Demonstration of Two-Way Video Instructional System

At 2:00 P.M. Monday in N121 there will be a demonstration of the two-way closed-circuit video instructional system developed by the Center for Excellence, Inc. of Williamsburg. This system has the capability of delivering interactive instructional programs within a twenty-five mile radius, and the College plans to become actively involved in this method of instruction. Faculty members who are interested are invited to observe the demonstration.

NOTICES

William Parks Scholarship Fund

We are pleased to report that contributions totaling \$1510.00 have been received into the William Parks Scholarship Fund as of September 27. We now believe that this very impressive beginning will enable Bill's son to get his education off to a good start. The trustees hope to conduct an annual drive to keep the fund viable until Billy completes his education.

Anyone who may be interested in making a contribution to the fund, and who has not yet done so, may send a check, made payable to the fund, to Keith McLoughland in the CNC Admissions Office.
