

The Captain's Log

VOLUME XV, NUMBER 4

CHRISTOPHER NEWPORT COLLEGE

SEPTEMBER 15, 1983

Despite heat campus lawns still well kept.

Nursing Program Proposed

by Lisa Hatfield

The State Council of Higher Education has written a letter of encouragement indicating their interest in the proposed CNC-Riverside Nursing Program.

This exclusive program, if approved by the state, would allow a Riverside Hospital graduate to earn a Bachelors of Science and Nursing degree from Christopher Newport College in one year and a summer.

A task force, comprised of individuals from both the CNC and Riverside community, is responsible for reviewing the program.

The task force must make feasible the hiring of a Registered Nurse for the college, and must provide an approved curriculum for the degree-seeking students.

If approved, the graduate degree will be the only BSN in Tidewater that demonstrates co-operation between public and private interests.

Dr. Lopater, a professor of Psychology at CNC, and also a member of the task force, is optimistic. He feels that the approval will be forthcoming; and thus will usher in the pro-

gram by Fall of '86.

Believing that "incredible headway" is being made, Lopater said, "both institutions have shown a sincere and persistent interest in realizing this program and feel confident that it will be of immense value to the community which we both serve."

However, Ruth Simmons of the Biology Department, and a member of the task force, is the self-proclaimed "pessimist of the bunch."

The program, she feels, is still a "gleam in its father's eye," and is not even near the end of a lengthy financial struggle for state support.

Simmons also has reservations concerning the intensity of the Nursing Curriculum.

She says that "an awful lot of courses will have to be crammed in at one time," further complicating the problem of comprehending and retaining pertinent classroom material.

The verdict for the proposed CNC-Riverside Nursing Program has not been given - it is just too soon to tell.

Museum Conference for Teachers

by Rose M. Ward

An in-service conference for teachers of elementary and secondary schools in the area will be offered at Christopher Newport College, Saturday, October 1, from 9 a.m. to 5 p.m.

Co-sponsored by the Smithsonian Institution and the Peninsula Museums Forum, the workshops are being hosted by CNC.

The theme for the conference is the School Museum Partnership.

Joseph Gutierrez, Conference coordinator for the Peninsula Museums Forum, said that, "the purpose of the workshops will be to stimulate creative use of community sources by schools, and to help teachers to be more effective in the classroom through their use of the resources of area museums and cultural institutions."

Educators will be able to attend six workshops selected from more than 20 being offered.

The workshops will be taught by educational experts from the Smithsonian and museums in the Tidewater area.

Interdisciplinary topics will cover subjects such as English, science, art, music, social studies, basic learning skills, audio-visual learning techniques and methodologies for exceptional children.

Registration for conference only (audit) is

teacher recertification fee will be \$10 which includes the October 1 session and a follow-up class on October 15.

College credit is available for \$55 for Virginia residents, \$77 for non-residents.

Educators interested in reserving a space may call Gutierrez at (804) 595-9398.

Topics to be taught in the workshops range from "Using Museums for the Write Idea;" "Using Museums to Develop Language Skills with Hearing-Impaired and Language Delayed Students;" "Video Learning-Audio Visual

(Continued on p. 6)

Ideas Welcome

Story ideas for *The Captain's Log* should be submitted directly to the editor in chief, Sue White, in CC223.

Information may be left in the article envelope on the door, sent through campus mail, or called in. The phone number is 599-7196.

The name of a reporter the source would prefer to work with may be included with the information.

The editor requests that people not ask individual reporters to do stories for them. This results in story assignment confusion.

Desegregation Successful

by Scott Helm

Attempts to desegregate CNC and other Virginia colleges and universities by increasing minority enrollment and by exchanging professors have been successful.

Keith McLoughland, Dean of Admissions and Records, said that under an agreement set by the state of Virginia, the Office of Civil Rights, and U.S. District Judge John Pratt back in 1978, "numerical objectives were established for each of Virginia's public colleges and universities in terms of total number of black students to enroll at the predominantly white colleges, and the total number of white students to enroll at the predominantly black colleges."

Of all the predominantly white four year colleges or universities in Virginia, "only CNC and Virginia Commonwealth University have historically met or exceeded goals that were set for them," he said.

Because CNC and VCU have met their goals in the past, both have been asked only to admit at least as many black students as they did the year before.

CNC's goal this year is to enroll 156 black freshmen.

Although the college is just short of that number, enrollment of minority students in January should put CNC over it.

A new faculty exchange program was introduced this year to desegregate Virginia's colleges.

The Commonwealth Faculty Exchange Program allows professors at predominantly white colleges to exchange positions with professors at predominantly black colleges.

Under direction of the state and the Office of Civil Rights of the federal Department of Education, all five positions that were financed in the 1983-84 budget were filled.

Four faculty members from CNC were among the 73 people that applied this year. None of them were chosen though, so none of the positions at CNC will be exchanged.

The five chosen faculty members were picked by a committee made up of academic vice presidents from state colleges and Council of Higher Education officials.

As an incentive to participate in the program, instructors are offered a bonus of \$5,000 and up to \$2,500 for relocation.

Fifteen exchange slots will be available for each of the next two years.

SA Requires Group Involvement

by Ann Catherine Braxton

The first meeting of CNC's Student Association for the 1983-84 academic year began with the stressing of requirements that every club have an active Student Association representative and ended with the discussion of a possible political involvement and demonstration on the part of CNC students and faculty.

Attorney General Sam Pearson called the meeting to order, welcomed the approximately thirty SA representatives, and stated that the SA requires that every club or organization at CNC have an SA representative who will attend every SA meeting. If a club representative or alternate misses two meetings or more, the club will lose its voting rights.

Angela Marcopoulos, student vice president of Academic Affairs, raised the issue of whether or not the results of semi-annual teacher evaluations should be made public.

Because there were eleven affirmative votes, nine negative votes, and two abstentions, it was decided that the final decision be postponed until the issue was brought to the attention of more students and was surveyed by faculty members.

SA President Scott McPherson announced that the SA will meet every other week. Vice President Sherri Lascola announced that Fall Fest will be held October 8 and that any clubs wishing to participate should send a representative to the September 15 organizational meeting.

Lastly, McPherson read aloud a letter from a student requesting that the students and faculty of CNC set aside a day of mourning for the 269 passengers who were killed when a Korean jetliner was shot down by the Soviet Union two weeks ago.

The student suggested that students and faculty display their outrage by wearing black armbands.

McPherson promised that this suggestion would be looked into and that once a date for this demonstration was set, participation would be solicited.

Ten Students Pass German Test

Dr. Richard Guthrie of the Department of Foreign Language announced September 2 that all ten students from Christopher Newport College who took the test *Zertifikat Deutsch als Fremdsprache* (Certificate in German as a Foreign Language) passed the examination.

The test was given at Old Dominion University last April by a representative of the cultural attaché to the German Embassy.

The ten students are Kathy Woner, Georgia Schrock, Chris Hawk, Terry VanDover, Sharon

Garrison, Susan Turner, Kendall Kellam, Lena Davis, Scott Kennedy, and Kelly White.

The examination tested the students' aural, written and oral proficiency in German. Since the test was sponsored by the Federal Republic of Germany, the certificate will aid the German employer in determining the capability of the student to handle the German language.

This examination is given periodically throughout the world.

Styron Scholars

Get down to business faster. With the BA-35.

If there's one thing business students have always needed, this is it: an affordable, business-oriented calculator. The Texas Instruments BA-35, the Student Business Analyst.

Its built-in business formulas let you perform complicated finance, accounting and statistical functions – the ones that usually require a lot of time and a stack of reference books, like present and future value

calculations, amortizations and balloon payments.

The BA-35 means you spend less time calculating, and more time learning. One keystroke takes the place of many.

The calculator is just part of the package. You also get a book that follows most business courses: the *Business Analyst Guidebook*. Business professors helped us write it, to help you get the most out of calculator and classroom.

A powerful combination.

Think business. With the BA-35 Student Business Analyst.

CNC Welcomes Eight New Styron Scholars

by Ann Catherine Braxton

To be academically talented is a great gift, and it is all the more gratifying when this gift is recognized and rewarded.

The recognition of scholastic achievements is the purpose behind the Styron Scholars Program, which was instituted by the faculty as part of a series of honors programs in 1979.

The program was named after Newport News native William Styron, the internationally-known author of such books as *Sophie's Choice* and the Pulitzer Prize-winning *Confessions of Nat Turner*.

The Styron Scholars are ten intellectually motivated incoming freshmen and sophomores who each year are selected on the basis of high school grades, class rank, College Board scores (1,000 or better), letters of recommendation, an essay submitted by the student, and an interview with the Honors Council.

The Scholars receive \$200 each semester in scholarship money and are required to take several difficult Honors Courses, the first of which is *Great Trials in History*, taught by Dr. Theodora Bostick and Dr. Jouett Powell.

This past semester CNC saw the graduation of Alan Dail and Deannette Warden, who were the first Styron Scholars to graduate. Warden finished her studies in three years and Dail finished his studies in two years.

Alan Dail, who graduated from Ferguson High School in 1981, began taking college classes while still in high school and graduated from CNC cum laude at the age of nineteen.

Dr. Jane Webb, chairperson of the Honors Council, praises him as being "brilliant."

"He took two years with a double major. He would carry twenty-three to twenty-four hours a semester and then go to summer school."

"He may go on to graduate school or he may go into the computer business and become very rich. He's already inventing a computer game."

Deannette Warden graduated from Tabb High School in 1980. Like Alan, she took her first college class while still in high school.

While at CNC, she was a tutor in the Basic Studies Department and a computer science major. The twenty-year-old scholar, who is currently a graduate student at the University of Connecticut, plans to obtain her Ph.D. and use her computer knowledge to teach gifted children.

Dr. Webb calls her "a very hard-working girl who set her priorities and stuck to them."

CNC welcomes to its halls eight new Styron Scholars. They are freshmen Russell Clements, Amy Gooch, Michael Gutches, Adele Hornik, Catherine Isner, Roby Robinson, and Paul Sisak, and sophomore Charles Rendleman.

Russell Clements is an eighteen-year-old

L-R - Amy Gooch, Catherine Isner, Adele Hornik, Roby Robinson, Charles Rendleman, Michael Gutches, Russell Clements, Paul Sisak.

Alan Dail

graduate of Gloucester High School who would like to major in Economics and minor in History.

He enjoys reading academic and current events magazines and plans to someday go into business. He thinks that the Honors Course will be "a lot of fun but a challenge."

Amy Gooch is a seventeen-year-old graduate of York High School. At York, she participated in the Gifted and Talented Program and was a member of the National Honor Society.

Deannette Warden

An accomplished athlete, she made all-district two years in field hockey and also played softball.

She is also the proud owner of a seventeen-year-old half-Arabian horse which she loves to ride.

An engineering major, she plans to study at CNC for a while and then transfer to Old Dominion University or the University of Florida. Her career goal is to work for NASA.

Michael Gutches is a seventeen-year-old

graduate of Peninsula Catholic High School, where he was a member of the yearbook staff and the winner of a merit award for achievement in government and psychology and a certificate for achievement in advanced placement calculus.

Gutches plans to obtain a master's degree in chemical engineering from Virginia Tech and to become a petroleum engineer.

He says of the Honors Course, "I like it. It's very student-oriented. There's a lot of contact between the students and professors."

Adele Hornik is a seventeen-year-old graduate of Walsingham Academy where she was treasurer of the Keyettes, a member of the National Honor Society, and the manager of the baseball and hockey team.

She also won the Sister Mary Josephine Award for Service.

Hornik plans to major in International Culture and Commerce and minor in French and wants to have a career in the business field abroad. She feels that the Honors Course will be "very demanding but worth it."

Catherine Isner is an eighteen-year-old graduate of Gloucester High School who loves horses. Her family owns a horse farm and she has appeared in numerous horse shows.

Along with this hobby, she belonged to the National Honor Society, the Science Club, the Drama Club, and an honor society called the Beta Club.

She sang second soprano in the school chorus and was a recipient of a local distinction called the Morgan Citizenship Award.

A political science major, Isner wants to be a political analyst.

She chose to come to CNC because she had heard a lot of good reports about it from people who had attended CNC. She feels that the Honors Course will be "interesting and challenging."

Roby Robinson is a seventeen-year-old graduate of Bethel High School where he belonged to the band, the German Club, the Science Club, the Chess Club, the Debate Team, and the Soccer Team.

He was named to *Who's Who Among America's High School Students* and plans to major in aerospace engineering and later work for NASA.

"The Honors Course is going to be really challenging and it will get tougher as it goes along," he feels.

Paul Sisak is an eighteen-year-old graduate of Denbigh High School, where he was a member of the French Club, the Future Business Leaders of America, the National Honor Society, the soccer, cross country, and track teams, *Who's Who Among American High School Students*, and the Society of Distinguished High School Students.

Entertainment

Classic Movies Showing at CNC

by Terry VanDover

Classic films from the years 1912-1939 are being shown at Christopher Newport College Tuesday and Friday nights in conjunction with Dr. Ken Newell's course, "The Cinema Before 1940."

These showings are free and open to the public.

The course, which views cinema as an art form, outlines its development before World War II and reviews basic cinematic techniques still used today but shown in their clearest and most understandable forms in early movies.

The series began September 6 and will continue through December 9. The first eight weeks feature silent films, one or two per showing. The final five weeks each feature one sound film. Friday's showing repeats the previous Tuesday's.

Showings begin at 6 p.m. and last two hours. A 40-minute discussion follows each Tuesday showing. This discussion is also open to the public.

The film schedule is as follows:

Sept. 13 and 16

W. Griffith's *Intolerance* (1916) Silent

Sept. 20 and 23

Charlie Chaplin's *Easy Street* (1917) and

The Gold Rush (1925) Silent

Sept. 27 and 30

Buster Keaton's *Sherlock Jr.* (1924) and

The General (1926) Silent

Oct. 4 and 7

Sergei Eisenstein's *Potemkin* (1925) Silent

Oct. 11 and 14

V.I. Pudovkin's *Mother* (1926) Silent

CNC Salutes Bay Pilots

Christopher Newport College Sailing Association will salute the pilots of the Bay in an evening of stories, slides and song at the Chamberlin Hotel at 8 p.m. Friday, September 16.

Drs. Jane and George Webb are the organizers of the evening. Both are members of the board of the CNC Sailing Association which selected the occasion of the one-hundred-seventeenth anniversary of service of the Virginia Pilot's Association as the focus of CNC's contribution to Hampton's Bay Days.

The evening will begin with stories by pilot captains of their days on the Bay escorting ships in and out of Hampton Roads.

For years the Virginia Pilots Association has kept a big boat at anchor off the Capes. The boat was the pilots' duty station during working hours.

The high cost of maintenance forced the Association to move to shore stations with high speed launches in July. The new station is at Lynnhaven Inlet.

The tales of the pilots, accompanied by slides, will be followed by songs of the Twenties, sung by CNC graduate Wayne MacDonald with guitar accompaniment.

A special bonus of the evening will be a new book of Virginiaanna written by Dr. Jane Webb and assisted by Alexander C. Brown, Captain Bill Johnson and Dr. George Webb. Each section is about a single pilot boat, its Captains and their escapades on the water.

This charming volume, *Masters of the Bay: Stories of the Virginia Pilots* is the second volume Dr. Webb has published since 1980. The book will be a free memento given to each person attending the evening.

The evening is free and open to the public.

Oct. 18 and 21

Robert Weine's *The Cabinet of Dr. Caligari*

(1920) Silent

Oct. 25 and 28

F.W. Murnau's *The Last Laugh* (1924) Silent

Nov. 1 and 4

"Bay Days" In Hampton

by Ann Catherine Braxton

When was the last time you enjoyed a week-end of non-stop family entertainment?

This year the city of Hampton, the traditional sponsors of Hampton Fair Day, and the Old Hampton Association, which in the past has sponsored Chesapeake Bay Day, will combine both events this Friday and Saturday, September 16 and 17, as Bay Days, a waterfront festival in downtown old Hampton.

A celebration of the traditions associated with the Chesapeake Bay, Bay Days will provide food, music, exhibits, and shows.

According to an August 14 *Daily Press* article by staff writer Robert Graves, highlights of the festival will include a staged attack on Hampton Harbor by traditional sailboats on Friday afternoon and two sailboat races on Saturday.

Hardy Cash, Hampton's zoning administrator who serves as chairman of the planning committee, has said that since little parking will be available downtown because of the exhibits, a shuttle bus will operate from the Hampton Coliseum parking lot all day Saturday.

Parking at the Coliseum will be free and the shuttle bus, which will drop its passengers off in downtown Hampton, will cost only 25 cents for a round trip.

Bay Days will end Saturday evening with a grand finale fireworks show by George Zambelli, who creates the fireworks for Norfolk's Harborfest.

Other attractions include dancers, musicians, choirs, a dog show, an art show, a 10-kilometer race at Darling stadium, a fashion show, and a Saturday evening dock party.

Kim Makes 4th CNC Appearance

by Terry VanDover

CNC's Monthly Concert Series, now in its ninth season, will feature in its first concert violinist David Kim, making his fourth appearance at CNC.

According to Dr. James Hines, CNC's director of music, CNC has been following Kim's professional development since he first performed here "as a child prodigy of the age of 13."

Hines gives credit to Dean Polis for CNC's "discovery" of Kim, whose father Dean Polis had met at a school where he had previously taught.

Kim, who performs frequently as a recitalist with symphony orchestras, has appeared with the Aspen Festival Orchestra, the Columbia Philharmonic Orchestra, the Columbus Symphony Orchestra, the Charleston Orchestra, and the Amherst Symphony Orchestra.

In addition, Kim has appeared at Carnegie Hall, where he performed the Mendelssohn Concerto.

In 1978, Kim won the National Federation of Music Clubs' Stillman-Kelly Award. He has also won competitions of the Young Artists, the Columbus Symphony, the Kingsport Symphony, and the Brockport Symphony.

Kim's program Friday night will include selections from Mozart, Brahms, Debussy and Kreisler.

Concerts in the series are held in the Campus Center Theatre and begin at 8:15 p.m. Admission is free for all CNC students.

Tickets for the concerts are \$4 for the general public, \$3 for senior citizens, faculty and students other than CNC's. Season tickets are available for \$18 general admission, \$12 for students, faculty, and senior citizens.

Kim has been featured nationally on NBC, CBS, and PBS television networks, and has appeared on New York City's WNEW-TV's show, "Child Prodigy," with Itzhak Perlman.

Currently, Kim is a scholarship student of Dorothy Delay at the Juilliard School.

For tickets or more information, contact CNC's music director at 599-7074.

CNC Soccer Begins

by David M. Bean

Having served as head coach of the Christopher Newport College soccer team for a year, Seth Roland appears to have had success in his attempt to bring continued improvement to the program.

Two of his catches are a pair of All-State players from his home area of New Jersey.

Both goalkeeper Rick Longobardi and Center Mid-fielder John Gallorini hail from Hackensack, New Jersey and figure very prominently in Roland's plans.

(Continued on p. 6)

Captains Open Season With Soccer Win

by David M. Bean

The Christopher Newport College Soccer team opened their 1983 season with a bang, defeating the University of Richmond Spiders 2-0 last Wednesday afternoon in Richmond. Despite some initial problems and delays in getting there, CNC was hungry for a win.

This is Seth Roland's second year as the Captains head coach and he felt that CNC would take the match but it would be close, say 2-1, mainly because of all the starting freshmen (11 in all), and because this was their first college game.

As it turned out, the freshmen came through with no problems.

The Captains played well in the first half. The offense showed some of its potential for scoring goals as they pressed into the Spiders' zone.

Freshmen Kevin Wagner and Hyon Chung Smith had close chances in the first half, but fell short.

The Captains' defense was also showing its stuff as freshman goal keeper Rick Longobardi and sweeper Gerard Mosely quickly stopped any Spider attacks.

Mosley came up with a pair of very nice sliding tackles to knock the ball away from the Spiders' forwards.

CNC kept the ball down in the Richmond zone for a good deal of the time and had some good shots.

To score goals, a team must shoot, and shoot is what CNC did.

With four minutes left in the first half, freshman Ken Earls took a pass from Bill Dittmar and lofted the shot over the head of Spider goalkeeper Steve Fisher to give the Captains a 1-0 lead.

The Spiders had a good chance to tie with two minutes left, but Longobardi stopped Peter Miller cold and the first half ended CNC-1, UR-0.

The momentum which CNC generated during the last ten minutes of the first half carried over into the second as the Captains struck again.

Five minutes into the half, freshman Mike Prokopik pushed through the Spiders' defense, received Kevin Wagner's pass and put it into the back of the net, giving the Captains a 2-0 lead.

From there on, it seemed to be an easy matter for CNC to overcome its freshman jitters and collect the win. They did, but not without some good defensive tackles by Mosely and fine saves by Longobardi.

Longobardi stopped Richmond's Tom Mingone twice within the space of five minutes.

One humorous moment occurred when Mark Yacobi entered the match with about ten minutes left. Five minutes, two very hard but fair tackles and a yellow card later, he left the pitch. At least I thought it was funny. Tough player.

After the match, Roland named Mosley as the defensive man of the match and Prokopik as the offensive man of the match. For Longobardi, to begin the season with a shutout is not a bad way to start.

(Continued on p. 8)

Intramurals

by Ryan Charles

The Christopher Newport College Intramural Sports Program is something every student can enjoy. Part-time, as well as full-time, students are eligible to participate in a full array of athletic events.

Nick Spiridigliozzi, the director of Intramural Sports at CNC says, "We have a challenging and exciting program. The men and women who participate seem to enjoy the variety of sporting events that Intramurals provides, and they encourage fellow students to come out and join them."

Sometimes the drudgery of school work gets the mind and body bogged down. Naturally, when this happens, grade point averages also bog down. One way to stay out of the academic doldrums is to get out and exercise. Intramural Sports may be the answer.

Spiridigliozzi believes that athletically inclined students, while not always possessing the highest grades, do however, seem to have a more relaxed attitude toward the daily rigors of college life.

Fairness is an integral feature of the intramural program, and those students on varsity squads are not permitted to play their respective

Opinion

Campus Neat and Clean Despite Dry Weather

by Pat Andrews

They have taken over this campus. Each step a member of Christopher Newport College takes is now regulated, directed and controlled, directly or indirectly, by them. "Keep Off The Grass." Well, that's pretty simple and straightforward.

More subtle, however, are the non-written signals, such as a cold splash of water from the sprinkler system. Say goodbye, blown-dry hair, expensive textbook and cheap memo pad.

They don't want us walking that way. Okay, I won't argue, I'll walk around.

(Invariably, some brave student tries to beat them. Have you ever seen a full-grown adult person running full-speed through a harmless little water sprinkler?)

Further along on this odyssey through CNC, one notices the lush carpet of green grass (without signs) stretching invitingly across to Newport Hall. Funny. My grass is hard, brown and crunchy. The rest of this city's grass is hard, brown and crunchy, but the CNC lawn is a nice deep, healthy green and is well-maintained as well.

Kept neatly trimmed and cropped, this lawn resembles the better-than-best lawns used in fertilizer commercials. And ours is *real*, too, not artificial. I know. I picked some of it.

Near Newport Hall are some new bushes with white flowers. Short little things, actually, but they'll grow. That's why they were planted.

No, perhaps not *just* to grow. Perhaps they were planted to add a little more beauty to a campus that's already lovely. Perhaps to cheer up a depressed Shakespeare student or to make a tired, overworked History professor smile. Sometimes it works.

I don't notice this campus very often. I was a freshman the last time I sat at the outdoor chapel, and the last time I took my lunch out to the picnic tables, I was waiting for a ride home.

In self-defense, however, I notice water sprinklers.

I don't wear a hat, but if I did, I think I would tip it to them.

They are the CNC grounds maintenance crew.

They have taken over this campus. Someday, perhaps, they will invade the rest of Newport News.

I hope so.

Medical Files Inadequate

by Scott Helm

Christopher Newport College has never required medical records of all students. With the exception of those students that are registered in physical education classes or in athletics, no medical files are kept.

Many students who are not in physical education classes or on athletic teams may have some hidden medical problem such as an allergy to penicillin or diabetes. With medical files kept on all students, this information can be referred to if need be, in an emergency.

Another problem with our current filing system on students is that no emergency telephone numbers are kept on file. Many students room with friends instead of their parents. If an emergency arose, the phone number on the student roster would be called. This is the number at the student's place of residence. Even if the student lives at home, many times no one will be at home during the day because everyone is at work.

This situation can be easily corrected by simply requiring medical records from all students and listing an emergency phone number somewhere on it. These should then be kept some place where campus police can have easy access to them. Perhaps the campus police office would do.

To keep these phone numbers up to date the school could require this emergency phone number on the registration form each student fills out every semester. How much trouble could it be to add an extra space on a registration form and keep track of these numbers? With our computer system it should not be hard at all.

THE THREE BEARS
"WHO'S BEEN FLYING IN MY AIRSPACE?"

SA Protests Soviet's Shooting Down Plane

To the editor,

Many of us at CNC are not what would be considered politically active. The demands on our time are so great that some of us are unable to stay well informed on many issues. However we all know the difference between right and wrong and the value of human life. The action by the Soviet Union of shooting down a civilian aircraft with 269 innocent vic-

tims aboard, several of whom were children, has caused shock and outrage on this campus. This brutal slaying should not pass without comment from this campus as well as all college campuses across the nation.

The Student Association has placed a petition at the information desk in the campus center. The S.A. asks all concerned students, faculty, and staff to sign this petition which will be forwarded to the appropriate authorities.

Student Association

One Hand Washes Itself

Dear Editor,

C.N.C.'s custodial staff should be commended for the excellent maintenance of the restrooms on campus. They are always kept clean and well-supplied (the men's, at least). The problem with some of them is not one of sanitation, but one of plumbing. With the exceptions of those in the Campus Center and in Newport Hall, the sinks of all the C.N.C.'s restrooms are equipped with one of several types of automatic faucets which require the user to manually hold the handle in the "on" position while he attempts to wash his hands (hand?). It takes a great deal of patience and dexterity to individually lather and rinse each hand while the other holds the faucet handle. But with these aggravating spring-loaded fixtures, hands must be washed in this way, one at a time, unless of course one asks a second party to hold the water on, which few people are likely to do. A gymnast or ballet dancer could perhaps hold the handle with his or her foot and wash in the normal fashion, but the general rule at C.N.C. is that most hands are washed single-handedly.

Whether intended to conserve water or to thwart would-be hydromaniacs, these child-proof faucets are but a minor inconvenience in otherwise clean and extraordinarily well-kept restrooms. However, in the presence of such fixtures, rarely does one hand wash the other — it washes itself.

John Roberts

What Was That?

Madame Editor:

I want to thank publicly Mr. Jack Balkwill for his response to my editorial, "Don't Call Me a Girl." His writing an editorial pointless to the degree of unreadability caused mine to seem better, in memory, than it actually was.

His response, so far as I can decipher, relies on two points that I never even made: that my editorial spoke "on the subject of women's lib," and that I implied a plot by men to dominate women.

When a writer responds to another's work, common sense suggests that he first read the work thoroughly. Mr. Balkwill's reading comprehension skills glare.

Perhaps Mr. Balkwill will take advantage of his prose writing book, of which he spoke in reference to a section on "Sexist Language," and will pay special attention to Chapter 5, "Holding Your Reader." A writer whose essay ricochets from women's lib, to heterosexuality, to *Candide*, to transvestites, to Miss Hoffman's fourth-grade class, to urinals and bras, and finally to "SOBs" sorely needs a lesson in unity.

Take special note, Mr. Balkwill, of the sentence in Chapter 5 that states, "If there is any way possible for your readers to get lost, they will."

Many disappointed *Captain's Log* readers had looked forward to an intelligent male reply to my editorial. Judging by the reactions I've heard, all these readers got was lost.

CNC lawns kept healthy and neatly trimmed.

Campus Closeups

Speech Postponed

The speech slated for September 21, in the Administration Building, sponsored by Omicron Delta Epsilon, is temporarily postponed. The rescheduled date will be announced later.

SA Meeting

The Student Association will be having a meeting on Thursday, September 15, at 12:15 p.m. in CC229 to discuss plans for Fall Fest. All clubs and organizations should have a representative present and any individuals interested in working should attend.

For information please contact Sherri Lascola (CC229 or 596-9613).

Women's Basketball

Anyone interested in playing varsity women's basketball, should get in touch with Coach Walthall in the Athletic Office, 599-7025.

Christian Fellowship

Inter-Varsity Christian Fellowship invites all students to attend its next meeting this Wednesday at noon.

All of the weekly meetings this semester will be across from the bookstore in Newport 125.

This week the speaker will be a college student who spent her summer as a missionary in a foreign country.

Student Teaching

Students who plan to enroll in supervised teaching, Spring, 1984, should pre-register with Mr. Jenkins, director of Student Teaching, prior to October 1.

Registration blanks and information can be obtained from the Department of Education, W-226, each day from 8 to 4.

Horseshoe Tournament

The Intramural Horseshoe Tournament will begin on October 4 and run through October 8.

Entries open on September 15 and close on September 29, for anyone who wishes to participate.

The tournament is open for men and women.

For more information contact Nicky Gunn in the Intramural Office (599-7054).

Intramural Ping Pong Tournament

The Intramural Ping Pong Tournament will begin October 11.

Entries will open September 22 and close October 6.

Anyone interested in participating should sign up outside the Intramural Office or across from the Campus Center Information Desk.

Both men and women are welcome.

Matches will consist of two out of three games.

For more information contact Shelley Pidgeon in the Intramural Department (599-7054).

Backgammon Tournament

The Intramural Backgammon Tournament entries will open September 27 to both men and women interested in playing.

The entries will close October 13 and the competition will begin on October 18.

The matches will consist of the best two out of three games.

For more information call Shelley Pidgeon in the Intramurals Office (599-7054).

Intramural Soccer

On September 20, entries will be taken for Intramural Soccer.

Entries close on October 1 and the season will commence on October 8.

Rosters will be limited to 15 players. Games will consist of 7 members.

For more information contact the Intramural Office at 599-7054 or stop by and talk to one of the Intramural staff.

Bowling

The Intramural bowling season is nearing. Team entries will begin on September 20 and close on October 1.

The season will begin Wednesday, Oct. 11, at 3 p.m. All team entries will consist of four members who will bowl two games each.

This activity will take place at Hiddenwood Fair Lanes, 12407 Warwick Boulevard.

This is the first year of the bowling competition, and participants and teams are needed to have a good season.

For more information contact the Intramurals Department.

Intramurals

(Continued from p. 4)

tive sport on an intramural level.

If, however, a student has not played on a varsity squad for at least one calendar year, then he or she can participate in any or all of the events.

Also, so that all students are able to participate, the larger events take place on weekends.

Weekend events consist of individual and team competitions. Most events take place here on campus, although Yates Elementary School is used for softball games, and Ferguson High School is the scene for flag football games.

Teams and individuals can sign up at the Intramural Sports office (in the gym) between 1 and 6 p.m. An assistant director is on hand to answer questions.

There is also a sign up sheet outside the game room in the Campus Center.

All upcoming sporting events are published in the *Captain's Log* a full week before competition begins.

Aerobics Club

All CNC students interested in an Aerobics dance club should contact Ginny K., 827-1781.

I Tappa Keg

Tonight ITK invites all students, especially new ones, to their rush event at the Pub with "Critical Mass Band."

Admission is free to all CNC students.

Happy Hour is from 9 p.m. to 11 p.m.

CNC Is For Sail

The Sailing Club will be meeting on Wednesday, September 21, at noon in G229. New members are welcome!

Membership fees are \$10 for one semester and \$15 for two semesters.

Sailing lessons are available free of charge to all members and will be given at the Warwick Yacht Club on Maxwell Lane.

The first lessons will begin on Friday, September 16 and Sunday, September 18 and are offered at 1:15 and 2:30 both days.

Museums

(Continued from p. 1)

Techniques; "History through Art" and "African Music"; to "Great Masters and Our World," "Space Science in the Classroom," "Geography - Where and How We Move," "Black Military History," "Hands-On Science Laboratory Experiences" and "Trashy Learning - Learning History through Artifacts."

Tidewater museums taking part in the conference include the Casemate Museum, Colonial National Historical Park, Colonial Williamsburg, Jamestown Festival Park, Mariners Museum, NASA Langley Visitor Center, and the Peninsula Nature and Science Center.

Also participating are the Syms-Eaton Museum, the College Museum of Hampton Institute, U.S. Army Transportation Museum, Watermen's Museum, the Yorktown Victory Center, the Hampton Center for the Arts and Humanities, Peninsula Council of the Arts, and the Peninsula Fine Arts Center.

The Virginia Institute of Marine Science, Virginia Research Center for Archaeology, and the Yorktown Creative Arts Center, "On The Hill," will also be taking part.

CNC Booters

(Continued from p. 4)

Another pair which will be on the squad are Gerard Mosley and Karl Greaves.

Both of them went to school at Upper Heyfield in Croughton, England.

A third pair hail from Robinson High School in Fairfax, Virginia, Chris Frazier and Lance Casey, who won all-district honors last season.

The last two of the "imports" are Matt Brophy from Garfield High School in Woodbridge, Virginia and Bill Dittmar from Indian Hills High School in New Jersey. Dittmar was also the co-captain of the Group 3 state finalist Indian Hills soccer team.

There are also seven remaining freshmen who are local products.

Steve Cook, Ken Earls and Mike Prokopik all hail from Menchville High School in Newport News.

Roland also has a pair of players from Phoebus High School in Hampton, Bill Maccolm and Hyon Chun Smith. Smith also played on the Virginia State "under 19" team.

Rounding out the freshmen are Mark Fraioli from Cox High School in Virginia Beach and Kevin Wagner from Kecoughtan High School in Hampton.

One must remember that all of the above mentioned players are freshmen, but Roland has the core of last year's squad returning as well.

Juniors Chris Fazio and Tracy Toms will be returning as well sophomores Tom Hannond, Dave Turpin and Mark Yacobi.

The Captains' schedule is tougher than last season's, but not by much. They will be playing four Division I schools in addition to several tough Division II schools.

They will also be playing the defending Division III national champs, University of North Carolina-Greensboro.

The Captains will be playing teams such as Virginia Commonwealth University, Randolph-Macon, Radford, and the University of Richmond - all of whom CNC defeated by close margins.

With the depth of players which CNC now has, matches like those should swing into the Captains' favor.

The Captains open their season on Wednesday, September 7 at the University of Richmond. They will open their home field by hosting North Carolina Wesleyan on Saturday, September 17.

TURNSTIDE

SPACE FOR RENT

by SBC

New Styron Scholars

(Continued from p. 2)

He attended Boys' State and received the National Leadership Merit Award, the American Legion Scholarship, and the Louis Morewitz Scholarship. He plans to major in Accounting and minor in computer science.

His future plans include trying out for the CNC Sailing Team and eventually becoming a Certified Public Accountant and working for a large company.

Sisak says, "I can tell already that the Honors Course is going to be a challenge, but we've got two good professors and fortunately, the class is small."

Lastly, there is sophomore Charles Rendleman, who was selected on the basis of his outstanding freshman grades.

Rendleman, who will be nineteen in October, graduated from Walsingham Academy and

has considered studying English, Philosophy, Psychology, History, and/or Political Science.

He is the son of Professor Douglas Rendleman, an instructor at the Marshall-Wythe School of Law at the College of William and Mary.

For five years, Rendleman has performed with Colonial Williamsburg's Fife and Drum Corps which provides military music accompaniment to reenactments of historical battles.

"That's where I learned most of my study skills. I learned how to react to an institution," he says.

His goals are as yet undecided but he would like to go to graduate school. Rendleman says of the Honors Course, "It seems to be a challenge but I look at it positively. There's a lot of information that can be learned. I feel privileged to have been chosen to take the class."

\$4 Need extra money for Christmas? \$3 Sell Avon!!! Call 838-7140. Ask for Jean.

Roland

(Continued from p. 4)

Roland later commented that it went pretty close to what he had expected. "It's nice to win the first game of the season. There was no question that we were the better team. I feel that there were two things which prevented a bigger win. The first was the freshman jitters and the second one was the fatigue factor."

"We had some good scoring chances, but we need to learn how to create more of them, and that can be done by exercising better ball control."

"We have a long way to go to consider ourselves a well-tuned machine. I predicted a 2-1 win, and it went pretty much the way I expected—a close game, made closer by the fact we have a lot of freshmen playing their first collegiate game."

Journalism Conference

The 1983 American Political Journalism Conference will be held October 28 - 30 in Washington, D.C. Scholarships will be provided by the sponsoring organization, The Charles Edison Memorial Youth Fund, for the 75 undergraduate and graduate students chosen to participate.

Participants will be given the opportunity to explore contemporary issues of controversy regarding the proper role of the news media in today's society. The primary format of the program will be panel discussions followed by open question and answer sessions. Several main speakers will be featured as well. Past speakers include David S. Broder, Jody Powell and Eric Sevareid, all foremost authorities in the field of political journalism.

If you are interested in applying for participation in this Conference contact: Tina Benyunes, The Charles Edison Memorial Youth Fund, 1000 16th Street, N.W., Suite 401, Wash-

ington, D.C. 20036. Phone number (202) 293-5092. Application deadline is October 14, 1983.

Poetry Contest

All college students desiring to have their poetry anthologized are invited to participate in International Publications' "National College Poetry Contest."

Cash prizes of \$100, \$50, \$25, \$15, and \$10 will be awarded to the top five poems.

Any student is eligible to submit his or her verse.

All entries must be original and unpublished.

Entries must be typed, double-spaced, on one side of the paper.

Each poem must be on a separate sheet and must bear the name and address of the student as well as the college attended in the upper left-hand corner.

There are no restrictions on form or theme.

Each poem must have an individual title and can be up to fourteen lines in length. Small black and white illustrations may accompany the verse.

Entrants should keep a copy of all entries because they cannot be returned.

Prize winners and all authors awarded free publication will be notified immediately after the deadline. International Publications will retain first publication rights for accepted poems.

Foreign language poems are also welcome.

There is an initial one dollar registration fee for the first entry and a fee of fifty cents for each additional poem. It is requested that each student submit no more than ten poems.

All entries must be postmarked not later than October 31 and fees must be paid in check, cash, or money order to International Publications, P.O. Box 44-L, Los Angeles, CA, 90044.

Sailing Team Begins Season

The CNC sailing team's Fall schedule includes races at schools in both the South Atlantic and Middle Atlantic Conferences of the Intercollegiate Sailing Association.

The team travels south for three qualifying regattas during September, and sails twice at the U.S. Naval Academy in the late Fall where it will compete with colleges from Pennsylvania, Maryland, Washington, D.C., and Delaware.

Three of the teams in the Middle Atlantic Conference are regularly in the top ten in the nation.

Fifteen students are working out with the team this Fall. The practices on Tuesday, Thursday, and Friday from 4 to 6 p.m. are open to all students who have some racing experience or who want to learn to race sailboats.

The practice races on Friday of last week established the rankings for the first four skippers.

David Hanna is first skipper, Cathy Miller second, Bruce Oglesby third, and Scott Gitchell is fourth.

Coach Pete Wallio says, "The first race of the season is this weekend at U.N.C. We will compete against six other teams there. I am anxious to see how much our team has improved over its performance last spring. I think that we are getting much stronger."

The schedule for the remaining races is as follows: Sept. 10 - University of North Carolina; Sept. 17 - Davidson; Sept. 24 - University of Virginia; Oct. 1 and 2 - Sloop Championship at Charleston; Oct. 8 and 9 - Singlehanded Championship at ODU; Oct. 15 and 16 - Dinghy Championship at Navy (eliminations); Nov. 5 and 6 - Freshman Championships at Navy.

GRADUATE TO GOLD
