Official Announcements

Instruction Evaluation Surveys

The designated period for administering the Instruction Evaluation Surveys is Monday, April 18 through Friday, April 29. Evaluations may not be carried out during the final examination period.

Essentially everyone who is teaching at least one course should have received a memorandum from Dr. Summerville with attached instructions and labelled envelopes bearing proctor's instructions. Please contact me immediately (Ext. 7392) if you have found any discrepancies between the course(s) represented on the memorandum you received and the course(s) in which you expected to use surveys.

-- Dennis Ridley, Assistant to the VPAA

News and General Information

Reception For New Students A Success

I would like to thank all who participated in the 1988 President's Reception for Newly Admitted Students. This year the program was attended by a record number and has been called the best yet! Planning such a program becomes very easy when you have the support of an enthusiastic faculty and staff.

Your time and willingness to meet and answer questions for the Class of 1992 is greatly appreciated.

-- Carol Safko, Admissions Officer

Graduate Follow-Up Survey

The Office of Career Planning and Placement will administer a Graduate Follow-Up Survey of the 1987 graduates in April. The primary purpose of the instrument is to ascertain key areas of graduate outcome data to include: 1) graduate school information - who is going to graduate school, where, and for what programs of study, 2) employment information - who is employed, occupational title, employer and location, who is unemployed, if unemployed, why, and 3) additional information - level of graduate involvement in community, civic, political and other activities, level of satisfaction with educational experience at CNC, and a section for additional comments. This information will be of great value to many areas and will support the assessment model of the College.

The survey instrument was developed through a collaborative effort with the deans, several faculty, the Assessment Committee, student affairs offices, Career Planning and Placement and Student Development and the Alumni Office. The Office of Career Planning and Placement plans to administer the survey on a yearly basis. Final reports will be forwarded to all vice presidents, deans and department heads. Additional copies will be available upon request. If you would like to review a copy of the instrument or discuss the survey in more detail please call Doug Gallaer at 7047 or Bob Durel at 7036.

-- Doug Gallaer, Director, Office of Career Planning & Placement

Means of Egress

In accordance with Virginia Occupational Safety and Health Standards, Section 1910.37 [k] [2], means of egress shall be continuously maintained free of all obstructions or impediments to full instant use in case of fire or other emergency. And section 1910.37 [1] [1], no furnishing, decorations, or other objects shall be so placed as to obstruct exits, access thereto, egress therefrom, or visibility thereof.

Faculty, staff, and students are reminded to insure that their classrooms and offices are in accordance with these standards.

-- Campus Police Chief, Safety Officer

Faculty, Staff, and Student News

Mario Mazzarella and Teddy Bostick served as judges in the regional competition of National History Day on April 16, 1988, at Old Dominion University.

* * * * *

Dr. Sandra Bryan of the Education Department presented a paper "Aesthetic Education for the Future" at the 1988 Meeting of the Virginia Humanities Conference, Petersburg, VA, April 16, 1988.

* * * * *

Jim Hines and Clyde Brockett attended the annual meeting of the Sonneck Society at Shaker-town, Kentucky hosted by Centre College. The Sonneck Society is a musicological society devoted to all aspects of the study of American music and music in America. The 1991 annual meeting will be held in Hampton with CNC as the host institution. Jim has been named Chairman of the Local Arrangements Committee.
