INVITATION TO ALL FACULTY

The Honors Council invites all faculty members to consider taking part in an innovative enterprise--the attaching of weekly "Conversation" sections to departmental course offerings.

These one-credit, pass-fail courses will provide a large number of interested students and faculty the opportunity to take part in regular, informal course-oriented discussions. While each "Conversation" section should have a syllabus, it should promote independent thought and interdisciplinarity, refine analytical and argumentative ability, and allow for close cooperation between instructor and students. In other words, these sections should encourage people to talk casually about ideas and formulate opinions.

The first "Conversation" sections will be scheduled for the Spring Semester, 1994.

As approved by the Curriculum Committee, a "Conversation" will meet for 75 minutes each week, carry one academic credit, and count as one LHE. The course will bear the number of the course to which it is attached, with an "H" suffix. Faculty reimbursement will take one of two forms: overload salary, or a course reduction upon completion of three "Conversations."

Enrollment in "Conversations" will be limited to (a) Honors Students, (b) majors in the department offering the course, (c) students with cumulative gpa's of 3.00 or higher, and (d) students receiving permission of the instructor. First-semester freshmen may register with written approval of their academic advisors. A minimum of seven students will be required for a "Conversation."

An instructor wishing to conduct a "Conversation" must arrange for its scheduling with his/her department chair in August and notify the Director of the Honors Program by that time; the instructor should also submit a tentative syllabus to the Honors Director at least one month prior to the start of the semester in which the course will be offered.

For more information, please contact Jay Paul, Honors Program Director (594-7072), or any other member of the Honors Council.

MAA SPRING MEETING -- The Mathematics Department will host the spring meeting of the Maryland-District of Columbia-Virginia Section of the MAA (Mathematical Association of America) on April 16-17, 1993.
