CNC receives \$250,000 for center

Edwin Joseph, Peninsula businessman and community leader, has established the Edwin Joseph Center for the Study of Local and Regional Government at Christopher Newport College, Dr. Anthony R. Santoro, President, announced today.

Joseph has created a \$250,000 endowment at the College to support the new center.

"We are immensely grateful to Mr. Joseph for his philanthropy and for his good will and support of both CNC and the Hampton Roads community," Dr. Santoro said.

"The establishment of the Joseph Center at Christopher Newport College is significant in two respects," said Dr. Santoro. "CNC has a strong local and regional orientation, so its mission revolves around the Hampton Roads area. Secondly, the area has a unique set of challenges for local and regional government. There is great diversity in governments which are constantly searching for the role of regionalism.

"Mr. Joseph's intent is to provide a

forum for the study, discussion, and solution of problems of local and regional government and thereby provide significant benefit to the government of the area," Dr. Santoro said.

Active in the economic and cultural development of the Peninsula, Joseph helped form the Virginia Peninsula Economic Developmental Council. He was its first Chairman from 1979 to 1985.

He has served as President of the Hampton Industrial Development Authority, Chairman of the Virginia Resources Authority, Commissioner of the Regional Development Authority, and Chairman of Gov. Charles Robb's Job Training Coordinating Council in 1983.

"The Joseph Center will be established within the Department of Political Science and Governmental Administration to foster the study of local and regional government," said Dr. Richard M. Summerville, Vice President for Academic Affairs. "The purpose of the Center will be multi-fold; enriching both the College and Hampton

Roads area by cultivating special expertise at the College in the unique history, problems, and potential of area governments," he said. "It will also serve as a resource for the government agencies to provide a forum for dialogue and to act as a reservoir for academic and civic expertise."

The Joseph Center, located in the College, will conduct theoretical and applied research, and will publish and present the results in journals and forums that will bring credit to the College and the region it serves.

Conducting the affairs of the Center will be a faculty member known as the Joseph Professor. He will write and publish a series of papers, conduct an annual seminar for outstanding students, and present a major colloquium at the College each year to which the political, civic, and academic community will be invited.

Present plans are to select the Joseph Professor, initiating the Joseph Center in the 1989-90 year, Dr. Summerville said.

by Jeff Gleason - staff photographer

Many students attended the Greek Preview which was held September 7 in The Terrace. It provided an opportunity for new students to become familiar with the Greek sororities and fraternities on campus.

Grants available for study abroad

Christopher Newport College Professor, Dr. Sanford Lopater announced the 1989-90 annual competition for grants for graduate study abroad will close Oct. 31, 1988. These grants are offered under the Fulbright Program and by foreign governments, universities, and private donors. Only a few weeks remain in which qualified graduate students may apply for one of the approximately 700 awards to over 70 countries.

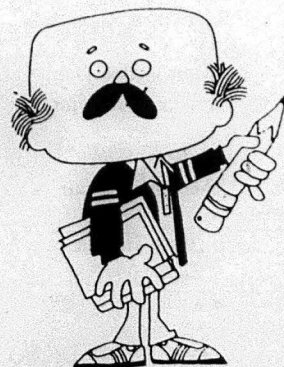

Most of the grants offered provide round-trip transportation, tuition and maintenance for one academic year; a few provide international travel only, or a stipend intended as a partial grant-in-aid.

Applicants must be U.S. citizens at the time of application, and must generally hold a bachelor's degree or its equivalent

before the beginning date of the grant, and in most cases, should be proficient in the language of the host country. Except for certain specific awards, candidates may not hold a Ph.D. at the time of application.

Creative and performing artists are not required to have a bachelor's degree, but must have four years of professional study or equivalent experience. Candidates in medicine must have an M.D. or equivalent (e.g., O.D., D.D.S.) at the time of application.

Application forms and further information for students currently enrolled at CNC can be obtained from the Fulbright Program Adviser, Dr. Sanford Lopater. Dr. Lopater's office is located in Wingfield Hall and his phone number is 599-7108.

Department and Professor of the Week

by Kimberly Rodriguez
staff writer

DEPARTMENT OF THE WEEK:

One of the main attractions at Christopher Newport College is its School of Business and Economics. You've probably seen the dual context campus bumper stickers which clearly state that "CNC means business." This week the School of Business and Economics (SOBE) holds the title of Department of the Week.

Each subdepartment under the school has a corresponding professor as follows (listed is each professor's name and corresponding Administration Building office number, unless otherwise noted):

School of Business and Economics
Mr. Richard L. Hunter 362

Accounting Department
R. Fellowes, Chairman 337
R. Cohen 332
J. Dawson 344
C. Edwards 334
D. Riley 341
W. Schell 339

L. Serio 343
R. Vauter 342

Economics and Finance Dept

S. Park, Chairman 311
M. Booker 304
C. Colonna 304
S. Meyer 308
S. Naka 303
N. Rahim 364
D. Rowell 369
J. Rountree 367

Management and Marketing Dept

W. Pendergrass, Chairman 360
J. Anderson 354
E. Boyd 356
S. Casey 347
R. Coker 355
J. Dumville 348
D. Fontaine 351

C. Hurst 345
G. Keesling 349
S. Kinzy NS227
L. Mills 358

Bureau of Business and
Economic Research 306

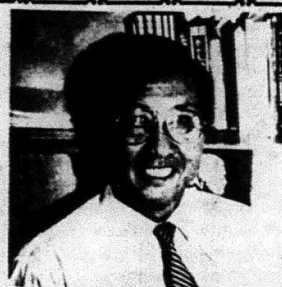

According to the records of the Registrar, the Management and Marketing Department had the largest enrollment of 1,122 students.

For further information or interest concerning the SOBE, please contact any one of the above advisors or the Dean, R. Hunter, of the School.

SOBE

Dean 599-7184
Accounting and Finance 599-7068
Economics and Finance 599-7176
Management and Marketing 599-7215

EDITOR'S NOTE: The preceding department was not chosen as being better than any other. This column is designed to inform students of each department so they will have a better understanding of what each one does.

by Kimberly Rodriguez
staff writer

PROFESSOR OF THE WEEK:

Dr. Sang O. Park, chairman of the Department of Economics and Finance, has been chosen Professor of the Week. Dr. Park has been teaching at CNC for six years. Dr. Park's primary teaching fields include the Principles of Economics I and II (Macro-economics and Micro-economics, respectively), Intermediate Economic Theory, Money and Banking, and Managerial Economics along with several other teaching fields.

When asked the advantages of a career in Economics he says, "There are two most important aspects. The future economy is no longer the economy for one nation or a particular region such as North or South America. We will march in progress toward global economy." He believes each country's economy is becoming more interdependent on each other. He states that "the field of Economics is expanding like mad." Dr. Park feels the second aspect of a career in Economics is the bright outlook of the job market.

When asked why he decided to teach he says "Out of all of my experience with the government...I still think I am more interested in education, teaching, and advising students at the college level rather than government work and so forth. That's the only reason I came back to teach. I love the students."

Dr. Park's philosophy on education is that education is a "two-way street." He states that "it is impossible to put all his knowledge into a student's brain without effort on the student's part."

Dr. Park has educated at Florida State University, where he received his B.A. and M.A. degrees in Economics and also at the University of North Carolina where he received his Ph.D. in Economics. He has been teaching since 1961, beginning with the University of North Carolina. He has also taught at Austin College, the University of New Mexico, Clemson University, the University of Maryland and the Catholic University of America. He was an economist at the U.S. Department of Commerce and later became the Senior Economist of the Regional Economic Analysis Division, U.S. Department of Commerce. Then in 1982, he became assistant professor at CNC's School of Business and Economics.

Dr. Park is involved with the community socially and professionally. He is the chairman of Japanese Studies, the chairman of Faculty Grievance Committee, and the chairman of the Department of Economics and Finance. He is also the Faculty advisor to Omicron Delta Epsilon, and Faculty advisor to the International Student Association. He is currently the Counselor and Managing Editor of the Korean Economic Society in the U.S. He has been the president of the society for three years. Dr. Park speaks, writes, and reads fluently Korean and Japanese. He also reads and writes Chinese, German and French.

For further information or questions, contact Dr. Park in Administration 311 or phone 599-7176.

EDITOR'S NOTE: The professor was picked at random from the department in Department of the Week and does not suggest that he/she is any better than the others.

Construction to continue to early 1989

by Jeff Gleason - staff photographer

Tired of hot classes? Thanks to campus construction, you can now attend mass lecture outside.

by Rick van Rijn
staff writer

More space and improved accessibility are the targets for the new construction on campus - from McMurran Hall to the president's house.

When construction on McMurran is completed, the breezeway will be enclosed and converted to office space for English faculty.

The lecture hall (M-125) will be converted to a small recital hall with slightly reduced seating and a platform stage. The music room will be divided into practice rooms.

The computer center is also being renovated, and an elevator will be added to the rear of McMurran to provide better access for the handicapped. Total projected cost is \$314,921.

Gosnold Hall will be the home for the CNC art gallery, across the way from the lecture hall (G-145) which will be refurbished and made more accessible for the handicapped.

Also across from G-145, sharing the

other half of the space with the gallery will be Dean Powell's (Letters and Natural Sciences) new office.

An enclosed connecting walkway will link both wings of Gosnold, and an elevator will also be installed. Part of the left wing will become a nursing lab, and the right wing will house a computer science lab for the physics department.

The rear of the building will be converted into a student lounge. Projected cost for Gosnold is \$787,618.

An elevator will be added to Wingfield for a projected cost of \$103,276. Construction on campus should be complete by early 1989.

A circular driveway is under construction at president Santoro's home on Riverside Drive. This expanded driveway will offset parking problems when the Santoro home hosts functions for various officials, sponsors, and potential sponsors. A drainage problem at the president's house will also be repaired. Approximately \$20,000, taken from the repairs and maintenance budget, is funding these renovations.

SPORTSBIO:
Heather Allen

NAME: Heather Allen

SPORT: Number two singles and number one doubles for the women's tennis team.

HOMETOWN: Newport News

BACKGROUND: Allen played number one at Denbigh High School, where she graduated in 1985. She is currently a junior and studying management and marketing, with hopes of pursuing a career in conference management.

Allen has played the last two years at CNC. She also volunteers her time on the public relations committee of the SGA. During the summer months Heather is a supervisor at Busch Gardens.

OUTLOOK: Allen is looking forward to playing her third year, and comments that the team has a remarkable amount of depth considering the loss of four players. She sees an opportunity for a winning number one doubles team, with her now constant partner, Connie Harrell.

Athletic Hall of Fame to form

The Captains are in the process of establishing an Athletic Hall of Fame. In conjunction with that effort, CNC Sports Information Director, Wayne Block is seeking out all former CNC athletes.

"We're looking for anyone who ever played varsity athletics at CNC," says Block. "Primarily, we just want to know where our former athletes are these days and be able to stay in touch with them. We have some exciting things planned for the near future, and want to involve many of our former athletes."

"Also, these people are our history. In many respects we don't know too much about some of the early days of CNC athletics, and our alumni athletes hold the key. Basically, I'd like to hear from anyone who ever played here so I can begin to pick their brains. I'm sure much of our past can be re-discovered if we are able to get back in touch with these people."

As for the CNC Athletic Hall of Fame, nominations can be made simply by calling Block at 599-7382, or 594-7382 after September 23.

"Anyone is eligible to make a nomination," says Block. "All you have to do is call up and give the name you feel is worthy of consideration. If you have some facts to back it up, so much the better."

The first group of inductees is expected to be chosen during the Fall. Those being enshrined will be honored at a ceremony at one of the home basketball games after the start of the new year. A special section of Ratcliffe Gym will be designated to house the Hall of Fame display.

"I can't emphasize enough how important it is for us to be in contact with our former athletes," adds Block. "This is still their program, too, and we want them to be part of its future growth."

Woollum leads transition stage

by Traci Turner
sports writer

C.J. Woollum, the head men's basketball coach and golf coach, was named as the new Athletic Director during the spring semester. Woollum took the place of former Athletic Director, Bev Vaughan Sr., who started the department 20 years ago.

"This is kind of a transition period - we're going from a time where we had the same Athletic Director for 20 years. It's going to be a change-over period, going from his identity to my identity," explained Woollum.

"I think this is a tremendous opportunity on which to build; we definitely have the right staff and athletes on board to take this program on to greater heights," explained Woollum.

"This department was under great leadership when it was headed by Bev Vaughan. He really built a strong program here," praised Woollum.

Woollum's main goal for the department is to continue to build a strong Division III program in all areas of competition. He hopes that all sports will be highly respected at a national level.

CNC soccer takes 2nd tourney

The Captains soccer team has gotten off to a fantastic start and it seems to be getting better. Along with the teams victory two weekends ago at the CNC Soccer Classic, CNC also won the Va. Wesleyan tournament last weekend.

CNC beat Roanoke College, 1-0 on Saturday. John Fitzgerald scored the only goal of the game, making his total three so far.

On Sunday, the Captains beat Shenandoah College, 2-0. Jon Schwartzman scored both goals within two and a half

minutes of the beginning of the second half. Both goals were on an assist from Dusty Scott, a new addition to the team who had scored 100 goals for Hampton High School during his high school career.

CNC who was picked to be fifth in the conference, are now second with a 4-1 record. Schwartzman is second in the conference in scoring with 10 points; Fitzgerald is fourth with 8 points. Goalie, Allan Livingston is second in the conference in goalkeeping with three shutouts.

Captains' sports world

Volleyball loses

The women's volleyball team competed in a tri-match over the weekend against Elon and Methodist colleges.

CNC lost to Elon, 1-2 (15-13, 6-15, 4-15), and to Methodist, 0-3 (2-15, 2-15, 11-15).

CNC golfers win

The Captains golf team won a four way match at the Sleepy Hole Golf Course in Portsmouth, Va.

The team finished with a score of 318 to win over Va. Wesleyan (323), Longwood (339), and Apprentice (340).

Freshmen, Glenn Kaylor reeled in the victory from his bottom number six position on the team. Kaylor shot a 77 (39, 38). Jack Bizzell and Berry Head turned in 80's, and Warren West shot an 81.

Tennis: Victorious

The Lady Captains tennis team celebrated an easy win in the first match of the fall season. CNC defeated St. Mary's College, from Maryland, 9-0.

Singles scores: 1, Heather Allen 6-2, 6-0. 2, Tammy Rowe 6-3, 6-1. 3, Amy Baker 6-4, 6-2. 4, Jenny Oakes 4-6, 7-5, 6-0. 5, Angela Edwards 6-0, 6-3. 6, Heather Wortham 7-5, 6-1. Doubles scores: 1, Allen/Edwards 6-1, 6-1. 2, Rowe/Baker 6-4, 6-2. 3, Oakes/Wortham 6-1, 6-3.

Dameron takes 4th

G.W. Dameron finished fourth in the Bay Days 10K. Dameron clocked a 33:16 in the men's division for the CNC cross country team.

Parking to get better soon

by Jean Greenwood
staff writer

The parking situation at CNC has become worse than mall traffic on Christmas Eve. Students have been utilizing the field behind Ratcliffe Gymnasium and the grass lots on North College Drive. Backups are occurring while students are leaving CNC and entering Shoe Lane.

Officers on campus have alleviated some of the problem by stopping oncoming cars on Shoe Lane to allow students the right of way.

According to Chief Capehart the problem may get worse before it gets better.

This year enrollment at CNC has increased 20 or more percent. This creates a need for more parking space that, at this time, we do not have.

Plans are in progress now to gravel the lot off the North College Drive and hopefully the lot behind the service building. Bids for the job are being taken now and the work may begin in two or three weeks.

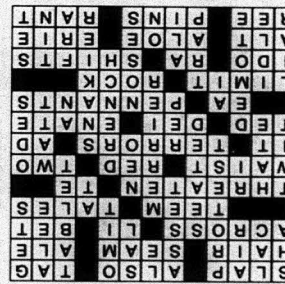

There are two problems that arise with this solution. First, the graveling of the lots will take up to 10 days. The alternative the Campus Police have is for students to park on Shoe Lane while the lot is being paved.

The gravel lots will hold approximately 100 to 120 cars. The Campus Police have counted an overflow of 360 cars parked on the grass. The result is still not enough parking area.

Other ideas have been discussed, concerning the parking situation. It was considered to do away with the compact car parking and redesign the area.

There is no way to allow parking in the tow away zone because this would create a hazard to oncoming vehicles.

Chief Capehart suggests to students to please have patience because the situation will get better gradually. As for finding a parking space at CNC now, happy hunting.

PUZZLE SOLUTION

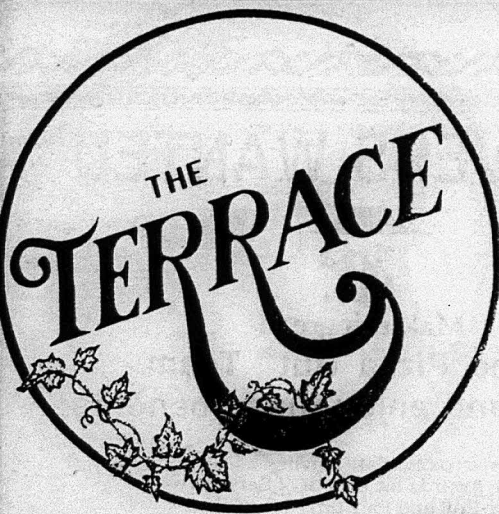

DORMS?

by Matt Bushnell
news editor

The newly formed Dorm Committee had their first meeting Wednesday, Sept. 7, to discuss the short and long term goals for dorms on Christopher Newport College.

"We are basically starting from scratch," said Dr. Behymer, vice president for student affairs and chairman of the committee. "The mid-1990s is a good long-term date to be set to have dorms on campus."

Money has already been allocated for the process of finding and hiring an architect to design the new dorms. This will begin the pre-planning phase of the project.

ETC.

Enthusiasm welcome

"If you have an affinity for the space program or aeronautics, and you have a few extra hours in your schedule, you should think about volunteering at the NASA Visitor Center," suggests Docent Coordinator Lindy Perkes.

The Visitor Center has more than 30 dedicated volunteers, of all ages and varying backgrounds, who bring their own unique blend of personality and experience to the Visitor Center.

Hampton resident Suellen Lansell works at the front desk and gives tours of the Center. Whether greeting people from England or Hampton, transferring a phone call from NASA headquarters, or showing films in the Visitor Center theater, it's all in a morning's work for Lansell.

"With a background in teaching, I enjoy the opportunity to share aeronautics and

space with children in the elementary schools," says Lansell. "And I'm always kept up to date on the latest advances in space technology."

"Our volunteers are a tremendous asset to the Center," says Perkes. "They work as tour guides and lecturers, they assist at the front desk, and serve educators at the Teacher Resource Center. And the docent program isn't limited to retirees. We have people who work full time and volunteer on weekends, and even students who volunteer while they are job-hunting."

For further information about the volunteer program, call Lindy Perkes at (804) 865-2855.

Club news

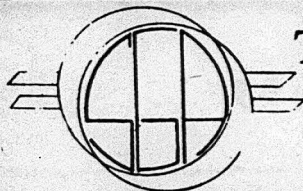

The Philosophy Club will hold its meeting every other week on Wednesdays at noon in Room 226 in Wingfield Hall beginning September 14. The purpose of this week's meeting will be the election of officers. Everyone is welcome. Coffee and doughnuts will be served.
