Dr. James Windsor

Dr. Windsor reflects on nine years as President

by Patti Leach

The end of this semester marks the end of a nine and one-half year tenure as President of Christopher Newport College for Dr. James Windsor.

Dr. Windsor commented that he had not intended to hold the office of President for as long as he has, but "something always came up" that needed to be done, and he felt he had to see it through. Among these "somethings" were buildings to be constructed, money to be obtained, CNC's independence from the College of William and Mary to be gained, and the College's four-year status to be achieved.

After making sure that money was appropriated to build the new library addition, the maintenance building, the new science addition, and the new administration building, Dr. Windsor feels that this break will allow him to leave office knowing that things are in "good shape."

He feels that the Board of Visitors, which has just celebrated its second year of operation, is running smoothly, and that he will be leaving CNC in good hands.

Dr. Windsor feels that it is "best to make a transition in the presidency when things are string." He has kept in close touch with President-elect Dr. John Anderson and foresees a smooth transition and the support of the staff. He will be available to Dr. Anderson if he is needed, but he plans to stay out of the way.

The Board of Visitors has granted Dr. Windsor a leave of absence with pay for

the spring semester. During this period, he plans to relax and catch up on current literature in psychology and changes in this area.

While he looks forward to going back to the classroom, Dr. Windsor considers the movement from the Presidency to the faculty "a promotion." He feels that "the most important thing on campus happens in the classroom—not in the President's office."

He also commented that the Presidency is a lonely position because "people treat you differently." He further explained, "Being the President of a college is like being the mayor of a small town. On one hand you have to handle a six million dollar budget, and, on the other hand, you have to worry if the garbage has been picked up."

Dr. Windsor will return in the summer to teach a couple of classes and will officially return to the Psychology Department in the fall semester of 1980.

He has requested that he be permitted to teach an introductory course each semester because he feels it is the foundation for psychology and most students take only the introductory course to fulfill their humanitarian requirement. The main areas of his concentration will be in the clinical areas, teaching courses such as *Human Sexuality*, *Psychology of Adulthood and Aging*, and *Abnormal Psychology*.

He also plans to return to private practice sometime in the future. He would like
(Continued on p. 5)

Behymer proposes elimination of some student positions

by Patti Leach

The Student Association called a meeting on Tuesday, December 4, to discuss a change in some of the proposals suggested by the Vice-President for Student Affairs concerning the creation of a Director of Student Life position.

The Director of Student Life carries the responsibility of providing leadership in planning and implementing campus-wide activities, coordinating activities of all college student organizations, maintaining a central calendar of campus events, attending all student and staff meetings, submitting a budget to the Vice-President for Student Affairs, coordinating the activities of the Intramurals office, assisting the Counseling Center with the new student orientation program, and developing and coordinating professional and social fraternities and sororities.

The main concern of the Student Association was that the creation of this position would eliminate student input. Dr. Charles Behymer, Vice-President for Student Affairs, commented that this would, in fact, increase student input. Instead of just eliminating the student

filled positions of the Student Auditor, Director of the Student Activities Committee (SAC), and the Director of the Campus Activities Committee (CAC), the proposal of having a Campus Program Board (which goes hand-in-hand with the creation of the new position), to be advised by the Director of Student Life, includes the involvement of students, faculty, and staff in making decisions concerning student activities. The SAC consisted of only faculty and student members in the past, but Dr. Behymer stated that he would like to see "fewer faculty members and more staff" on the Campus Program Board. Dr. Behymer said that he feels "the SAC doesn't serve any purpose."

He went on to state that in theory the Student Auditor's position has two functions: 1) to help in program decisions and, 2) to process forms and keep books on the student clubs and organization expenditures. The elimination of this position will pass these duties on to the Vice-President for Student Affairs' secretary since there is "no need to pay someone \$2,000 to

process paperwork." Another reason cited for the termination of the Student Auditor's position is that the work the Business Office does in tabulating the expenditures and current balances of each student organization or club is being duplicated. The Student Association does not feel that this is a valid excuse, as the paperwork will only be transferred to Dr. Behymer's secretary, but Dr. Behymer states that they are "not trying to take away any budget authority from anyone, but we're trying to make them responsible for their own budget." The Student Association will still maintain the authority to propose its budget.

The main concern of the Vice-President for Student Affairs office concerning the CAC is that one-fourth of all the Student Association money and the way in which it is spent is decided by one person, the CAC Director. Dr. Behymer stated that the SAC would have been a viable committee if they had any authority in deciding when and what programs would be scheduled. As it exists, there is only the CAC Director making those decisions. It is hoped by Dr. Behymer that the

Campus Program Board will make Decisions in this area, thereby including input from older students, faculty, and staff to create more programs that will appeal to the type of students that CNC now serves. It was emphasized that the \$20,000 budget that the CAC has now warrants more than one person deciding how it should be spent.

As the plan now stands, the CAC will lose its Director, Assistant Director, a Building and Grounds representative, and its Treasurer, as well as its identity. The Building and Grounds representative does what the Campus Center staff is being paid to do and the current situation involves duplication in that area.

The developing of a position for the Director of Student Life has been in the making since before William Polis was the Dean of Student Affairs. Dean Polis had titled the job as an Assistant to the Dean. The job description stands the same for both titles.

The Student Association feels, however, that this change in student positions and the development of a Director of Student Life
(Continued on p. 3)

Campus Close-Up

Library announces Dec. hours

For the convenience of students, the library announces special December hours. On the weekend preceding final examinations, the Captain John Smith Library will be open extended hours, as follows:

Saturday, Dec. 8: 9:00 a.m.-10:30 p.m.

Sunday, Dec. 9: 1:00 p.m.-10:30 p.m.

Copies of the holiday and exam week schedule through January are available at the circulation desk.

All library books and materials are due December 7, the last day of classes; but the loan period will be extended through December 15 if all fines are paid. Following exam week, library materials will again be checked out for the full three-week period. This procedure will ensure that no one will be faced with library materials due during the Christmas break without, at the same time, preventing anyone from checking out necessary study materials during examinations.

"Currents" work returned

Currents is asking that all persons who submitted work to the magazine and wish to have their work returned pick up the material in the *Currents* office, Room 204, Campus Center, on the following days:

Monday, Wednesday, Friday, 9:00-12:30; Tuesday, 9:00-12:00; Thursday, 9:00-10:30.

Attention, Veterans

Veterans:

If you have registered for the Spring Semester 1980 and plan to use your V.A. benefits, please contact the Veterans' Office in Trailer 4.

Future teachers must apply

Attention Elementary and Secondary Education Students:

If you have completed at least 30 semester hours, it is time to file an *Application for Admission to the Teacher Education Program* with the Education Department. Application forms may be obtained in W-226. If you have questions, see an advisor in the Education Department.

Capt.'s Log sets hours

The *Captain's Log* offices will be closed during exams and through semester break.

Typesetting services will be available through Dec. 21 and again after January 7.

Trip to Spain still open

Twenty students and members of the community will be spending New Year's Eve in Madrid, Spain. After the New Year, the group will travel to Sevilla, Cordoba, Granada and Torremolinos. The trip begins on December 27 and ends on January 11. The arrangements include round-trip air fare from Norfolk, first class hotels with daily Continental breakfasts, and many other features. Professors D. Doris Reepen and C.D. Scheiderer will accompany the group during their tour of Spain.

It is still possible for additional students or members of the community to join this

group for the trip. Until December 10, as many as eight more travelers could be accommodated on a first come, first served basis. For complete information and reservations, call Prof. Reppen at 599-7107 or Prof. Scheiderer at 599-7109.

Self-Help collects food

Operation Self-Help, an organization designed to aid the college community, is sponsoring a program to aid the "outside" community. For the next two weeks, Operation Self-Help will be collecting canned and dried food goods for local charity organizations for their use over the holidays and during the coming year.

Any student who wishes to contribute to the food drive should place his food goods in specially marked collection boxes located throughout the college or bring them to Room 230 of the Campus Center or to the Office of Student Affairs.

Aid checks ready

First semester financial aid award checks for BEOG, SEOG, NDSL, and VSSL are now ready for pickup in the Business Office.

Career Planning & Placement

Notice has been received from the U.S. Office of Personnel Management announcing the reopening of the PACE program in January. Applications will be accepted starting January 2, 1980. Applications may be submitted for a seven-week period and applications postmarked after *February 15, 1980*, will not be accepted. Except for a change in occupational coverage, this year's PACE program will remain the same. Concerning the occupational coverage, Social Insurance Representative positions GS-5 are now covered by a separate announcement issued by the Social Security Administration.

Students may obtain applications for the PACE exam after the first of the year from the Placement Office, CC-208.

Major changes in Federal recruiting and examining procedures are scheduled to take place beginning January 2, 1980. Objectives of the "Model Competitive and Staffing System" are to speed the Federal hiring process, improve the quality of candidates, and decentralize selection authority into individual agencies. The Model Competitive Staffing System has three components:

1) *Agency Based Staffing*-- In this component, agencies will have examining authority and the ability to fill vacancies on a case-by-case basis. Agencies will publicize their vacancies and evaluate and rank applicants. This arrangement could be used for many positions at GS-9 through GS-15.

2) *OPM-Based Staffing*-- This will provide for OPM retaining examining authority for entry-level clerical, technical and professional occupations common to most agencies. It will also be used to fill blue collar positions and non-professional jobs at GS-2 through GS-4.

3) *OPM/Agency Shared Staffing*-- This

Spring Registration News omits ski course information

Due to an oversight, the course P.E. 140-98, *Beginning Skiing*, was omitted from the Spring 1980 Registration News. Registration will be on a first come, first serve basis, and the class will be limited to 25 students.

The class will be held at Wintergreen Ski Resort and at Christopher Newport College. The CNC classes will meet January 2, 3, and 4, and the course will continue at Wintergreen January 7-11.

The package includes a nine-hour pre-slope conditioning and classroom instruction and a small group lesson daily at Wintergreen.

The total cost of the course is \$197.00, which includes four nights' lodging in two- or three bedroom condominiums (double occupancy); ski rentals for learning the Graduated Length Method (starting on 100 cm. skis); transportation to and from Wintergreen in a modern, lavatory-equipped bus, and all-day lift tickets for five days of skiing.

Dr. Robert Cummings, a certified GLM instructor, will teach the course and accompany the class to Wintergreen.

Registration will be held December 10-

14 only, 9:00 a.m.-4:30 p.m., in Ratcliff 131. For more information, call Dr. Cummings at 599-7027.

Musical revue set in Virginia Beach

The Performing Arts Unit of the Virginia Beach Department of Parks and Recreation is presenting "Showstopper '79 -- A Musical Revue" at the Virginia Beach Recreation Center/Kempsville Theatre on December 12, 13, 14, & 15 at 8:00 p.m.; on December 15 also at 3:00 p.m. and on December 16 at 6:00 p.m.

The program, directed by Victoria Day Magee, will feature 20 showstopping songs and dances from such Broadway musicals as *A Chorus Line*, *South Pacific*, *Purlie*, *The Wiz*, *Camelot*, *Showboat*, and *Oklahoma*.

Reservations are required for these performances, and may be made by calling 499-1283. All performances are free.

For further information contact Debbie Devine or Kathleen McBlair at 467-4884.

type of staffing approach will divide applications and issue notices of results. Individuals will do their own ranking based on additional knowledge or skills required for the job.

The Rocky Mountain College Placement Association held a meeting in Albuquerque, New Mexico, this summer. One of the speakers was Dr. Doris M. Drury, Chairperson of the Economics and Business Law Department at the University of Denver. The following are some of the important aspects of her report on "Implications of the Economy on the Labor Force":

"Drury highlighted three areas: the forecast of the national economy, its impact on regional economy, and the employment picture. She predicts that the recession will be shallow and short in duration. We are in it now and will be [in it] until the first or second quarter of 1980."

"The consumer, through spending and credit, has fueled the economic recovery that America has experienced since the 1973-74 recession. However, the consumer is now tapped out. The consumer first experienced a level of static income and is now experiencing a decline in income. Real income has fallen as inflation has outflanked salary increases. Some of the 'softness' of this recession is due to businesses not stockpiling inventories.

"America, Drury continued, faces 'twin evils'--high inflation and a high rate of unemployment relevant to recent history. She predicts that this country will experience an unemployment rate of slightly over 7 percent. This is above the base rate of about 6 percent experienced under normal economic times and represents a marked change in American economy.

"Drury feels that certain geographic regions of the country will be hit harder

than others by the recession, bringing social diseconomy. The industrial northeast and the midwest will experience high rates of unemployment while the Rocky Mountain area will experience only a slow growth rate in unemployment. Effects on labor and employment clearly show documented changes on a national scale of increased unemployment. Productivity has declined in the American workforce--atypical in this country's history--and raises the question of why productivity has dropped in an expansion period. Possible explanations include a reduction in capital/labor ratio, and an increase of new entries into the labor force over the last five to seven years. New entrants do not increase productivity.

"Drury's opinion of the future economic outlook for America is that the 1980's will be optimistic economic growth comparable to that in the 1960's."

Seniors interested in applying for Social Insurance Representative (GS-105-5) positions with the Social Security Administration may obtain applications in the Placement Office. Applications will be available from December 3 to December 10. Applications postmarked after December 14, 1979, will not be accepted.

The Office of Career Planning and Placement has received the bulletin from the U.S. Office of Personnel Management for summer jobs with the Federal Government. For those persons required to take a written test, applications received by December 14, 1979, will be tested during January, 1980, and applications received after December 14 and postmarked no later than January 11, 1980, will be tested in February, 1980. No applications will be accepted after January 11, 1980. Interested students may pick up a bulletin from the Placement Office.

Conservation Assoc. offers park/Forest assistant slots

The Student Conservation Association, Inc., has released its Spring 1980 listings for Park and Forest Assistant positions.

Park and Forest Assistants work eight to 12 weeks each. They are assigned a variety of duties and projects ranging from manning information centers to leading nature walks to acting as shelter custodians conducting field research, or performing back-country patrol. They work side by side with the professional staff and are expected to perform their assignments to the same standards that apply to other employees. Park and Forest Assistants may serve together in groups or by themselves in isolated locations. They are provided necessary training to carry out their position. Regular staff members provide guidance and assistance with job activities. Assistants are expected to work 40 hours per week. Although participants are not paid for their time, they receive travel funds to cover their trip to the job site and the return trip home; a uniform allowance; free housing; and a subsistence allowance. Personal transportation for off-duty hours is desirable at almost every location.

To obtain an application, send a *post card* with your name and address to The Student Conservation Association, P.O. Box 550C, Charlestown, New Hampshire 03603, and ask for a Park and Forest Assistant application. Be sure to specify that you are applying for a spring position. Application deadline for spring programs is January 1, 1980. The Student Conservation Association also has a listing of available positions for the summer and fall. If you are interested, indicate so on

your post card and they will be glad to send it to you.

For more information regarding specific positions and areas, contact the Counseling Center.

Students may win free Moscow trip

Every fiftieth student in an American college who signs up for a trip to next summer's Olympic games through Anniversary Tours of New York City will automatically win a free trip to Moscow.

Also eligible are faculty members under 30 years of age who select a youth tour.

All that is required, according to the Anniversary Tour spokesperson, is that faculty members use their campus address on an Anniversary reservation form and that students preferring to use other than a campus address identify themselves as college students.

The deposit on every fiftieth reservation will be refunded and the selected Olympic tour will be provided free. Included besides transportation from New York are hotel accommodations, three meals a day, internal travel in the Soviet Union, and all customary tour expenses.

There are ten Olympic youth tours, to which this offer is limited, ranging from nine days to two weeks and costing \$1099 to \$1375.

Further information may be obtained directly from Anniversary Tours, 250 West 57th St., New York, N.Y. 10019.

CNC Choir performs three German Baroque cantatas

The CNC Choir, under the direction of Dr. James Hines, will present its fall concert on Saturday evening, December 8, at 8:15 in the CNC Campus Center. The program will be devoted to the performance of four German Baroque cantatas.

One of the leading genres of the Baroque period in northern Germany was the cantata based on well-known pre-existing chorales of the Lutheran Church. It is in this genre that J.S. Bach is the undisputed master, and his output included more than 300 cantatas, mostly for St. Thomas Church in Leipzig. The CNC Choir will perform one of Bach's lesser known cantatas, *Aus der Tiefe Rufe ich, Herr, zu dir*, an early work, probably the second cantata chronologically, written in 1707 when he was organist at Mulhausen. The text is *Psalm 130*, probably utilized in service on one of the last Sundays after Trinity.

The choir will also sing three earlier cantatas. The first of them, Vincent Lubeck's familiar cantata, *Willkommen, susser Brautigam*, for the first Sunday in advent, is based on the famous German chorale, *Ermuntre dich, mein schwacher, Giest*.

The second, Andreas Hammerschmidt's *O ihr lieben Hirten*, comes from a complete cycle of music for the church year including all Sundays and festivals. It was published in 1655-56. The text from *Luke* is a portion of the Gospel lesson for Christmas Day.

For the third, a reduced choir will sing Franz Tunder's *Hosanna dem Sohne David*. The text from Matthew is the closing portion of the Gospel lesson for the first Sunday in Advent. Tunder was Dietrich Buxtehude's predecessor as organist at the Lubeck Marienkirche.

Soloists in the various cantatas include Della Melton, Carolyn Williams, Judith Johnson, Cathy Dawson, Vesta Lord, Carlton Cheek, Wayne MacDonald, and David Warren. Hammerschmidt's cantata will be under the direction of student conductor, Wayne MacDonald.

The choir will be accompanied by an instrumental ensemble of strings, woodwinds, and harpsichord. The oboe obligato in Bach's cantata will be played by guest Patrick Gainer, who plays oboe and English in the Virginia Philharmonic Orchestra and the Virginia Classic Orchestra. Accompanists for the choir this year are Catherine Gregory and Angela Hines, who will be playing harpsichord.

The public is cordially invited. Tickets will be available at the door. For additional information, call 599-7074 or 7027.

Ticket price is not available at this time.

Posts eliminated

(Continued from page 1)

dent Life carries the overtones of a ploy to eliminate student input. Lisa Cipriano, Vice-President of the Student Association says, "I don't think it's a policy of Dr. [James] Windsor or the Board of Visitors. It could possibly be Dr. [Nancy] Melton and Dr. Behymer's idea." Ms. Cipriano was referring to the new position and the problem the students are having in the selection of a graduation speaker for May 1980. Dr. Behymer in reply to this assumption stated, "That's the most absurd, naive thing I've heard in my entire life." He mentioned that he was developing the area of Student Activities as requested by Dr. Windsor and several other people. His goal is to "stop providing piddling student jobs and start providing more programs."

If the State approves the position of Director of Student Life, a search committee will be formed next semester (Spring 1980), and by July 1, 1980, Dr. Behymer hopes to have someone to fill this position.

Special advisory council seeks sex harassment facts

The National Advisory Council on Women's Educational Programs is conducting an on-going project to examine ways in which the Federal government can and should assist in protecting students from being sexually harassed by faculty, staff or other employees of secondary and postsecondary education institutions. As part of that study, the Council is requesting information from former and present victims about their experiences, and from any others who may have knowledge of such harassment.

Responses need not provide any data which might identify the respondent, but should describe the type of harassment involved, the institutional and academic setting in which the incident(s) took place, any institutional or other action on the matter if the incident was reported, and the eventual outcome. Although the

Council welcomes comments of this issue at any time, they hope to conclude this phase of the project by January 1980, and ask that responses be submitted before then. Depending on the nature, scope, and circumstances of sexual harassment reported, the Council may hold hearings on this subject in the future. Ultimately, the Council may make recommendations for appropriate Federal action on the problem if warranted by the project's findings.

The National Advisory Council on Women's Educational Programs is a presidentially appointed body, established by Congress to advise and report on attaining sexual equity in education. Its offices are at 1832 M Street, N.W., Suite 821, Washington, D.C. 20036. Responses should be addressed to the chair of the Council, Ms. Eliza M. Carney.

Lecture focuses on cedar succession

by Patricia Earls

The Dean William Parks Memorial Colloquia Committee presented a lecture by Dr. E. Spencer Wise on November 29 in the Campus Center Theatre. Dr. Wise's lecture focused on the field succession of the red cedar. The lecture, while primarily for biology majors and biology students, was thorough, and Dr. Wise explained field succession for those who did not understand it.

Dr. Wise, who holds a B.S. in agriculture from VPI and his doctorate from the University of Illinois at Urbana, has worked as a large-scale, commercial farmer. He says that field succession is a newly-studied phenomenon, although it has been around for a long time.

Field succession is the gradual re-naturalization of a domesticated field after it has been allowed to lie fallow for a few years. The succession occurs in stages, the first being crabgrass and other grasses, the last being pine trees and, eventually, other types of trees.

The concern of the newest studies in field succession is the widespread invasion of the red cedar where Virginia pines should be.

In his lecture, Dr. Wise used an extensive series of slides showing the various stages of field succession and the invasion of the red cedar in several different fields in parts of northern Virginia to prove that this is not an isolated example.

Ryther at work in the Campus Center.

New job keeps Ryther "running"

by Patricia Earls

Richard Ryther has been appointed CNC's new Director of Auxiliary Affairs.

Ryther, who comes to CNC after having worked both as an insurance agent and before that as an elementary school physical education teacher in the York County School System for four years, finds the new position a challenge. He feels that he has a few things to which he must adjust, such as the environmental differences between working behind a desk as an insurance; being constantly on his feet teaching physical education; and managing the Campus Center, which is a combination of the two.

Says Ryther, "I never sit for more than ten minutes at a stretch." The students keep him busy all of the time with questions, concerns, and complaints. Ryther says he's going to get a locker in the gym and take a break during the day to play basketball or just work out.

Alpha Kappa Psi offers used books at bargain prices

by Steve Wilson

The end of the semester signals the beginning of the used book sales. There are two book sales on campus, giving CNC students a freedom of choice. Both the CNC Bookstore and the Alpha Kappa Psi Booksale are working to meet the needs of the students.

The CNC Bookstore offers the students cash payments for their books. The Bookstore price is based on the new book list price for each text. The student receives 50 percent of the new book list price and the book is resold for 75 percent of the new book list price. The advantage of this policy is that the Bookstore will pay at the current list price. This allows for some appreciation in the value of the book.

The Bookstore accepts books only if they will be used next semester and are not badly damaged or marked up.

The Alpha Kappa Psi Booksale sells books for students on a consignment basis. If a book is not sold, the owner returns and takes the book back. No fee is charged for handling unsold books. AKPsi pays the student 60 percent of the last selling price. This price policy pays the student 10 percent more than the bookstore and resells the book for 5 percent less than the bookstore.

Alpha Kappa Psi is operating a licensed raffle to promote its booksale. The tickets sell for 50 cents each and offer three opportunities to the students. First, a 50 cents off coupon, good any Monday on a large pizza at Anna's #2 located at 9708 Warwick Blvd. Next, a prize of 15 credit hours of free used books or \$50.00 cash will be given away. Finally, any person who drops by the AKPsi Booksale may enter a second drawing for 6 credit hours of free books or \$25.00 cash. Contact any AKPsi member to purchase a ticket.

Hours for the Alpha Kappa Psi book sale are: December 11-14, 10:00 a.m. to 12 noon; 1:00-3:00 p.m. The sale will be held in the Campus Center lobby and in Newport Hall.

The CNC Bookstore will hold its sale from 9:30 a.m. to 3:30 p.m., December 10-14, in the lobby of Newport Hall.

Windsor reflects

(Continued from page 1)

to have a limited practice which would concern itself primarily with family counseling. Prior to coming to Christopher Newport, Dr. Windsor worked in Richmond with emotionally disturbed children and their parents.

Dr. Windsor would also like to do some writing and is happy to get back to the academic life and the practice of psychology.

AUDITIONS '80

The world is waiting.

If you've got talent, we want to see it. And then we'll let you show it to the world at The Old Country, Busch Gardens, in Williamsburg, Va.

During our 1980 Audition Tour we'll be looking for more singers, dancers, musicians, costume characters, mimes, jugglers, puppeteers and light and sound technicians than ever before.

Show off your talent to thousands of international visitors daily in one of seven stage productions or six "street shows" in our unique European theme setting. And with the addition of our brand new country, Italy, our world just got bigger. And so did yours.

You'll work with other outstanding talents from all across the nation and earn a good salary while you're at it.

So get your act together and show it to us.

Audition date:

CNC's one-act plays are ready for prime time

by Patricia Earls

The CNC Studio Productions' presentation of three one-act plays Friday and Saturday night was interesting, entertaining, and thought-provoking. It's a pity that they weren't met with more enthusiasm from the students. The first night, attendance was moderate; the second night, it was poor--upon last count, we believe there were 14 people in the audience--make that 15, as one gentleman walked in while we were still counting.

Friday night, the Studio presented *The Stronger* by August Strindberg and *The Continuing Adventures of Moppett and Straightly* by David Ballard. Both were provocative and thought-inducing.

In *The Stronger*, directed by Therese Price-Irwin, two women struggle for control of each other. The plot is such that it reveals a secret: one of the women, Miss Y, played by Katherine Stubbs, has been involved with the other's husband for several years. Mrs. X., played by Doris Werner, is and has been affected indirectly by this affair. Those things that Miss Y has liked, like tulips, are reflected in Mrs. X's husband's taste, and therefore Mrs. X. herself. The actresses portrayed "the battle of the wills" excellently; Doris Werner's shouting crescendoes were equally matched by Katherine Stubbs' stony silence. Charles Bell, in a cameo performance as the Waiter, blended well into the setting and established the mood of "a cafe in Stockholm."

(photo by Bruce Laubach)

Mrs. X., played by Katharine Stubbs, and Miss Y, played by Doris Werner, engage in a silent battle of wiles in *The Stronger*.

(photo by Bruce Laubach)

Pickett Bugg, as Straightly, yawns and looks out to sea

The Continuing Adventures of Moppett and Straightly, directed by Pickett Bugg, also centered on conflict. The conflict of these two characters concerned instinctual behavior such as sleeping and eating on Moppett's part and thinking and doing on Straightly's part. Showing a life cycle, the play revealed Straightly's power peak as the leader; and his death, which led to Moppett's eventual gaining of the "knowledge" Straightly has tried to impress into him. Pickett Bugg, as Straightly, portrayed the kindly mentor well, in addition to directing the play. Bill Curby as his counterpart was an amusing, child-like Moppett, balancing the play out well.

On Saturday night, *Moppett and Straightly* was performed again, in addition to Bill Curby's *My World in Silence*, a collection of his own mimes.

The second performance of *Moppett and Straightly* was as effective as the first, if not more so.

My World in Silence was funny. Bill Curby dealt with such topics as "The Dieter's Nightmare," "The Last Eagle," "The Kite," "The Watercooler," "Little Mr. Muffet," and "Melvin and the Sex Education Class." Each stood on its own merit, providing visual humor as well as thought humor.

Sound Solution

by Rick Dunn

With *Rust Never Sleeps* still on the charts, Neil Young has released a double live album entitled *Live Rust*. The material represented spans Young's entire career, from his Buffalo Springfield days on up to his last LP.

Live Rust is structured the same way Young's concerts were on his last tour. The first side of the album is all solo Neil—he accompanies himself on acoustic guitar, harmonica, and keyboards. He opens with one of the first songs that he ever wrote, a great rendition of "Sugar Mountain."

The rest of side one is filled with the best of Young's acoustic material—"Comes a Time," "I Am a Child," and the more recent "My My, Hey Hey." But things really start to cook on the second side, when Young is joined onstage by Crazy Horse for the electric half of the show, which occupies the LP's next three sides.

The best moment on side two—and possibly the whole album—comes when stage announcements from Woodstock are played over the loudspeakers. An announcer leads the crowds in chants of "No rain!" in an effort to halt a cloudburst that must have interrupted the epic festival. Against this fading background of shouting, Young slides into "The Needle and the Damage Done," a fitting and sad memory of the Sixties, and more importantly, of the loss of one of his close friends.

The rest of *Live Rust* rocks out, dominated by Young's hauntingly distorted electric guitar playing. A powerful version of one of my favorite Young songs, "Cinnamon Girl," closes side three. On the last side, the band goes through the electric version of "My My, Hey Hey," and closes the set with "Tonight's the Night," from the controversial album of the same name.

Neil Young is probably the only remnant of the Sixties who isn't just that—a remnant. As an artist he is as potent and vital today as he was ten years ago. The photo inside the album jacket says it all. Young is frozen just as he is leaping into the air, his feet about six inches above the stage. The magical, larger-than-life quality of this picture is what Neil Young is to the music world.

This being the last column I'll write in the Seventies, I feel a certain obligation to reflect on the face of rock over the last decade. Maybe I should discuss the birth of disco or the emergence of Power Pop.

Nutcracker planned

The Hampton Roads Civic Ballet will present the *Nutcracker Ballet* on Saturday, December 15, at Syms Junior High School, 170 Fox Hill Road, Hampton at 8:00 p.m.; and on Sunday, December 16, at Denbigh High School, Newport News, at 3:00 p.m.

Tickets are \$2.50 for adults and \$1.00 for students.

For more information call 722-8216.

Maybe I should note the demise of pompous dinosaur rock. Maybe I should use my knowledge of the business to give everyone an insight on what the Eighties have in store!? Naaaaaaaahhh!

cinema scope

by Elena Watson

... *And Justice for All* is a heavy-handed attempt at satirizing the judicial system.

It stars Al Pacino as a young Balti-

more lawyer named Arthur Kirkland. Arthur also happens to be very idealistic. Unfortunately, everyone around him is either corrupt or crazy. His law partner

(Continued from p. 6)

flips out when a man for whom he won an acquittal goes out and kills two kids. One of the judges (Jack Warden) in the film is a suicidal maniac; the other (John Forsythe) is an unbending law and order type who doesn't care about defendants. Arthur's girlfriend (Cristine Lahti) is on an ethics committee that is investigating him and several other lawyers. His sweet old grandfather (Lee Strasberg) is senile.

This should give one a good idea of how much is going on in this movie. There are so many subplots that it is hard to keep them straight. But the theme that runs through them all is that the innocent pay and the guilty go free. The corrupt have all the power. In effect, the film seems to echo the cynicism of the times, rather than to be an effective expose of the judicial system.

The final speech by Pacino is a calculated crowd-pleaser, created to bring

down the house. But since we have been so thoroughly bombarded from the start, it becomes just like the rest of the movie and not nearly as effective as it could have been.

Although some of the acting is good, many of the characters emerge simply as screaming characters. Even Pacino does not hold up well in this film, and when his partner breaks down, one almost expects him to be next.

For black comedy, it is too obvious, too one-dimensional. The filmmakers have used no subtlety in either story or direction. The moments that are effective are lost in the chaos and clutter. At two hours it is too much, for too long.

... And *Justice For All* manages to one-sidedly attack the judicial system without ever taking a stand or clarifying the problem. It is rated "R" and is playing at the Coliseum Mall Twin Theatre.

Pre-exam bashes draw small crowds

by Ana Kimball

Pre-exam studies, last minute catching up, or just plain apathy--all are possible reasons for the lack of attendance at the last two functions held at CNC.

Nearly 50 people showed up for the CAC's pre-exam bash on Wednesday, November 28. Pace supplied the music. The Norfolk-based band played tunes by Van Halen, The Knack, and The Cars. Unfortunately, Pace's music was in competition with the Pub's television.

Again, the dance sponsored by Alpha Kappa Psi on Saturday, December 1, was far from successful. The band, 12 O'Clock High, played to less than 100 people.

According to Mark Farrah, president of AKPsi, "We realized the risk involved, but we just wanted to have a function for the students."

Hopefully, at the start of the new semester, student apathy will diminish, and there will be a reason to bring entertainment to CNC.

(photo by Bruce Laubach)

Pace supplies the music.

COMING FOR CHRISTMAS

Intramural basketball begins with 11 teams in the running

by Hobert Corbett

The Intramural basketball season began Sunday night, December 2. Eleven teams have signed up for the 1979-80 season in hopes of becoming the champions. The teams will play again on December 9 and then take a break until January 20, whereby they will begin to play each Sunday thereafter. Intramural Director, Dennis Casey, and his assistant, Jeff Thomas have set game times at 6:00, 7:15, and 8:30 p.m. respectively at Ratcliff Gymnasium. At the end of the season the teams will have a single elimination playoff in which the team without a playoff loss will be declared the Intramural Basketball Champion.

In Sunday's action, 6:00 p.m. found the Tarheels and ROTC squared off against each other on Court #1. Mike McNutly led the Tarheels to a 50-36 victory as he pumped in half of his team's points (25) while Mark Janowski has 27 points for the losers.

Court #2 was the setting for the Bricks vs. Knickerbockers game. Spook Williams pumped in a game high of 24 points as the Knickerbockers blasted the Bricks 64-40.

Headhunters beat EHO's in championship game

by Hobert Corbett

The Intramural Football Game of the Year was played this past Sunday (December 2) by the EHO's and the Headhunters in the 2:00 p.m. championship game. Both teams entered the contest with identical 7-1 regular season records.

The EHO's struck first as Randy Lint connected with Tony Lamoy on a 46-yard pass play to make the score 6-0. With a little over four minutes to play in the first half, the Headhunters, behind field general Marty Martin, tied the score at 6-6 when Mike King rambled into the end zone on a 12 yard scamper. The Headhunters took the lead 7-6 when Martin passed to Glen Corey in the end zone. Defensive back Mike Thaxton deflected the pass but the ball was caught by another Headhunter receiver, Dennis Allen for the successful conversion. The EHO's came back quickly as Lint connected with Freddie Corbin on a 38 yard touchdown pass to make the score 12-7 with 42 seconds to play in the half. The extra point attempt was successful when offensive back Ron Smith ran the ball around the end to pay dirt to increase the EHO lead to 13-7.

The second half was a defensive struggle until the beginning of the fourth quarter. The Headhunter's drove down to the EHO 16 yard line whereby Martin teamed up with Glen Corey for the touchdown to tie the score 13-all. On the extra point, Martin took the snap from the center, dropped back and calmly hit Allen up the middle for the extra point which also became the game's winning point.

The first game of the day was supposed to have been played at 11:00 a.m. but

John Ireland led the Bricks in scoring as he threw in 20 points.

The 7:15 game between the Hawks and the Bluedevils never got underway as the Hawks had to forfeit due to a lack of enough players.

At the same time on Court #2, an inexperienced Kappa Nu #1 team was overwhelmed by an overpowering OTHG team, 62-14. Jerry Schenk led the losers with 6 points while the OTHG had an excellent balanced scoring attack led by Pat Houston's 16 points, Artis Brooks 15, Kevin Perry 14, and Reggi Frazier pumped in 11.

In the 8:30 contest, Kappa Nu #2 fell to last year's second place winner DU by the score 86-18. Joe Conway and Chris Ford led the victors with 28 and 18 points respectively, while Cody Hensey and Dave Edgerton led Kappa Nu with 6 points each.

Last year's champions, the Bleeps, received a bye this past Sunday and will begin play December 9. A poll was taken Sunday night and it is believed that the Bleeps, DU, and OTHG will be battling for this year's championship.

neither Kappa Nu nor TAS had enough players and thus a double forfeit was declared by Intramural Director and Head Referee Dennis Casey.

The 12:30 game pitted rivals OTHG #1 and OTHG #2, whereby the latter won by the convincing score of 26-0. OTHG #2 quarterback Greg Brown led his team's victory with a 12 yard run and also threw a 51 yard touchdown pass to Bill Hassenger to make the score 12-0. Rich Burns contributed to the victory as he ran for a 5 yard touchdown to increase the OTHG#2 score to 18-0. The "Gangers" finished the rout as Mark Paquette took a reverse handoff and streaked around the left end for an 11 yard touchdown run.

Captains land one on road, drop one to William & Mary

by Mickey Boyer

The CNC Captains completed their roadswing last Monday night with a loss to Division I William & Mary. But who could have any hard feelings toward them? They had just beaten one of the best Division III teams around in Lynchburg and were tied with W&M at the half, 28-all. Edging Lynchburg, 77-76, and losing to W&M by just 68-50 proves that the 1979-80 version of the Captains is for real.

Against Lynchburg, CNC utilized a man-to-man defense to hold the Hornets to 29 points at the half, with CNC standing at 35. The Big Blue faltered in the second half but held on for the one-point win. Lynchburg came back to take leads of up to six points in the early stages of the last 20 minutes. The game see-sawed until the final minute when the Captains took a 77-72 lead. The Hornets, utilizing a pressing man-to-man defense, came back to the final score. CNC blew two chances of icing it when they missed the front ends of one and one chances at the line.

Leading the way in scoring for CNC was 6'3" forward Larry Eure. Eure registered 14 points and grabbed six rebounds. Other top scorers were Dennis Casey with 14 points, Rod Terry and James Jarvis with 11 each, and Otis White, who scored ten points and took rebounding honors with 13, 11 in the first half.

The Captains won the game from the line, hitting on 17 of 22 foul shots.

Although not so fortunate in the final outcome against William and Mary, CNC still held their own. Using a pesky zone defense, CNC kept the Indians from getting the ball inside in the first half. However, W&M used the press effectively to outscore their foe 34-13 at one point. CNC, shooting a despicable 27 percent from the floor, was led in scoring by Ritchie Hall with 15 points. No other Captain registered double figures.

Coach Bev Vaughan credits W&M's de-

fense for their victory. Rebounding, though, proved to be the mainstay of the W&M Indians. They out-rebounded the Captains only 39-30 but pulled down offensive rebounds for two to three shots at the basket.

Christopher Newport's Captains are expecting a large turnout Friday, December 7, against the University of North Carolina-Greensboro. Game time is 8:00.

J.V. plays at 5:30.

Lewis wins third Intramural title

by Hoberto

On Monday, December 3, Mitch Lewis won the CNC Intramural Pool Tournament. Out of 16 persons who entered the tournament, the field was narrowed to Lewis and Hobert Corbett. Lewis reached the finals by beating Shawn Lluellen in the semi-finals while Corbett barely squeezed by tough opponent Tony Lamoy in their semi-final match.

The tournament consisted of single elimination play whereby the individual winning the best four out of seven games was declared that bracket's winner, and thus moved on to harder competition.

Lewis's feat this year was the third straight title for him. The match was a close contest as Lewis won the first, third and fourth games, while Corbett came from behind and countered with the second, fifth, and sixth game. Lewis went on to dispose of Corbett in the seventh game to win the tournament, four games to three.

Lady Captains trounce Mary Washington College, 76-59

by David Bean

Tuesday night, December 4, the Lady Captains played host to the team from Mary Washington College. The Captains were still feeling the bruises from the contest with Virginia Commonwealth, which was held in Richmond November 29. In that game, the Captains played with VCU most of the game until the stretch, where VCU pulled away to win by five baskets, 62-52. Although they lost, CNC's Linda Richardson led all game scores with 21 points. Other Captains in double figures were Gwynn Drewry with 11 and Gloria Freeman, who had 12. Top scorers for VCU were Crow with 14, Watford with 12, and Jiggetts with 14.

In Tuesday's game, both clubs played rather well during the first half. As the game started, Mary Washington was hanging tough against the taller, experienced Lady Captains. MW led the game until the 8:10 mark, when the Captains went ahead, never to look back. One of the BIG problems was their inability to aggressively control the boards. Their tallest player was 5'10" Cindy Robbins, who didn't even play. When the half ended, the Captains were in the lead, 36-30. Linda Richardson had 18 of her game-leading 33 points in the first half, and teammate Patty Kelliher had put in 10 of her 20 points.

However, the best was saved for the

second half, when Patty Kelliher really caught fire. Kelliher put in three straight missiles from the outside, enabling the Captains to catch MW sleeping. This sleep was interrupted when MW's Nancy Clary and Kimwarker woke up and cut the Captain's lead from 11 to 5 (55-50 with eight minutes left). From here it was all downhill for MW. Costly mistakes were proving to drive the final nail into the coffin, as the time ran out. The game ended with the Captains victorious, 76-59. The Lady Captains' record now stands at 3-3.

The next home game is tonight against William & Mary at 7:00.

editorial

The end is the beginning?

As the semester comes to an end, we decided to sit back and reflect on all the changes that Christopher Newport College has undergone and the future as it looks from the bow of the **Captain's Log**.

The most visible of these changes has been the addition to the Captain John Smith Library. We now have the space and the look of a real honest-to-goodness college library. We have private study carrels, a special audio-visual center, a lounge, and all the niceties that we could want. Now, if we could just get some books. . .

Another change, which was felt more over the past summer than this fall, was the beginning of the construction of the new administration building. Daily we have watched the pilings being driven in up to the point where they are today (for those who put up with the constant pounding--we salute you). Although an optimist would say it will be completed by its fall 1980 deadline, we have our doubts. Nonetheless, it is rising. Through this construction, it is hoped that the trailers behind the Campus Center and Newport Hall housing offices will be disposed of.

Personnel changes have been made all over the campus, but the one that stands out the most is the change in the office of the President. We regret that we will no longer be under the command of Dr. James Windsor and cannot begin to express our gratitude for the impact he has made upon this college. Hopefully, his decision to remain at CNC will spare us the loss of his insight; it will be focused instead in the direction of the classroom.

Dr. John Anderson, who assumes the duties of President in January, signifies a new beginning for CNC in the upcoming decade of the '80's. We are anticipating his arrival and are waiting to see what grand and glorious plans he has for the College. CNC truly is taking a step up in the world, and we are happy to be sharing it with him.

Other staff and faculty members have slid in under our noses this semester. Although they are too numerous to mention by name, we want to welcome those new arrivals. If those we have seen so far are any indication of the rest, we should have the best-looking campus personnel around Tidewater. Anyway, welcome aboard.

The Eighties will soon be upon us, bringing even more changes. The go-ahead has been given for a Campus Center addition, and the verdict on building a new track will be handed down soon. The science wing will be getting underway soon. Who knows? We may make some discovery that will put Einstein to shame (Hopefully, if this happens, the building will remain intact).

Some of our students will be leaving our ivy-walled buildings and entering the cold, cruel world, thus missing all of these impending changes. While the hint of jealousy might show through, we do wish this semester's graduating class good luck in any ventures they undertake after leaving the protective womb of Christopher Newport College.

Those of us who are left behind have our work cut out for us, but it won't be too long before someone is telling us goodbye and we can dance across the stage and grab our sheepskins.

In summary, it has been a great fall semester, and the spring is shaping up as well as ever. We at the **Captain's Log** want to thank all those people who added their words of wisdom and contributed to this newspaper and hope that the students will support us and use us as their voice on campus.

Happy Holidays to everyone and a Happy New Year!

Letters to the Editor

Dear Editor,

I was saddened and disgusted by the behavior of some of our students in the registration line on the morning of November 28th. I am sure that during the first three hours of registration more students registered by breaking in line than by awaiting a legitimate opportunity to register. The line breakers' crass disrespect for their fellow students reminded me of the fragility of the constraints which separate civilization and barbarity. I was also reminded of Kurtz in Conrad's *Heart of Darkness*, but after further consideration I realize that the parallel is not entirely appropriate. Kurtz, at least, was iso-

lated from the civilizing influence of his fellows.

The line breaking incident may seem trivial, but is in fact significant in that it exemplifies the tenuousness of our ethical framework. It may be supposed that college students represent the zenith of human endeavor. If we can not exercise restraint and consideration while waiting in a registration line we will certainly fail more serious tests of our integrity. I hope that the administration will monitor future registrations more closely and will discipline students attempting to break in line.

John Allgood

Captain's Commentary

by Judith Hrul

The days that seemed so distant last August have finally arrived. We're a semester older, a semester wiser, a semester more knowledgeable, a semester closer to our goals. We're tired and weary with 14 weeks of work behind us and a week of exams ahead of us. Some things have changed; some things have been accomplished; but exam week is still with us.

Students from the Natural Sciences were successful in having the planned extension to Gosnold Hall moved to a different location, thereby preventing a negative environmental impact. We now have a security guard patrolling during the day, and we have heard that first aid kits are being purchased. The library is planning to institute a shelving policy and is

actually extending its hours this weekend for exam week.

There's some sadness, too, at the end of this semester. Dr. Windsor is leaving us as President of the College, but since he'll be rejoining the faculty in the Psychology Department, he will still be a part of our college community. But those old friends who are graduating and leaving us permanently will leave a void in our lives. It's not just that we're green with envy because they're completing their last term papers, doing their last homework, taking their last exams--we really are going to miss them. Linda, Louisa, Peggy, Ron, and all of the graduating seniors, we thank you for having been a part of our lives and wish you the best of luck!

FOR ALL YOU LAST MINUTE CRAMMERS . . .

The CNC Cafeteria Will Be Open All Night During Exam Week

WITH FREE COFFEE & DOUGHNUTS !!!

NASA seeks input for Shuttle

Scientific and professional organizations are being invited to a workshop next month to draw up plans for a proposed competition to select college student experiments to be flown aboard NASA's Space Shuttle in the 1980's. Plans for a high school student program are being worked on separately.

More than 40 organizations are being invited to take part in the workshop at NASA headquarters in Washington Nov. 29-30.

Dr. Glen P. Wilson, special assistant for student activities in the Office of External Relations, heads the NASA Student Activities Steering Committee, the lead group in coordinating the workshop.

The workshop is being organized for NASA by the Forum for the Advancement of Students in Science and Technology, Inc., which represents a network of organizations and some 13,000 individuals interested in encouraging student participation in scientific programs.

Preliminary plans call for starting competition by the fall of 1980 in order to select winners in the spring of 1980 and to develop the experiments in the summer and fall. The experiments then might be flown in late 1981 or 1982, depending upon how long it takes to prepare them and the availability of space on a Shuttle flight.

Student participation in space agency projects has been a continuing effort at NASA. During the Skylab mission in 1973 and 1974, experiments from high school students were flown. One of the most publicized ones investigated the effects of weightlessness upon two spiders, Anita and Arabella.

Wilson noted that in the 1976 Viking mission to Mars, some 50 or more students were selected from colleges and universities around the country and went to Pasadena, Calif., to work on the project.

Saturday Dec. 15	9:00 a.m.-Noon S			

PLEASE READ CAREFULLY:

1. No final exams will be given during the last week of classes.
2. Students are required to take all of their examinations at the time scheduled, except:
 - a. Where conflicts occur
 - b. for illness
3. Applications for individual changes in

the schedule should be made through the Office of the Registrar by December 7, 1979. All applications must be approved by the instructor.

4. Any student who is absent from an examination because of illness or other emergency situation should notify the Office of the Registrar. That office will in

turn notify each instructor of the communication.

5. No excuse on the grounds of illness will be accepted unless it is certified in writing by a physician. This excuse should be processed through the Office of the Registrar.
