from Menchville, Karla Harmon from Lafayette, and returning sophomores Fran Brown and Jennifer Owen.

Although improvement is expected, Coach Brown believes the team is "still lacking the depth to be an outstanding team."

The men's meet at the Mariner's Museum starts at 1130 a.m. The women start at 8:15 a.m.

Soccer outlook bright

by David Bean

Getting a few minutes to talk with Christopher Newport College's new soccer coach, Seth Roland, is easier said than done; but, with a little patience, it can pay off. Roland seems quite hopeful for his first season as the Captain's mentor. He has a good crop of players this season.

The team has 10 returnees from last year's squad and they include: Chris Fazio, goal; Tracy Toms, back or midfielder; John Ward, back; Ian Curran, back or defensive midfielder; and Jack Pang, center or midfielder, whom Roland describes as "a creative and skillful" player on the field.

Also returning are veterans Frank Vincent, Sean Gatz, Tom Olenksi, Marcello Palmez, and Olivier Deubres, all of whom can play ably in almost any position.

Roland is demanding as a coach, yet his demands fit his perspective on the sport: "The team is to be number one, to everything but school; to work one's work schedule around the team's schedule, and to give 110 percent at practice and the matches."

While we are talking, someone yells "Coach! Victor's got white laces." Roland quickly tells him to get some black ones from his office. When asked why, Roland replies, "White looks bush (makes one look not right on the field)."

The Captains have had several scrimmages, including a couple against the freshman squad from William & Mary. The first match was not what CNC wanted as they lost to East Carolina University, 6-3. The bright spot for the Captains was Kwantreng's hat trick.

Of the newcomers to the team, three have very strong backgrounds. Tom Hammond, who graduated from Phoebus High School this Spring, will be starting in the backfield. Mark (Yo-Yo) Yacobi, who comes from Peninsula Catholic High School, will be up in the forward position. The last of the three is Victor Kwantreng, Victor hails from Liverpool, England. He is already a seasoned player, whose talent and experience will benefit the team. Roland feels these three will add strength to the squad.

The next match was too late for press time, but it will be in the next issue. The Captains will play their first home match on Saturday, September 18 against Methodist College at 3 p.m. The 15-match schedule will have seven home games and eight on the road.

Roland: The final goal is to become a Division III powerhouse

by Vince Kelly

If you wanted to rebuild a soccer program, what type of person would you hire to do the job? Would you hire someone young and ambitious — someone who can grow with the program? Or would you hire someone older and established whose methods have been tested and refined? Bev Vaughan, Christopher Newport's athletic director, chose the former when he hired Seth Roland as his new head soccer coach.

Roland, CNC's first full-time coach, is one of the youngest head soccer coaches in the country at 25. His age is deceiving, however, when you consider the range of experience Seth Roland has:

- Three-year starter at the University of Pennsylvania, a perennial soccer power.
- Two-time starting midfielder (1977, '81) on the USA Maccabiah soccer team. Leading scorer for the 1981 team that won the silver medal in the World Maccabiah Games ("World Jewish Olympics"). The medal was the first ever awarded to a USA soccer team.
- Invited to try-out for the 1980 USA Olympic soccer team.
- Assistant soccer coach to Columbia University (ranked 13th nationally)
- Head soccer coach at the College of Staten Island.

So how, and why, did someone with such impressive credentials and international exposure come to Christopher Newport?

Roland found out about CNC when he played on the USA Maccabiah team coached by Al Alberts, head soccer coach at William and Mary. Alberts, who was familiar with the situation at CNC, informed Roland about the soccer coach vacancy. Roland, being interested in the position, promptly submitted a resume. "I consider the position to be a great opportunity with a school that is growing in both athletics and academics," says Roland.

In addition to his duties as soccer coach, Roland will also serve as assistant women's softball coach, and coordinator of supportive services. The latter involves the maintenance of departmental vehicles, supervision of departmental work/study students, and serving as acting game business manager for home contests.

Coach Seth Roland

At the personal level, Roland is straightforward and confident. In conversation, whether it be about work or any other topic, Roland is concise, while displaying a genuine interest and a good sense of humor.

About soccer at CNC, Roland said, "We are in the midst of rebuilding a soccer program with the ultimate goal of becoming a Division III powerhouse, but for now we've got a lot to work on."

Reaching that "ultimate goal" depends a lot upon Roland's ability to recruit, something the part-time coaches had very little time to do. "I have the contacts to recruit from around the country," says Roland, adding that the new soccer facility to be completed next year and the school's growing reputation will aid in his task.

As for the present, Roland stresses that "academics come first." If any of his players are having difficulty with classes, Roland says he will personally help, or find help for them.

Seth Roland, then, comes to Christopher Newport to help build a program which has never quite gotten off the ground. To do this he must have the knowledge, dedication, and

enthusiasm necessary to create changes. Roland's credentials indicate the presence of these qualities, plus one more — he's a winner!

BSA to rock for scholarship

by Ann Catherine Braxton

If you are under the impression that rocking chairs are only for small children and their grandparents, it may surprise you to know that college students are also getting into the act.

Last semester a Rock-a-Thon was staged by the sisters of Pi Kappa Sigma, and this year the Black Student Association is holding its own Rock-a-Thon 11 a.m.-3 p.m. on Wednesday and 10 a.m.-2 p.m. on Thursday on the Campus Center lawn.

The BSA, which in the past has sponsored such activities as a poetry reading, a fashion-talent show, picnics, dances, and career days, is kicking off this year with an eight-hour Rock-a-Thon as the first official fund-raiser for its annual scholarship fund. Since it's for a worthy cause, the BSA invites members of any club on campus to come out and join them. Refreshments will be served, and participants can break for lunch and classes. Students interested should petition sponsors to pledge at least 5 cents a minute for each hour they rock. Rocking chairs will be furnished.

Sigma Pi, SA aid 'Jerry's Kids'

by Debbi Benham

This year the members of the Sigma Pi Fraternity ventured down to Newmarket North Mall on Labor Day weekend to volunteer their services for "Jerry's Kids." The members worked diligently on a number of different jobs, ranging from answering phones and addressing envelopes to typing out donation forms. Sigma Pi Advisors Bob Netter and Bob LaVerriere, and Sigma Pi "little sisters" also volunteered their time and services.

The members worked successfully with the advisor of the Peninsula Chapter of the Muscular Dystrophy Association. They volunteered their services throughout Sunday and Monday, forming close to 50 volunteered man-hours. The Sigma Pi Fraternity, alone, helped to bring in close to \$20,000 from donors around the Peninsula.

The Fraternity has expressed a desire to volunteer their services again next year. Phil Clark says, "The Brothers of Sigma Pi experienced a feeling over this weekend (Labor Day weekend) that should be felt by everyone.

Through working together for one common cause, we found that we could have fun and help a very worthy cause."

During the Labor Day Telethon, the Student Association presented the Muscular Dystrophy Association with a check for \$3,015. The money was raised last April during Superdance I, an SA-sponsored event.

Linda Dozier and Kelly Howell represented the SA at the televised Lynnhaven Mall location. Both Dozier and Howell were involved in the planning of Superdance I.

Dozier says, "A lot of work, effort, and time went into Christopher Newport's MDA Superdance. For our first attempt at such an event, I felt we did exceedingly well, and I was glad to be a part of it."

Vice President of Student Affairs, Cheri Trestrail, agrees that the Superdance was a lot of work, "but every minute was worth it." She adds, "We hope next year is going to be even better because everyone had so much fun this year. So start making plans to dance. Everyone is welcome to help!"

Campus Cracks

TURNSTIDE

by RJH

MAN! ONE MINUTE I'M COMFORTABLY ASLEEP AND THE NEXT MINUTE I WAKE UP ON THIS FURSHLUUGNER CANNONBALL! THEN, THAT DUMB FLY BUGGED ME AND I ENDED UP HANGING DOWN HERE...

LORD, HOW COULD THINGS POSSIBLY GET WORSE?!

DEATHDROP CLIFFS

THANK YOU, LORD, FOR YOUR PROMPT REPLY.

SUPERFELLA

by C. B. Doran

HI! SUPERFELLA HERE! ALOT OF YOU MUST BE WONDERING WHY ANYONE WOULD PUT ON A PAIR OF LONG

...JOHNS AND RUN AROUND SAVING PEOPLE. I'LL BET YOU'RE THINKING, 'BOY IS THIS GUY A NUT!'

WELL, LET ME TELL YOU, ALOT OF GIRLS THINK THIS OUTFIT IS VERY BECOMING, EVEN SEXY! RIGHT GIRLS?

YEAH, I'M A REAL SEX GOD.

SURE.

OKAY FINE.

Personals

For the month of September all Personal messages are free. Deadline for entry is Friday, 4 p.m.

WHY ARE YOU HURRYING OFF WITH THAT FURNITURE POLISH? IT'S RUSH WEEK AND I'M GOING TO PLEDGE!

Opinion

Parking Spaces Few, But Available

With the coming of another school year, an old problem is seen again at Christopher Newport College. A parking space seems to be a cherished possession only a few of us are able to find these days.

With the new wing of the Campus Center now under construction, about 100 parking spaces of the back parking lot are closed to students. There are approximately 1,250 parking spaces for students and staff. For this there are approximately 5,200 students attending the college this Fall. Many students must drive around the parking lot two or even three times before finding a space to park. Some impatient students have even been found parking along Shoe Lane or in the Ferguson High School parking lot.

Our students' tempers are wearing down. There has been an occasional word or two exchanged when a driver "finds" a parking space before another person. This has caused a tardy now and then, but no major problem for the students.

A few impatient students, in the course of getting to class on time, have decided to park in one of the handicap spaces (which have been full recently), on the curb, or to double-park. A few cars have been seen parked on the grass.

The parking problem is especially apparent in the early morning when most students are coming for their first class. The problem seems to ease as the day goes on. By three or four o'clock there usually are ample spaces to park, with evening students suffering the least.

A possible solution to this unavoidable problem is for students living close to CNC to walk, to ride a bicycle, or to have someone drop them off. There are many people riding bikes to school, as the bicycle racks have been full. Others can try car pooling with friends or neighbors.

The school has set up temporary parking lots in several areas. The problem is not permanent, although it may seem that way. A parking space does not have to be a scarce, prized possession, and everyone will get to and from college if we all think ahead and are considerate of others.

Gene Pietrowski

Perry Moss
Senior

The parking lot at this school has not grown with the student enrollment. It was bad enough before, and now it's even worse. And now with the addition of the Campus Center, they are taking up that parking lot. I think it's the worst it has ever been."

Brad Mabe
Sophomore

"It is a lot worse than it was last year, that's for sure. I don't know, I've never really had a problem parking because all my classes are 8 o'clock classes. So I get here pretty early. But from what I've seen from just sitting here studying, watching people drive around looking for parking spaces, it seems pretty bad. For people that have 9 o'clock or later classes it seems to be really a big hassle to find a place to park."

James Lane
Senior

"Almost medieval. I think instead of building all of these buildings, they should have done something about this years ago. I'm sure this was foreseen by college administration that we were going to have a growing enrollment to some degree. Well, this year is worse than past years... I come from Gloucester, I leave about 7:30 to make sure I try to get a parking space. I just don't understand, I know their reasoning is because the State has cut back on the college. That wasn't true last year and the year before."

Murray Lou McElveen
Freshman

"Well, since I get here at 8 in the morning I always have a parking space. I only have to leave early to get down Warwick Blvd... Yes, when I'm leaving here, usually there are people waiting... I notice they are using the soccer field as a parking lot which doesn't make the coach too happy."

Mike Freda
Freshman

"No, since I have early classes it's pretty empty in the beginning of the day. So, not so bad for me. But, people that come around 9 o'clock or so, I think it would be a pretty severe situation. I think they should do something about it. A lot of time, they've got these grassy spots they could make into parking lots, but they don't."

Dee Dowdell
CNC Security

"No real problems other than we do have designated areas as far as parking by decal. The only problem right now that I can see is that people are parking along the yellow curve markers on the main entrance way into the campus, and I feel that is going to become some type of problem because the through way is being blocked. But other than that, most of the students have picked up on the pattern of parking on the grass as far as Wingfield and also the parking on the grass in the area down by the gym itself."

Thomas Gillespie
Unclassified

"Well, it's rather bad. I know students that must come an hour early just for parking spaces. And I know already I have received a warning if I do it [park illegally] again, they are going to tow my car away, and yet I have no alternative."

Letters to the Editor

Dear Editor,

This letter is actually directed to the Student-Athletes who have participated in varsity sports during the past three years. As you know by now I have not returned to CNC this year as the Athletic Trainer. The Athletic Department determined that only I within the Department needed to re-apply for my position. Upon notification of such a requirement my pride would not allow me to compete for a position I've held for the past three years.

Whether or not the need to re-apply was based on poor performance I was never warn-

ed nor advised. If, in fact, such were the case I must take this opportunity to apologize to you, the Student-Athlete. I have always felt I provided the best care possible within the limits of my knowledge and the restrictions of legal application in Sports Medicine.

I intend to visit CNC for various varsity contests throughout the year. If we meet please say hello. My best to you and your teams in the new season.

Yours in sports,
Bert Jones

This calculator thinks business. The TI Student Business Analyst.™

If there's one thing undergrad business students have always needed, this is it: an affordable, business-oriented calculator. The Student Business Analyst. Its built-in business formulas let you perform complicated finance, accounting and statistical functions—the ones that usually require a lot of time and a stack of reference books, like present and future value calculations, amortizations and balloon payments.

It all means you spend less time calculating, and more time learning. One keystroke takes the place of many.

The calculator is just part

of the package. You also get a book that follows most business courses: the *Business Analyst Guidebook*. Business professors helped us write it, to help you get the most out of calculator and classroom. A powerful combination.

Think business.
With the Student
Business Analyst.
