DEAN'S ANNOUNCEMENTS

NEH Summer Stipends

Faculty members interested in applying for nomination for a NEH Summer Stipend (See the 16 September Chronicle) should notify the Dean by 5 October 1977. Nominations must be postmarked by 14 October.

BUILDINGS AND GROUNDS

During a recent fire prevention inspection by the Newport News Fire Division, we were cited for several violations. The most common of which pertained to extension cords and appliances.

Extension cord violations were: Too many, wrong type, wrong size and/or unprotected in traffic areas.

Appliance violations were: Frayed wires, broken plugs or switches, no protective device and/or left unattended.

As this was a general inspection, many areas were not looked at and I am sure many more of these violations would have been found.

Therefore it is requested that each department look at these items in its area and take necessary corrective action. If this department can be of assistance, please call.

Your cooperation in this will go a long way toward reducing potential fire hazards.

Thank you,

Skip Skillman

Paula Rankin, CNC Graduate and Published Poet, To Give Reading on October 5 in CC Theatre

Paula Rankin, a 1974 CNC graduate, will celebrate the publication of her first book of poetry by giving a reading of her work on Wednesday evening, October 5, at 8:00 P.M. in the Campus Center Theatre. The event is open to the public and without admission charge.

Approximately one hundred of Rankin's poems are in print in prestigious magazines like Nation and The North American Review. By the Wreckmaster's Cottage, her first book of poetry, will be released by the Carnegie Press of Carnegie Mellon University at the end of September or the beginning of October.

Following the poetry reading on October 5, there will be a coffee reception on the second floor of the Campus Center sponsored by the Department of Fine and Performing Arts.

By the Wreckmaster's Cottage will be available in the CNC bookstore.

ANNOUNCEMENTS

Dean's Colloquia and Visiting Scholars

The Committee on the Dean's Colloquia has been given the responsibility for both the Colloquia speakers and a Visiting Scholars program. We invite your help in making these programs successful during this academic year.

Dean's Colloquia: The four or five colloquia will consist of CNC faculty presenting the results of their scholarly research to their colleagues and interested students. These will be held every 3-4 weeks during the remainder of the school year. If you would like to participate by making a presentation under this program, please submit a one-page written description of your topic within the next week. The committee will then choose the program for the year.

Visiting Scholars: Money has been made available to the committee to re-institute a Visiting Scholar program. Two or three eminent scholars will be asked to visit the campus to address the college community. If you have any suggestions as to who should be invited to participate in the program, please contact any member of the committee.

The International Educational and Cultural Exchange program is authorized by Public Law 87-256 (Fulbright-Hays Act) and is administered by the Office of Education in cooperation with the U.S. Department of State. The seminars in Egypt, India, and Pakistan will be financed in foreign currency under Public Law 83-480.

COMMITTEE REPORTS

Faculty Advisory Committee

The following actions were taken at the FAC meeting on September 27:

1. The Undergraduate Student Cross Registration Procedures for the Virginia Tidewater Consortium as published below were reviewed. The FAC will move that these procedures be approved by the Faculty at the October meeting.

UNDERGRADUATE STUDENT CROSS-REGISTRATION

The purpose of undergraduate cross-registration is to provide opportunities for enriched educational programs by permitting students at any of the nine Virginia Tidewater Consortium (VTC) institutions to take courses at any other VTC institution.

POLICIES:

1. Students at any resident VTC institution may register on a credit or audit basis for courses offered by other VTC institutions with the approval of the HOME institution.
2. When a student enrolled at one VTC HOME institution cross-registers to a VTC HOST school, the credit earned will be treated by the HOME institution as if earned at the HOME institution and will be so posted on the student's transcript as resident credit. A VTC institution will not issue a transcript to a cross-registered student which it hosts.
3. The grading system of the HOME institution must be used by the instructor at the HOST institution.
4. Tuition will be charged by the HOME institution for a cross-registered course. The cross-registrant must assume costs of all transportation, books, materials, lab fees, applied music fees etc.
5. Normally, the desired course must not be currently available at the student's HOME institution.
6. This policy applies only to regular on-campus credit courses of VTC institutions.
7. Students will be governed by the administrative rules and regulations of the HOST institution while in attendance there.
8. A VTC Cross-Registration Form must be completed and signed by the appropriate people at the HOST and HOME institution. Where necessary, the student will certify that he/she has met course prerequisites.
9. Each HOST institution will establish its own dates for cross-registration.
10. Each member institution shall set up its own procedures for implementing these broad policies.

Rationale

Should these procedures be approved, our students will have the opportunity to register for courses not offered currently on our campus, and we will make our course offerings available to students at other institutions. Should these procedures be disapproved, we could not participate either as a HOME or HOST institution in the Virginia Tidewater Consortium program.

2. Subject to the Faculty's approval of these procedures and our participation in this cross-registration program, the FAC recommends to the Dean of Academic Affairs that students wishing to register for a course at a HOST institution complete a form secured from the Registrar's office stating the following:
 1. Student's name, major, advisor, date of graduation

2. Course to be taken
3. HOST institution
4. Date of cross-registration
5. Reasons for taking this course at a HOST institution rather than at CNC.

The form should be submitted to his major department for recommended approval or disapproval and then forwarded to the Dean of Academic Affairs. This procedure would serve as information to the appropriate department and allow input from the department, particularly in the implementation of procedure #5.

3. The Faculty Representatives to the Committee of the Board of Visitors briefed the members concerning the meetings on September 8. Topics discussed in the various meetings included the advising system, registration procedures, library hours, future building plans, the Annual College Fund Drive, and the operating budget for this academic year.
4. Bob Nason will be the representative to the Student Affairs Committee beginning with the next meeting of the Committees of the Board of Visitors.
5. The FAC will meet 11:00 A.M. - 12:45 P.M. on Tuesday, October 11 to review the faculty development grant applications received by October 8. All faculty members submitting such applications will receive a written acknowledgement that the appropriate materials have or have not been received by FAC. Should you not receive such a form please call the Chairman of FAC. The first forms will be sent out by October 11.
