Dr. Melton resigns to accept new Mariners Museum post

Dr. Nancy J. Melton

by Patti Leach

Dr. Nancy J. Melton, assistant to the president, has resigned to accept the new position of associate director of the Mariners Museum, effective January 1.

At its November 8 meeting, the Board of Visitors voted to accept her resignation "with deep regrets."

According to Mr. George Passage, President of the Mariners Museum, the new post carries with it responsibilities for community affairs, education, and development. It is a senior managerial position, and Director William D. Wilkinson expects Dr. Melton to be "in charge of the special programs division which opens collections of the Museum to the community as an educational resource. Her department will also coordinate all public relations activities and will be the Museum's

principal representative to potential supporters and granting agencies."

Concerning the appointment, Mr. Passage commented, "The Museum is most enthusiastic about Dr. Melton joining the staff. It is a position which is professionally challenging and rewarding and we think that a person of her background and proven capabilities will make a significant contribution to the progress of the Museum."

Dr. Melton has been an active participant in civic affairs since she came to the Peninsula five years ago. She has served in the capacity of consultant to state agencies, universities, public school districts and private industry. A former Hallmark artist, she also has many publications to her credit.

In her position as assistant to the president, she has served as liaison with the rector and board of visitors.

Dr. Melton established the Office of Community Relations in Mesa, Ariz., for which she was presented the Arizona Education Award for the most outstanding program in the state. She was selected by the Ford Foundation and the American Association of School Administrators as one of the 75 women in the nation who possess the qualities and qualifications for top-level positions in administration.

Locally, Dr. Melton has served on various boards, including those of the Newport News Public Library, the Peninsula Association of Mental Health, the Girls Club, Hidenwood Presbyterian Church, the Norfolk Presbytery, and the planning and research division of the United Way.

Jean-Phillipe Collard, noted French pianist, to perform

The distinguished young French pianist Jean-Phillipe Collard will perform on Saturday, November 17, at 8:00 p.m. in the Campus Center Theatre. His performance is the second of four recitals offered the community by the college through its Nancy A. Ramseur Artists-in-Concert, the sixth series.

Collard, 31, started to play the piano at the age of five. After graduating from the Paris Conservatory of Music with a First Prize (by unanimous vote) when he was 16, he studied in the class of Pierre Sancan. He has won the Gabriel Faure Award, the Albert Roussel Award, the Cziffra International Competition, and the title of laureate in the Marguerite Long-Jacques Thibaud Competition. In 1973, he made his Paris recital debut at the Theatre des Champs-Elysees and evoked enthusiastic responses from the critics. *Le Figaro* wrote, "He had all the right qualities which make him a musician of the highest order: his technique, his sensibility are like the flower of virtuosity."

The same year Seiji Ozawa invited him to perform Ravel's *Concerto in G Major* with the San Francisco Symphony Or-

chestra. The San Francisco *Examiner* said of this American debut performance, "Collard is, quite simply, one of the most exciting young pianists to come along."

Since that time he has made 23 recordings, two of which have been selected as Record of the Year by *Stereo Review* and several of which have been chosen Record of the Month by the same publication.

Alternative "A" chosen for science building addition

by Patti Leach

The Board of Visitors of Christopher Newport College welcomed Dr. John Anderson to his first meeting of the year as they met to make decisions pertaining to the College's future, Thursday, November 8.

The Board announced that Dr. Anderson will speak at the January 1980 graduation ceremony and that Senator John Warner has been invited, but has not yet accepted, to speak at the May 1980 commencement. Pulitzer Prize-winning author William Styron was invited previously and plans pointed to his receiving an honorary degree, but Styron declined saying he was not accepting any speaking commitments in this area.

During the Committee on Academic Affairs session, Dr. Jean Pugh gave a report on the use of funds for furthering faculty careers and the subject of a uniform Faculty evaluation was approached. Dr. Robert Edwards was entrusted with forming an ad-hoc committee composed of four faculty members and two students to produce and present a report at the May 1980 Board meeting concerning the development of a questionnaire, by which students may evaluate professors, including questions focusing in the areas of student input, individual departments, and general information.

Faculty of CNC have been judged by the faculty-evaluation forms that are currently in use, but the Student Association and other student groups feel that this current evaluation form is not adequate. Several previous efforts by these student groups have been vetoed by the faculty's unwillingness to change the existing evaluation forms to the more specific model for two years in a row. It was stated that the problem area was the nature of the form.

The Committee on Financial Affairs carried on a resolution to employ two additional full-time security guards for the campus. Under CETA, it is possible for the school to employ two assistant officers for an 18-month period at no direct cost to the college. These two officers will not replace any current employees and will have no police authority.

The Financial Affairs Committee also reported that CNC expenditures are 3% ahead of normal monthly expenditures and a series of special meetings will be held to analyze how these excessive expenditures can be controlled.

The consensus of the committee was that in order for CNC to match the 30-70 ratio the State sets for funds, it will have to increase tuition. This increase, along with the revenue bond issue for financing the Campus Center, could possibly become effective in September 1980.

The Student Affairs Committee expressed their views by stating that the students were 100 percent behind the campus security issue and the relocation of the proposed science building addition on Gosnold Hall. Also included in the report was the expressed discontent over the naming of the Warwick entrance to the college "Jan-Mar Drive." It was thought that this name made CNC sound like a "beauty salon."

Dr. James Windsor pointed out that the street was built with state funds by the

Panel discusses need for free press

by Cheryl Seymore

Friday, November 9, several local representatives met to participate in a panel discussion entitled, "Is Free Press Important?"

The panel consisted of William Rogers, Managing Editor, *Daily Press*; Dr. Fred Schauer of the Marshall-Wythe Law School; Willard Robinson, Commonwealth Attorney for Newport News, practical applications; and Patti Leach, Editor-in-Chief of the *Captain's Log*.

Mr. Schauer began the discussion citing when and how free press becomes important. "It's an unfree press if people can go to jail." Schauer went on to explain, "The press is claiming an institutional and special right; however, in the past few years, the Supreme Court has not been overly concerned with giving this special protection.

Campus Close-Up

Biology Club holds seminar

"The Role of Biology on the Evolution and Composition of the Atmosphere" will be the topic of a seminar sponsored by the Biology Club on Nov. 26 at 12:00 noon in G-145.

Dr. Joel S. Levine, NASA, Langley Research Center Senior Research Scientist, will be the guest speaker. Anyone interested is welcome to attend.

History Club to discuss GRE's

The History Club will sponsor a GRE/LSAT's Seminar in Room 145, Newport Hall, Wednesday, November 28, from 12-1 p.m. Guest speakers are Mrs. Mary Louise Babcock from the College of William and Mary and Dr. Robert Saunders from CNC's History Department. Learn what to expect on the tests and their impact on admissions to graduate school. All students are cordially invited to attend this informative session.

Pi Kappa Sigma gives welcome

Pi Kappa Sigma Sorority welcomes as new members the following girls: D.J. Dirska, Marie Fanelli, Dana Forrest, June Friedman, Michelle Julian, Rosalie Khabir, Sheila McCarthy, Kathy Palmer, Laura Ross and Mary Ann Taylor.

Pledging culminated last weekend with Hell Night on Saturday and a presentation of scavenger lists on Sunday. A candlelight ceremony will be held on Sunday, Nov. 18.

The sorority extends their congratulations and best wishes to each of the new members.

Alpha Chi holds inductions

Alpha Chi Honor Society would like to announce that inductions into the society for the fall semester will be held on No-

vember 18 at 2:00 p.m. in CC-233. Membership is based on scholarship, and to be eligible, one must have attained junior classification, have completed 30 hours at CNC, and have maintained at least a 3.5 overall grade point average, including transfer credits. We rely on the computer to inform us of persons meeting the criteria, but as it has already overlooked at least one eligible person, we ask that if you are interested and meet the above requirements, please contact Dr. Hammer in the Chemistry Department as soon as possible.

Philosophy Club meets

There will be a Philosophy Club meeting on November 19 at 12 noon in the Board Room in the Campus Center.

Continuing Ed. offers speedreading

The Office of Continuing Studies offers Executive Method Speedreading class every Wednesday night, 7 to 10 p.m., in the Campus Center, Room 233. This semester there is a new class every week taught by Vesta Lord. Pre-enrollment is not necessary, but would be appreciated.

Tuition is reduced for full-time faculty, staff and their spouses. That fee for this class is \$25; for other persons it is \$35. We offer the reduced fees for faculty and staff to encourage participation in the growing number of courses that the Office of Continuing Studies is presenting. For more information, call 599-7153/7158/7045.

There will be no class on November 21 and 28.

Oscar McCollough will perform Friday

Oscar McCollough, baritone recitalist in the art-song, chamber operas, and concertos, will perform in the Campus Center Theatre on Friday, November 16, at 8:15 p.m.

McCollough's performance at CNC is part of the college's monthly concert series. Tickets are \$2.00 for students, faculty, staff, and alumni; \$3.00 general admission.

Pianist to appear

(Continued from p. 1)

When Collard made his American recital debut at the Newport Festival in July 1977, the *Boston Globe* reported, "The more crucial aspects of his art are his unfailingly beautiful tone and considerable range of tonal nuance. . . . Jean-Phillipe Collard . . . is a pianist of marked lyric gifts, and not like anyone else."

In 1978, he made his first American coast-to-coast tour and returned in early 1979 to play 24 concerts. His appearance at Christopher Newport College is a part of his third American tour.

Tickets are \$5.00 per performance; \$10.00 for the season. For additional information, please call CNC's Office of Continuing Studies and Community Services at 599-7045.

Dean's Colloquia presents Dr. Wise

Dr. Spencer Wise, Professor of Biology at Christopher Newport College, has been selected to present the second program in the 1979-80 Dean William Parks Memorial Colloquia Series. Dr. Wise will present the results of his research dealing with the phenomenon of the spread of red cedar (*Juniperus virginiana*) tree species on abandoned fields and disturbed open areas in the piedmont and coastal plains areas of Virginia. In his study, Professor Wise will delineate the extent of the current spread of red cedar, uncovering some historical data concerning past changes in distribution of this species, and developing some possible explanations for its spread.

Dr. Wise's talk will be held on Thursday, November 29, at 12:15 in the Campus Center Theatre and will feature color slides illustrating his research. After a luncheon in his honor sponsored by the Dean's Colloquia Committee, Dr. Wise will hold an open seminar at 2:00 in the Board Room at which he will answer questions regarding his research and its impact on environmental studies.

All members of the faculty and student body—as well as the general public—are cordially invited to Dr. Wise's slide talk and to the open seminar.

Changes in policies for grading, minimum standards take effect

During the past year a number of new policies were passed by the Faculty. One was a new grading policy that took effect during Summer Session 1979. The major changes were to eliminate WP, WF, DR & NG grades and consolidate them into either W or F. A "W" is awarded when the student drops a course within the prescribed time (9 weeks during regular semesters or 60% in short sessions) or if passing at any time through the last day of the course involved. Also, the incomplete "I" grade is not computed in the average until the due date to be made up—the end of the next regular semester. At that point in time the "I" will convert to "F" and the cumulative average will be re-calculated.

At its May meeting the Faculty passed a new policy for *Minimum Standards for Continuance*. It replaces the current policy found on page 33 of the 1980-81 catalog and takes effect as of this Fall 1979 semester. The NEW policy is as follows:

Number of Credit Hours Attempted	Minimum Good Academic Standing	Eligible for Probation	Eligible for Suspension
15-29	1.50	1.00-1.49	.99 or less
30-44	1.70	1.30-1.69	1.29 or less
45-59	1.80	1.50-1.79	1.49 or less
60-74	1.90	1.75-1.89	1.74 or less
75-89	1.98	1.90-1.98	1.89 or less
90 and above	2.00	1.96-1.99	1.95 or less

Students who have received either Warning or Probation letters are advised to check this policy as it may have an immediate effect on their status at Christopher Newport College. All questions with regard to the above may be directed to Mr. John McCaughey, Registrar, at 599-7155.

Career Planning & Placement

Vanderbilt University's Owen Graduate School of Management is pleased to announce the continuation of its M.B.A. Scholarship Program. The M.B.A. Scholarship Program is designed to recognize outstanding academic achievement and potential. M.B.A. Scholarships are awarded solely on the basis of academic merit. Students and parents are not required to submit individual or family financial information for consideration. The Scholarship Program consists of a total of 30 two-year renewable awards for incoming first-year students. Scholarships range from full to half tuition. Recipients of M.B.A. Scholarships must maintain a cumulative grade point average of at least 2.0/3.0 (B) or better for renewal in the second year. Applications are encouraged from qualified students, regardless of undergraduate major. For further information, contact the Office of Career Planning and Placement.

The Wallenstein Scholarship is administered by the Virginia Municipal League and the Institute of Government, University of Virginia. Applicants must be: (1) An employee or official of a Virginia municipality who would like to spend a year at the University of Virginia engaged in research and study with the Institute of Government or (2) a person, preferably an employee or official of a Virginia municipality, seeking to undertake graduate work at the University of Virginia in a field related to municipal government. It is hoped, but not required, that the recipient intends to enter or re-enter Virginia municipal government service upon completion of the graduate work. Deadline for applications is February 1, 1980.

The Office of Career Planning and

Placement has received the bulletin from the U.S. Office of Personnel Management for summer jobs with the federal government. For those persons required to take a written test, applications received by December 14, 1979, will be tested during January, 1980, and applications received after December 14 and postmarked no later than January 11, 1980, will be tested February, 1980. No applications will be accepted after January 11, 1980. Interested students may pick up a bulletin from the Placement Office.

A citizen involvement seminar entitled "Who Cares?" will be held at Norfolk State University on December 1. The seminar is being sponsored by Norfolk, Virginia Beach, Eastern Chesapeake and Suffolk, Virginia Central Labor Council, AFL-CIO and the Tidewater Association for Court Volunteerism.

The seminar is designed to make citizens more aware of the Juvenile Justice System and how they can become involved. There will be six workshops during the seminar. Congressman Joe Leafe will be one of the featured speakers for the seminar. For further information, contact the Office of Career Planning and Placement.

The Recruiting Schedule is as follows: 11/16--Carter & Co., Ltd., CPA's, interviewing accounting majors; 11/19--Coopers & Lybrand, CPA's, interviewing accounting majors; 11/28--Va. Dept. of State Police, interviewing all majors for law enforcement.

11/30--Computer Sciences Corp., interviewing math and computer science majors for programmers; 12/4--VCU Dept. of Urban Planning, interviewing all majors for graduate studies.

entertainment

Sound Solution

by Rick Dunn

Fear of Music, the third Talking Heads album, is the next logical step in the maturity of this group's music. With Brian Eno producing again, the band has extended and refined the sound that made *More Songs About Buildings and Food* such a hit.

"Take Me to the River," a remake of an Al Green tune, was the song that put Talking Heads into the national spotlight. Its simplistic rhythm was even danceable. This was something of a first for a New Wave group.

Fear of Music seems to be an album based entirely on rhythms. The band experiments, creating songs with meters that are certainly too awkward to reproduce on stage ("Animals").

Side one opens up with "I Zimbra." Listening to the first ten seconds of this song, you'd swear this was a disco album. David Byrne's chant-like vocals are the giveaway. The cut is built around a thick percussion track, fleshed out with simple guitar runs.

Musically, *Fear of Music* has a cold, mechanical feel to it. Byrne's chirping vocals

are in direct contrast to the calculated technical perfection of the songs.

"Life During Wartime" is the track that has been getting the most FM airplay from this album. Once again, the band fuses disco with eccentric rock to create an interesting number.

The album closes with two of the strangest songs you'll ever hear anywhere—"Electric Guitar" and "Drugs." "Electric Guitar" is reminiscent of the concept behind Rush's *2112* album. "Drugs" appears to be an experiment in sound effects. Eno's tapes weave a fascinating aural framework without sounding gimmicky.

Fear of Music even boasts a unique album cover to go with its unique music. It looks and feels like a square cut from a manhole cover, with the raised pattern pressed right into the cardboard.

Probably the best thing about Talking Heads is the fact that they're not a platinum supergroup and probably never will

(Continued on p. 8)

cinema scope

by Elena Watson

Apocalypse Now is Francis Ford Coppola's long-awaited epic about the war in Vietnam. It is based on Joseph Conrad's *Heart of Darkness*.

The story is about the journey of one man, Captain Willard (Martin Sheen), being sent on a mission up river to Cambodia to find and "terminate" the command of a Colonel Kurtz (Marlon Brando), an Army officer who has set up his own kingdom with Montagnard tribesmen and American deserters.

All the way up river, Willard reads about Kurtz. He admires his military record, and even sees himself in Kurtz. He wonders about the man: could he really be mad?

On his journey he joins up with a unit led by Colonel Kilgore (Robert Duvall), who gets pleasure out of leading his air cavalry to attack the enemy while blaring Wagner's "Ride of the Valkyries" from their helicopters. When Willard learns

the reason Kilgore took a Viet Cong village on a certain shore was to see one of the men surf, he begins to wonder what constitutes a madness in this place.

Willard continues up river in a Navy patrol boat manned by four young men. Along the way they see more and more evidence of the hypocrisy and confusion of the war.

After the death of two of the sailors, they reach the jungle kingdom of Kurtz.

The film is visually stunning, even overwhelming. At times beauty and destruction seem to merge. But there is a powerful, uneasy feeling that is often emphasized by the soundtrack.

Unfortunately, there are also moments of pretentiousness, such as the voiced-over narration of Willard, which manages to irritate at times, and the constant overlapping of images, which soon loses its effectiveness.

In general, all the performances are

Geography of Virginia class trips over hills and dales

by Elizabeth Larman

It was a day to remember when students of Professor Wolf Prow's Geography of Virginia class went on their annual field trip. We had been informed that the major event of this course would involve a trip to help us relate classroom theory to the reality of Virginia; to see firsthand how geography and geology helped shape this state.

We began our expedition traveling north on Hwy. 17, viewing the typical scenery of Virginia's coastal plains. The favorable climate and topography of the coastal region stimulated urbanization and industrialization. This trend can also be seen along the coast of our neighboring states.

The highlights of the tour included a quick glance at VIMS, Abington Church, Gloucester Court House, and a most memorable tour of Zappata-Haynie's Menhaden Fish Plant. We had been warned of the smell, but the reality nearly knocked us out!

The tour was well worth it, however. We learned that this "waste fish," as most fishermen refer to it, has a high commercial value. The products derived from the fish are used in cosmetics, plastics, margarine, paints, and as a high protein meal for feeding livestock.

As we drove west, we could see evidence of past shorelines or scarps, each progressively at a higher elevation. It is an interesting phenomenon to behold, if you know what you are seeing.

The next stop was "Lake Eutro," Professor Prow's term for the eutrophicated lake located near Port Royal. We hacked our way through thorny underbrush down to the organic mud that used to be a lake bottom. Several decades ago, the lake was used as a recreational area for army personnel, but has since lost its water due to over-feeding of plant life.

Continuing westward, the scenery changed to rolling hills, poor farms, and small towns. The change is directly associated with the physiography of the area, commonly referred to as the Piedmont region. The soil is thin and stained red with iron deposits washed down from the mountains, and a combination of factors limit the ground water resources. As a result the population is sparse and industrial endeavors are limited to mining, chemical manufacturing or forestry.

By early evening we entered the mountains. The farms appeared prosperous and mining industries flourished.

As we drove through the mountains, we saw remnants of the recent snow and took advantage of the opportunity by having a terrific snowball fight. The air was clean and crisp, the exercise rejuvenated our bodies, and we reluctantly continued on to Harrisonburg for the night.

Early the next morning, after a breakfast stop at the "Golden Arches," we met with Dr. Campbell, professor of Geology at James Madison University and our guide for the day. We were very impressed with JMU's Earth Science Department. It was obvious that the discipline of geology is the equal of other sciences at JMU.

After a brief lecture on the cultural background of Rockingham County from Dr. Stewart, professor of German, we were off to explore the geological wonders of the area.

Harrisonburg is situated in a syncline between Massanutten Mountain and the Alleghenies. The terrain is hilly, the soil is thin, underlain by limestone and dolomite, and dotted with outcrops and sinkholes. The major industries of the area include mining, cattle, eggs, and apples.

The study of geology is best understood after a hands on experience, and Dr. Campbell made sure that we had our hands full. We crawled down into limestone caves, and we climbed up Chimney Rock (200 ft.--almost straight up). An interesting story was told about a young man, challenged by the rock formation, who climbed to the top, went out to the edge, and stood on his head! What can I say? We did not try it!

By the end of the day, we were weary in body, muddy and wet, weighed down with souvenirs from our explorations, and the recipients of knowledge unobtainable in the classroom.

JMU's Geology Club invited us to join their annual picnic held at Grand Caverns Park. Their "spirits" and enthusiasm provided the restful atmosphere needed before the long journey home.

Thanks to the efforts of Professor Prow, Dr. Campbell, and Dr. Stewart, the trip was a successful and memorable educational experience. Besides that, we had a lot of fun!

Geography class takes nature break on cross-state trip.

Seminar planned on juvenile justice

by Patricia Earls

Although most CNC students are far removed from the problems and worries of juvenile justice, it still remains a problem. According to a pamphlet distributed by the Norfolk-Virginia Beach-Eastern Chesapeake and Suffolk, Virginia Central Labor Council, AFL-CIO and Tidewater Association for Court Volunteerism, over 16,000 cases in Tidewater were heard in Juvenile Courts. The group advocates citizen involvement in the problems of the young people, providing them with support and citizenship. The organization, in response to this need, is sponsoring a "Citizen Involvement Seminar" on December 1 at Norfolk State University from 8:00 a.m. to 2:30 p.m.

The program will feature a film, *Grab Hold of Today*; lectures by State Senator Stanley Walker and Director of the State Crime Commission Louis Hurst; a coffee and lunch; and special workshops.

The workshops, from which one may choose two to attend, are: The Volunteer Experience--What Will Be Expected of Me?; Juvenile Law: Do You Know What Can Happen to a Juvenile in Court?--What Their Rights Are?; Counselling--What Do I Do in a Crisis Situation?; Basic Skills in Working with Adolescents--How Do I Relate to a Child Who Won't Talk? How Do I Communicate with an Adolescent?; Dilemmas in Values & How Can I Relate to a Youth Whose Lifestyle and Values Are Different from Mine? What Are My Own Values?; Training for Board Members and/or Advisory Council--How to Have More Effective Meetings.

Pamphlets can be obtained at the information desk in the Campus Center.

New librarian joins Readers' Services

Jennilou S. Fernsler has joined the Captain John Smith Library staff as Readers' Services Librarian. Her responsibilities include coordinating and supervising circulation, interlibrary loan, and reserve books. She will also assist in providing reference services.

Ms. Fernsler received an A.B. in education from Indiana University and an M.A.L.S. in library science from the University of Iowa. She began her professional library career as a school librarian in 1972. From 1974 to 1978, she served as circulation assistant, acquisitions assistant, and then as interlibrary loan librarian at the University of Montana. After her husband Keith accepted a position in the CNC Sociology Department, Ms. Fernsler joined the staff at the Hampton Public Library, where she was technical services librarian. She assumed her duties at the Smith Library on November 1.

Soccer:

Requiem for CNC Booters

by David Bean

This obituary is in remembrance of the CNC booters, whose season came to an end on November 4. In reviewing their short life span, which ran from August to November, the team appears to have been given the edge of the short end of the stick where it hurts the most: in the victory column. Compared to previous seasons, this year's ledger reads very much like the one from 1974, when soccer made its first appearance at CNC. The record was 2-10-2 for the fledgling Captains coached by William Sneddon, who was the coach for three more years here.

The record has been at about .500 for the last four years, with 1977 being the Captains' best year. That was the year that they posted the best wins-loss record (10-6-1), won the VISA-East and the District II title. Every CNC record that was set in soccer was set in 1977. This was also Robert Cummings' first season as their mentor, so one can draw his/her own conclusions. In 1978, the Captains held a somewhat respectable 7-9-1. However, a lot of players graduated, and some people wondered what would happen the following year.

At the beginning of this season, the Captains were strapped for both leadership and experience. This situation was not helped by the fact that there was only one senior, Richard Clemence, and everyone else was either a freshman or sophomore. This is literally rebuilding from the ground up, and it did not get off to a flying start.

The long, dark voyage began with the third annual CNC Alumni Soccer Festival. The Captains were 0-2 following this and the slide had begun. A 1-1 tie against Hampden-Sydney followed, and then they went to Salisbury, Md., to participate in the Salisbury Soccer Invitational. Following their trip to Averett College, CNC's record was 0-5-1-, but they came back home to tie the University of Richmond,

and then went off to tie UNC-Greensboro, 4-4.

It has been said that the darkest hour is just before the dawn, and a match versus Methodist College proved this to be true. Not only did they lose 6-0; they also lost Clemence for the rest of the season with a knee injury. This would become the true test of the team: to competitively perform against the opposition without their best player and all-around team leader. The Captains were behind the eight-ball, and they played the next match with vengeance. The result was a 3-1 victory and win number 1 for the season. The long drought had finally ended, and the water in the well was tasting sweet, whereas before, defeat's bitter taste had been prevalent.

The Captains' next victory against Greensboro was a resounding 5-0 and shell-shocking. It was at this point that the losses had made them a better team, because in many of the losses and ties, CNC could not find the range on the opposing goalkeeper. A few days later, the joy was gone when Virginia Wesleyan put an end to CNC's two-game winning streak with a 3-1 victory. VWC completely outplayed the Captains that day, but the loss did not seem to affect them as much as the next game's 1-1 tie with N.C. Wesleyan. Against N.C. Wesleyan, the Captains had several fine chances to take the lead, but failed. At this point in the season, all one could do was hope that the season would end--and end soon.

The end arrived and the season was over. A 2-9-4 record was posted and the team, like the season itself, had faded away, waiting for next year to resurrect themselves. The team was not horrendous this year, but the lack of experience--and just plain bad luck in several games--proved to be the deciding factor against them. If the guys don't go anywhere and come back next year, the situation will hopefully change for the better.

Sports Shorts:

Notes from the poop deck

All-Sports Notes on Campus--Freshman Leroy Hansen finished fourth in last week's Dixie Conference cross country meet at Fayetteville, N.C., and made the All-Dixie team as a result. The first seven finishers were so honored.

The Captains wound up second in the competition with Ken Roberts finishing second for the charges of Coach Doug Dickinson and ninth overall . . .

The CNC annual Blue-White game was set for Wednesday, Nov. 14, in the Poquoson Gym. The Captains of Coach Bev Vaughan will be without standout freshman guard Rod Terry, who fractured a bone in his foot. Terry, of Kecoughtan High in Hampton, should be back before Christmas. . . .

Tickets to the game will entitle the purchaser (\$1.50 for adults) to admissions to the season-opener Nov. 24 against visiting Hampden-Sydney. The Poquoson Pep

Band will perform at both contests. . . .

The women's basketball team of Coach Phil Lee opens its season this Saturday at Longwood College. The nine-man squad will grow to 10 next semester when former letter-winner GiGi Johnson, who had transferred to Old Dominion University, returns. . . .

Season tickets for men's games are now on sale in the business office of the Administration Building. . . . There is no admission charge to the women's games.

Press panel meets

(Continued from p.1)

Mr. Robinson, speaking as a Commonwealth Attorney, elaborated on behalf of the public rather than the press. "If we bar reporters from a courtroom--and we have in many instances--it's because we have the duty and right to protect individuals [and help them] keep their reputation and integrity. Many issues are raised during a court case which should just not be published."

Mr. Rogers, from the *Daily Press*, defended free press.

"Freedom to publish," remarked Rogers, "is empty when the gathering of information is blocked off. A reporter can be jailed for withholding a source's name, which now limits the reporter's availability when obtaining information."

Patti Leach shared her problems and policies regarding the *Captain's Log*. She explained, "I think a college paper should reflect the type of school it is serving. I know, basically, who my readers are and what articles to publish with regard to what will interest and concern them the most."

The discussion was sponsored by the CNC Philosophy Club and the CNC Chapter of the American Association of University Professors.

RASPBERRIES

Classified ads are free to all CNC students, Faculty and Staff. Ads run for four (4) consecutive weeks, unless we are advised otherwise.

Will Buy unwanted class rings and other gold items, by weight at top cash. Call 838-1813 anytime.

For Sale--1973 Chevrolet Vega station wagon, 2500 miles on rebuilt engine; uses no oil; has Mallory ignition, leaders, Thurst muffler, new B.F. Goodrich radial TA tires, traction bars, 4-speed transmission, AM/FM radio; looks nice; economical; \$1200 or best offer; call 380-0668

For Rent--4-room apt.; available Dec. 1; ideal for music, biology or planning major; \$100.00+; hourly bus to CNC; downtown--try it! Call 596-0364.

Typing--will type term papers in my home; corrections and footnotes extra; price negotiable; call 877-6909.

Christmas Money
Part Time Work
\$2.90 per hour
+ bonus
Call 595-3796

Ski Equipment--Nordica Boots, 10 1/2; Rossignol Skis, 175 cm.; Solomon 502 bindings; Scott poles; will sell as a set or separately; best offer; call 877-4498, ask for Rick.

For Rent--3 furnished bedrooms for CNC students; available Jan. 1980; full house privileges; hourly bus to CNC; double, \$80.00 per person; single, \$120.00; downtown--try it; call 596-0364 for free two-color brochure.

Parrot for Sale--Petz' Conure (half moon); female with large 30" cage; personable, healthy, and humorous; moving; so must sell cheap; \$125; cage alone retails for \$89; call 722-6857.

For Sale--15 cu. ft. refrigerator/freezer; in good running condition; still connected; \$50; 599-6540.

Services--Let us type your term paper, reports, etc., also market your manuscripts; Ex Libris Literary Agency & Typing Service, 827-8491.

For Sale--bedroom set, triple dresser and bed; reasonable; make offer; 595-3188 after 6:00.

CNC artists, photographers, etc., who are looking for a place to display their work should contact the Counseling Center (W-116); selected works will be displayed in the Counseling Center for one semester to be followed by a new selection for second semester; any medium and any subject will be considered; if interested contact Mrs. Bryant, Judy St. Pierre, Carol Siemon, Katie Lewis, or Glen Vought at 599-7046.

Female desires same to share mobile home in Denbigh area; very reasonable; call Mon.-Fri. after 5; weekends anytime; 877-9629.

Wanted--responsible, reliable and conscientious individual needed to transport 2nd grader from Riverside Elem. to Yates Elem. daily. Call 599-7022 or 595-1433 after 5 p.m.

For Sale--'71 Ford LTD, 4 door sedan. Great running condition and perfect for transportation to and from CNC. \$200.00. Call 851-5304.

Typing--fast, reliable service; term papers, reports, letters, resumes; please call Sue at 851-0985 (Hampton).

Ski Killington, Vt.--for only \$179.50; Dec. 16-22 or Dec. 31-Jan. 7; 5 mountains, 65 trails, includes transportation, lodging, lift tickets and entertainment; For more info., call Drew (804) 489-0393.

For Sale--MG Midget Parts; radiator, \$25; bumper, \$5; and other parts at reasonable prices; call 599-0970.

For Sale--Javelin, AMX Parts; '69 door, \$20; '69 rear end, \$20; other '70 parts available; call 599-0970.

ATTENTION STUDENTS

Students seeking part-time and full-time jobs should make an appointment in the Office of Career Planning and Placement.

PART-TIME JOBS

Sales Clerk, Warehouseman, Construction Helper, Arts & Craft Instructor, Canvassers, Tax Preparer, Cafeteria Monitor, Santa Claus's Helper, Accountant, Receptionist, Bus Driver, Tutor (4th gr. Math & English), Wordwork, Babysitter, Waitress, Teller, Telephone Solicitation, Senior Clerk, Delivery Clerk, Santa Claus, Security, Ceramics Instructor.

FULL-TIME JOBS

Sales Representative, Security Officer, Bellman, General Assignment Reporter & Photographer, Clerk Typist, French/Spanish Teacher, Housemanager.

Casework Supervisor I--graduation from a recognized 4-yr. college or university supplemented by a Masters degree from a recognized school of social work; plus two (2) years' case-work experience in a public welfare agency in adult services.

Programmer Analyst--graduation from a standard high school or equivalent supplemented by training in a recognized standard course of computer systems programming; at least two (2) years' experience in programming complex applications using BAL or COBOL, one year of which must be as a Programmer Analyst or equivalent; graduation from an accredited four-year college with a computer related degree may be substituted for part of experience.

Accountant I--individual should have good knowledge of the modern principles, theories, techniques and methodology of accounting; ability to learn the structure, policies and operating details of municipal accounting system; must be able to compile, verify and analyze financial records and reports and follow written instructions and procedures; some experience in the accounting field and graduation from an accredited college or university with major work in accounting required.

Zoning Compliance Officer--success in position depends on ability to meet and communicate directly with the public in an impartial manner; must be mature, able to keep concise records, express facts clearly in written reports; previous administrative or related experience required; high school graduate or equivalent. **Auditor**--strong background in accounting, two years' accounting experience, requires 70% travel. **Asst. Nursery Manager**--prefer someone with 2-3 years' experience in retailing; knowledge or interest in plants.

editopial

Pardon me-- my slip is showing!!

As one could tell by the editorial on November 8, the Editor has been under a lot of stress lately. However, we are sure we made our point, and we will have corrected copies of the November 8 Editorial available upon request for those who are saving them.

Mrs. Sue Gray Al-Salam visited our office the other day to correct our report last week of her bicycle accident.

Our information, supplied by a member of the Physics Department, noted that Mrs. Al-Salam was the victim of a freak accident caused by a broken strap on her backpack. However, police reports indicate that she was the victim of a hit-and-run driver.

We thank Mrs. Al-Salam for correcting our slip and wish her a speedy recovery.

Things you should know . . .

CNC's new address

Effective January 1, 1980, the contract with the Hidenwood Post Office for P.O. Box 6070 will expire. It is requested that all stationery still in use reflecting this return address be used before this date. The new address for Christopher Newport should read: 50 Shoe Lane, Newport News, VA 23606.

Club mail piled up

Many clubs do not seem to know that they are supposed to pick up mail in the Vice President of Student Affairs' Office in the Campus Center. Both inter-school mail and mail from outside are deposited there for pick-up. Some clubs have not picked up their mail all semester, and it's piling up. If you belong to a club on campus, please check to see if you have any mail.

Each club should also send a representative to the next Inter-Club Council meeting on Wednesday, November 28, at noon in CC-205. The Inter-Club Council will facilitate communications between clubs and among students on campus. It will help clubs promote their activities, enable them to co-sponsor activities, and prevent conflicts in scheduling.

The Inter-Club Council is also planning a student welcoming party for Dr. Anderson, our new president, who will take office January 1. The party is being planned for early February, and it would be nice to

have as many clubs as possible participating.

Error in Catalog

The 1979-1980 *Catalog* contains an incorrect entry for the Humanities Distribution Requirement. Wherever this requirement appears, it should read as follows:

Humanities--six credits
The student may choose any one of the following sequences:
English 201, 202
English 205, 206
English 207, 208
Fine Arts 201, 202
Music 201, 202
Philosophy 201, 202
Theatre 210, 211
or any six-hour combination of:
Classical Civilization 201
French 251, 252
German 251, 252
Modern Languages 205, 206
Spanish 251, 252

There is, therefore, *no change* in the Humanities Distribution Requirement from the 1977-79 *Catalog*.

Attention clubs!!

If you would like your club or organization to be recognized in the new Student Handbook, please submit your club description in news-article form, typewritten, to Operation Self-Help by November 23, 1979. Check your mailbox.

Letters to the Editor

Dear Editor:

I must respond to the letter written by Jennifer Johnson in the last issue of the *Captain's Log*. I fear she has left many people with the impression that Planned Parenthood operates as an abortion clinic. This is far from the truth. PPH does not perform abortions nor does it advocate abortion as a method of birth control. It does conduct pregnancy testing for those who request it and offers counseling for problem pregnancies. In these counseling sessions, every possible alternative (of which abortion is one) is explained, but the final decision is made solely by the pregnant woman. The counselor will then make referrals to appropriate resources as necessary for pre-natal care, adoption or abortion. If a woman chooses abortion, she will no doubt be referred to the local county or city health department, where she will again be counseled regarding her choice. PPH Clinics offer sex education, birth control counseling, testing for venereal disease, testing for anemia as well as sickle-cell anemia, and provide qualified doctors for complete gynecological exams. All of these services are offered on a sliding fee schedule and in complete confidence. When one considers how sexually active our young people are today, these services are desperately needed in the community.

I would not question Jennifer's right to believe abortion is wrong. Indeed, the issue evokes very strong feelings for and against and in the end must be a personal decision. However, to link PPH with the "destruction of innocents" is totally unfair and does not take into consideration the basic premise of PPH--which is the prevention of unwanted pregnancies. I ask Jennifer to consider this: As more women seek the birth control education offered by PPH, perhaps the need for abortion, due to unwanted pregnancy, will disappear.

Sherry Coleman

Dear Editor:

Mrs. Jennifer Johnson's answer to my recent letter deserves a response of its own. In her letter she states that abortion policies of Planned Parenthood are considered by many people to be wrong. She also says that she doubts that many people would protest responsible parenthood planning. She is both right and wrong. Planned Parenthood's position on terminating pregnancies is pro-choice. We believe that only the individuals involved can decide what is best for them. Considering reproductive matters no one should have the right to tell a woman what she can or cannot do. This is, of course, a highly controversial subject. Medical doctors, philosophers and theologians are split on this issue. There is no consensus in this country on this issue. That is why any law preventing or reducing the availability of abortions is doomed to failure. The Eighteenth Amendment of the Constitution which outlawed sale of alcoholic

beverages is a perfect example. While conservative elements of the population favored prohibition, the majority of the people did not and bootlegging flourished. Anti-choice laws have produced similar effects; women still sought abortions but they were done in often unsafe conditions which at times caused the death of the women.

Planned Parenthood believes in facing realities. While we are doing everything we can to prevent the need for abortion we also know that many women with unplanned pregnancies will find a way to terminate them. Peninsula Planned Parenthood does not offer abortion services but, after a medical examination and counseling on alternatives (including adoption) we will provide a listing of local abortion services to women requesting that information.

Mrs. Johnson, however, is incorrect when she says that most people would not protest responsible parenthood planning. In fact, many of the anti-choice groups have *no* interest in doing anything to prevent the need for abortions. This was graphically demonstrated last February at a widely publicized "summit meeting" between national pro and anti-choice officials in Washington, D.C. The purpose of the meeting was to seek ways to lessen the need for abortion, to reduce the incidence of unwanted pregnancy, and to end the polarization and violence that surround the abortion issue. The two largest "Right-to-Life" groups refused to participate. In addition several of the anti-choice representatives attending did not agree to the need for universal birth control. The anti-choice groups are a determined and politically vocal minority that appear obsessed with the idea of denying our citizens the freedom to decide when or whether to have children. As the National President of Planned Parenthood has stated, "Their goal is not just to make abortion illegal, but to drastically diminish individual human rights."

Peninsula Planned Parenthood will continue to oppose such viewpoints and support reproductive freedom for *all* people.

Dr. Ronald S. Mollick
President

Board of Directors
Peninsula Planned Parenthood

Thermostats at 65°

President Windsor has issued the following announcement:

The Department of Energy (DOE) has directed that temperatures will not exceed 65° in academic buildings. Violators are subject to a fine up to \$2,000 per incident.

Maintenance personnel have recently adjusted all thermostats to produce 65° degree temperature in all occupied rooms. Individuals must not tamper with thermostat settings or use electric space heaters and are encouraged to keep doors and windows closed and to dress warmly.

strong, with the exception of Brando, who almost appears to be doing a parody of the Godfather. This contributes to an anticlimatic feeling at the end.

But not even Brando can spoil some of the powerful images to which *Apocalypse Now* exposes us.

Apocalypse Now is rated R and is playing at the Coliseum IV Theatre.

Alternative A wins

(Continued from page 1)

city of Newport News and that the college is responsible for maintenance and upkeep. The Building and Grounds Committee will be working on a proposed policy and procedure for the naming of college buildings, building spaces, areas or streets.

The Building and Grounds Committee has moved to approve alternative "A" for the science building addition, which proposes that the new wing be built on the east side of Gosnold.

In a presentation given by Dr. Paul Kilham at the Committee meeting, it was pointed out that the shift to this alternative would not affect the square footage allowed for classroom space in the addition and would give access to all parts of the building to handicapped students. The Committee felt that Alternative A was more in accord with the way the campus is developing.

SA Vice President Lisa Cipriano submitted student petitions with over 500 names to support alternative A, and Dr. Richard Guthrie, representing the Faculty Advisory Committee, announced that the committee gave total support to alternative A.

Other matters concerning construction on the campus were discussed and the new administrative building was projected to have an August 1980 completion date. The handicapped access projects are estimated to be completed by March 1980 and will be concentrating on lowering light switches and remodeling the restrooms in Wingfield and Newport Halls and Ratcliff Gym.

The Campus Center addition proposal was tabled until a meeting with the architects could be scheduled. The problem cited was the elimination of 63 parking spaces. The Board voted to postpone the acceptance of the Campus Center proposal until the parking problem can be studied and alternatives for additional parking spaces can be presented. It was felt that this motion would not delay the initial building costs on the project or change the proposed construction date.

The Art Commission has approved the design of the art structure to be located in front of the new four-story administration building. The committee also reported that a change in CNC's mission statement must be made before the State Council will consider the dormitory issue.

"Best and Worst Christmas Contest" offers \$500 donation to charitable cause

To coincide with this year's avalanche of Christmas commercialism, ALTERNATIVES is sponsoring the first annual "Best and Worst Christmas Contest." The contest, open to all Americans and Canadians, will be seeking examples of Christmas gifts from past years which best illustrate:

1) *The Worst of Christmas Commercialism*: gifts that were particularly tacky, tasteless, extravagant, expensive, awful, useless, and/or utterly crass, and primarily served only the financial interests of the manufacturers and retailers (examples: automatic, electric "in-the-shell" egg scramblers; \$300 Monopoly games made out of chocolate; patriotic toilet seats; \$99 "X-mas Stockings" filled with x-rated films)

2) *The Best of an "Alternative Christ-*

mas": gifts which demonstrated a more meaningful, human and socially responsible celebration (examples: things which were home-made or recycled; gifts of time, a shared experience or the teaching of a skill or talent; a gift given to someone else in your name)

This year, with the Best and Worst Contest, there's finally a way to share those examples of excessive commercialism that set new standards in bad taste or those special and creative gifts that really did reflect the true Christmas spirit. Entries must describe, in 200-300 words, a gift actually received by the contestant. Each entry should explain why the gift reflected either excessive commercialism or a more meaningful and responsible Christmas. Photos of the actual gift are optional --but non-returnable. The names of peo-

ple submitting "Worst of Christmas" entries will be kept confidential, and the winner of this category will have the option of having his/her name withheld from public announcement.

Entries must be received by December 18 at the following address: Best and Worst Christmas Contest, Alternatives, 4274 Oaklawn Dr., Jackson, MS 39206.

In the spirit of Christmas, ALTERNATIVES will donate \$500.00 to two non-profit, tax-exempt human needs or social change organizations. The winners of the "Best" and "Worst" categories will each be able to designate one of the donation recipients. Winners in each category will be chosen by the staff of ALTERNATIVES and will be announced at a press conference in Washington, D.C. on December 20.

 - for illness
- Applications for individual changes in

the schedule should be made through the Office of the Registrar by December 7, 1979. All applications must be approved by the instructor.

- Any student who is absent from an examination because of illness or other emergency situation should notify the Office of the Registrar. That office will in

turn notify each instructor of the communication.

- No excuse on the grounds of illness will be accepted unless it is certified in writing by a physician. This excuse should be processed through the Office of the Registrar.
